QUINCY PATRIOT.

Published every Saturday Morning, over Messrs. Josiah Brigham & Co.'s Store, in Hancock Street.

NUMBER 27. **QUINCY, (MASS.) SATURDAY, JULY 5, 1845.** **VOLUME 9.**

JOHN A. GREEN,
EDITOR AND PROPRIETOR.

CONDITIONS.

Two Dollars per annum in advance—Two Dollars and Fifty Cents if not paid till the end of six months—Three Dollars if delayed till the expiration of the year.

No subscription nor advertisement will be stopped previous to the payment of all arrearages unless at the option of the proprietor. When subscribers wish their papers discontinued, they will give notice to that effect and at the time their subscription expires. Every subscriber will be held responsible for the payment of his paper so long as it is sent to his address at the Post Office, Tavern, or any other place whereso-ever he may have ordered it, until legally notified to the contrary.

Advertisements, correctly and conspicuously, inserted at the customary prices. The number of insertions required must be marked on the advertisement, otherwise they will be continued until ordered out and charged for accordingly.

The privilege of annual advertisers is limited to their own immediate business; and all advertisements for the benefit of other persons, as well as all legal advertisements, and advertisements of auction sales, sent in by them, must be paid for at the usual rates.

Business letters and communications addressed to the Editor, postage paid, will receive early attention.

☞ Single copies of the paper, Five Cents.

MISCELLANY.

THE OUTLAW'S CRAG.

It was early dawn in a November day, in the early part of the reign of the good King James, that a party of horsemen wound slowly along the narrow pass leading to the Castle Rothscommon. After proceeding in silence for some distance, the leader of the party suddenly exclaimed to his companion,

'By the rood, Osmond, but the air is keen and biting on these bleak hills this morning; it has almost chilled the very marrow in my bones, so that my limbs are as stiff as any lance in Christendom."

'I marvel much that one bent upon so bonny an errand as yours should feel the wintry blast. Methinks thou wilt make but a sorry bridegroom,' returned his companion.

'A truce to thy jesting,' answered the first speaker, who was none other than Sir Rupert Stirling, together with his cousin Osmond, and attendants, journeying to the Castle Rothscommon, the lovely heiress of which Sir Rupert was about to wed.

The Earl, her father, had it long in contemplation to wed his daughter, as old age was fast creeping upon him; he was anxious to see her provided with a suitable protector before he should be called away. With this idea he had proffered her in marriage to Sir Rupert, some months previous to the opening of our story. Although he had but seldom seen his intended bride, he joyfully accepted the offer, for the fame of the gentle Alice had often been spoken in his presence. Many suitors, both fair and noble, had been rejected by her, and this offer from her father was an honor he did not fail to accept.

The news of this taken by her father was received by Alice with deep emotion and surprise; which was attributed by him to natural timidity and maiden reserve, which would soon wear away and give place to more joyful feelings. She replied to her father, that her destiny was in his hands, and whatever should be his choice, it would be her duty, as an obedient child, to obey.

'Spoken like a good child, and I will warrant thou wilt be pleased with thine intended husband, as he is a fair and comely gallant to look upon; one who cannot be matched with short sword or lance in all Christendom. He will be here to claim his pretty bride this day three weeks; so, my daughter, make all preparation to receive him in a manner becoming the heiress of Rothscommon.'

'So soon!' said Alice with a start, and an ashy paleness spread over her beautiful features. 'Why this haste? My dear father, the announcement is unexpected; the position I shall occupy is a novel one; I shall scarce find time to prepare myself for the important event. I beseech thee grant me a longer novitiate.'

'It is impossible, my daughter, the day has been appointed, and Sir Rupert is to take up his residence with us some time previous to the happy day, so that he may have an opportunity of becoming better acquainted with his future wife. I doubt not but he is now on his way hither.

Alice bowed meekly in silence, and withdrew to her own chamber, to brood in solitude upon the inevitable destiny that awaited her. She threw herself upon a couch, and burst into tears. 'Oh, Oscar! oh, Oscar!' she exclaimed, 'mine own beloved long lost one, would that thou wert here to advise me in this dire extremity! Oh, cruel, cruel fate.' And another burst of tears relieved her over burdened heart.

Oscar Ruthven was an orphan, raised and educated in the family of the Earl from the age of ten years; his father was slain by the Saracens during the wars at Palestine, whither he had gone to defend the Holy City from the insults of infidels; his mother, a delicate, sensitive being, could ill withstand the shock, and after a short illness followed her husband to the grave, leaving their only child an orphan, exposed to the hardships and buffetings of the world. The Earl, hearing of his desolate condition, took him into his family, and adopted him as a son.

Living under the same roof, Oscar and Alice in time became inseparable companions; often have they wept at an injury one would receive; then their wild merry laugh would echo and concert through the old time-worn arches of the castle, as in their childish sports they raced through the venerable apartment; then they would bound over the bright greensward, with their elfin locks streaming in the wind, in pursuit of some gaudy-winged insect, which, as they grasped in their tiny fingers, called forth a shout of joy which made the old man's eyes glisten as they thought of the days when they were young, those halcyon days, that 'bright green spot in memory's waste.'

Time rolled on, and brought with it naught but joy and gladness; Oscar had reached the age of nineteen, and Alice was but two years his junior; but before this their childish affection had given way to a more mature love—they had exchanged vows of unalterable affection. This pleasing and happy state of bliss was soon to be broken. Oscar, in one of his moments of excitement in listening to the recital of his father's death, had openly vowed that when he should attain the age of nineteen, he would make a pilgrimage to Palestine, to avenge his father's death, by dyeing his grave with the heart's blood of some ignoble Saracen. Neither the entreaties of the Earl, nor the supplications of beloved Alice could alter his purpose. This vow still rung in his ears and nerved his determination, if he for a moment wavered.

'Grieve not for me, my gentle Alice,' he would say, as she hung on his breast; 'let me kiss away those glittering drops—the petty months will soon pass away, when Oscar will fly on the wings of love, to claim his pretty bride. What joy will attend this meeting! as clasped in each other's arms we pour forth thanks to the Omnipotent for the safe return. Or seated on the mossy bank, by the side of some gentle brook, we will recount to each other the weary hours we passed, as far, far apart we prayed that hours might be minutes, and months weeks, or as wandering beneath the shade of our lofty native pines, pour out our vows of love, and dare the rude hand of fate again to sever two hearts that thus can beat with love, the clouds that hover so darkly over our path will soon pass away, and the sunshine of joy once more will rise on hopes no more to set.'

With such language would Oscar strive to soothe his drooping Alice.

The fatal day at last arrived, and with a heavy heart Oscar tore himself from his weeping friends. After many days of toil and peril he arrived at the Holy City, where he distinguished himself by his bravery in slaying many of the ruthless Saracens. It is needless to recount the many adventures he met with—'the moving accidents by flood and field' during his stay—suffice it to say he had now been many months from home, and the object of his pilgrimage being accomplished, and having received many scars in his fierce encounters, he prepared to set out for his native country.

After this digression we will return to Sir Rupert and his cousin Osmond, whom we left journeying toward the Castle Rothscommon. After a few hours' riding, the party drew up in front of the castle gates, which were immediately thrown open, the portcullis raised and drawbridge lowered, to admit the noble Sir Rupert and attendants. The old Earl warmly embraced his son in law elect, and bade him welcome with joyful expressions.

Poor Alice heard of his arrival with the deepest agony. She wrung her hands, threw herself upon the ground, and gave loose to the most violent grief. After the first burst had subsided, she became more calm, as she became convinced she would soon be brought to the presence of her intended husband. With a heavy heart she endeavored to remove all traces of her grief; but the swollen eye and flushed cheek easily betrayed the feelings which had so lately agitated her breast. Seizing her hood and desiring her attendant to follow, she left the castle by a postern door, to compose herself by a short walk in the cool air without the castle walls.

She had walked in a musing fit of abstraction some distance from the castle, now thinking of her loved Oscar, and praying to heaven for his safe return—and that as she thought of the hard destiny that awaited her at home, would start and shudder as if in a hideous dream. She had left the castle far behind, and now exceeded the limits allowed by her father for her walks, on account of his fears of a dangerous freebooter, who roamed the country, without fear of molestation. His retreat, an old deserted castle, was justly called the Bloody Castle of McFergus. Situated in a wild and rugged part of the neighboring mountain, he defied all attempts made by the government to capture him. His name had become a terror to the inhabitants, and the whole country was laid under contribution by this daring outlaw. All prisoners taken by him, if not ransomed by their friends were within a given time thrown from a neighboring crag and dashed to pieces.

As Alice musingly sauntered along, she remembered the injunction given by her father, and the bloody McFergus, and prepared to retrace her steps; as she turned for that purpose, she saw that her path was intercepted by three armed men. One glance was sufficient to discover, in the person of the leader, the bloody McFergus, whose well known features were rendered still more hideous by the matted and grizzly beard that hung down on his breast. At this discovery Alice would have fallen, had not he caught her in his arms. Neither tears nor promises of great reward could prevail with the freebooter to release her. She was hurried to a thicket of underwood, where McFergus, with Alice in his arms, mounted his horse and drove rapidly off.

The shades of evening were fast descending, when the Earl ordered his daughter to be informed that Lord Rupert and himself were prepared to receive her. In a few moments the servant returned with fear pictured in his countenance and informed the Earl that the lady Alice had left the castle some hours previous, and not yet returned.

The Earl and Sir Rupert were alarmed at this information, as it was the first time Alice had remained so long from home. As the darkness increased his anxiety became intense. Another hour rolled by, and Lord Rupert became seriously perplexed. The Earl had, until now, been gazing on vacancy, almost afraid to express what his mind told him was probable. Starting to his feet, he ordered each one of his retinue to scour the forest with lighted torches, thinking she might have lost her way, and now was benighted in the depths of the forest. The retainers of the Earl were ordered to search one direction, whilst the Earl and Lord Rupert, with his company, proceeded in another. After some hours' fruitless search, with heavy hearts the different parties returned to the castle.

The Earl now gave way to the deepest grief, constantly calling on the name of his daughter, whilst the Lord Rupert, with a heart as heavy as his own, endeavored to soothe him, by whispering words of hope, and assurances of safety for Alice. Thus the night wore away, with heavy hearts to all in the castle.

Daybreak at last appeared, and with it tidings of the lost Alice, through the woman who had accompanied in her walk; the robbers not having molested her, she started directly for the castle, after seeing her mistress dragged forcibly from her sight, to convey the mournful intelligence to her father; but being excited through fear, she became confused, and lost her way in the depths of the forest; night overtook her, and she sought shelter in the cot of a mountaineer. At the first peep of day, with the cottager for a guide, she started forth, and soon arrived safely at the castle.

The Earl, after listening to the recital of her story, felt thankful that his daughter was still alive, but shuddered when he thought of the danger by which she was surrounded. However, no time was to be lost in surmises; Lord Rupert sat about arming his followers, and gaily bade the Earl to be of good cheer, for he would soon restore his daughter to her home, and punish the daring freebooter who had so boldly outraged the family.

A strong party was soon organized, and being headed by the Lord Rupert soon arrived at the gates of the far-famed castle of McFergus, who made his appearance on the castle walls and demanded the cause of his visit. Sir Rupert soon made him acquainted with it, by stating that he came to pay the amount of ransom required for the Lady Alice, whatever it might be.

McFergus answered, in derision, that he had a nobler plan in view than the hope of gain—which was to retain her for his bride, and bade him return to her father and invite him to the 'bonny wedding.'

Stung to madness at this information, Sir Rupert, as the affianced of Lady Alice, challenged him to mortal combat. McFergus eagerly accepted the offer. The followers of Sir Rupert were ordered to retire some distance from the castle walls to ensure the personal safety of McFergus, and Sir Rupert was left alone. In a few minutes the massive gates of the castle were opened, and McFergus rode forth completely clad in steel.

Eager to begin the fray, the combatants rushed towards each other in deadly strife; they met as two tempestuous waves tossed by contrary winds. It was soon evident, that notwithstanding the superior skill possessed by Sir Rupert in the mode of warfare they were engaged in, he would be obliged to submit to brute force. The tremendous blows dealt by his adversary he found impossible to return—and as each one rang upon his well-tried helmet and stout shield, it seemed but the funeral knell to the hopes of Lady Alice. The contest raged with violence for some time, but with no advantage to Sir Rupert, and evident success to his adversary.

Sir Rupert perceiving that whilst he acted entirely on the defensive he was losing ground, determined to change his mode of fighting, in hopes of gaining some advantage by the sudden change, but McFergus still fought with the same dogged coolness as before, and parried the desperate thrusts of his adversary with a smile of derision. He knew from that moment, victory was his, for Sir Rupert became frantic with rage, whilst, on the other hand, Mc Fergus became more cool—and in a desperate effort to reach his body, Sir Rupert left his own exposed, and in an instant McFergus's sword entered his throat—and the bright blade, reeking with his heart's blood, came out at his back! With a scream of agony he tottered on his saddle and fell to the ground.

McFergus with a fiendish laugh wiped his blade upon the haunches of his horse, and pointing to the body of Sir Rupert, bade his followers to take it up and carry it to the Earl, with his invitation to his daughter's wedding. As they approached toward him, he turned his horse and rode into the court of the castle. In a moment he was in the presence of Alice, and with a brutal chuckle, bade her call her maids to prepare her wedding gear, for that night it would take place, and a jolly carousal his men would make of it.

With a supplicating voice she prayed he would leave her. She knew he did but jest. He surely meant but to alarm her. He could not mean it.

'Mean it, girl! Did thou ever know a lion to jest with a lamb, the eagle with the dove? Nay, nay, you do but jest when you talk in that strain. Permit me, Lady Alice, to bow at thy shrine,' at the same time kneeling at her feet. 'Here at thy feet, gentle maid, I supplicate. Listen to my suit. If force has no effect, allow one, who never begged before to plead his humble cause. All that wealth can give—all the power that McFergus can give, is thine! Aye, the very king shall tremble on his throne if Lady Alice do but wave her hand! Lords shall kneel at her feet—nobles shall wait her call, if she consent to be the wife of Donald McFergus. If she refuse, let her beware of his vengeance! It is terrible! What says my Lady Alice—is she won as well as wooed?' at the same time rising from his knees.

'Won? Dark and mysterious man, sooner than be the wife of so bloody and desperate a villain, I would resign my spirit to the Maker that gave it!'

'So! so! my pretty maid, dost think to browbeat me thus? Donald McFergus was not born yesterday. What ho! without there, caitiffs—call the priest, with bell and book—I have business for him;' at the same time advancing toward Alice and seizing her wrist. With almost superhuman exertion she forced herself from him, and shrieked aloud. Her voice echoed through the gloomy halls, but no assistance came. As he was about to grasp her again, the shrill notes of a horn sounded at the gates rang through the old arches of the castle. He paused, and turned to meet one of his followers, who, with breathless haste, announced the arrival of Oscar Ruthven.

With an exclamation of joy, Alice threw herself upon her knees, and thanked heaven for the timely arrival of her long lost Oscar. Thrusting the lackey aside, Mr. Fergus, saying that he would soon return, after silencing that noisy boy, strode from the apartment for his armor. He was soon prepared and rode forth, completely clad in steel. Oscar stood firm as a rock, prepared for the onset. McFergus rushed on to bear him down, confident of his superior strength and skill—but the victory is not always to the strong, nor the race to the swift, as the issue will prove. McFergus was hot and impetuous, Oscar cool and collected. He knew his adversary was a dangerous man to cope with, and was the more guarded in his bearing. Oscar received his charge with coolness and deliberation and parried his desperate blows with a judgment, that would have done honor to an older head. The contest was carried on with great fierceness on the part of McFergus, for some time, and opposed with great bravery by Oscar. Youth and activity, impelled by love, were doomed to conquer. McFergus was seen to waver, and instead of acting on the offensive, he was entirely employed in defending himself from the thrusts of Oscar, who was now quite fresh. McFergus saw his danger and almost stung to madness at the idea of being vanquished by one so much his junior, he made a desperate effort to turn his horse, and force Oscar from his position, which he perceiving, used all possible means to prevent. They gradually approached nearer the brink of the abyss. McFergus saw that there was but one alternative, and that was to make an effort to ride down his adversary by sheer strength, as he was better mounted and heavier armed than Oscar. Plunging his spurs into the sides of his horse, he raised his arm to hurl Oscar from his saddle, but at that moment McFergus's horse, driven to desperation, became frantic and unmanageable and backed nearer the edge of the precipice. Oscar perceiving his advantage, aimed a blow at his throat, and in trying to avoid it, McFergus was completely off his guard; Oscar followed it quickly by another, and the bright steel entered the outlaw's throat between the breastplate and hemlet! With a curse upon his lips he tottered in his saddle, the earth crumbled under the feet of his horse, and both he and rider were hurled quickly into eternity! Down, they fell, and the jagged rocks, far below, marked the course of the daring outlaw. The spot, to this day, is pointed out by the descendants of Oscar Ruthven, and is called the 'Outlaw's Crag.'

The meeting of Oscar and Alice can be more easily imagined than described. She threw herself into his arms, and wept with pure joy—and with each embrace, thanked heaven for the timely deliverance and happy meeting.

The outlaws, seeing their leader fall, immediately deserted the castle and fled to the mountains.

The story is soon told. Oscar, on arriving at the castle, on his return from Palestine, learned the sad news of the Lady Alice. Without stopping to refresh himself after his toilsome journey, he flew, on the wings of love, to the rescue of one dearer to him than the world. Nerved to desperation, he was enabled, as has been described, with great firmness to overcome one of the most daring outlaws that had ever flourished in Scotland.

Under the escort of Oscar and his party, with the followers of Sir Rupert bearing the dead body of their master, Alice was conducted to her home. It was a mingling of sorrow and happiness; sorrow for the death of Sir Rupert, and joy for the re-union of the lovers, after the many trials and difficulties.

With tears of joy and gratitude the old Earl embraced his daughter, and prayed that heaven might reward her preserver.

After due preparation and ceremony, Sir Rupert was entombed in a neighboring chapel. He died beloved by all who knew him.

It is needless to say that the Earl, seeing how matters stood between Oscar and Alice, eagerly gave his consent to their union—which was celebrated a few months afterwards, with great pomp and ceremony.

The king having heard of the death of the outlaw, McFergus, bestowed the castle and surrounding estate upon Oscar, with the title of Sir Oscar Ruthven, with the privilege of bearing for his family arms, 'Gules, a chevron between three crescents, with the crest of an arm in armor, holding a sword Guter de Lang—the motto, Semper Paratus.'

In course of time the old Earl was gathered to his father, but not before seeing a goodly train of grand-children to bless and cheer his old age. This tale is told by his descendants, and the cont of arms shown with pride, as an evidence of the exploits of their ancestor, Oscar Ruthven.

THE SABBATH BELLS.

"There's something beautiful in the church bells, dont you think so, Jem?" asked Capstick in a subdued tone. "Beautiful and hopeful! they talk to high and low, rich and poor, in the same voice; there's a sound in 'em that should scare pride, and envy, and meanness of all sorts from the heart of man; that should make him look upon the world with kind, forgiving eyes; that should make the earth itself seem to him, at least for a time, a holy place. Yes, Jem there's a whole sermon in the very sound of the church bells, if we only have the ears to rightly understand it. There's a preacher in every belfry, Jem, that cries, "Poor, weary, struggling, fighting creatures—poor human things! take rest, be quiet. Forget your vanities, your follies, your week-day craft, your heart burnings! And you, ye humble vessels, gilt and painted; believe the iron tongue that tells ye, that for all your gilding, all your colors, ye are the same Adam's earth with the beggars at your gates.

"Come away, come, cries the church-bell, and learn to be humble; learning that, however daubed and stained, and stuck about with jewels, you are but grave clay!—Come Dives, come; and be taught all your glory, as you wear it, is not half so beautiful in the eye of Heaven, as the sores of uncomplaining Lazarus! And ye poor creatures, livid and faint, stinted and crushed by the pride and hardness of the world—come, come, cries the bell, with the voice of an angel—come and learn what is laid up for ye. And learning, take heart and walk among the wickedness and cruelties of the world, calmly as Daniel walked among the lions." Here Capstick flushed and excited wrought beyond himself, suddenly paused. Jem started, astonished, but said no word. And then, Capstick, with calmer manner, said, "Jem, is there a finer sight than a stream of human creatures passing from a Christian Church?"—*Douglass Jerrold's Magazine.*

A COMPANION FOR LIFE.

Miss Fuller, in her work entitled "Woman in the Nineteenth Century," is quite eloquent in favor of the first consideration, which woman should receive, in her marriage relation.

She says—Centuries have passed since, but civilized Europe is still in a transition state about marriage; not only in practice but in thought. It is idle to speak with contempt of the nations where polygamy is an institution, or seraglios a custom, when practices far more debasing haunt—well nigh fill—every city and town. And so far as union of one with one, is believed to be the only pure form of marriage, a great majority of societies and individuals are still doubtful whether the earthly bond must be a meeting of souls, or only supposes a contract of convenience and utility. Were woman established in the rights of an immortal being, this should not be. She would not in some countries, be given away by her father, with scarcely more respect for her feelings than is shown by the Indian chief, who sells his daughter for a horse, and beats her if she runs away from her new home. Nor, in societies where her choice is left free, would she be perverted, by the current of opinion that seizes her, into the belief that she must marry, if it be only to find a protector, and a home of her own.

Neither would man, if he thought the connection of permanent importance, form it so lightly. He would not deem it a trifle, that he was to enter into the closest relations with another soul, which, if not eternal in themselves, must eternally affect his growth. The household partnership. In our country, the woman looks for a "smart but kind" husband, the man, for a "capable, sweet-tempered wife."

The highest grade of marriage union is the religious, which may be expressed as pilgrimage toward a common shrine. This includes the others; home sympathies and household wisdom, for these pilgrims must know how to assist each other along the dusty way; intellectual communion, for how sad it would be on such a journey to have a companion to whom you could not communicate thoughts and aspirations as they sprang to life; who would have

no feeling for the prospects that open more and more glorious as we advance; who would never see the flowers that may be gathered by the most industrious traveller! It must include all these.

QUINCE AND APPLE TREE BORER.

As the time has now come for the borer to make her appearance in her winged state, we again present to our readers a very accurate portrait of the fly, in hopes it may induce them to watch her motions and see where she lays her eggs.

We seldom see any of these flies till the latter part of June. They make their exit from the trees at that time, as you will see if you watch them, from the gimlet holes that you may find within ten inches of the surface of the soil.

You will see these holes, one sixth of an inch in diameter, in the body of the quince, the apple, the yellow locust, and the white ash. In these last two you will often find the holes, whence the fly makes its exit, several feet from the ground, because the bark is so rough that cavities are there found where the eggs may be deposited.

But in the quince and the apple tree you will generally find the holes near the earth, within ten inches of the ground or root of the tree where the eggs are laid.

The course which we advise to pursue in orchards that are infested is to wash the trunks of the trees with strong lie after the eggs are laid. And a washing previously will have a good effect to drive off the fly. Look to your trees in some dull day in July and you may find the eggs close to the surface of the earth on the body of the tree.

We again remind our early subscribers of what we published three years ago relating to the eggs of the fly. They are of a brownish color, of the size of a brass pin's head; she lays ten eggs in this form, o o o o o and we have no doubt that a wash of strong lie will destroy them either before or after hatching, for leached ashes, heaped around a tree, have answered the purpose of preventing a new deposite of eggs, and the tree has recovered.

If the trees cannot be washed more than once in a summer we should prefer washing after the eggs are hatched—that is, after the middle of July. You will then be most likely to catch them as it is believed that all the eggs are laid before July is out. But we feel confident that washing at any time before the young white worms have completely buried themselves under the bark will prove fatal to them.

Some orchards at a distance from the seaboard have not been infested with these borers. Any farmer may soon ascertain, by examining his trees in July, whether the borer is at work. He should examine the trunks of his trees at the roots. If the young worms have made an entrance, or are making one, he will find fresh chips of their make, of the color of the bark of the tree inside.—*Boston Ploughman.*

For the Quincy Patriot.

CORRESPONDENCE.

Acts and Resolves passed by the General Court of Massachusetts in the year 1845.

The two hundred and fourteenth Act is as follows: Any child unlawfully excluded from public school instruction in this Commonwealth, shall recover damages therefor in an action on the case to be brought in the name of said child, by his guardian or next friend, in any court of competent jurisdiction, to try the same against the city or town by which such public school instruction is supported.

Abduction of unmarried women of good character to houses of ill fame, assignation, or elsewhere, for the purpose of prostitution, State Prison offence.

An Act in addition to the several Acts, concern the Militia, of twelve sections, was passed March 26th, 1845.

No more than sixty-four members to each volunteer company allowed compensation for duty. Each member of a brigade band to receive the sum of three dollars for each full day's service; half that sum for each half day's service, provided the companies are not ordered out more than three times during the year. Field and staff officers to receive six dollars per day for military services. The Act is very strict and formal relative to the returns to be made to the Adjutant General, the company rolls and other regulatory matters.

Act two hundred and fifty-two prescribes the appointment of five rail-road commissioners, by the governor and council, biennially. Two special commissioners appointed in same manner. Can be removed by the governor and council, and the vacancies filled by them.

Any petition for a rail-road charter may be addressed to said board and presented to the chairman on or before the first day of November of each year; and it shall be the duty of said chairman to issue orders of notice to all persons interested in any such petition, and to make the same returnable at some convenient time and place for a hearing; and the said board may, whenever they deem it necessary, for the full understanding of the matter, and the furtherance of justice, adjourn any meeting; issue further orders of notice, require further plans, surveys or estimates, and make view of the proposed routes or track; and they shall have as ample powers as the Justices of the Supreme Judicial Court have, to issue summonses, compel the attendance of witnesses and preserve order. Petitioners before presenting their petitions to comply with the requisitions of former acts on the subject. Compensation of commissioners to be paid by petitioners.

With Mutual Fire Insurance Companies policies create a lien on personal property insured to secure deposit note.

Insurance companies empowered to invest not over one third of their capital in rail-road corporations of this State, whose capitals are wholly paid in.

Town treasurers to pay balances of receipts from alien passengers into the State Treasury in the month of May, yearly. Copartnership firms not required to insert the names of over three of the partners in the style of the firm, when it shall consist of more than three general partners.

Any person convicted of crime punishable by fine and costs may suffer such punishment in the non-payment of their fines, in the House of Correction, instead of the jail, as heretofore. Number of Judges of the Court of Common Pleas increased from five to six.

Judges of Probate may appoint trustees, when not appointed in the will of a testator dying and leaving property.

For the Quincy Patriot

LETTER FROM BOSTON.

Boston, July 3, 1845.

The public halls of our whole country, for many days, have been shrouded with the drapery of mourning, and the days of one of the greatest and best men, that has ever lived in any age or clime have closed forever. Andrew Jackson is no more; but his memory enjoys the homage of affection,—his fame is the world's, while the splendors of Paradise play in beauty before him. He died on the evening of the eighth June, 1845, in the seventy-ninth year of his age, full of honors and of years. Great as he was in war, and wise as he was in council, second alone in fame to Washington, the crowning excellence of his character was his religious faith. He lived and died a Christian. A writer, in giving a sketch of the sermon of the Rev. Dr. Edgar, delivered at the funeral of General Jackson, states the following interesting fact:

"The Doctor used the General's old Bible and Psalm Book, which had been literally worn out by the veteran's own hands; and deduced therefrom one of the most powerful arguments in favor of Christianity that I have ever heard. He said that, on one occasion, the General (whom he had found engaged reading the Bible) held it up in his right hand and said—"Doctor, this book, sir, is the bulwark of our republican institutions, the anchor of our present and future safety."

Arrangements are now making to celebrate his funeral obsequies in this city, in the course of a few days. Hon. Pliny Merrick delivers the eulogy.

Recent advices from England remove all apprehensions of a war between Great Britain and the United States, relative to the Texan and Oregon questions. Matters will be settled pacifically, and Mr. Polk will immortalize his administration by adjusting for a century at least, all causes and chances of war with Europe, by offering honorable inducements to Great Britain to withdraw from this country.

All appears quiet at Washington. As it is expected Judge Story will soon vacate his seat on the bench of the Supreme Court of the United States, much curiosity is extant in New England, who President Polk will appoint to succeed Judge Story in this more honorable station. The name of our excellent collector, Gov. Morton, is prominent in all our circles, as eminently qualified for this judicial station; profound in legal jurisprudence, with sixteen years' experience as a Judge of the Supreme Court of Massachusetts, in which he justly earned the reputation as an upright, learned and able Judge as ever presided in our halls of justice; besides his prominence in the whole country as a statesman, would render his selection by President Polk (an event by no means improbable) a popular and judicious appointment.

The present, being the season for rusticating, many of the Bostonians are temporarily from their homes; still the city wears the aspect of gaiety and cheerfulness; at least you would think so, to promenade Washington street any pleasant afternoon (Sundays excepted.) Business must be good and money plenty, or else such fashions and extravagances of city life could not for a month be tolerated. Boston is in truth wealthy and prosperous, and long may she continue so.

You are aware that the steamboat General Lincoln having been disposed of (to run regularly to Nahant) the steamer Danin has been placed upon the route to Hingham, making three trips a day. It is to be regretted that this little steamer could not stop daily at Quincy Point.

The railroad fever has not reached a *crisis* yet. The great Canadian railroad is settled as to construction and route, from Lake Ontario to Boston. Concord and Portsmouth are soon to be connected by iron bands, bringing the sea twenty-five miles nearer to the whole north and west of New-Hampshire. The Northampton railroad in Massachusetts is also going ahead. Respecting the Central Railroad as it is called, I give you the language of the Daily Evening Traveller of Boston, information prepared expressly for that useful journal. It is as follows:

"Subscriptions to the amount of one million dollars have been secured in Vermont. In this city, a still larger amount has been subscribed. It is intended to close the books here, on Saturday night, when, it is expected, the subscriptions will amount to one million five hundred thousand dollars, making two millions five hundred thousand in all. A larger sum might easily be obtained, but is not thought desirable at present. The estimated expense of constructing and furnishing the road from Burlington to Hartford, at the mouth of White River, is two millions two hundred and four thousand, nine hundred and seventy dollars and forty-one cents. The thirty-one miles from Hartford to Charlestown, where it meets the Cheshire Railroad, will cost, at the same rate, about six hundred and fifty-one thousand dollars, making the whole expense about two millions, eight hundred and fifty-five thousand, nine hundred and seventy dollars and forty-one cents. The company will commence operations, therefore, with more than five sixths of its stock actually taken up."

Yours, truly, v. o.

QUINCY PATRIOT.

SATURDAY, JULY 5, 1845.

John A. Green, Editor.

Fireman's Festival. The Tiger Engine Company, No. 2, of this town, appeared yesterday morning in their new and beautiful uniform, accompanied by the Granite Engine, No. 3, as their guests. Both companies paraded quite early in the morning, and after successively performing a share of duty with their respective engines repaired to the house of the former company and partook of an excellent and bountiful banquet furnished by the Tigers. The performances were alike creditable to each company—the good feeling exhibited characteristic of the generous "Tigers" and hardy "Granite boys," and the whole worthy of the commendation of the public. With such a spirit and feeling as was manifested by these companies on this occasion, the citizens of this town may rest assured that in the hour of danger by fire, they have the best assurance of an efficient and energetic discharge of duty by this portion of the fire department. The entertainment was furnished by Mr. Peter Folsom, who has recently commenced business in this town as will be noticed by his advertisement in another column, and was "got up" in a manner which should secure his services on other similar events as the caterer.

Heavy Tempest. A very severe thunder shower passed over this town, last Thursday afternoon, about five o'clock. The lightning struck the house of Wid. Moore, corner of Elm and Mechanic's streets, which was occupied by herself and Mr. Edwin N. Willett. Almost every room in Mrs. Moore's part was visited by the electric fluid; and strange to say, that in one room where there were eight persons, none were seriously injured, although several were prostrated and benumbed by the shock. Mr. Willett's feet and other parts of his body were blistered, and it is supposed that some portion of the discharge passed through the seam of his boot as the sole of one of them was started from the "upper leather." The lightning was alike singular in its gambols in other respects.

During the same shower, the school-house at Braintree Neck, was struck on the cupola which was completely shivered, and much damage done to other parts of the building.

The Phoenix Bank Case. On the motion of the counsels of William Wyman, President of the exploded Phoenix Bank, at Charlestown, (Mass.) for a new trial, the Supreme Court held, some months since, that the prosecuting attorney must fix on some particular count in the indictment on which to try him. It now seems that in addition to the old indictment, the grand jury have found eleven new bills against him, and it is probable that the old one will be *nol pros'd*, and that he will be tried on one or more of the new ones.

Auctioneers. We understand that the Selectmen of this town have licensed for the year ensuing, the following gentlemen as auctioneers, viz.: Thomas Adams, Thompson Baxter, Justin Spear, and William B. Duggan.

School Regulations. We shall publish next week, by request, the Rules and Regulations, adopted by the General School Committee of this town, to be observed in the government of the schools, together with extracts from the laws of the Commonwealth on this subject.

Another Postponement. The sale of Willett & Sumner's real estate has again been postponed to next Tuesday afternoon, as will be noticed by the advertisement.

Ecclesiastical. It is understood that the Rev. John T Burrell has again resumed his connection with the Methodist Society, at Quincy Point, in this town.

Postage. The law of Congress, altering the rates of postage on letters and newspapers, went into effect on Tuesday last. It is generally believed that the increase will more than balance the reduction, and thus the aggregate will show an additional income to this branch of government.

Liberation of Dorr. The Act of Indemnity which has passed the Legislature of Rhode Island, provides that any person, imprisoned for treason in Rhode Island, (Thomas Wilson Dorr being the only one thus imprisoned) shall be forthwith discharged from imprisonment; but that he shall not be restored to his rights and privileges as a citizen, until he has taken and subscribed the oath of allegiance to the State.

Accordingly this distinguished individual was forthwith discharged from the State Prison, on Friday afternoon of last week, amidst the firing of cannon, and joyfully welcomed by a large concourse of the people who had assembled to greet him on his liberation.

Funeral Solemnities. The obsequies to the memory of General Andrew Jackson will take place, in Boston, on Wednesday next, at one o'clock in the afternoon, in pursuance of the vote of the city government. Hon. Pliny Merrick is to pronounce the eulogy, and Charles G. Greene, Esq. has been appointed Chief Marshal. The fifth Regiment of Artillery, the first Regiment of Infantry, with the National Lancers attached, and the first Battalion of Riflemen, have been ordered to parade in uniform complete, for the performance of escort duty. The city government have rescinded the vote appropriating five hundred dollars for this purpose, and have increased it to fifteen hundred dollars. From the arrangements being made, it will be an imposing affair in honor of the illustrious dead.

The Mexican Indemnity. The money has not been received by our Government; nor has it been pocketed by government agents; nor is there any danger that Mexico designs to withhold payment. Drafts were taken, as it appears, by our agent, in payment of the indemnity; and these drafts are still unpaid, Mexico having wanted all her money for occasions of immediate necessity at home. The money will, however, be forthcoming.

Duelling and tight-lacing, are the two fashionable modes of slaughter! In the one case a bullet is the instrument of death, in the other, a string.

Samuel Appleton, of Boston, has recently shown his attachment to the interests of learning in his native State, by giving *ten thousand dollars* to Dartmouth College.

Two men have been found guilty in Sumter county (Ga.) Superior Court, and sentenced to one year's imprisonment in the penitentiary of that State, for illegal voting.

The law case between the city of Boston and the Boston and Providence Railroad, has been decided in favor of the latter, in the shape of a perpetual injunction, restraining the city from closing up the space adjoining the depot on the side towards the Common.

The New York Commercial Advertiser says that from the second of April to the twentieth of June, there have arrived at the quarantine ground, *thirty one thousand four hundred and forty-three* emigrants, of whom seventeen thousand six hundred and sixty-five arrived in June.

The Mexican Congress, at the last accounts, had adjourned for a short time, without having taken any decisive steps towards the resistance of annexation, or made any preparations for a war with the United States.

Twenty-one towns in Rhode Island, including nearly all the large towns have voted not to grant licenses for the sale of ardent spirits.

The Osage Indians, it is said, have twenty-five stolen white children among them. Child-stealing is as much practised by North American Indians as it was by the Bohemian Gipsies.

The New Hampshire Legislature persist in refusing their portion of the proceeds of the sales of the public lands, by a vote of two hundred and twelve to seventy-eight.

Great Britain is the nation most given to *hanging*, and also that in which crimes of violence and death are of most frequent occurrence.

Illinois permits foreigners to vote upon a six' months residence, and does not require the qualification of naturalization and citizenship. The consequence is, that several thousand persons are permitted to vote who are not citizens of the United States.

The Springfield Republican says that the ladies of that ilk are about organizing an association in opposition to the "Odd-Fellows," under the name —"*Independent Order of Strange Women.*" The question of success altogether depends upon, whether it is to be a *secret* society or not.

Full grown ripe peaches and pears were for sale in the markets of Mobile on the 16th ult.

The ladies of Philadelphia have made arrangements for petitioning the Legislature at its coming session, for the passage of a law, providing for the expression of the popular will, in each Ward and Township in Pennsylvania, upon the propriety of licensing taverns for the sale of intoxicating drinks.

A grand establishment for the manufacture of counterfeit money has been discovered in Mexico.

A youth in Washington city, (D. C.) was charged with having stolen some letters from the post office and being arrested, confessed the fact, and returned a part of the letters taken—and yet on his trial for this offence, the jury found a verdict of not guilty.

Ninety-three revolutionary soldiers, reside in Cayuga County, (N. Y.) In the same county there are the widows of eighteen deceased soldiers of the revolution, and three soldiers of the late war, who are pensioned on account of wounds received. These veteran soldiers are invited by name to participate in the celebration of the anniversary of our Independence.

A merchant in Woodstock, (Vt.) who took the benefit of the Bankrupt Act, has since gone into business and met with such success as to be enabled to pay—and having the disposition, has paid—over five hundred dollars of his old debts; an example worthy of imitation.

The Lowell Journal states that an ingenious mechanic of that city has lately made a padlock, "which although efforts have been made for the last fortnight by a number of persons, yet they have not been able to *discover the keyhole to it.*

In the vicinity of Salem, (Mass.) the lobsters, like the mackerel, are degenerating in size, and diminishing in number. They are caught when young and small, so that they have no chance to grow and multiply, and the race appears to be running out.

Charles J. Jack, Esq., a member of the Philadelphia bar, tried in the United States District Court for forgery, has been honorably acquitted.

The military and civil obsequies in honor of the memory of Gen. Jackson, at Albany, (N. Y.) was very large; all the charitable, industrial, and literary societies joined in it, and the military generally.

The Comptroller of Connecticut refused to place the State flag at half mast on the State House flag-staff, on account of the death of ex-president Jackson.

The Governor of Delaware has issued a proclamation against duellists, who practice coming into that State to make fools of themselves.

A schooner recently arrived in Philadelphia with a cargo of eighty-four thousand cocoa nuts.

The papers mention as a fact, that a young lad died after an illness of forty-eight hours, from the effects of having eaten a quantity of dried apples at one time, and shortly afterwards drinking beer on them, which created a fermentation, and produced a most unnatural swelling in his stomach, and stoppage of the intestinal canal.

The Pittsburg (Penn.) Gazette says that there are over two hundred thousand bushels of coal ready for market, which cannot be sent in consequence of the canal interruptions. The growth of Pittsburg coal trade is remarkable. At least forty boats were, at the last accounts, detained.

The people of Nashville, (Tenn.) are preparing to give a *free barbecue* to Gen. Samuel Houston, ex-president of Texas.

A man was recently lynched in a remote part of Alabama, because he was suspected of having committed a robbery. He was terribly beaten and *blinded!*

William Smith, brother of the renowned Joe, the Prophet, has assumed the mantle of the murdered Mormon. The editor of the Nauvoo (Ill.) Journal says:—"William is the last of the family, and truly inherits the blood and spirit of his father's house, as well as the priesthood and patriarchal office from his father and brother legally and by hereditary descent."

A New York paper thus describes one of the fashionable gambling establishments in that city:—"The furniture is splendid—the cooks scientific—the servants admirable—the wines exquisite—the company select—the roguery superb—the cheatery unrivalled—the rascality unequalled."

The Delavan (Temperance) Hotel at Albany, (N. Y.) has over five hundred specimens of flowers, in various parts of the building. A very good substitute for things, sometimes found in hotels, not quite so fragrant.

The Mayor of New York has issued a notice directing the police captain and assistants to enforce a rigid observance of the law prohibiting the opening of shops on Sunday.

We feel confident, that in the matter of real merit, we use no exaggerated expressions of approbation, when we say that Mr. C. Brinckerhoff's Health Restorative is decidedly the happiest combination of medicinal herbs ever made, and also the most successful in any case, no matter how severe, of Lung Complaints, Coughs, Colds, &c. Our readers should peruse the circular, to be had of the agent gratis, stating the particulars of the most remarkable cure ever performed in such diseases, and on a daughter of an eminent Physician in New York State. 12

DIED.

In this town, 28th inst., Mrs. Hannah, wife of Mr. Thomas Arey, aged 33.

NOTICES.

The Union Meeting of the two boards of Officers of the Washington and Total Abstinence Societies, will be held at the Temperance Reading Room, over Mr. Gill's Bookstore, next MONDAY EVENING, at half past seven o'clock.

T. KELLOGG, *Rec. Sec'y.*

A public, social Temperance Meeting will be held in the Temperance Reading Room, THIS EVENING, at half past seven o'clock.

Ladies and gentlemen are respectfully invited to attend.

N B. All persons who may hereafter be guilty of the disgusting practice of disturbing the peaceable and interesting exercises of the public, social temperance meetings, may expect to be noticed by an efficient Committee appointed for the purpose. It is hoped that all such will save themselves the mortification of being publicly exposed and dealt with for misconduct.

Per order of the Union Board,

T. KELLOGG, *Secretary.*

The Selectmen of Quincy, hereby give notice that they will be in session, at their room in the New Town House, the last SATURDAY in each month until further notice, from *two* to *five* o'clock in the afternoon. All persons having business with the Town are requested to pre sent it on said days.

BRYANT B. NEWCOMB,
JOSEPH W. ROBERTSON,
LEVI G. FOLSOM.

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs, Asthma, and CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the case of pulmonary diseases, warrants the American agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the Lungs, Bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

DAVID F. BRADLEE, sole Agent of the United States, 119 Court-street, Boston.

Agents—A. E. Dubois, Randolph; R. Whiton, Hingham; D. Brewer, Dorchester; S. Langley, & Bonney, Abington; and in Quincy by

Mrs. E. HAYDEN.

Grass at Auction.

be sold at auction, on MONDAY next, at *four*
o'clock in the afternoon, seven acres of stout
standing on land of George W. Beale, near his
nce. 1w Quincy, July 5.

Administrator's Sale.

WILL be sold by public auction, on WEDNESDAY, July 23d, at THREE o'clock in the afternoon, on the premises, by order of the Court of Probate for Norfolk County, the two story Dwelling-house, with the outbuildings, and sixty-two square rods of Land upon which they stand, late the property of Edwin Whiting, deceased, pleasantly situated on Sea Street, in Quincy, and bounded otherwise on the north and east by land of the late Rev. Peter Whitney, and southerly by land of Dea. Jedediah Adams.

This property is admirably located in the centre of the population, well fenced, a fine well of water, the land in a good state of cultivation, and the house so arranged as to answer for two families.

The Estate above described presents a good opportunity for those desirous to purchase, as it is sold by order of Court and will be disposed of to the highest bidder, the widow relinquishing her right of dower.

Conditions of sale made known at that time.

THEOPHILUS W. WHITING, *Adm.*
THOMPSON BAXTER, *Auctioneer.*
Quincy, July 5. 3w

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Bandcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and dowsess of spirits. Mr. Knuth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea-sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York.

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; R. Gleason, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.
June 28. tf

SUGAR COATED

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skilfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable han unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired constitution, of a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 25 cents per box, with full directions, and sold by the following list of Agents.

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; R. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 28.

Assignee's Sale.

Valuable Real Estate in Quincy for sale at Auction.

By Postponement.

ON TUESDAY, the 8th day of July inst., at three o'clock in the afternoon, on the premises, in Quincy, the following pieces of Land, situated in said Quincy, with all the buildings thereon standing and all the privileges and appurtenances thereto belonging, being the Real estate recently owned by and in possession of MR. ABNER WILLETT, viz:

1. A lot of Land, with the House thereon standing, bounded easterly by the Plymouth Road, southerly on land of Thomas M. Marsh, westerly on land of Daniel Baxter, and northerly on land now or late of the heirs of Charles Newcomb, deceased.

2. Another lot of Land with the Shop and Stable thereon, bounded easterly by the "Plymouth Road," southerly by land now or late of the heirs of the late Benjamin Faxon, westerly on land of Daniel Baxter, and northerly on land of Thomas M. Marsh.

3. Also, another lot, called the "Wash-house Lot," bounded easterly by "Webb's Brook," southerly by land of John Green, westerly by the Plymouth Road, and northerly on land of Francis Williams.

4. Also, another lot, called the "Market-house lot," bounded southerly and easterly by Canal Street, westerly on the Plymouth Road, and northerly on land formerly of Benjamin Faxon and now of —— Brummett.

5. Also, another lot, called the "Nathaniel White lot," bounded easterly on a new road laid out by Ebenezer Adams, southerly on land of the widow of Ebenezer Adams deceased, westerly by 'Webb's Brook,' and northerly on other land late of said Abner Willett, purchased by him of Samuel Copeland.

6. Also, another lot of land, bounded easterly on said new road, southerly on the lot last above described, westerly on said "Webb's Brook," and northerly on land of James Hall and on land late of Abner Willett & Company.

Also—The following Real Estate lately belonging to MR. JABEZ SUMNER, with all the buildings thereon and all the privileges thereto belonging, viz:

1. A lot of Land in said Quincy, bounded northerly on School Street, westerly on land formerly of J. & E. Adams, southerly on land of —— Parker, and easterly on a new street laid out by the late H. T. Gay.

2. Also, another lot bounded easterly on the Plymouth Road, northerly on a way adjoining land of C. P. Tirrell and land formerly of J. Clapp and M. Bartlett, westerly on land formerly of E. & J. Adams, and southerly on "Webb's Brook," being the same conveyed to said Sumner by C. P. Tirrell.

Also—The following piece of land lately belonging to said Abner Willett and Jabez Sumner, doing business under the firm of ABNER WILLETT & COMPANY, viz:

A piece of Land with the buildings thereon, bounded easterly on land of John Hall, southerly on land formerly of S. Copeland, westerly on "Webb's Brook," and northerly on the Plymouth Road and on a passage-way leading from said Plymouth Road to Sea Street.

Also—Pew No. 12 in the Stone Meeting house, Quincy, and Pews No. 21, 29 and 30 in the Methodist Episcopal Church, Quincy.

The above Real Estate comprises some of the most valuable lots in Quincy, and offers a rare opportunity to purchasers. A portion of the premises is well fitted for the business of Leather Dressing, for which they have long been used and the buildings and appurtenances are arranged for the easy and successful prosecution of the business.

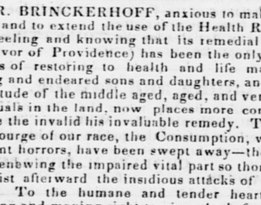
The sale will be positive on the premises, and all persons interested will unite so as to give a good title to the purchaser. The premises will be sold in lots as above described.

Terms made known at the sale.

By order of

R. S. DENNY,
RUSSELL E. DEWEY, } *Assignees.*
THOMAS ADAMS, *Auctioneer.*
Boston, July 5. 1w

C. BRINCKERHOFF'S



MR. BRINCKERHOFF, anxious to make known and to extend the use of the Health Resterative, and feeling and knowing that its remedial effect (by the favor of Providence) has been the only available means of restoring to health and life many of the young and endeared sons and daughters, and almost a multitude of the middle aged, aged, and venerable individuals in the land, now places more conveniently before the invalid his invaluable remedy. That dreadful scourge of our race, the Consumption, with its attendant horrors, have been swept away—the Restorative renewing the impaired vital part so thoroughly as to resist afterward the insidious attacks of those diseases. To the humane and tender hearted it is a pleasing and moving sight to view the before hopeless and dispirited sufferer rise from his couch of sickness and pain, and take his place amid the cares and duties of life simply by means of this grand Restoralive of Nature's Functions. The most severe coughs almost immediately yield under its influence, and however racking or chronic they may have been, yet they vanish the moment the Restorative begins to exert and then maintain its power. The Proprietor earnestly requests all who are afflicted with any disease of the Lungs or Liver, Pain in the Chest and Side, and Coughs, to commence the use of the Health Restorative. Despite the approbrium which is attached to all advertised medicines, use this remedy and be convinced of its power however incredulous you have been. The following certificate is from Dr. Chilton, the well known New York Chemist.

"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."

JAMES R. CHILTON, M. D.

Quincy, June 21. tf

Administrator's Sale.

WILL be sold by public auction, on WEDNESDAY, the sixth day of August, at three o'clock in the afternoon, by order of the Court of Probate, on the premises, a piece of Land situated in Quincy, the property of Peter Newcomb, deceased, containing about one quarter of one acre, and bounded easterly on the Church land, southerly and westerly on William P. Apthorp's land, and northerly on Elm street, together with all the buildings thereon.

Said buildings consist of a well finished two story House, in good repair, suitable for one or two families, and the outhouses attached to the same. The land is of the best quality, and there is upon it several excellent fruit and ornamental trees.

The Estate above described presents a good opportunity for those desirous to purchase, as it is sold by order of Court and will be disposed of to the highest bidder.

Traders are respectfully invited to call.
Quincy, Jan. 11. tf

POETRY.

THE FAMILY ALTAR.

Come to the place of prayer!
Parents and children, come and kneel before
Your God, and with united hearts adore
Him whose alone your life and being are.

Come to the place of prayer!
Ye band of loving hearts, oh come and raise
With one consent, the grateful song of praise
To Him who blessed you with a lot so fair.

Come in the morning hour—
Who hath raised you from the dream of night?
Whose hand hath poured around the cheering light?
Come and adore that kind and heavenly power.

Come at the close of day,
Ere wearied nature sinks in gentle rest;
Come, and let your sins be here confessed;
Come, and for his protecting mercy pray.

Has sorrow's withering blight
Your dearest hopes in desolation laid,
And the once cheerful home in gloom arrayed?
Yet pray, for he can turn the gloom to light.

Has sickness entered in
Your peaceful mansion? Let the prayer ascend,
On wings of faith, to that all-gracious Friend,
Who came to heal the bitter pains of sin.

Come to the place of prayer!
At morn, at night, in gladness or in grief,
Surround the throne of grace; there seek relief,
And pay your free and grateful homage there.

So in the world above,
Parents and children all may meet at last,
When this their weary pilgrimage is past,
And mingle there their joyful notes of love.

THOUGHTS.

I saw a little pleasure boat
Upon a summer sea,
Its waving pennons all afloat,
And sailing fearlessly;
And I thought of youth in its
Season of brightness,
With a brow all joy, and a heart
All lightness.

I saw a green and flowery plain,
On a laughing April day,
But there came a passing shower of rain,
And swept the flowers away;
And I thought of love with its
Hopes and fears,
It joys and sorrows, its smiles
And tears.

I saw a fragrant spicy land
Changed to a land of death;
A land of resolution fanned
By the hot Sirocco's breath;
And I thought of adversity's
Chilling power,
How it withers and kills in
One short hour.

I saw an ancient mansion lone
Wrapt in sepulchral gloom,
Its beauty and its freshness gone,
A mansion of the tomb;
And I thought of age all scathed
And blighted,
And left alone, sad and benighted.

I saw two lovely flowrets grow
Upon a stem so fair,
But there came a shadowy,
Viewless land,
And left its impress there,
And I thought of the severed
Spirit's breath,
Of the chill, the icy hand
Of death.

I saw a bright, unearthly thing,
Its snowy pinions trying,
And O! I heard it sweetly sing
Of Heaven, as it was flying;
And I thought of a spirit
Winning its way,
To the gates of Immortality.

ANECDOTES.

An Irish gentleman entered a bookseller's shop in Dublin, with a valuable work, which he said, was to be bound in a superior style.

"And how will you have it done" said the book-binder; "in Russia?"

"In Russia? certainly not!" was the reply.

"In Morocco, then?" continued the shop-keeper.

"No! neither in Russia, nor Morocco," rejoined the patriot; "if you can't do it *here*, I'll take it to the book-binder over the way."

Sir William Davenant, who obtained the first patent for dramatic performances, had, by some accident, lost the greater part of his nose. He was followed one day by an old woman, who kept crying, "God preserve your eyesight;" at last he turned round, and asked the beggar "why she prayed so earnestly for his eyesight," and said, "he was not pur blind as yet." "No, sir," said she, "but if ever you should be, you have no place to hang your spectacles upon."

As some one was eulogizing a Bishop of Louisiana, who died while a missionary, a Missouri Indian who was present replied, "Oh, yes, he was very good and tender." "You knew him then?" said the former. "Knew him! yes, indeed—I ate some of him."

'I am in favor of immediate annexation,' said a lady in Mississippi. 'So am I!' replied he, 'so let's unite.' 'No, no, you repudiated the *Union bonds* once, and may do it again,' was the sarcastic reply.

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, 'if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educated and experienced Physician, rather than the precarious and dangerous doings of Quacks and inexperiented Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10; sent to all parts of the Union. Office and consultation rooms,

4 1-2 SUDBURY STREET,
(Opposite Alden Lane)

Boston, March 22. tf

Comstock's Medicines.

Quincy, May 3. tf

Removal.

JOHN RUSSELL,

TAILOR,

WOULD respectfully inform his friends and the public, that he has removed his place of business to Rooms in the store of Mr Elisha Packard, *corner of Sea and Hancock Streets.*

From the flattering success he has met with since his commencement in business, he presumes a desire on the part of the community to reform the old and crank system of garment making pursued by country tailors generally.

A fair trial is all that is asked and no favor.

☞ French Reports received quarterly.

Quincy, May 3. tf

New Goods!! New Goods!!!

JOHN DINEGAN has just received a splendid assortment of SPRING AND SUMMER GOODS, such as cannot be surpassed for Richness and Beauty.

I would respectfully invite those in want of a first rate suit of Clothes, to call and examine what I have got; if they do, they will find it to their advantage, for I have got a choice asssortment of

BROADCLOTHS & CASSIMERES,

which will be made to order, as well and as cheap, as can be got in any other establishment in the United States.

VESTINGS.

I have got as rich an assortment of Vestings as can be found any where, which I will make to order on terms to correspond with the times.

The public are respectfully invited to call and examine the French and American DOE SKINS received, adapted for Spring and Summer, which will be sold, or made to order, upon the most liberal terms.

Old or young, rich or poor, will find that I have Goods to suit them, and of the very best material.

I have engaged a first rate workman, therefore my customers, and those who may be disposed to give me a trial, may depend upon having their work done to suit in every respect, or no sale.

I would respectfully inform the ladies of Quincy and vicinity, that they can have their HABITS made in first rate style, if they wish to give me a trial.

Twelve years of practical experience on the Continents of Europe and America may be a sufficient guarantee to the people, that I am acquainted with all the various branches of my trade.

MISCELLANY.

THE HOCUS POCUS.

Partly concealed within the border wood, which skirts a scene where a prai

"Stretched in boundless beauty lies,"

is situated a charming little cottage, ne shade and the seclusion beneath the fol overshadowing boughs. On the piazza of this dwelling, a venerable sucker, Gorden) was seated, one summer aft building dreams of thrift as he surve plantation, enamelled with heavy crop ing into plenty. Now as our sweetest are fleetest and quickest to close, it strange that *his*, although pleasant, wer terminated by some one shouting:

'Hallo, old dad.'

'Hallo yourself and *dishtract* how it retorted, and turning simultaneously reply, his eyes fell upon a young man, ger to him, leaning on the yard fence.

'Xcus me,' said the stranger; 'may mought be so clever as to tell a chap wh that're what field up a-side the timbe you?'

'Well I will: I own it.'

'Dew say!' said the stranger. 'But mighty cute that you allow four legg mals and *sich* critters to be in it?

'But I do'nt,' said Gorden.

'I seen a hoss in it though as I kum remarked the stranger, dryly.

'A hoss in my wheat!' exclaimed th er. 'Zangs and lightning!—Here Santa Anna, h-e-r-e, h-e-r-e.'

His call had the effect to bring dogs; one a hound with legs half as an Eastern Schoolmaster's, the other a peculiar quirk of whose under jaw mi you to mistrust that he was ever found the knowing ones call the 'grab gam tended with these, he trotted off in 'h the dogs wagging their tails as their ol wagged his tongue urging them to pur

The young stranger after wagging h little awry, and indulging in a light l made him look suspiciously waggish to the cottage door—and then, without ny—into the parlor. Here, finding alone, he commenced a survey of the ap Before he had much leisure, however, observe or admire the taste and elega bined in every thing around him, he tranced by a gush of rich, wild melo ceeded by the sound of light foot-step stantly flitted into his presence. Oh, rosy cheeked damsel, the very perso blithsomeness. She was startled thou her soft blue eyes encountered the and was hastily withdrawing, in dom she chanced to cast another glance—h tenance changed from fright to gladn uttered the name, Henry Leslie—and —not out of the door, but smack into t stranger's arms. What an extraordin m-ut-u-a-tion. She let him—let h her, too; and listened to his impassi guage—why what did the girl *mean* conversation will, perhaps suffice to

'Clarisa,' said the stranger, 'Cla beautiful idol, I have come to claim y own.'

'O Henry, I fear that our hopes change to realities. I love you; much; but my father dislikes you cause you are a yankee lawyer. H nate and will not consent, and the fled the lady's cheek.

'Do not fear, Clarisa,' said Hen 'I can and will remove his prejudice how to work on a farm; and as h know me I will hire to him under a name, and by the merit of honest virtue, win a place in his affections.'

Their hopes excited, and consequ anxieties lulled by the reasonablene

QUINCY PATRIOT.

Published every Saturday Morning, over Messrs. Josiah Brigham & Co.'s Store, in Hancock Street.

NUMBER 28. QUINCY, (MASS.) SATURDAY, JULY 12, 1845. VOLUME 3.

JOHN A. GREEN,
EDITOR AND PROPRIETOR.

CONDITIONS.

Two Dollars per annum in advance—Two Dollars and Fifty Cents if not paid till the end of six months—Three Dollars if delayed till the expiration of the year.

No subscription nor advertisement will be stopped previous to the payment of all arrearages unless at the option of the proprietor. When subscribers wish their papers discontinued, they will give notice to that effect and at the time their subscription expires. Every subscriber will be held responsible for the payment of his paper so long as it is sent to his address at the Post Office, Tavern, or any other place whereso-ever he may have ordered it, until legally notified to the contrary.

Advertisements, correctly and conspicuously, inserted at the customary prices. The number of insertions required must be marked on the advertisement, otherwise they will be continued until ordered out and charged for accordingly.

The privilege of annual advertisers is limited to their own immediate business; and all advertisements for the benefit of other persons, as well as all legal advertisements, and advertisements of auction sales, sent in by them, must be paid for at the usual rates.

Business letters and communications addressed to the Editor, postage paid, will receive early attention.

☞ Single copies of the paper, Five Cents.

AGENTS FOR THE PATRIOT.

FREEMAN HUNT,	*New York City.*

MISCELLANY.

THE HOCUS POCUS.

Partly concealed within the borders of a wood, which skirts a scene where a praire

"Stretched in boundless beauty lies,"

is situated a charming little cottage, nestled in shade and the seclusion beneath the foliage of overshadowing boughs. On the piazza in front of this dwelling, a venerable sucker, (named Gorden) was seated, one summer afternoon, building dreams of thrift as he surveyed his plantation, enamelled with heavy crops ripening into plenty. Now as our sweetest dreams are fleetest and quickest to close, it is not strange that *his*, although pleasant, were soon terminated by some one shouting:

'Hallo, old dad.'

'Hallo yourself and *dishiver* how it feels,' he retorted, and turning simultaneously with his reply, his eyes fell upon a young man, a stranger to him, leaning on the yard fence.

'Xcus me,' said the stranger; 'may be you mought be so clever as to tell a chap who owns that're what field up a-side the timber, wont you?'

'Well I will: I own it.?

'Dew say!' said the stranger. But ain't it mighty cute that you allow four legged animals and *sich* critters to be in it?

'But I do'nt,' said Gorden.

'I seen a hoss in it though as I kum along,' remarked the stranger, dryly.

'A hoss in my wheat!' exclaimed the Sucker. Zangs and lightning!—Here Blucher! Santa Anna, h-e-r-e, h-e-r-e.'

His call had the effect to bring forth two dogs; one a hound with legs half as long as an Eastern Schoolmaster's, the other a bull, the peculiar quirk of whose under jaw might lead you to mistrust that he was ever fond of what the knowing ones call the 'grab game.' Attended with these, he trotted off in 'hot haste,' the dogs wagging their tails as their old master wagged his tongue urging them to pursue.

The young stranger after wagging his chin a little awry, and indulging in a light laugh that made him look suspiciously waggish, walked to the cottage door—and then, without ceremony—into the parlor. Here, finding himself alone, he commenced a survey of the apartment. Before he had much leisure, however, either to observe or admire the taste and elegance combined in every thing around him, he was entranced by a gush of rich, wild melody, succeeded by the sound of light foot-steps and instantly flitted into his presence. Oh, that fair, rosy cheeked damsel, the very personation of blithsomeness. She was startled though, when her soft blue eyes encountered the stranger; and was hastily withdrawing, in doing which, she chanced to cast another glance—her countenance changed from fright to gladness—she uttered the name, Henry Leslie—and then ran—not out of the door, but smack into the young stranger's arms. What an extraordinary act—in-fat-u-a-tion. She let him—let him—kiss her, too; and listened to his impassionate language—why what did the girl *mean?* Their conversation will, perhaps suffice to explain.

'Clarisa,' said the stranger, 'Clarisa, my beautiful idol, I have come to claim you for my own.'

'O Henry, I fear that our hopes will never change to realities. I love you; very, very much; but my father dislikes you merely because you are a yankee lawyer. He is obstinate and will not consent, and the rosy flush fled the lady's cheek.

'Do not fear, Clarisa,' said Henry Leslie. 'I can and will remove his prejudice. I know how to work on a farm; and as he does not know me I will hire to him under an assumed name, and by the merit of honest worth and virtue, win a place in his affections.'

Their hopes excited, and consequently their anxieties lulled by the reasonableness of this plan, the two seated themselves on the sofa and enjoyed those bright, angel plumed delights with which a reciprocal of love inspires young hearts. When Gorden returned, however, he found the young stranger alone. Clarisa having deemed it prudent to retire at the sound of her father's footsteps. Gorden was glad that the stranger had tarried; he wished to give a 'pealing,' for he had searched the field over and found no horse.

'Now don't blame me, old man,' said the yankee, 'for surer than my name is Dick Quirk I seen a hoss, a *dead one*, in that're very wheat as I kum along.'

Oh! but old Gorden waxed wroth at thus learning that he had been sent to drive a mere skeleton from his field; yet the yankee contrived to calm his ruffled feelings, and hire himself to the Sucker to 'dew things,' closing the bargain with the impartial agreement that they might 'hocus-pocus' one another as much as they pleased; whereupon Gorden tickled his inner self with the conceit that he would make our hero suffer for all the wrongs he had endured from yankee trickery, even from the time of his buying a clock of a Connecticut pedlar, which he said kept time backward, down to the period when the New York pettifogger wished to marry Clarisa.

Respecting Henry Leslie; he had been in early manhood, an enterprising young farmer, endowed with a broad and beautiful domain. But being more over-gifted with an excellent smack of intellectual powers, he had been induced to forsake the natural avocation for one, perhaps better befitting his ambition, taste and ability—law. In the village where he studied and practiced, he became acquainted with Clarisa Gorden, who had accompanied an aunt from the west, with the design of completing her education at one of those meritorious institutions for female instruction with which the eastern states abound. They loved. The aunt wrote to her brother, old Gorden, soliciting his consent for Clarisa to marry, explaining affairs, &c. Gorden answered, stating that he should ever negative his daughter's wish to marry any yankee who it appeared was too lazy to work and hence had resorted to pettifogging. He also instructed Clarisa to come home immediately, under the protection of an elderly lady and gentleman, friends of his, then about to return from the east. Clarisa was obedient—wept—and obeyed her father.

Love, we all know is like wine, a mocker, and sometimes prostrates its victims by mysterious intoxication. Samething of this kind befel Leslie. His noble upheavings of desire, his unrest of ambition, were stayed. The excitement of business—of practical life became charmless. And within the lapse of a twelvemonth, we find him as first presented to the reader, disguised under an assumed name, language and demeanor, entering upon a plan to win his "lady love" by the sweat of his brow. Herein was centered the ordeal testing the purity of his affection and proving it as pure and clear and untainted as the waters of a mountain spring. He was willing to labor for her like the patriarch on record; to toil, to endure the wring and rack of bone and sinew. Gradually did he win his way into the old man's esteem. On good deeds he laid the base and builded a good character. By his steady application and his practical skill and ability to labor, he substantiated a reputation for industry; and from experience combined with book knowledge, superiority in the pursuits of agriculture. In the latter, Gorden was particularly indebted to him; he acknowledged his worth; the plantation too expressed it legibly. Nevertheless I do not know what would have been the result had not a circumstance occurred propitious to the lover. It was this:

Gorden was very unjustly prosecuted by a neighbor. Arriving at court at the time summoned (it was a Justice's trial) he found every body there whom he wished to see but his own lawyer. The Justice allowed him to delay the suit to the fartherest limits that the law admits of—still no lawyer. He would not be beat for a hundred dollars; yet he knew he could not conduct the suit successfully himself. To a man like him, independent to obstinacy, such a situation without alternative was mortifying in the extreme. As the Justice was declaring that the case must proceed forthwith, Dick Quirk, *alias* Leslie, whispered to Gorden:

'May be seen' as how your lawyer aint kum you'll let me try your side—I've did such things afore.'

Gorden opened his eyes wide, and stared at him.

'I do'nt think you need hang off, for I'll pay costs and damages and give you a year's work if I don't beat.'

Gorden complied, partly from despair, partly because he never knew Dick to fail in anything he undertook.

Five minutes elapsed, and Leslie was in his element. He had rich sport that afternoon. The cornering up of some half dozen suspicious witnesses; to putting to flight of half as many half fledged lawyers, the astonishment which the audience evinced at throwing off his assumed style of speaking, he merged into a chaste, clear, and rapid stream of eloquence. The plain exposition of facts and of the law woven into one glorious irresistible argument finally resulting in a verdict favorable to his client were both amusement and profit to Leslie.

Gorden, who during the whole affair had sat with his mouth so wide that you could have tossed a potatoe sufficiently large for a breakfast down his throat, without his knowing it—and when they were riding home.

'Dick if you *are* a yankee, I don't care you are an all-joyfired good feller.

'So I am,' said Leslie, laughing; 'indeed whether you take me in the field of labor, the court-room or in any other place of business you please, do you know any man superior to me hereabouts?'

'No I don't.'

'And what do you think of my poverty?' asked Leslie.

'I think you will exchange it for something better as you did your blamed Taanton tone to-day,' answered Gorden.

'Do you consider poverty a disgrace?' continued Leslie.

'Well, now, I shouldn't think I did.'

"Well, sir,' said Leslie, stammering a little, inasmuch as you seem to harbor no sentiment concerning my affairs but what favors me, I will be so bold as to inform you that there is a mutual attachment existing between your daughter and myself, and we solicit your consent to our marriage.'

Gorden opened his eyes and mouth again wider than ever.

'She is yours, by jingo,' said the father after a short pause. All I care about it is that she will have to take such a consarned ugly name, Quirk—Quirk—Quirk; it sounds so like a sick gobler's soliloquy; but I s'pose we can petition the Legislature and have it altered.'

'Clarisa,' said Gorden in the evening, 'Clarisa, Quirk has told me you loved one 'nother so I have given him to you entirely. I am glad girl, that you have this time made choice of a man who knows how to pettifog, jam up, without being too lazy to work on a farm.'

Clarisa laughed in her sleeve.

Henry Leslie and Clarisa Gorden were married. After the departure of the wedding guests on that sweet occasion even after the ceremony which launched them into the inexplicable inextricable, ycleped matrimony, even after the cake, music, tea, kissing, wine, dancing and coffee, after all were finished, and after all their friends were gone, Clarisa found herself sitting between her husband and her father. She turned her eyes to the latter and said beseechingly:

'Father, will you forgive us?'

'Forgive you! for what, child?'

'Why you know!—I—loved and wished to wed Henry Leslie, my first flame, but you would not consent to our alliance.'

'And you recollect, too, perhaps,' said the young husband, 'that when I first came here the mutual agreement was that we were to hocus pocus each other as much as we pleased.'

'Well, what I was about to say,' continued the bride, 'is that Dick Quirk and Henry Leslie are the same person.'

'Zags and lightning!" exclaimed Gorden, springing to his feet; but he paused and surveyed both the culprits attentively and then continued without passion. "What an old fool I have been to fancy that my girl didn't know enough to choose a fit and proper husband. Forgive you! yes I will, and bless you into the bargain. Come to think of it, I am glad it has happened so, for we sha'nt have to petition the General assembly in order to get rid of that blamed sick gobler-soliloquising Quirk Quirk Quirk. Go to bed children.'

THE HAPPY MATCH.

"Now," said Harry Hemphill to his young wife, when they went to housekeeping, "It's my business to bring money into the house, and yours to see that none goes foolishly out of it." This was the agreement with which they set forward in the world. He chose her, first because he loved her, and in the second place because he knew she was sensible, economical and industrious—just the reasons which should influence every sensible man in his choice now. And he thought it best that each should have a distinct sphere of action. Their interests were one and indivisible, consequently each had the same motives to act well the allotted part. His business called for his whole attention; he wished therefore to pursue it undistracted by other cares. For himself he looked for happiness only at home; there he expected a supply for all his wants, and he was of course not disposed to spend any thing abroad, in pursuit of what he thought every reasonable man ought to enjoy in the bosom of his own family. Her duties being all domestic, she was able to accomplish them better by turning her attention to them. Her husband's business doing habits, his temperate and correct life, had all the power of example; increasing her esteem, and doubling her anxiety to deserve his.

They had married without waiting to get rich. They neither distrusted Providence nor each other. With little besides health, and a disposition to improve it, they had nevertheless a strong confidence in final success, which prudent resolutions inspire in those who feel that they have perseverance enough to adhere to them. Thus they began in the world.

To attach a man to his home, it is necessary that home should have some attractions. Harry Hemphill's had. There he sought repose after the toil and weariness of the day; and there he found it. When perplexed and low spirited, he retired thither, and amid the soothing influence of its quiet and peaceful shades, he forgot the heartlessness of the world, and all the wrongs of men. When things went ill with him, he found a solace in the sunshine of affection, that in the domestic circle beamed upon him, and chased every cloud from his brow. However others treated him, there was always kindness, confidence and esteem. If others deceived him, and hypocrisy with all its shameless face smiled upon him, there all was sincerity—that sincerity of the heart which makes amends for suffering, and wins the troubled spirit from misanthropy.

Nothing so directly tends to make a wife a good housekeeper, a good domestic economist, as that kindness on the part of the husband which speaks the language of approbation, and that careful and well directed industry which thrives and gives strong promise that her care and prudence will have a profitable issue. And Mary Hemphill had this token and this assurance.

Harry devoted himself to business with steady purpose and untiring zeal. He obtained credit by his plain and honest dealing; custom by his faithful punctuality and constant care; friends by his obliging deportment and accommodating disposition; he gained the reputation of being the best workman in the village. None were ever deceived who trusted to his work: he always drove his business a little before-hand, for, he said, things go badly when the cart gets before the horse.

I noticed once a little incident which illustrated his character. A thrifty old farmer was accosted in the road, at the end of the village, by a youngster who was making a great dash in business, and who wanted to loan a few hundred dollars. The wily old man was perfectly ignorant where it could be had, and sided off from him as fast as he could. He rode directly down to Hemphill's and told him that he had a sum of money to loan and he wished he would take it, the payments should be made easy—just as would suit him. Indeed, replied Harry, you have come to a bad market; I have a little cash to spare myself; and have been looking round these two weeks for a good opportunity of putting it out.

While Harry was prospering in his business all went like clock-work at home. The family expenditures were carefully made; not a farthing was wasted, not a script lost. The furniture was all neat and useful rather than ornamental. The table plain, frugal, but wholesome and well spread. Little went either to the seamstress or the tailor. No extravagance in dress—no costly company keeping—no wasteful use of time in too much visiting—and yet the whole town praised Mary Hemphill, and loved her. She was kind, without ostentation, sociable, without being troublesome.

And, while few people lived more comfortable [illegible]

The results of such management can never disappoint the reasonable expectation of those who build upon them. Even the angry frown of misfortune is almost put at defiance. A vantage ground is gained which the storm seldom reaches; and a full reward comes in its proper time to crown the meed of lives thus spent. The music of Harry's tools was in full play on the morning that I left the village for a distant residence. It was not yet sunrise; and as the coach bore us by, the door was open, and the breakfast smoking upon the table. Mary, in her neat morning dress and white apron, blooming in health and loveliness, was busy amid her household affairs—and a stranger who chanced to be my fellow passenger to the city observed it, and said, "There is a thriving family—my word for it." And he spoke well. There are certain signs about those who are working all things right, that cannot be mistaken by the most casual observer.

On my return to Alesbury many years afterwards, I noticed a beautiful country residence on the banks of the river, surrounded by all the elegance of wealth and taste. Richly cultivated fields spread themselves out on every side, as far as the eye could reach: flocks and herds were scattered in every direction. It was a splendid scene—the sun was just setting beyond the western hills, and while groups of neatly dressed children sported on the adjacent school-house green, the mellow notes of the flute mingled with their noisy mirth. "There," said an old friend, "lives Harry Hemphill; that is his farm, these are his cattle; here is his school-house, and these are his own, and some orphan children of his adoption, whom he educates at his own expense; having made a noble fortune by his industry and prudence, he spends his large income in deeds of charity; and he and Mary mutually give each other the credit of doing all this."

My heart expanded then—it expands still when I think of them. And I pen this simple history, in the hope that, as it is imitable, some who read it will attempt to imitate it.—*Emporium.*

IDOLATRY OF WEALTH.

The insane and insatiable passion for accumulation, ever ready, when circumstances favor, to seize upon the public mind, is that "love of money which is the root of all evil," that "covetousness which is idolatry." It springs from an undue, an idolatrous estimation of the value of property. Many are feeling that nothing, nothing will do for them, or their children, but wealth; not a good character, not well trained and well executed faculties, not virtue, not the hope of heaven—nothing but wealth. It is their god, and the god of their families. Their sons are growing up to the some worship of it, and to an equally baneful reliance upon it for the future; they are rushing into expenses, which the divided property of their father's house will not enable them to sustain; and they are preparing to be, in turn and from necessity, slaves to the same idol. How truly is it written, that "they that *will* be rich, fall into many temptations and a snare, and fall into many foolish and hurtful lusts, which drown men in destruction and perdition!" There is no need that they should be rich, but they *will* be rich. All the noblest functions of life may be discharged without wealth, all its highest honors obtained, all its purest pleasures enjoyed; yet I repeat it, nothing—nothing will do but wealth. Disappoint a man of this, and he mourns as if the highest end of life were defeated, Strip him of this, and this gone, all is gone. Strip him of this, and I shall point to no unheard of experience, when I say, he had rather die than live.

[By request.]

PUBLIC SCHOOLS IN QUINCY.

Rules and Regulations of the School Committee of the Town of Quincy, with Extracts from the Laws of the Commonwealth relating to Public Schools.

Extracts from the Revised Statutes—Chapter 23. Sect. 10. The inhabitants of every town shall, at their annual meeting, choose, by written ballots, a School Committee, consisting of three, five or seven persons, who shall have the general charge and superintendence of all the public schools in such town.

Sect. 13. The School Committee shall require full and satisfactory evidence of the good moral character of all instructors, who may be employed in the public schools in their town, and shall ascertain, by personal examination, their literary qualifications and capacity for the government of schools.

Sect. 14. Every instructor of a town or district school shall obtain, of the School Committee of such town, a certificate in duplicate, of his qualifications, before he opens such school, one of which shall be filed with the Town Treasurer, before any payment is made to such instructor on account of his services.

Sect. 16. The School Committee, or some one or more of them, shall (for the purpose of making a careful examination) visit each of the district schools in their town, on some day during the first or second week after the opening of such schools, respectively, and also on some day during the two weeks preceding the closing of the same; and shall also, for the same purposes, visit all the schools kept by the town once a month, without giving previous notice thereof to the instructors.

Sect. 17. The School Committee of each town shall direct what books shall be used in the respective classes.

Sect. 18. The scholars at the town schools shall be supplied by their parents, masters or guardians, with the books prescribed for their classes.

Sect. 19. The School Committee of each town may procure, at the expense of the town, or otherwise, a sufficient supply of such class books, for all the schools aforesaid, and shall give notice of the place where such books may be obtained; and the books shall be supplied to the scholars, at such prices, as merely to reimburse the expense of the same.

Sect. 20. In case any scholar shall not be furnished by his parent, master or guardian, with the requisite books, he shall be supplied therewith by the School Committee, at the expense of the town.

Sect. 21. The School Committee shall give notice, in writing, to the Assessors of the town of the names of scholars so supplied by them with books, and of the books so furnished, the prices thereof, and the names of the parents, masters or guardians, who ought to have supplied the same; and said Assessors shall add the price of the books so supplied, to the next annual tax of such parents, masters or guardians; and the amount so added shall be levied, collected and paid into the Town Treasury, in the same manner as the town taxes.

Sect. 22. In case the Assessors shall be of opinion, that any such parent, master or guardian is unable to pay the whole expense of the books so supplied on his account, they shall omit to add the price of such books, or shall add only a part thereof, to the annual tax of such parent, master or guardian, according to their opinion of his ability to pay.

Sect. 23. The School Committee shall never direct to be purchased or used, in any of the town schools, any school books which are calculated to favor the tenets of any particular sect of Christians.

Act passed April 16*th*, 1836. No child under the age of fifteen years shall be employed to labor in any manufacturing establishment, unless such child shall have attended some public or private day school, where instruction is given by a teacher qualified according to the 1st section of the 23d chapter of the Revised Statutes, at least three months of the twelve months next preceding any and every year in which such child shall be so employed.

Act passed April 13*th*, 1838. Sect. I. The School Committees shall annually make a detailed report of the condition of the several public schools in their respective towns, designating particular improvements and defects in the methods or means of education, and stating such facts and suggestions in relation thereto, as in their opinion will best promote the interests and increase the usefulness of said schools; which report shall be read in open town meeting, in February, March or April, in each year, or be printed and distributed for the use of the inhabitants, and shall be deposited in the office of the Clerk of the town; and an attested copy thereof shall be transmitted by said School Committee to the office of the Secretary of the Commonwealth, with the official return now required by law.

Sect. 2. The School Committee shall select and contract with the teachers for the town and district schools; *provided, however*, that the teachers may be selected and contracted with by the Prudential Committees as heretofore, whenever the town shall so determine.

Act passed February 23d, 1844. The School Committee of any town are hereby authorized to dismiss from employment any teacher in such town, whenever the said Committee may think proper, and from the time of such dismissal such teacher shall receive no further compensation for services rendered in that capacity.

Act passed March 25th, 1845. Any child unlawfully excluded from public school instruction in this Commonwealth, shall recover damages therefor, in an action on the case, to be brought in the name of said child, by his guardian, or next friend, in any Court of competent jurisdiction to try the same, against the city or town by which such public school instruction is supported.

Rules and Regulations of the School Committee of Quincy, revised June, 1845.

Rule 1. From the first day of April to the first day of October, the several schools shall commence at nine o'clock in the forenoon and at two o'clock in the afternoon, and close at twelve o'clock, noon, and five o'clock in the afternoon. From the first day of October, they shall commence at half past one o'clock in the afternoon, and close at half past four o'clock. An exception to this rule, in the case of any district, may be made on the written request of the district to that effect.

Rule 2. In those districts where three grades of schools are established, the Primary department shall embrace all scholars between the ages of four and seven; the intermediate department those between seven and ten; and the grammar school all over ten years of age. In districts where there may exist but two grades, the Primary department shall embrace all scholars under eight years, and all over that age shall be admitted into the Grammar school. The Committee, however, may transfer scolars from one department to another, with reference to qualifications rather than age, whenever they may deem it advisable, in order to equalize the labors of teachers, or to promote the discipline and improvement of the schools.

Rule 3. All scholars shall be required to attend punctually at the hour appointed for the commencement of the school. No one shall be permitted to enter the school after quarter past nine and quarter past one and a half or two o'clock, (as may be the hour to commence) except on the written or personal request of the parent or guardian. And it shall be the duty of the teacher to inquire into the cause of the absence or tardiness of any scholar.

Rule 4. No one shall be dismissed from school before the appointed time, unless satisfactory evidence is given to the teacher that such is the wish of the parent or guardian, or in case of sickness or other emergency, of which the instructor shall be the judge.

Rule 5. The morning exercises of all the schools shall commence with reading a portion of the Scriptures, either by the master or by the scholars. The latter course, however, is preferred, not so much as an exercise in reading, as to inspire a reverence for the sacred volume, and as a very suitable and becoming mode of commencing the duties of the day.

Rule 6. All the teachers shall be required to keep books, in addition to the Registers required by law, in which they shall record the names, ages, absences, delinquencies, amount of improvement of every schoiar, and in which such remarks shall be entered respecting the behavior of the several scholars in and out of school as shall enable the Committee to form a just idea of the state of the schools.

Rule 7. The teachers shall endeavor to vary their modes of instruction as much as possible, and by mingling oral instruction with the use of books, seek to excite and interest the children, and make the exercises pleasant as well as profitable.

Rule 8. The most perfect order, attention and decorum must be preserved in the schools. This is considered by the Committee of vital importance, and will be insisted on most strenuously. As a general rule, mild and gentle government should be adopted. But when this fails, the instructor is permitted and required to resort to punishment more or less severe, as in his judgment the case may require. In all doubtful cases, or wherever determined wilfulness and habitual misconduct are exhibited, the instructor shall resort for advice to the Committee.

Rule 9. It shall be the duty of the instructors to exercise as far as practicable, a general oversight and care of their pupils, out of school, as well as within its walls. They shall exert their influence to prevent all quarreling and disagreement, all rude and noisy behavior in the streets, all vulgar and profane language, all improper games, and all disrespect to travellers. They shall take special pains to impress upon the minds of their scholars the importance of good manners, and the still higher value of truth, honesty and benevolence.

Rule 10. It shall be the duty of the instructors to take that the school houses, and all the public property pertaining thereto, shall receive no damage from cutting or marking or other modes of defacing and injuring the same. Their attention is also required to the proper ventilation of the school rooms.

Rule 11. The teachers shall be excused from keeping school as follows: every Saturday afternoon in the year, Fast day, Thanksgiving day, and the two days following, Christmas day, first Monday in June, fourth day of July, and such other times as the Committee specially shall designate.

The following is a list of the Books approved of by the present School Committee, to be used in all the public schools in the town, viz:

Reading—Bible or Testament; Swan's series of Readers.
Spelling—Common School Speller; Worcester's Dictionary.
Penmanship—B. F. Foster's Elementary Copy Books.
Arithmetic—Emerson's and Greenleaf's series.
Geography—Mitchell's series.
Grammar—Smith's.
History—Hall & Baker's History of the United States.
Book-Keeping—Bennett's or Foster's,
Philosophy—Comstock's.
Algebra—Bailey's.
Geometry—Peirce's.

There are some other books now in use in the several schools which the Committee permit to be used by their present owners; but whenever scholars have occasion to purchase new ones, those above named will be required.

WILLIAM ALLEN,
SAMUEL A. DAVIS,
CHARLES CLAPP,
GEORGE NEWCOMB,
WM. B. DUGGAN,
} *School Committee.*

Quincy, July 3d, 1845.

QUINCY PATRIOT.

SATURDAY, JULY 12, 1845.

John A. Green, Editor.

Funeral Honors. The obsequies, in commemoration of the death of Gen. Andrew Jackson, took place in Boston, last Wednesday afternoon, and was carried out in accordance to the programme officially announced. The weather was delightful, and the most perfect order and decorum was observed by those in the column as well as by the immense mass of citizens of both sexes that thronged the streets through which the procession passed. The military force under command of Gen. J. S. Tyler, made, as usual, a fine show. It consisted, says the Post, of twenty-one companies, among the number were those from Lynn, Beverly, Framingham, Roxbury, and Charlestown. The several companies were in unusually fine order, and made a remarkably soldier-like and neat appearance. The Lancers and some of the companies from out of town were more numerous than any other corps.

The civil part of the procession, under Chief Marshal Greene, was not so numerous as might have been expected, considering the nature of the occasion. The Mayor and Aldermen and Common Council took the lead, in carriages, followed by a number of soldiers of the revolution. A considerable number of the officers of the Army and Navy and of the Revenue Department were present. These were followed by a large number of members of various societies, who appeared with their respective banners and badges—a number of Fire Companies—and the procession closed with a numerous carvancade of citizens.

A large number of military bands of music accompanied the procession, comprising all in the city and vicinity, and the marches and dirges which were performed, many of them in beautiful style, added much to the interest of the occasion.

Minute guns were fired during the march of the procession, which arrived at Faneuil Hall about six o'clock, the bells throughout the city tolling meanwhile, and the services commenced about half-past six. They consisted of a Dirge, by the Brigade Band; reading of the Protestant burial service, by Rev. Mr. Gray; Eulogy, by Judge Merrick—which occupied about an hour, and was devoted to a biographical sketch of the deceased, to whom high praise was awarded as a civilian, a soldier, and patriot, and statesman; Benediction by Rev. Dr. Jenks, and Dirge by the Band. The whole were concluded at half-past eight o'clock.

Slave Trade. By a recent arrival at Boston, it appears that the United States brig Bainbridge, from Rio Janeiro, had made seizure of brig Albert, of Boston, Capt. Woodbury, on charge of participating in the slave trade.

The brig Porpoise, which was seized by the American Minister at Rio Janeiro on suspicion of having been engaged in the slave trade, has arrived at Boston, in charge of Acting Master John R. Duer, of the United States Navy, having sailed from Rio Janeiro on the 23d of May last.

Another Fire at Quebec. It occurred on Saturday evening, the 28th ult., just a month after the former conflagration. The portions of the city called St. John and St. Lewis Suburbs, were almost totally destroyed. The flames were not subdued till the next morning. The extent of the calamity was nearly as great as at the former fire—the destruction of property greater. The population of St. John Suburbs alone was ten thousand. Quebec is now reduced to the commercial part of the city, and what is called the Upper Town.

Suits Enough. The counsel for the City of New York has sent a communication to the municipal government, setting forth that there are on his hands one hundred and seventy-five suits existing to which the city is a party, besides twenty or thirty left in the hands of counsel formerly employed. Of these, five are in the Court of Errors, seventy-nine in the Supreme Court, fifty-five in the Superior Court, fourteen in the Common Pleas, and twenty-two in Chancery.

Florida Senators. The Legislature of the new State of Florida have elected as United States Senators, David Levy and James D. Westcott, jr., democrats, who were chosen on the first ballot by a majority of twenty-six votes. David Levy has been the Congressional delegate from Florida for a number of years, and was recently elected as a member of Congress, which of course he resigns.

Texas Annexation.—The United States steamer Princeton, Capt. Stockton, has arrived at Annapolis, (Md.) from Galveston, bringing despatches for the Government, at Washington. The despatches contain intelligence of the assembling of the Texan Congress on the 16th ult.—the unanimous rejection of the Senate of the Mexican treaty for independence—and the unanimous acceptance of the terms of annexation as proposed by the United States. The resolutions giving consent to annexation passed rapidly through both Houses, the only debate being as to which branch should claim the honor of their paternity. They passed on the 18th June. The President (Jones) has signified already his determination to interpose no obstacle to the will of the people, and his assent was undoubtedly given to the resolutions. In his message to Congress, President Jones had spoken on the subject as follows:

"The Executive has much satisfaction in observing, what no doubt will forcibly arrest the attention of the Congress, that, although the terms embraced in the resolutions of the United States Congress may at first have appeared less favorable than was desirable for Texas, the very liberal and magnanimous views entertained by the President of the United States toward Texas, and the *promises* made through the representative of that country, in regard to the future advantages to be extended to her if she consent to the proposed union, render those terms much more acceptable than they would otherwise have been."

It will thus be seen that the Texan Congress has anticipated the action of the convention, called to meet on the 4th of July. To that convention, the details of the subject are to be referred. Even the doings of that convention, however, will not be final, as it will be borne in mind that the resolutions of our Congress require the assent not only of the Texas Government, but of the people. The sovereign voice is to determine the important issue.

The treaty with Mexico, which was so readily rejected, was agreed upon, it seems, in March last, between Ashbel Smith, on the part of Texas, and Baron Cuevas, on the part of Mexico. It provided that Mexico should acknowledge the independence of Texas on condition that the latter should not annex herself or become subject to any country whatsoever. It was sanctioned by the English and French Ministers.

Chinese Museum. The Marlboro' Chapel, in Boston, is undergoing repairs preparatory to the reception of the rare and unique collection of Chinese articles, composing Mr. Peters's collection, which are to be exhibited in Boston. Sixty-five cases were shipped one day last week, from New York, a part only of this rich collection. The exhibition will be attended by three living specimens—real Chinese—one of whom is a distinguished performer of music.

Notary Public. Thomas R. Hanson, Esq., the efficient Cashier of the Weymouth and Braintree Bank, has been appointed by the Governor and Council, a Notary Public for Norfolk County.

Fire in Milton. On Wednesday last, a short time before seven o'clock in the afternoon, the stable of Mr. Nathaniel Bent, in Milton, about a mile distant from the Railway-house, was discovered to be on fire in the hay-loft, and so rapid was the progress of the flames that it soon communicated to his large two-story dwelling-house and also to a brick bake-house, all of which were destroyed. With the destruction of the buildings, Mr. Bent lost six to seven tons of hay, ten to fifteen barrels of flour, several beds and bedding which were in the bake-house, some bread stuff, a large supply of faggots, and other articles for the prosecution of his business, besides several vehicles and three hogs. His loss will exceed four thousand dollars, upon which there is an insurance at the Norfolk Mutual Office in Dedham, of eighteen hundred dollars.

Mr. Bent is an industrious and deserving citizen, and the liberality of his fellow-townsmen and acquaintances elsewhere thus early exhibited, bespeak their attachment and will aid him materially to recover from the heavy loss he has sustained. We are rejoiced at this spirit of generosity, and hope it will not abate until Mr. Bent shall be able to prosecute his business as before the unfortunate calamity.

A couple of enterprising young gentlemen of St. Louis have invented a new character of ladder, to be used by the fire department. A patent is now being obtained for the invention. The ladder is made of chain, and by a simple motive power, in the space of a few minutes elevates a man and four lines of hose to the top or any part of the highest building, at the same time spreading out and resting two other ladders of any size, or height, upon the building on which the main ladder is thrown.

A National American Convention recently assembled at Philadelphia. Gen. H. A. S. Dearborn, of this State, presided. They voted that the party should be designated as Native Americans, instead of American Republicans. A resolution in favor of an entire repeal of the naturalization laws, failed, and a discussion ensued upon amendments to the law—the result of which has not been ascertained.

Since the new post office law went into operation, the increase of letters in the Baltimore post office has already been so great as to require an additional penny-post.

The Hartford (Conn.) Courier states that there are more post offices within thirty miles of that city than of any other large town in the Union. The number is *one hundred and fourteen!* Within thirty miles of Boston there are *one hundred and five*, and within that distance of New York, *eighty-two*.

About thirty blackfish were lately taken in the harbor of Newport, (R. I.) Some of them will yield, it is said, four or five barrels of oil.

The French Government propose to expend some four hundred thousand dollars for the construction of a floating dock in which the largest class steamers may ride at low water. They also propose to appropriate between five and six millions of dollars for the improvement of harbors on the coast.

A girl, in the bloom of youth, died in England, a short time since, in consequence of tight lacing.

The guns have been mounted at the castle of San Juan de Ulna, near Vera Cruz, and the garrison are diligently engaged in target practice, in order to bring their gunnery into the most effective possible state.

Executions are now private in the following States:—Maine, Massachusetts, Vermont, New Hampshire, Connecticut, Rhode Island, New York, Pennsylvania and Maryland.

Gen. J. B. Dawson, member of Congress from the third district in Louisiana, died at his residence on the 26th ult.

Orrin De Wolf, now imprisoned at Worcester, under sentence of death for the murder of William Stiles, has published a statement, authenticated by the Sheriff, entirely exonerating Samuel Stone from the charge of having aided in the murder.

The City Council of Brooklyn, (N. Y.) have set an example which it would be well if other cities, especially Philadelphia, would imitate. They have disbanded a fire company for being engaged in a riot.

At Berne, (N. Y.) a little girl twelve years old, was hung to death by a school house window falling on her neck. She had forgotten and left a new book in the school house, and, fearing that some of the children would get hold and tear it, she returned, lifted a window, entered, got the book, and was making her egress by the same means, when the window fell upon her neck and she perished.

Mankind might do without physicians, if they would observe the laws of health; without soldiers if they would observe the laws of Christianity; without lawyers, if they would keep their tempers; and perhaps without preachers, if each one would take care of his own conscience—but there is no living without farmers.

It is said that a first rate man-of-war of the present day requires upward of seventy thousand cubic feet of timber, and one hundred and eighty thousand pounds of hemp are used in the cordage. It is estimated that the extent of ground on which the timber for a ninety gun ship would grow, would be fifty acres.

The colored citizens of Boston and their friends will celebrate the anniversery of West India emancipation, on the first of August, at the Tremont Temple, by addresses, singing, etc, and in the evening will hold a levee in the chapel under the Boston Museum.

The Eulogy on Hon. Benjamin Russell, delivered before the Grand Lodge of Free and Accepted Masons of the State of Massachusetts, on the tenth of March last, by Br. Francis Baylies, has been published in pamphlet form.

A man has been indicted for burning his house in Charlestown, (Mass.) on the complaint of his own children, some of whom appeared in Court to testify against him. It appeared that he had been a respectable man and brought up a family of children as well as any other parent in the country, but *rum* had wrought its accursed effect upon him, destroying the peace and comfort of his family, and alienating the affections of his children.

In a recent trial for infringement of a patent right in a machine for making India rubber suspenders, it was stated by a witness, that the plaintiff manufactured, in thirty-eight days, an amount of goods, the profits of which exceeded ten thousand dollars.

Hon. Daniel Waldo of Worcester, was found dead in his bed, at his residence, on Wednesday morning last. He was present the previous evening at a meeting of the Directors of the Worcester Bank, of which he was President, and returned as usual in seeming good health.

Over one hundred and fifty barrels of fat Mackerel were seined ashore on Long Beach, at Gloucester, on Sunday and Monday last, valued at fifteen hundred dollars.

A diamond rattlesnake was lately killed near Kosciusko, (Miss.) measuring six feet clear of his rattles, and round his middle twelve inches and seven eighths.

Major James Cochran, the Post Master of Oswego, (N. Y.) and the Hon. Harrison G. Otis of Boston, who are still living and in good health, were the members of the third Congress, with Albert Gallatin and Gen. Andrew Jackson.

A countryman went into a turner's shop where it was advertised that the owner could turn every thing, and requested him to *turn a few somersets*. The owner declined the job at once.

Figs and prunes are used in many families during the warm months, with the best results, as preventives and cure of the summer complaint, to which children in the city are universally liable.

In New Orleans they have no such thing as a penny post, for the delivery of letters.

In little Delaware, there are two thousand acres of land devoted to peach orchards.

The fortifications of Paris are completed. They will mount two thousand two hundred and eight mortars, cannons, or howitzers, of which fifty are Paixhans howitzers, five thousand seven hundred and fifty rampart guns, two hundred thousand muskets, fifteen hundred fusees de guerre, twenty-seven hundred and sixty carriages, and a million of projectiles of various sorts, such as bombs, grenades, balls, and shells.

A gentleman was recently killed in a duel in England, and the Coroner's jury returned a verdict of wilful murder against both principal and seconds.

One of the most interesting discoveries ever made in practical medicine was that of the Health Restorative of Mr C. Brinckerhoff, in whose family it has been handed down as the most beneficial bequest that possibly could be made. The singularly mild, but specific action of this medicine is such, that it cannot fail of giving the most marked relief, on a fair trial of its virtues. The particular interest that each recovered patient takes in this remedy, and the extension of it, show conclusively its entire exemption from deceit or quackery. 13

NOTICES.

Mr. T. V. Sullivan, who has had much experience as a ship-master, will lecture in behalf of Seamen, in Rev Mr. Allen's Meeting-house, TO-MORROW AFTERNOON, at half past five o'clock.

There will be a social Temperance Meeting of the Young Men's Washington Total Abstinence Society, at the Temperance Reading Room, on TUESDAY EVENING, (July 15th,) at eight o'clock.
Ladies and gentlemen are invited to attend.
CHARLES E. RHOADES, *Secretary.*

A public, social Temperance Meeting will be held in the Temperance Reading Room, THIS EVENING, at half past seven o'clock.
Ladies and gentlemen are respectfully invited to attend.

N B. All persons who may hereafter be guilty of the disgusting practice of disturbing the peaceable and interesting exercises of the public, social temperance meetings, may expect to be noticed by an efficient Committee appointed for the purpose. It is hoped that all such will save themselves the mortification of being publicly exposed and dealt with for misconduct.
Per order of the Union Board,
T. KELLOGG, *Secretary.*

The Selectmen of Quincy, hereby give notice that they will be in session, at their room in the New Town House, the last SATURDAY in each month until further notice, from *two* to *five* o'clock in the afternoon. All persons having business with the Town are requested to pre sent it on said days.
BRYANT B. NEWCOMB,
JOSEPH W. ROBERTSON,
LEVI G. FOLSOM.

First of August in Norfolf County.

The Abolitionists in Norfolk County are hereby informed that, in compliance with the request of the General Agent of the Massachusetts Anti Slavery Society, the Board of Managers of the Norfolk County Anti Slavery Society have selected DEDHAM as the most suitable place for the celebratiou of the great event of West India Emancipation. The members and friends of this Society, and the Massachusetts Society and its auxiliaries, and the public in general, are cordially invited to assemble at the Town Hall, in Dedham, on FRIDAY, *the first day of August next*, at NINE o'clock in the forenoon, whence they will march in procession to the Grove where the celebration will be held. William P. Atkinson of West Roxbury, as Chief Marshal, will have the general direction of the arrangements of the day. It is confidently hoped that the several towns in the county will send up even larger delegations than on any former occasion. Besides the topics immediately connected with the illustrious anniversary itself, our own new dangers and duties arising from the annexation of Texas and the prospect of a pro-slavery war, will be considered and discussed. Let the whole anti-slavery strength of the County be present to express their deep sense of the importance of the events that now impend to the fate of our enslaved countrymen, to our own hopes, and to those of the race.

As to the details of the occasion, the Board entirely agree in opinion with the suggestion of the General Agent, that 'the convenience of all parties will be best promoted by making this celebration in reality a Pic Nic; that is, by having no tables set and no general contribution of provision; but letting each individual or party carry their own provision, and at the proper time eat it on the grass in such plan and manner as they please.' They think that the experience of past years proves that it is impossible to distribute provisions to a large multitude, justly and satisfactorily, on the plan formerly adopted; and that a great expense of labor, time and money may be saved by the simplicity of the proposed arrangement; while at the same time, the picturesque effect of the scene will be enhanced by its adoption. The friends, therefore, who may resort to this celebration, will please to remember that they must furnish themselves with all utensils, drinking vessels, &c. as well as provirions, which they may require for their own use. *Nothing but cold water will be furnished on the ground.* When the meeting adjourns for refreshment, the company will naturally fall into groups, according to their affinities, and partake of such stores as they have provided for themselves.

A Programme of the order of procession and of the services of the day will be furnished hereafter by the Chief Marshal. Let there be a generous emulation between the different towns of the county to see which will send the largest delegation. Let all do their best to make it a proud day in their anti slavery annals of the land!

EDMUND QUINCY, *President.*
INCREASE S. SMITH,
ANNE WARREN WESTON,
} *Secretaries.*

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs, Asthma, and CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the case of pulmonary diseases, warrants the American agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the Lungs, Bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

DAVID F. BRADLEE, sole Agent of the United States, 119 Court-street, Boston.

Agents—A. E. Dubois, Randolph; R. Whiton, Hingham; D. Brewer, Dorchester; S. Langley, & Bonney, Abington; and in Quincy by
Mrs. E. HAYDEN.
Quincy, March 1. 1y

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*
JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine:

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health, and have not raised any blood since the use of the first bottle of this excellent preparation.

WYMAN ABERCROMBIE.

Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark:

DEAR SIR—I am gratified to learn that you are about to estabtish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. Yours, truly,

IBRAHIM BARTLETT.

Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.

Only Office in Boston, No. 51 1-2 Hanover Street (up stairs.) People in other cities and in country towns may obtain the Medicine by sending for it through conductors of railroad cars, drivers of stages, or in such other way as may be most convenient to them.

Boston, May 20. tf

Dental Surgery.

A. EDWARDS,

Surgeon Dentist,

WOULD inform the citizens of Quincy, that he will be at the Hancock House, MONDAY, July 14th, when he will be happy to practice in his profession as a Dentist.

DANIEL FRENCH, *Postmaster.*

Quincy, June 28. 4w

Administrator's Sale.

WILL be sold by public auction, on WEDNESDAY, July 23d, at THREE o'clock in the afternoon, on the premises, by order of the Court of Probate for Norfolk County, the two story Dwelling-house, with the outbuildings, and sixty-two square rods of Land upon which they stand, late the property of Edwin Whiting, deceased, pleasantly situated on Sea Street, in Quincy, and bounded otherwise on the north and east by land of the late Rev. Peter Whitney, and southerly by land of Dea. Jedediah Adams.

This property is admirably located in the centre of the population, well fenced, a fine well of water, the land in a good state of cultivation, and the house so arranged as to answer for two families.

The Estate above described presents a good opportunity for those desirous to purchase, as it is sold by order of Court and will be disposed of to the highest bidder, the widow relinquishing her right of dower.

Conditions of sale made known at that time.

THEOPHILUS W. WHITING, *Adm.*
THOMPSON BAXTER, *Auctioneer.*

Quincy, July 5. 3w

Personal Property at Auction.

ON WEDNESDAY, July 23d, at two o'clock in the afternoon, at the house of the late Edwin Whiting, deceased, on Sea Street, in Quincy, the following articles of personal property, viz:

Bed, Bedstead and Bedding; Bureau, Tables, Chairs, Chests, Clock; Crockery, Glass and Iron Ware; Wheelbarrow, and sundry other articles.

Conditions at the time of sale.

By order of the administrator.

THOMPSON BAXTER, *Auctioneer.*

Quincy, July 5. 3w

OPENING OF

Spring and Summer Goods.

THE subscriber invites the attention of her friends, and the public generally, to her new stock of Rich and Fashionable

STRAW BONNETS,

having made such arrangements with the manufacturers as will warrant her in saying that her present assortment, for quality, variety and style, far surpasses that of any previous season. In addition to the above splendid stock, she would particularly wish, may be seen a new and beautiful style of

SUMMER RIBBONS,

which having been selected with great care, cannot but give perfect satisfaction.

—ALSO—

ARTIFICIAL FLOWERS,

CONSTANTLY ON HAND.

FANCY BONNETS

made to order, and in the most fashionable styles, together with the usual assortment of

Millinery and Fashionable Articles,

CONSISTING IN PART AS FOLLOWS:

Hosiery, Gloves, Glove-Ties, Mitts, Collars; Linen Cambrics, Lawns, Fancy Silks and Satins; Cravats, (Paris Cord, Gimps, and other Trimmings for Dresses,) Muslins, Laces,

MOURNING GOODS.

Grave Clothes and Mourning Bonnets,

ALWAYS ON HAND.

Straw Bonnets Altered CLEANSED AND PRESSED in the best manner, as usual, at short notice.

She would also give notice to those wishing Dresses made, that she has a young lady with her who will attend to that branch of business entirely, and will be happy to wait on those wishing her services, either at their own houses or at this establishment.

N. B. All of the above articles will be found at the Store of

S. S. MARSH,

a few rods South of the Stone Temple, in the same building of the Quincy Bookstore, entrance on the south side. tf Quincy, May 3.

Balzorines—Balzorines.

BETWEEN 200 and 300 yards of Silk and Wool BALZORINES, the best article manufactured, will be offered very low at BOWLER'S for a few days.

ALSO—Yard wide MUSLINS at only *one shilling.*

Remember, the Cheap Cash Store, No. 1, Town Hall Building.

Quincy, June 21. tf

Ten Dollars Reward.

THE subscriber's Shop was re-entered last Wednesday night by false keys, and six pairs of calf-skin Boots, custom made, with the following names on the facings—William Robbins, John Glover, T. B. Jonson, Ebenezer Holden, Mr. Graham, Mr. Green, were stolen therefrom, for which the above reward will be paid for the detection and conviction of the thief.

JOHN A. NEWCOMB.

19 *Tremont Row.*

Boston, March 15. 6m

Administrator's Sale.

WILL be sold by public auction, on WEDNESDAY, the sixth day of August, at three o'clock in the afternoon, by order of the Court of Probate, on the premises, a piece of Land situated in Quincy, the property of Peter Newcomb, deceased, containing about one quarter of one acre, and bounded easterly on the Church land, southerly and westerly on William P. Apthorp's land, and northerly on Elm street, together with all the buildings thereon.

Said buildings consist of a well finished two story House, in good repair, suitable for one or two families, and the outhouses attached to the same. The land is of the best quality, and there is upon it several excellent fruit and ornamental trees.

The Estate above described presents a good opportunity for those desirous to purchase, as it is sold by order of Court and will be disposed of to the highest bidder.

JOHN NEWCOMB, *Adm.*

Quincy, June 28. 6w

C. BRINCKERHOFF'S

MR. BRINCKERHOFF, anxious to make known and to extend the use of the Health Resterative, and feeling and knowing that its remedial effect (by the favor of Providence) has been the only available means of restoring to health and life many of the young and endeared sons and daughters, and almost a multitude of the middle aged, aged, and venerable individuals in the land, now places more conveniently before the invalid his invaluable remedy. That dreadful scourge of our race, the Consumption, with its attendant horrors, have been swept away—the Restorative renewing the impaired vital part so thoroughly as to resist afterward the insidious attacks of those diseases. To the humane and tender hearted it is a pleasing and moving sight to view the before hopeless and dispirited sufferer rise from his couch of sickness and pain, and take his place amid the cares and duties of life simply by means of this grand Restorative of Nature's Functions. The most severe coughs almost immediately yield under its influence, and however racking or chronic they may have been, yet they vanish the moment the Restorative begins to exert and then maintain its power. The Proprietor earnestly requests all who are afflicted with any disease of the Lungs or Liver, Pain in the Chest and Side, and Coughs, to commence the use of the Health Restorative. Despite the approbrium which is attached to all advertised medicines, use this remedy and be convinced of its power however incredulous you have been. The following certificate is from Dr. Chilton, the well known New York Chemist.

"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."

JAMES R. CHILTON, M. D.

C. BRINCKERHOFF, Proprietor, N. Y.

SUGAR CLICKENER'S SUGAR COATED VEGETABLE PILLS COATED

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skilfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly remoted before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they pre er the disease to the cure, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 25 cents per box, with full directions, and sold by the following list of Agents

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; R. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 28.

POETRY.

"WHAT IS THAT, MOTHER?"

"What is that, Mother?"—The lark, my child!
The morn has but just looked out and smiled,
When he starts from his humble grassy nest,
And is up and away, with the dew on his breast,
And a hymn in his heart, to you pure, bright sphere,
To warble it out in his Maker's ear.
Ever, my child, be thy morn's first lays
Tuned, like the lark's, to thy Maker's praise.

"What is that, Mother?" The dove, my son!
And that now, sweet voice, like a widow's moan,
Is flowing out from her gentle breast,
Constant and pure, by that lonely nest,
As the wave is poured from some crystal urn,
For her distant dear one's quick return.
Ever, my son, be thou like the dove,
In friendship as faithful, as constant in love.

"What is that mother?" The eagle, boy!
Proudly careering his course of joy;
Firm, on his own mountain vigor relying,
Breasing the dark storm, the red bolt defying,
His wing on the wind, and his eye on the Sun,
He swerves not a hair, but bears onward, right on.
Boy, may the eagle's flight ever be thine,
Onward, and upward, and true to the line.

"What is that, Mother?" The swan, my love!
He is floating down from his native grove,
No loved one now, no nestling nigh,
He is floating down by himself to die;
Death darkens his eye, and unplumes his wings,
Yet his sweetest song is the last he sings.
Live so, my love, that when death shall come,
Swan-like and sweet, it may waft thee home.

THE SAILOR'S GRAVE.

Not in the church-yard shall he sleep
Amid the silent gloom,
His home was on the mighty deep,
And there shall be his tomb.

For him break not the grassy turf,
Nor turn the dewy sod,
His dust shall rest beneath the surf,
His spirit with his God.

He loved his own bright deep blue sea,
O'er it he loved to roam,
And now his winding sheet shall be
That same bright ocean's foam.

Though sea and sky fierce war would wage,
And bellowing thunders roll,
He heeded not the tempest's rage,—
'Twas music to his soul.

He acted well the sailor's part
So generous and brave,
And boundless as his noble heart,
So wide will be his grave.

No village bell shall toll for him
Its mournful solemn dirge,
The winds that chant a requiem
To him beneath the surge.

"OF SUCH IS THE KINGDOM OF HEAVEN."

A blind old beggar, with his hat in hand
Neglected by the busy passers-by,
I noticed shyly at a corner stand,
With moisture falling from his sightless eye.
A child came by—a laughing little creature—
With joy and innocence in every feature,
Skipping forth gaily to an apple stand,
She saw the beggar and became less gay;
Then flung the bit of silver in her hand
Into the old man's hat, and ran away.

ANECDOTES.

One of those meddling gentlemen, who, like Thomas of old, are never satisfied until they have put their finger on every thing they see, was not long since observed by a friend with his hand 'done up,' to use an every day phrase, in some half a dozen handkerchiefs. He accosted him with the usual question.

"What ails your hand?"

"Why," said he, "'tother day I went into the mill to see 'em saw clapboards, and I saw a thing whirling round so swift, and it looked so smooth and slick that I thought I'd *just touch* my finger to it, and see how it felt, and don't you think it took the *end* of it right off, and they hollored out, You mustn't touch that, it's the *circular* saw that saws all the clapboards; but they spoke half a second too late—the end of my finger was gone and I never seed it since."

"These are excellent oysters,' said a lady the other evening. 'Indeed,' said a friend, 'I am surprised to hear you say so; for I have observed you *running them down* this half hour.

The following incident is said to have occurred in the counting room of a merchant in New York city. A number of gentlemen, for the lack of other subjects, were each stating what use he would make of money if he was wealthy. A clerk in the establishment stood by and said nothing. At a pause in the conversation, one turned to him and said: 'Well, Jim, if you were rich, what would you do?' 'I would ask Mr. ——, for his daughter Mary.' 'Mr. ——,' looked surprised; the bystanders saw the object, and lent a hand, and Jim has the prospect of having both his wishes gratified—wealth and Mary.

A minister in Vermont has forbidden any one to play a violin in his church. He says, however serious his thoughts may be, the moment he hears a fiddle, he goes to thinking *how he used to dance!*

My son, hold up your head, and tell me who was the strongest man?'

'Jonah.'

'Why so?'

'Cause the whale couldn't hold him, after he got him down,'

'That's a man—you needn't wear a night-shirt any longer.'

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Hancock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges lodged the horrors and lowness of spirits. Mr. Krauth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Pain Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York.

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; R. Gleason, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

June 28. tf

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, 'if one of those miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educated and experienced Physician, rather than the precarious and dangerous doings of Quacks and inexperienced Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICORD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10; sent to all parts of the Union. Office and consultation rooms,

MISCELLANY.

THE LITTLE LOST SI

Chapter I.

What a musical shriek! Henry was wandering through a noble weste at sunset, when the sound startled h profound reverie, and looking up, he a distance a young girl, motionless ror, gazing, as if fascinated, upon an snake, apparently just coiled for a spri ry raised his hunting rifle, aimed, fired monster lay writhing in the agonies But whither had the wood nymph She was nowhere to be seen; and, v disappointed, the young man wand He had caught but a glimpse of a and picturesque looking creature, w gazelle-like eyes and parted lips, her s hair and snowy robe floating in the bre her hands clasped in terror.

He hurried forward, hoping be mig take her. Suddenly he sees a priz path, and stoops to take it up. Wh be? Is it a bracelet? A ribbon? No, gentle guesser, it is a little black per, of the daintiest and most graceful tions imaginable. Harry was sure should overtake her, for she must li thing! with that little shoeless foot indeed, she had wings, which he wa afraid she had.

Suddenly he came upon two paths, from the one he was in. Here was ma—which should he take? The rig left? There was no time to lose. the right, which proved the wrong, for it led straight to a great pond in th of the wood, and left our unlucky one of two alternatives, to drown hi pointment in the tempting water, or t his steps and try the other. With an ened wisdom, and a profound moral which did him honor, our hero chose t and that led to his own home in th where he ought to have been at le quarters of an hour before, and not h every body was there for dinner. U whole, though, it would have been bet had staid away altogether; for he po water into his aunt's plate, instead of bler, and put mustard into her tumble of her plate, and when she asked to l newspaper, took out of his pocket the shoe, and placed it gravely in her ou hand.

"Harry Fielding, what upon airth and what in the world is this?" excl astonished old lady, peering into his her little gray eyes, from which sh moved the spectacles to wipe them.

Harry replied by seizing the shoe ing out of the house. On he wen street and down another, looking i the fairy foot of the forest Cinderella.

As he approached the Inn of the saw entering the stage-coach, which ready to start, a lady thickly veiled, elegant travelling dress. Harry ra with a sudden misgiving. One litt its neat black gaiter boot, was alre step—she sprang lightly in—the doo the driver cracked his whip, and ere reached the spot, the coach was half the street.

It was she! he was sure of it. gone, perhaps forever! and Henry sauntered listlessly on, humming "W dull town to me?" and looking as not a friend in the world.

Chapter II.

"Are you looking for anything, m low?" said Charles Seaton, meetin in Chestnut street, about a month af currence of the incident mentioned chapter.

MISCELLANY.

THE LITTLE LOST SHOE.

Chapter I.

What a musical shriek! Henry Fielding was wandering through a noble western wood, at sunset, when the sound startled him from a profound reverie, and looking up, he beheld at a distance a young girl, motionless with terror, gazing, as if fascinated, upon an immense snake, apparently just coiled for a spring. Harry raised his hunting rifle, aimed, fired, and the monster lay writhing in the agonies of death. But whither had the wood nymph flown? She was nowhere to be seen; and, vexed and disappointed, the young man wandered on. He had caught but a glimpse of a youthful and picturesque looking creature, with wild, gazelle-like eyes and parted lips, her soft, dark hair and snowy robe floating in the breeze, and her hands clasped in terror.

He hurried forward, hoping he might overtake her. Suddenly he sees a prize in the path, and stoops to take it up. What can it be? Is it a bracelet? A ribbon? A ring? No, gentle guesser, it is a little black kid slipper, of the daintiest and most graceful proportions imaginable. Harry was sure now he should overtake her, for she must limp, poor thing! with that little shoeless foot; unless, indeed, she had wings, which he was almost afraid she had.

Suddenly he came upon two paths, diverging from the one he was in. Here was a dilemma—which should he take? The right or the left? There was no time to lose. He chose the right, which proved the wrong, after all; for it led straight to a great pond in the depths of the wood, and left our unlucky friend but one of two alternatives, to drown his disappointment in the tempting water, or to retrace his steps and try the other. With an enlightened wisdom, and a profound moral courage, which did him honor, our hero chose the latter, and that led to his own home in the village, where he ought to have been at least three quarters of an hour before, and not have kept every body waiting for dinner. Upon the whole, though, it would have been better if he had staid away altogether; for he poured the water into his aunt's plate, instead of her tumbler, and put mustard into her tumbler instead of her plate, and when she asked to look at the newspaper, took out of his pocket the poor little shoe, and placed it gravely in her outstretched hand.

"Harry Fielding, what upon airth ails you and what in the world is this?" exclaimed the astonished old lady, peering into his face with her little gray eyes, from which she had removed the spectacles to wipe them.

Harry replied by seizing the shoe and rushing out of the house. On he went, up one street and down another, looking in vain for the fairy foot of the forest Cinderalla.

As he approached the Inn of the village, he saw entering the stage-coach, which was just ready to start, a lady thickly veiled, in a very elegant travelling dress. Harry ran forward with a sudden misgiving. One little foot, in its neat black gaiter boot, was already on the step—she sprang lightly in—the door closed—the driver cracked his whip, and ere our hero reached the spot, the coach was half-way down the street.

It was she! he was sure of it. She had gone, perhaps forever! and Henry Fielding sauntered listlessly on, humming "What's this dull town to me?" and looking as if he had not a friend in the world.

Chapter II.

'Are you looking for anything, my dear fellow?' said Charles Seaton, meeting a friend in Chesnut street, about a month after the occurrence of the incident mentioned in the last chapter.

'What large feet you Philadelphians have?' was the rather irrelevant reply.

'Large! *au contrarie*—they are famous for their small ones.'

'Well, here is my model,' said the other, sighing deeply, and taking from his pocket a tiny kid shoe.

'That is, indeed, a trifle light as air!' exclaimed Seaton. 'Introduce me to the sylph who owns it—and I will take you to see la belle Julie this very evening.'

'Hang la belle Julie! Haven't I been wasting a whole month in search of the foot to which this little slipper belonged?' And Fielding proceeded to relate the history of his adventure with the wood-nymph.

'And you acknowledge you have wasted a month in this ridiculous search? Take my advice, Harry, resume your law studies at once, and forget your wood-nymph as fast as possible. What would your father say if he knew of this romantic folly?'

Harry colored a little at this frank reproof from his open hearted friend; but after a moment's pause, he replied sadly—'You are quite right Charles; but if you knew what a beautiful dream I resign, in adopting your advice, you would not wonder at my reluctance.'

He did resume his studies; but he could not quite forego the lone and lovely hope which gleamed like a morning star in the heaven of his future, and now and then a vision of an exquisite foot, pure and white as alubaster, would glance across the dull, dry page of Coke upon Littleton, or put even Blackstone to the blush.

Chapter III.

'Mamma! darling mamma! you are suffering for a thousand things—do let me go.'

'Yes, my sweet child, you must indeed go now. I fear I have already delayed too long. But you will have a quarter's salary in advance, and that will more than discharge the few debts we have incurred. Go now, dear, while I dare let you go.'

Julia St. George repressed her starting tear, tied on her little crape bonnet, (she was in mourning for her father,) kissed the pale cheek of the invalid, and set forth on her errand with a beating heart. She had been offered the situation of governess in the family of Mrs. Beaumont, a banker's widow, and she was going to accept it.

Mrs. Beaumont received her with a cold hauteur, calculated to chill her into humility. Her eldest daughter, a delicate, aristocratic looking beauty, languidly raised her glass, surveyed her for a moment, then let it drop, and resumed her book. But both felt in an instant the superiority, the innate nobility of the person upon whom they affected to look down.

Dressed in deep mourning and with the most tasteful and and graceful simplicity, her dark hair parted plainly on her brow, her beautiful face radiant with spirit, feeling and intellect, Julia St. George walked calmly up the room, bending her head with perfect self-possession, in return for the haughty greeting of Mrs. Beaumont, while the slightest perceptible curve of her lovely lip betrayed her consciousness of the manner in which she was received. The lady pointed to a chair—the visiter seated herself with provoking composure.

'You have come, I presume, Miss St. George, to say you accept the situation I proposed to you.'

'I have, madam,' was the reply, in a low, calm, but most musically modulated voice, 'and I should like to enter upon my duties at once, if agreeable to you.'

Mrs. Beaumont hesitated—Miss St. George was evidently not a person to be put down—and her serene dignity, the result of self-respect which that lady could neither understand nor appreciate, might possibly prove troublesome—but then on the other hand, the example of her evident high breeding would be invaluable in forming the manners of her hitherto untameable little Angela, while her attainments were such as rarely to be met with, even in a governess.

'I will let you know in the course of a week,' she said at last.

'I am sorry, madam, to disoblige you,' said Julia, as quietly as before; 'but I cannot wait a week for your decision. It is necessary that I should secure a situation of some kind immediately.'

'Oh, very well; if you are in such haste, perhaps you had better look elsewhere.'

'Good morning, madam!' said Julia, rising at once.

'Stay,' said the lady, hastily, 'upon the whole I think you will do. You may come to-morrow, if you like.'

Miss St. George calmly bowed her assent and was about to leave, when a wild, graceful little creature burst into the room, exclaiming—'I *will* see the governess!" Her white, embroidered frock was torn and soiled, a profusion of soft, glistening, amber colored hair, in the utmost disorder clustered around a pale, but singularly lovely countenance. The large dark, Oriental eyes were instantly cast down at meeting those of the stranger, their long jet black lashes resting with a slight curve on the colorless cheek beneath; the full, yet delicate lips were of the richest red imaginable, and her attitude of unconscious, childish grace was charming as she stood for a moment, silently twisting in her pretty fingers the ribbons of a gipsey hat. The next instant, however, she looked up again into the eyes which had awed her at first, for Julia had lingered in the room absorbed in surprise and admiration, and seeming to gather courage from their expression of interest, the child went timidly up to her, and climbing into her arms, whispered half aloud—

'Will you love me very much, and praise me all the time; and never, never punish me?'

'I cannot promise *all* you ask, darling—began Miss St. George—

'Angela, I am ashamed of you!' exclaimed Mrs. Beaumont; 'you are always making scenes! Go to your room and have your hair brushed, and your dress changed immediately.'

Angela pouted and clung to the neck of her new friend; but Julia kissed the pout away, and putting her gently down, repeated her good morning to the stately lady of the mansion and her indolent daughter and departed.

Chapter IV.

'Oh, mamma! she is beautiful and so affectionate—I shall be very happy, I know.'

'Is she, dear? Then I must confess I am agreeably surprised; I have always understood that she was very cold hearted, and any thing but beautiful.'

'What! Angela?'

'Who is Angela? I was speaking of Mrs. Beaumont.'

Julia laughed and shrugged her pretty shoulders; she had forgotten all the unpleasant occurrences of the morning, in the delight with which she thought of the lovely and loving little girl who was to be confided to her care.

Chapter V.

'If you can manage *that* child,' muttered the nurse, as she consigned Miss Angela to her new governess the next morning, 'you will do more than any one else ever did, that's all *I've* got to say.'

'I will tell you a secret, if you will promise *never* to tell,' whispered the child to Julia, as the door closed upon the nurse.

'But I cannot promise never to tell, dear, for that would be wrong.'

'Well, then, you *may* tell, if you like; but I know you won't. You see, the reason you can't manage me is because I *try* to be naughty before mamma and nurse!'

'Oh, Angela! I am sorry for that. Why do you do so?'

'Because they make such a fuss about every little thing. I like to hear them scold—it's so funny. Besides, they never let me have any peace except when they shut me up, and then I have real good times, all by myself, in the little bedroom next to the nursery. They shut me up once in the dark closet, but I didn't like that, because I couldn't do anything there; so I screamed as loud as I could, and they thought I was frightened but I wasn't a bit; and now they always put me in the little room, and I pull the clothes off the bed, and make it up again all nicely, and then I take off my apron and dust the chairs with it; and sometimes I climb upon the bureau, and play fish with a bent pin and a piece of thread. Oh! it's real fun to be punishsd! I wish mamma would punish you and me together sometimes, and we'd have grand times playing fish! But I suppose grown up people never *need* punishing. They are always good—aint they? Mamma never seems to think she ought to be shut up. Did you ever play fish?'

'Yes, dear, when I was a little girl. But can't you have good times without being naughty first, Angela?'

'No, indeed! They won't let me do *any* thing I want to. They say I mustn't climb, for fear I shall tear my clothes; and I mustn't run, for fear I'll get heated; and I mustn't read much, for fear I should make my head ache; and I mustn't sew, for fear I shall stoop. They don't want me to do anything out of school hours, but just sit up stiff 'like a lady.' Why should I be like a lady, when I aint a lady! I'd rather be a child, and be *like* a child—hadn't you? I don't think ladies are half as happy as children—do you? Oh, dear! if I only had something to do all the time, I don't believe I should ever be naughty or unhappy either—*that's* all I want, *something to do*! Do all little girls have a mamma at home that keeps plaguing them and fussing over them?'

Alternately surprised, amused, and grieved as the little indefatigable chatterbox thus ran on, Miss St. George saw the difficulty of the task before her. She saw the weeds and flowers struggling together in that rich but neglected garden, her pupil's heart; and she felt how difficult it would be to destroy the one without injuring the other. But she resolved to bend her whole energies to the work, and she was sure to succeed in time.

In the course of two or three months, the little Angela visibly improved. Her hair and dress were not often out of order; she was seldom disobedient or disrespectful, to her mother or her nurse; and, if she was *ever* so, a word or a look from Julia had the desired effect. Passionately fond of books and of her teacher, there was no fear that her intellect would be neglected. The great difficulty seemed to be to keep her ever restless imagination in check; without any companions of her own age, she was in the habit of surrounding herself at her studies and her play with the creations of her fancy to whom she gave the most romantic and high sounding names she could make up for the moment. These little visionary friends she would address in terms of endearment, reproach, or expostulation, reply for them, and carry on the conversation until she forgot they were unreal.

One morning she was sitting in the school room, surrounded by empty chairs, in each of which she had placed a little invisible schoolmate, and was asking them, in turn, to spell all the hard words she could call to mind, when her sister entered to speak to the governess, and ignorant of the mischief she was doing, seated herself in one of the 'tabooed' chairs. The little girl, excited by her interesting play burst into a passion of tears, exclaiming, 'Get up, quick! quick! You will kill that darling Cariella!' and flying to her astonished sister, endeavored to pull her from the chair.

Julia now saw for the first time, the evil tendencies of this habit, and fearful almost for the *reason* of her charge, begged Mrs. Beaumont to allow the child real flesh and blood playmates.

Chapter VI.

But what have we done with our hero? Has he found the little lost foot yet? No! he has almost given it up; but he has become an attache to a foreign embassy, and is quite a pet among the higher circles in Europe, where a true, frank, honorable and intelligent American is always received with favor.

Mrs. Beaumont, her daughter Victoria, and niece Miss Adelaide Sinclair, were in 'perfect ecstacies,' for George, the only son, who had just returned to England, from a continental tour, was expected home to pass the Christmas holidays at their country seat and was to bring with him the wealthy, talented and distinguished Henry Fielding, and his pleasant friend, Mr. Saeton.

Julia St. George had gradually become a favorite in the family. Once secure of a position among them worthy of her talents and refinement, she was quite willing and ready to unbend, and to make herself agreeable and obliging to all. The young ladies soon discovered that nothing could be done without the assistance, the advice, the sympathy of little Angela's tasteful and kind-hearted governess, and even the cold and stately mother felt her heart soften toward one who had devoted herself so tenderly and so successfully to the improvement of her child.

On the day of their arrival, the young men did not linger long over their wine after dinner; for George was anxious to renew an old flirtation with his spirited cousin; Seaton had heard much of Victoria, and Fielding always enjoyed the society of an intelligent and interesting woman more than anything else.

Adelaide Sinclair was a brilliant, playful, pretty and saucy coquette. Her cousin, Victoria, a dainty and delicate creature, indolent, graceful, and gentle, partaking somewhat of the cold and calm pride which was the prevailing characteristic of her mother. When the gentlemen entered the drawing room, Adelaide was arranging a ringlet at the glass, Victoria, half reclining on a sofa, embroidering a velvet slipper, and in a distant corner, looking over a book of prints, the governess and young charge, who had been allowed to sit up in honor of her brother's arrival. Mrs. Beaumont had retired, fatigued with unusual excitement.

Fielding seated himself near Victoria, and admired her work. 'It is for a friend,' said she; 'isn't it a tiny shoe?'

'I think I can show a smaller one,' said Fielding, and impelled by sudden impulse, he drew from his bosom, the little kid slipper of his wood-nymph.

Adelaide caught it playfully from his hand. 'A prize—a prize!' she exclaimed, trying to hold it up out of his reach. 'As I live, here are verses on the sole of it! Listen, good people,' and she began—'Little treasure, light and—'

'Nay!' remonstrated Fielding, in the same gay tone, 'no one shall read the verses who cannot wear the shoe.'

Adelaide's satin slipper was off in a moment but the shoe was too small; she tried in vain to squeeze her pretty foot into it.

'Come, Vic,' said her brother, 'let me try it on you—if it don't fit somebody, we shan't have the verses.'

Victoria languidly put out her foot, but in vain, it would not fit.

'I know somebody it will just suit,' exclaimed little Angela, in an eager tone. 'Miss St. George has the cunningest foot in the world, only she never shows it.' Fielding drew the beautiful, earnest child toward him, and Adelaide flying to the governess, dragged her forward, laughing and blushing, into the circle.

'La belle Julia! by all that's wonderful,' exclaimed Seaton, in a low tone, as they approached.

'Hang la belle Julia!' murmured a sweet and playful voice, and the next moment the young governess was cordially shaking hands with her well remembered friend, Mr. Seaton, who could scarcely believe his eyes or his ears.

'Introduce me,' whispered Fielding.

'Miss St. George—Mr. Fielding. Years ago, in America, my friend was promised this introduction.

'Yes, and I happened to hear his polite reply to your proposition,' said the lady laughing.

'What was it?'

'To the best of my recollection, it was, 'Hang la belle Julia!' I walked into a shop to avoid hearing the rest of his courteous adjuration. What had I done to deserve hanging, Mr. Fielding?' she asked, turning gaily towards him, with her lovely smile.

'Oh! stop! no matter what you had done. Don't you see that the poor man is out of his wits with consternation? Try the shoe at once—there's a dear! and let us hear the verses. They ought to begin—'Sole of my soul,' but men so seldom pay a graceful compliment.'

Fielding was perfectly enchanted with 'la belle Julia.' He gave but one sigh to his wood nymph, and, sure that his verses were safe, for many a belle had tried the shoe in vain, he said, 'Yes, Miss St. George, prove that you generously forgive my thoughtless folly, by putting on the slipper.'

As Julia took the shoe from his hand, she started, colored deeply, and gazed from it to him with a bewildered look, which was infinitely amusing to all but our awakening hero.

That look! he felt a strange thrill as he met it! Could it be? 'Pray try the shoe on at once,' he exclaimed in an agitated voice.

Miss St. George had recovered her self-possession. Seating herself, she drew the shoe with graceful ease upon her perfect little foot and looked up into Fielding's eyes; such a look! so eloquent, so full of wonder, joy and gratitude, that his wild hope changed at once into conviction. He had found her at last! His wood-nymph! his Cinderella! his morning star.

Adelaide clapped her hands in ecstacy. 'The verses—the verses! read the verses, Miss St. George. It fits exactly! I should think it was made for you! The verses! we *will* have the verses!'

And poor Julia was obliged to read in her low soul-toned voice, the lines on the sole of the shoe:

Little treasure! light and airy,
Didst thou clasp the dainty foot
Of a wandering woodland fairy,
Flying from a sylph's salute?

Or did some young mortal lace thee,
Tripping with elastic tread,
All too softly to deface thee,
Where her sweet wild fancy led!

Tell me what her woman passion?
Was't to bend thy graceful sole,
In the gay saloons of fashion,
While along the dance she stole?

Or through upland glen and valley,
Hast thou pressed the happy flowers!
Tell me, did she love to dally,
'Mid the fragrant woodland bowers?

Did the prairie blooms caress thee,
Breathing balm around thy tread?
So the *heart* where now I press thee,
All the wealth for her shall shed.

'I should judge from all I see and hear,' said Seaton, in a sly, demure tone, 'that Miss St. George could show, if she chose, the mate to this wonderful shoe.'

'Oh, what is it?' exclaimed the lively Adelaide. 'There is some romance attached it. I know. Tell us all about it, Mr. Seaton—there's a nice man.'

The story was old, the mate was brought down, and slyly exchanged in the course of the evening with Fielding for that he had cherished so long, and Julia was persuaded, ere many months had elapsed, to leave her pet Angela, and reward with her hand, and her heart in it, the untiring devotion of her lover.

MORAL COURAGE.

Have the courage to face a difficulty, lest it kick you harder than you bargain for. Difficulties, like thieves, often disappear at a glance.

Have the courage to leave a convivial party at a proper hour for so doing, however great the sacrifice; and to stay away from one, *upon the slightest grounds for objection*, however great the temptation to go.

Have the courage to do without that which you do not need, however much you may admire it.

Have the courage to speak your mind when it is necessary that you *should* do so, and hold your tongue when it is better that you should be silent.

Have the courage to speak to a poor friend in a seedy coat, even in the street, and when a rich one is nigh. The effort is less than many people take it to be, and the act is worthy a king.

Have the courage to admit that you have been wrong, and you will remove the fact from the mind of others, putting a desirable impression in the place of an unfavorable one.

Have the courage to adhere to a first resolution when you cannot change it for better; and to abandon it at the eleventh hour, upon conviction.

Have the courage to cut the most agreeable acquaintance you possess, when he convinces you that he lacks principle "A friend should bear with a friend's infirmities"—not his vices.

Have the courage to wear thick boots in winter, and to insist upon your wife and daughters doing the like.

Have the courage to thrust your legs down between the sheets in cold weather; and to shave every day before breakfast.

THE BIBLE.

The bible is the only book which God has ever sent, the only one he ever will send into this world. All other books are frail and transient as time, since they are only the registers of Time; but the bible is durable as eternity; for its pages are the records of Eternity. All other works are weak and imperfect, like their author, man; but the bible is replete with infinite power and perfection, like its author, God. Every other volume is limited in its usefulness and influence; but the bible came forth conquering and to conquer.

The bible only, of all the myriads of books the world has seen, is equally interesting and important to all mankind. Its tidings, whether

of peace or of woe, are the same to the poor, the ignorant and the weak, as to the rich, the wise and the powerful. Among the most remarkable of its attributes is justice; for it looks with impartial eyes on kings and on slaves, on the chief and on the soldier, on philosophers and peasants, on the eloquent and the dumb. From all it exacts the same obedience to its commandments, promising to the good the reward of their loyality, but denouncing to the evil the awful consequences of their rebellion.

Nor are the purity and holiness, the wisdom and benevolence of the scriptures less conspicuous. In vain may we look elsewhere for true models of character, for the models of the husband and the wife, the parent and the child, the the patriot and the scholar, the philanthropist and the christian, the private citizen and the ruler of the nation. Whatever shall be their respective lots, whether poverty or wealth, prosperity or adversity, social influence or solitary station, the bible is their only fountain of truth —the only source of virtue and greatness, of honor and felicity.

Here, then, let us repose our trust—here let us look for our beacon of safety: and whether sunshine or gloom, the storm or the calm, the beauty and wealth of spring, or the nakedness and desolation of winter be our portion.—supported and guided by the bible, all *must* be well with us in TIME, for all *shall* be with us in ETERNITY.—*Grimke.*

REWARDS OF GENIUS. In the reign of James I, Hugh Myddleton, an ingenious man, undertook to bring a river of pure water above thirty-eight miles out of its natural course for the supply of London. He persevered in this immense undertaking, in spite of every difficulty, till he at last accomplished that great good which he had proposed, of bringing wholesome water to every man's door. "At the present time the New River, which was the work of Hugh Myddleton, supplies thirteen millions of gallons of water every day; and though the original projector was *ruined by the undertaking*, in consequence of the difficulty which he had in procuring proper support, such is now the general advantage of the benefit which he procured for his fellow citizens, and so desirable are the people to possess that advantage, that a share in the New River Company, which was at first sold at one hundred pounds, is now worth fifteen thousand pounds."

William Lea, a clergyman, invented the first stocking machine in 1589. Before that, none but the rich wore stockings. Lea made a pair of stockings by the frame before James I; but there was such a prejudice against his idea, that he found no encouragement. He went to France, where finding no better success, *he died of a broken heart.*

WALKING—is the most perfect exercise for the human body, every artery from the heart to the extremities, propels the blood quickly and more equally in walking than in any other exercise. The blood is drawn from the head and upper parts, where it is most slow and languid, and is circulated with rapidity to every part.

For the Quincy Patriot

LETTER FROM BOSTON.

BOSTON, July 17, 1845.

The weather is extremely warm, and hundreds are daily deserting our city. The Thermometer to-day has mounted *one hundred* deg. in the shade, and I don't believe the Bostonians ever suffered more with the effects of the summer solstice, than we have experienced since July has come in. Several deaths have occurred lately in New York, by the extreme warm weather, but I have heard of none in our own city.

There is a great rush at Saratoga, from all parts of the Union. Nahant, Higham, and many other places in the vicinity of this goodly city, are crowded with Bostonians, and not a few Gothamites. When your old Colony Rail Road is completed, if I mistake not, Quincy will be a great place of fashionable resort in the summer months, lined, as you are, most magnificently, by the ocean, on the western and eastern borders of your beautiful town. Look out for a second Higham and Nahant at Squantum and Germantown.

A grand and extensive *Regatta* comes off at Nahant on Saturday next, which, it is said, will surpass any thing of the kind that has taken place for many years. About a dozen yatchs and a half dozen pilot boats, belonging to this port, will enter, and a number are expected from New Bedford and New York. It will be a great day with boat racers.

R. B. Forbes, Esq., formerly, if not now of Milton Hill, is building a beautiful steamer, which will be launched probably next Monday, which is to be fitted out as fast as possible, to sail in company with the Great Britain from New York. She is truly a splendid ship. Mr. Forbes intends taking the command of her himself, at least the first voyage.

The steamer Acadia, Capt. Harrison, left on Wednesday afternoon of this week for Halifax and Liverpool, with *one hundred and seven* passengers and a large mail Among the passengers are Hon. Mr. McLane, (lady, three daughters and son,) our new Minister to the British Court, to succeed Hon. Mr. Everett.

Our advices from Washington, the past week, are interesting and important. The probability that Mexico will soon declare war against the United States—such are the private advices from Major Donalson, the American Charge in Texas—and *our Government is now acting in view of this contingency.* Cabinet meetings daily, &c.

Our Secretary of State and the British Minister are conferring together about the vexed Oregon question. It is clear that a negotiation is going on in good earnest. It is reported to-day here that Mr. Buchanan has resigned, and Andrew Stevenson appointed in his stead. The rumor wants confirmation.

Caleb J. McNulty, late Clerk of the United States House of Representatives, charged with embezzleing the public funds, bids fair to be honorably acquitted, and once more restored to society.

Let me close this letter of odds and ends by sending you some extracts from the Washington Union, of July 12th, which will give your readers a good idea of the Administration—its progress and its policy. It is now four months since Mr. Polk assumed the seals of office, and entered upon the discharge of the weighty responsibilities to which he was called by his countrymen. The Union says:

"Our foreign relations have occupied no inconsiderable portion of his time. He is, emphatically, a working President, and he has been most fortunate in having around him a talented, harmonious, and working cabinet. To his energy, wisdom, and forecaste, is the country, in a great measure, indebted for the speedy, harmonious, and glorious consummation of the annexation of Texas to the United States, according to the terms prescribed by the resolutions of Congress. A strong naval force was promptly placed in the Gulf of Mexico, and the army in the Southwest concentrated on the Sabine; thus giving assurance to the Texian people that, so soon as annexation was accepted by them, they would be under the protection of our flag. The naval force diplayed off Vera Cruz gave a distinct and significant indication to Mexico, that at the same time our desire was peace, and the strict observance of our treaty obligations with that power, we were prepared to resist the aggressive measures which Mexico threatened in the event of Texas accepting the terms of annexation proposed by our Congress.

It is difficult to estimate the influence which these energetic measures of the administration produced in deterring Mexico from making any hostile movement, as well as in giving confidence to Texas that she would be protected and defended in giving her assent to the union. These measures have, undoubtedly, essentially aided our Charge d'Affaires, Mr. Donelson, in thwarting and defeating the intrigues and officious intermeddling of the British Minister, who labored, with a zeal worthy of a better cause, to defeat annexation. Every movement of the British and French Ministers, especially the former, the sudden and unexplained departure of the Texan Secretary of State (Mr. Ashbel Smith) on his mysterious mission to England, was watched by the government at Washington. The instructions given to Mr. Donelson, and the skill and ability of that minister, have completely frustrated and destroyed all the intrigues of the enemies of annexation, whether foreign or domestic.

* * * * * * *

This is the only question, foreign or domestic, which has been brought to its conclusion during the four months of the administration which have elapsed.

We may, however, confidently assure the public, that the same vigilance has been observed in all our foreign relations with other countries.

* * * * * * *

Until the meeting of Congress in December, no appropriate opportunity will be afforded to Mr. Polk to declare his whole policy, foreign or domestic. The public, however, are not left to vague conjecture as to what it will be.

* * * * * *

Having, in a self-sacrificing spirit, announced his determination in advance to serve but a single term, there is no future, in politics, for him, beyond that period. He has, therefore, no personal ambition to gratify; and his whole aim, we are sure, is to serve his country faithfully and leave his principles, when he retires to private life, in the ascendant."

QUINCY PATRIOT.

SATURDAY, JULY 19, 1845.

John A. Green, Editor.

ECCLESIASTICAL. Rev. Richard S. Storrs, jr., a son of Rev. Dr. Storrs of Braintree, has received and accepted the unanimous invitation of the Harvard Congregational Society, in Brookline, in this State, to sojourn with them as their minister. If he possesses the zeal, talents, and eloquence of his father, he will be indeed "a bright and shining light" to conduct his flock in the paths of pleasantness and peace.

CALL AND SEE. A friend informs us that Wade & Wildes' house of entertainment, in Wilson Lane, Boston, answers the expectations of those qualified to judge, from their experience in the matter. Their rooms are neat, cool, and comfortable—every delicacy of the season furnished—attendants ready and polite. The most fastidious epicure cannot fail to be satisfied with the fare, and the manner of its preparation.

MYSTERIOUS. It is said that the body, or rather skeleton of a man was found on Sunday last, by a boy in search for his cows, in the woods near Muddy pond, adjoining the Dedham turnpike. The skull did not show marks of violence.

"OUR COUNTRY." We have received a copy of an address delivered before the cadets of the Norwich University, at their annual commencement, by Theophilus Fisk, a writer of pre-eminent abilities.

ROBBERY. The School-house in the Northern District of this town, was broken open between Friday and Monday last, and the greater portion of the School Library carried away. A reward has been offered by the Selectmen, as will be noticed in the Advertising page.

HAVE YOU CALLED? Folsom, at his place of business, in this town, drives ahead with yankee speed. Besides all the varieties usually found in a grocery store, he is supplied daily with all kinds of vegetables. He aims to accommodate the public and thus to secure a liberal share of support.

A wicked attempt was made at St. Louis, (Mo.,) to blow up the Planter's House. A train of saturated cotton was laid to one of the small cellar windows to a barrel of spirits of turpentine and a barrel of spirit gas, and on the window sill, at the termination of the train, a quantity of powder was scattered.

A New York paper says that men doing business in Boston, can ride out of town in seven different directions, and go home to dinner by rail-road and not be absent more than two hours.

In St. Louis, a secret police has been in operation for some time, and has resulted well in the prevention of crimes there, it is said.

Decaying, or green fruit should be avoided at this season of the year. There is a lurking death in each. "Touch not, taste not, handle not."

A land turtle was discovered on a farm near Blackwoodtown, (N. J.) a short time since, which was marked "D. C. 1743," supposed from the initials to have been marked by the father of the present occupant of the farm, and according to the date, must have been over one hundred years old.

It is said that a spoonful of horseradish put into a pan of milk, will preserve the milk sweet for several days, either in the open air or in the cellar, while other milk will sour.

A celebrated traveller, in Egypt, says the rich Hassan Dey, has forty-two wives and one hundred and ninety-seven children.

Duelling is denounced by the Grand Lodge of Odd Fellows of Mississippi. The penalty of an infringement of this act is an expulsion from the fraternity.

The Northern Volunteers, a Charleston, (S. C.) company, intend to visit New York, during the present summer. The company is of twenty-eight years standing, and many of their early members are now residents of the Northern cities. They propose to invite their old comrades to meet them in New York, to join the military exercises and festivities of the occasion.

A large majority of the best wines drank in this country, are manufactured in New Jersey. The claret, particularly, which is made by men who keep dying establishments, and who do not want to waste their indigo.

A Western paper has the following receipt for making muffins:—"Take three pints of flour, one pint of water luke-warm, one tea-cup full of baker's yeast, one great spool full of sugar, and one tea-spoon full of salt; make them up in the morning for tea, or at night for breakfast, and bake them in muffin rings. They are so good."

Abby Kelly, the enthusiastic devotee to abolitionism, it is said, has devoted her entire patrimony, some six thousand dollars, to the anti-slavery cause.

A census of the city of Salem, just completed, shows the present population to be 16,697. This is an increase of eleven per cent. on the population of 1836.

The quantity of wine made in France, in years of average production, amounts to nine hundred and twenty-four millions of imperial gallons, of which total, twenty-four and a half millions are exported to foreign countries.

The Legislature of Florida have adopted a new flag on the occasion of her entrance into the Union. The colors were prepared by a committee, who presented them to the Senate and the House, and they were immediately placed over the Speaker's chair. The motto is, "Let us alone."

Cassius M. Clay, distinguished for his zeal in the emancipation of the colored race, has written a letter to Horace Greeley, editor of the New York Tribune, in which he formally pledges himself never again to offer or accept a challenge, or in any manner to give duelling his countenance or support.

The editor of the Providence Journal, which paper therefore opposed the suffrage cause, has been presented with a splendid service of silver plate, in testimony of his conduct as a journalist, during the recent troubles in Rhode Island.

The slaver Spitfire, with her tackle, apparel, and furniture, has been sold at auction in Charlestown, (Mass.) by order of the United States Marshal, for three thousand three hundred dollars, cash. She is about four years old, one hundred tons burthen, and well found in sails and rigging.

American corn brooms now constitute a considerable article of export to England. A Yankee in Ohio is said to have planted this year twelve hundred acres, near Columbus, with the broom corn with a view of exporting to England the whole crop. He intends to take the wood for the handles, and go himself to England and manufacture the brooms.

At New Orleans on the 1st inst., three men came to their death in consequence of being sun struck, whilst they were at work.

A new and very destructive corn-worm has made its appearance at Martinsburg, (Va.) Its ravages have extended over an entire field, and into one of a different description of soil. Its attack is fatal to the plant.

Over four thousand barrels of mackerel were taken by the Gloucester fishermen last week.

The United States frigate Constellation, the gallant ship which won the first laurels for our infant Navy in 1799 and 1800 under Commodore Truxton, is to be metamorphosed, into a steamer. Orders have been received at the Gosport Navy Yard, to proceed immediately to make the necessary alterations for that purpose.

An old lady died recently at the West, in a fit, caused by the excessive use of opium. She grew quite fleshy before her death, but suffered much from *numbness* of arms and legs, and was much weakened. Her appetite was very poor, and her thirst very great. She slept much during the day for some months before her death, and died at the dinner table.

England raised in one year, to carry on the war with Bonaparte, six hundred and fifty millions of dollars.

An old maid in New Orleans recently hung herself on account of her love for a young man, not half her own age. It is rather hard for an old goose to die for a young gosling.

People cannot be too careful during the continuance of this warm weather, about indulging in the luxury of drinking ice water to excess, when in a free prespiration,

A distinguished flour manufacturer of New York gives it as his opinion that the wheat crop of that State will be near twice as large as that of any previous year.

In men there is a lump upon the windpipe, formed by the thyroid cartilage, which is not to be found in woman; an Arabian fable says, this is a part of the original apple, that has stuck in man's throat by the way, but that the woman swallowed her part of it down.

The following recipe is given to kill bed-bugs:—Take a quantity of whale oil, and about the same quantity of lard and tallow, simmer them a few minutes together so as they will mix. Apply the mixture with a feather or a fine brush, to the crevices and joints of the bedstead, and those vermin will not only desert the bed, but leave the room.

By different nations, every day in the week is set apart for public worship, viz: Sunday by the Christians, Monday by the Grecians, Tuesday by the Persians, Wednesday by the Assyrians, Thursday by the Egyptians, Friday by the Turks, and Saturday by the Jews,

The Governor of Ohio estimates that there are twenty million acres of land in that State suitable for cultivation, and that about nine million acres, including meadows and pasture land, are now actually cultivated. He also estimates the real property of the State, with the improvements, to be worth four hundred and twenty million dollars, and the personal and effects at one hundred and eighty million dollars, making a total aggregate of six hundred million.

An invoice passed through the Boston custom-house, the other day, written in photographic characters, and containing the regular official marks and endorsements. There were two hundred thousand letters, in photographic characters, sent through the British Post Office last year.

Captain Jonathan Walker, who has suffered imprisonment and other privations in Florida, on the charge of aiding and abetting the freedom of seven slaves, has arrived in New York.

Twelve thousand cattle passed Trenton bridge, (N. J.) eastward, from January 1st to July 1st, of the present year, principally for the New York market.

A short time since, while the workmen on the Troy and Greenbush Railroad, (N. Y.) were excavating an embankment, near Troy, the Skeletons of about twenty Indians were found, and with them, arrow heads and stone pestles, used for pounding corn.

Several persons have died suddenly within the last day or two from the effects of this unusually hot weather. Among them was a servant girl in New York. She fell dead while carrying a plate across the kitchen.

A gentleman was recently killed in a duel in England, and the coroner's jury returned a verdict of wilful murder against both principals and the seconds.

An Alligator, twelve feet long, escaped from a box at Brooklyn, (N. Y.) the other day, and made for the East river, where he is now enjoying his freedom.

In New York money is abundant at five per cent., with but little inquiry even at that rate.

It is estimated that there are now in progress of erection, within the limits of Pennsylvania, about one hundred new iron furnaces.

The inhabitants of Mayenne, (France,) the birth place of Bishop Cheverus, have erected a magnificent statue, in commemoration of that great and good man.

The principles that have influenced us, in our articles on the means of restoring the Consumptive, or those afflicted with similar complaints, must be appreciated as arising wholly from the desire of doing good. We wish not, or will not step aside from the routine of our avocations, to bolster any of the unblushing quackery of the age. We esteem the Health Restorative of Mr. C. Brinckerhoff, as a preparation far removed from that class. Its astonishing cures interest us, and we wish every afflicted person to make one fair and prompt trial of it. 14

MARRIED.

NOTICES.

William Lloyd Garrison will lecture on Peace, next SUNDAY EVENING, in Tenean Grove, near Neponset Village, Dorchester. Friends from neighboring towns are invited to attend. If the weather is not pleasant, the meeting will be postponed.
H. W. BLANCHARD

The friends of freedom in Milton intend meeting together on the 1st of August, at ten o'clock in the Milton Town House, to commemorate the Emancipation in the West Indies. Friends of the slave in neighboring towns are earnestly requested to attend. Good speaking and good music may be expected. All persons are requested to bring with them sufficient provision for the day.

The Union Meeting of the two boards of Officers of the Washington and Total Abstinence Societies, will be held at the Temperance Reading Room, over Mr. Gill's Bookstore, next MONDAY EVENING, at half past seven o'clock.
T. KELLOGG, *Rec. Sec'y.*

A public, social Temperance Meeting will be held in the Temperance Reading Room, THIS EVENING, at half past seven o'clock.
Ladies and gentlemen are respectfully invited to attend.
N B. All persons who may hereafter be guilty of the disgusting practice of disturbing the peaceable and interesting exercises of the public, social temperance meetings, may expect to be noticed by an efficient Committee appointed for the purpose. It is hoped that all such will save themselves the mortification of being publicly exposed and dealt with for misconduct.
Per order of the Union Board,
T. KELLOGG, *Secretary.*

The Selectmen of Quincy, hereby give notice that they will be in session, at their room in the New Town House, the last SATURDAY in each month until further notice, from *two* to *five* o'clock in the afternoon. All persons having business with the Town are requested to pre sent it on said days.
BRYANT B. NEWCOMB,
JOSEPH W. ROBERTSON,
LEVI G. FOLSOM.

First of August in Norfolk County.

The Abolitionists in Norfolk County are hereby informed that, in compliance with the request of the General Agent of the Massachusetts Anti Slavery Society, the Board of Managers of the Norfolk County Anti Slavery Society have selected DEDHAM as the most suitable place for the celebration of the great event of West India Emancipation. The members and friends of this Society, and the Massachusetts Society and its auxiliaries, and the public in general, are cordially invited to assemble at the Town Hall, in Dedham, on FRIDAY, *the first day of August next,* at NINE o'clock in the forenoon, whence they will march in procession to the Grove where the celebration will be held. William P. Atkinson of West Roxbury, as Chief Marshal, will have the general direction of the arrangements of the day. It is confidently hoped that the several towns in the county will send up even larger delegations than on any former occasion. Besides the topics immediately connected with the illustrious anniversary itself, our own new dangers and duties arising from the annexation of Texas and the prospect of a pro-slavery war, will be considered and discussed. Let the whole anti-slavery strength of the County be present to express their deep sense of the importance of the events that now impend to the fate of our enslaved countrymen, to our own hopes, and to those of the race.

As to the details of the occasion, the Board entirely agree in opinion with the suggestion of the General Agent, that 'the convenience of all parties will be best promoted by making this celebration in reality a Pic Nic; that is, by having no tables set and no general contribution of provision; but letting each individual or party carry their own provision, and at the proper time eat it on the grass in such plan and manner as they please.' They think that the experience of past years proves that it is impossible to distribute provisions to a large multitude, justly and satisfactorily, on the plan formerly adopted; and that a great expense of labor, time and money may be saved by the simplicity of the proposed arrangement; while at the same time, the picturesque effect of the scene will be enhanced by its adoption. The friends, therefore, who may resort to this celebration, will please to remember that they must furnish themselves with all utensils, drinking vessels, &c. as well as provisions, which they may require for their own use. *Nothing but cold water will be furnished on the ground.* When the meeting adjourns for refreshment, the company will naturally fall into groups, according to their affinities, and partake of such stores as they have provided for themselves.

A Programme of the order of procession and of the services of the day will be furnished hereafter by the Chief Marshal. Let there be a generous emulation between the different towns of the county to see which will send the largest delegation. Let all do their best to make it a proud day in their anti-slavery annals of the land!
EDMUND QUINCY, *President.*
INCREASE S. SMITH, } *Secretaries.*
ANNE WARREN WESTON, }

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs, Asthma, and CONSUMPTION is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the case of pulmonary diseases, warrants the American agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the Lungs, Bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

DAVID F. BRADLEE, sole Agent of the United States, 119 Court-street, Boston.

Quincy, June 21. tf

Administrator's Sale.

WILL be sold by public auction, on WEDNESDAY, July 23d, at THREE o'clock in the afternoon, on the premises, by order of the Court of Probate for Norfolk County, the two story Dwelling-house, with the outbuildings, and sixty-two square rods of Land upon which they stand, late the property of Edwin Whiting, deceased, pleasantly situated on Sea Street, in Quincy, and bounded otherwise on the north and east by land of the late Rev. Peter Whitney, and southerly by land of Dea. Jedediah Adams.

This property is admirably located in the centre of the population, well fenced, a fine well of water, the land in a good state of cultivation, and the house so arranged as to answer for two families.

The Estate above described presents a good opportunity for those desirous to purchase, as it is sold by order of Court and will be disposed of to the highest bidder, the widow relinquishing her right of dower.

Conditions of sale made known at that time.
THEOPHILUS W. WHITING, *Adm.*
THOMPSON BAXTER, *Auctioneer.*
Quincy, July 5. 3w

OPENING OF

Spring and Summer Goods.

THE subscriber invites the attention of her friends, and the public generally, to her new stock of Rich and Fashionable

STRAW BONNETS,

having made such arrangements with the manufacturers as will warrant her in saying that her present assortment, for quality, variety and style, far surpasses that of any previous season. In addition to the above splendid stock, she would particularly wish, may be seen a new and beautiful style of

SUMMER RIBBONS,

which having been selected with great care, cannot but give perfect satisfaction.

—ALSO—

ARTIFICIAL FLOWERS,

CONSTANTLY ON HAND.

FANCY BONNETS

made to order, and in the most fashionable styles, together with the usual assortment of

Millinery and Fashionable Articles,

CONSISTING IN PART AS FOLLOWS:

Hosiery, Gloves, Glove-Ties, Mitts, Collars; Linen Cambrics, Lawns, Fancy Silks and Satins; Cravats, (Paris Cord, Gimps, and other Trimmings for Dresses,) Muslins, Laces,

MOURNING GOODS.

Grave Clothes and Mourning Bonnets,

ALWAYS ON HAND.

Straw Bonnets Altered CLEANSED AND PRESSED in the best manner, as usual, at short notice.

She would also give notice to those wishing Dresses made, that she has a young lady with her who will attend to that branch of business entirely, and will be happy to wait on those wishing her services, either at their own houses or at this establishment.

N. B. All of the above articles will be found at the Store of

S. S. MARSH,

a few rods South of the Stone Temple, in the same building of the Quincy Bookstore, entrance on the south side. tf Quincy, May 3.

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*
JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine:

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health, and have not raised any blood since the use of the first bottle of this excellent preparation.
WYMAN ABERCROMBIE.
Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark:

DEAR SIR—I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. Yours, truly,
IBRAHIM BARTLETT.
Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.
Only Office in Boston, No. 51 1-2 Hanover Street (up stairs.) People in other cities and in country towns may obtain the Medicine by sending for it through conductors of railroad cars, drivers of stages, or in such other way as may be most convenient to them.
Boston, May 20. tf

Administrator's Sale.

WILL be sold by public auction, on WEDNESDAY, the sixth day of August, at three o'clock in the afternoon, by order of the Court of Probate, on the premises, a piece of Land situated in Quincy, the property of Peter Newcomb, deceased, containing about one quarter of one acre, and bounded easterly on the Church land, southerly and westerly on William P. Apthorp's land, and northerly on Elm street, together with all the buildings thereon.

Said buildings consist of a well finished two story House, in good repair, suitable for one or two families, and the outhouses attached to the same. The land is of the best quality, and there is upon it several excellent fruit and ornamental trees.

The Estate above described presents a good opportunity for those desirous to purchase, as it is sold by order of Court and will be disposed of to the highest bidder.
JOHN NEWCOMB, *Adm.*
Quincy, June 28. 6w

C. BRINCKERHOFF'S

MR. BRINCKERHOFF, anxious to make known and to extend the use of the Health Resterative, and feeling and knowing that its remedial effect (by the favor of Providence) has been the only available means of restoring to health and life many of the young and endeared sons and daughters, and almost a multitude of the middle aged, aged, and venerable individuals in the land, now places more conveniently before the invalid his invaluable remedy. That dreadful scourge of our race, the Consumption, with its attendant horrors, have been swept away—the Resterative renewing the impaired vital part so thoroughly as to resist afterward the insidious attacks of those diseases. To the humane and tender hearted it is a pleasing and moving sight to view the before hopeless and dispirited sufferer rise from his couch of sickness and pain, and take his place amid the cares and duties of life simply by means of this grand Restorative of Nature's Functions. The most severe coughs almost immediately yield under its influence, and however racking or chronic they may have been, yet they vanish the moment the Restorative begins to exert and then maintain its power. The Proprietor earnestly requests all who are afflicted with any disease of the Lungs or Liver, Pain in the Chest and Side, and Coughs, to commence the use of the Health Restorative. Despite the approbrium which is attached to all advertised medicines, use this remedy and be convinced of its power however incredulous you have been. The following certificate is from Dr. Chilton, the well known New York Chemist.

"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."
JAMES R. CHILTON, M. D.

SUGAR COATED VEGETABLE PILLS

CLICKENER'S

SUGAR COATED VEGETABLE PILLS

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skilfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they pre er the disease to the cure, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 25 cents per box, with full directions, and sold by the following list of Agents

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; R. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE B. LOCKE, Quincy. tf June 28.

POETRY.

ALL THINGS PERISH SAVE VIRTUE.

Sweet morn—so cool, so calm, so bright,
The bridal of the earth and sky,
The dew shall weep thy fall to-night,
For thou must die.

"Sweet rose"—whose fragrance now I crave,
To glad mine sense and joy mine eye,
Thy root is ever in its grave,
And thou must die.

Sweet spring—so full of shine and showers,
It makes the weary spirit sigh
To think, with all their herbs and flowers,
That thou must die.

Sweet music—e'en the lovely song,
Which from my harp in window high
Is floating on the breeze along,
E'en thou must die.

And all the bright and glistening train
Of stars that stud the deep blue sky,
Must they all perish—none remain
To glad the eye?

And vales and fields, and rushing streams,
And mountains that invade the sky,
Are they as baseless as our dreams?
And must they die?

And all that's beautiful and fair,
Of nature's face, love's melody;
That makes sweet music of the air,
All, all must die!

A man, frail form of senseless clay,
Though now his glance is proud and high,
Perchance upon this passing day
He, too, may die!

But the bright soul! that shrined within—
The quenchless light in mortal form—
Though dimmed by misery and sin,
Defies the worm.

When all the stars shall fade away,
And suns in their own blaze expire,
And trackless comets cease to stray
With wandering fire—

The soul shall ever live, nor know
The lapse of time, but dwell on high,
And share in endless joy or wo—
Eternity.

WOMAN.

Not thine—not thine is the glittering crest,
And the glance of the snow white plume;
Nor the badge that gleams from the warrior's breast,
Like a star 'mid the battle's gloom!
Nor is thy place 'mid thy country's host,
Where the war-steed champs the rein—
Where waving plumes are like sea-foam tossed
And the turf wears a gory stain!

Nor these—nor these are thy glorious dower,
But a holier gift is thine;
When the proud have fallen in triumph's hour,
And the red blood flows like wine,
To wipe the dew from the clammy brow—
To raise the drooping head—
To cool the parched lip's fevered glow,
And soothe the lowly bed!

Not thine—not thine is the towering height,
Where ambition makes his throne;
The timid dove wings not her flight,
Where the eagle soars alone;
But in the hall and in the bower,
And by the humblest hearth,
Man feels the charm and owns the power
That binds him still to earth.

Yes! THESE are thine!—and who can say
His is a brighter doom,
Who winds fame's gory wreath of bay,
Round an aching brow to bloom?
Oh, to watch death's livid hues depart—
To soothe each pang of wo,
And to whisper hope to the fainting heart,
Is the proudest meed below.

TRUST PROVIDENCE.

Oh, man! thou image of thy Maker's good,
What can'st thou fear, when breath'd into thy blood
His spirit is that built thee! What dull sense
Makes thee suspect, in need, that Providence
Who made the morning, and who plac'd the light
Guide to thy labors; who call'd up the night,
And bid her fall upon the *like sweet showers*
In hollow murmurs to lock up thy powers!

ANECDOTES.

A certain judge was once violently attacked by a young and very impudent attorney. To the manifest surprise of every body present, the judge heard him quite through, as though unconscious of what was said, and made no reply.

After the adjournment for the day, and when all had assembled at the inn where the judge and many of the court folks had their lodgings, one of the company, referring to the scene at court, asked the judge "why he did not rebuke the impertinent fellow?"

"Permit me," said the judge, loud enough to call the attention of all the company, among whom was 'the fellow' in question: "permit me to tell you a story. My father, when we lived down country, had a dog—a mere puppy, I may say. Well, this puppy would go out every moonlight night and bark at the moon for hours together."

Here thet judge paused, as if he had done with the story.

"Well, what of it?" exclaimed half a dozen of the audience at once.

"O! nothing, nothing whatever; *the moon kept right on, just as if nothing had happened.*"

A fly having entered accidentally into an Alderman's throat, from which he was ejected unharmed, boasted aloud of the feat to his companions. "Vain wretch," said a malicious ant, "it was thy worthlessness that insured thy safety. Had you been a noble deer or a voluptuous turtle, you would not so easily have made your escape from that yawning cavern."

'Father,' said a sporting youth to his parent, 'they say trout 'll bite now.' 'Well, mind your work then and you'll be sure they wont bite you,' was the reply.

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Hancock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Krauth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea-sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; R. Gleason, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

June 28. tf

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, 'if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educated and experienced Physician, rather than the precarious and dangerous doings of Quacks and inexperienced Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10; sent to all parts of the Union. Office and consultation rooms,

MISCELLANY.

THE WOMAN TAME.

"RULE A WIFE AND HAVE A WIFE."

Solomon Swallow was a bachelor, and a pretty one, too; but nevertheless he had made up his mind to one thing; that he was the only man living who had acquired any knowledge of the sublime art of taking care of a wife. "All married men are dolts," was Solomon's constant asservation. "There, for instance, is my neighbor Tom Tangible; his wife keeps him in a sort of three legged stool of him; she sits on him in one corner, and then in another, and walks on him as if he was a mat in the house; while he goes meekly about, as easy as if it was the most natural thing in the world. Now that I were only Tom Tangible, I'd write a series of matrimonial rules for him. Mrs. T. didn't abide by them, I'd submit to the wholesome discipline of bread and water and a padlock; and mayhaps bright ideas, touching her conjugal duties, by application of a good cowhide. And there are Everet Easy, Dick Snooks, and a host of them in the same condition; but I'll bet a boy that will set them all right, if they will follow my example, after I have condescended to endow some fortunate female with a claim to the title of Mrs. Swallow."

Brave Solomon Swallow.

"Well, Solomon, said a neighbor to him one morning, "as you are always boasting of your skill in managing a wife, how comes it that you are not married?"

"Why, because I have not quite perfected my system! You poke your head into a matter without making any preparations, and there you are. Mrs. Everly makes what she likes of you. But I go to work logically." I begin by studying the erudite works of Zingubrazo, the great philosophy of a Woman's holding her tongue. I then read several treatises 'on the use of bread and water discipline in the case of good wives.' Shakspeare's 'Taming of the Shrew' furnished me with a few excellent practical lessons. And I am now generalizing all these systems into one, which shall carry the day in all future generations, and cure the plague of matrimony into a blessing. In the course of a year or so," added Solomon, "my Rules for the Regulation of Women, which I mean to publish it will be completed, and then I will take me a wife."

And Solomon was as good as his word. But at the age of thirty-five (feeling prepared to give battle to any woman in or out of the ranks of Amazons) he got married. At that important period, Solomon was a puffy, chubby looking little fellow as you'd meet in a day's walk, for albeit the crown of his head stood full five feet from the heels of his boots, he was of proportion that would do honor to an alderman, or even a lord mayor, and his gait (especially when walking on anything in the likeness of a woman) was as pompous as a sultan's; while at such times his countenance always assumed an expression that could not have brooked the slightest female familiarity. The lady whom Solomon had chosen for his "worser" half, was apparently a lamb-like creature, so that Solomon's dreams were very fair that she would not prove a contractable wife, but that Solomon would have no help from his system to make her so.

Now Solomon had the forbearance not to interfere with his lady's sayings and doings after the wedding, nor is it recorded that he claimed especial authority on the next night, but at about six o'clock the next morning he intimated to his sleeping partner that it was time to get up. "And," he added, "when you is ready, you may call me, but be sure don't burn the toast."

"Breakfast and toast," said Mrs. S., "why, what do you mean?"

QUINCY PATRIOT.

Published every Saturday Morning, over Messrs. Josiah Brigham & Co.'s Store, in Hancock Street.

NUMBER 30. **QUINCY, (MASS.) SATURDAY, JULY 26, 1845.** **VOLUME 9.**

JOHN A. GREEN,
EDITOR AND PROPRIETOR.

CONDITIONS.

Two Dollars per annum in advance—Two Dollars and Fifty Cents if not paid till the end of six months—Three Dollars if delayed till the expiration of the year.

No subscription nor advertisement will be stopped previous to the payment of all arrearages unless at the option of the proprietor. When subscribers wish their papers discontinued, they will give notice to that effect and at the time their subscription expires. Every subscriber will be held responsible for the payment of his paper so long as it is sent to his address at the Post Office, Tavern, or any other place wheresoever he may have ordered it, until legally notified to the contrary.

Advertisements, correctly and conspicuously, inserted at the customary prices. The number of insertions required must be marked on the advertisement, otherwise they will be continued until ordered out and charged for accordingly.

The privilege of annual advertisers is limited to their own immediate business; and all advertisements for the benefit of other persons, as well as all legal advertisements, and advertisements of auction sales, sent in by them, must be paid for at the usual rates.

Business letters and communications addressed to the Editor, postage paid, will receive early attention.

☞ Single copies of the paper, Five Cents.

AGENTS FOR THE PATRIOT.

The following gentlemen are authorized to receive pay and requested to procure subscriptions.

JOSIAH BABCOCK, Jr.	*Quincy Railway.*
JUSTIN SPEAR,	" *Stone Quarries.*
ORIN P. BACON.	*Dorchester.*
FISHER A. KINGSBURY,	*Weymouth.*
JOSEPH CLEVERLY,	*Abington.*
SAMUEL A. TURNER,	*South Scituate.*
N. B. OSBORNE,	*Salem*
FREEMAN HUNT,	*New York City.*

MISCELLANY.

THE WOMAN TAMER.

"RULE A WIFE AND HAVE A WIFE."

Solomon Swallow was a bachelor, and a rusty one, too; but nevertheless he had made up his mind to one thing; that he was the only man living who had acquired any knowledge of the sublime art of taking care of a wife. "All married men are dolts," was Solomon's constant asservation. "There, for instance, is my neighbor Tom Tangible; his wife makes a sort of three legged stool of him; she shoves him in one corner, and then in another, and sits on him, and walks on him as if he was nobody in the house; while he, poor man, takes it as easy as if it was the most natural thing in the world. Now that I were only Tom Tangible; I'd write a series of matrimonial rules; and if Mrs. T. didn't abide by them, I'd submit her to the wholesome discipline of bread and water, and a padlock; and mayhaps brighten her ideas, touching her conjugal duties, by the application of a good cowhide. And there again are Everet Easy, Dick Snooks, and a host more of them in the same condition; but I, I'm the boy that will set them all right, if they'll only follow my example, after I have condescended to endow some fortunate female with the legal claim to the title of Mrs. Swallow."

Brave Solomon Swallow.

"Well, Solomon, said a neighbor to him one morning, "as you are always boasting of your skill in managing a wife, how comes it that you are not married?"

"Why, because I have not quite perfected my system! You poke your head into the noose without making any preparations, and hence Mrs. Everly makes what she likes of you. But I go to work logically." I begin by studying the erudite works of Zingubrazo, 'On the philosophy of a Woman's holding her tongue.' I then read several treatises 'on the effect of bread and water discipline in the making of good wives.' Shakspeare's 'Taming a Shrew,' furnished me with a few excellent practical lessons. And I am now generalizing all their systems into one, which shall carry them away in all future generations, and convert the plague of matrimony into a blessing. In the course of a year or so," added Solomon, "my Rules for the Regulation of Women, (I intend to publish it) will be completed, and then I shall take me a wife."

And Solomon was as good as his word, for at the age of thirty-five (feeling prepared to give battle to any woman in or out of the land of Amazons) he got married. At this important period, Solomon was a puffy, comfortable looking little fellow as you'd meet in a day's walk, for albeit the crown of his head never stood full five feet from the heels of his boots, he was of proportion that would have done honor to an alderman, or even a lord mayor; and his gait (especially when walking with anything in the likeness of a woman) was as pompous as a sultans; while at such times his countenance always assumed an expression that could not have brooked the approach of female familiarity. The lady whom Solomon had chosen for his "worser" half, was apparently a lamb-like creature, so that the chances were very fair that she would not only be a tractable wife, but that Solomon would require no help from his system to make her so.

Now Solomon had the forbearance not to interfere with his lady's sayings and doings on the wedding, nor is it recorded that he assumed especial authority on the next night either; but about six o'clock the next morning he softly intimated to his sleeping partner that it was time to get up. "And," he added, "when breakfast is ready, you may call me, but be sure and not burn the toast."

"Breakfast and toast," said Mrs. Swallow, "why, what do you mean?"

"Why, my dear, I mean madame, that I have begun my system."

"And won't you get up too?"

"Yes, when breakfast is ready and my stockings aired!"

Mrs. Swallow was about to reply, but she checked herself, as she was ashamed to say much to him on so short an acquaintance, but though in the present instance she did precisely as she was bid; she resolved in her heart that it was the last time that she would get up at six in the morning to prepare breakfast.

At eight o'clock, every thing being ready, Mrs. Swallow called Mr. Swallow.

"Breakfast is ready Mr. Swallow."

"Is the toast made?"

"Yes."

"Not burned?"

"No."

"Are my stockings aired?"

"Yes."

"You'll do," quoth Mr. Swallow, and to breakfast he went, having first received the services of the blushing Mrs. Swallow to assist him in dressing.

The breakfast, however, did not turn out to be the thing it had been cracked up for. The toast was done a little too much, and the tea wasn't done quite enough, the slop bowl was at the wrong end of the tray, and there were several crumbs on the carpet.

"These things call for improvement," observed Mr. Swallow.

"The servant hasn't been here this morning," answered Mrs. Swallow.

"Servant," returned Solomon, "I discharged her yesterday. You don't think I can afford to keep a servant and a wife too!"

The lady was again posed, and she said nothing, but the day wore to its close before she could bring herself to the belief that Mr. Swallow had actually made use of the words, "servant" and "wife" in the same sentence.

The next morning at six o'clock, Mr. Swallow again informed his wife that it was time to get up, coupling the remark with the suggestion that in future she must save him the trouble of reminding her of so necessary a duty.

Mr. Swallow, however, benefitted nothing by this soft insinuation, for at the moment she either was, or pretended to be, fast locked in the arms of Morpheus.

"Don't you hear, Mrs. Swallow?" quoth Solomon.

the only response from Mrs. Swallow.

Now this was a ticklish point with Solomon, but he was prepared for it. "What says my system on this head?" said he to himself musingly. "It says that a lazy wife who lays abed in the morning, may be very profitably reminded of her duty by the judicious application of a corcon pin. And this magnificent idea had hardly crossed the threshold of his pan, than he inserted the point of a huge pin in the right arm of the sleeper. As might be expected, the intended effect instantly followed the cause, for the astonished Mrs. Swallow sprang from her bed as though she had been thrown from it by an earthquake! But alas! her agility was too strikingly manifested, for she not only all but annihilated poor Solomon in rolling over him, but she dashed his patent lever from the nail which suspended it to the wall, and broke the dial into a thousand pieces.

"What a dreadful dream," ejaculated Mrs. Swallow, pressing her left hand on her wounded arm.

"What a dreadful reality," shouted Mr. Swallow, contemplating the fragile ruins of his demolished time piece.

Here we pass over the interval between this occurrence and the time the happy pair in question were seated at breakfast.

"Now, Mrs. Swallow," said Solomon, "seeing that I can't always be awake to call you up in the morning, or eat burnt toast, or drink raw tea, &c., it is time I begin to instruct you in your duties."

"And what are those, Mr. Swallow?"

"Be silent, madam, if you please; not to talk but listen, is one of the most important of them."

"Proceed, sir."

And Mr. Swallow, looking daggers at her for the second interruption, proceeded:

"From six till eight, you are to get up, dress quietly, so as to create no disturbance, light fire, air clothing and stockings, sweep rooms, prepare breakfast, and announce the perfection thereof. Eight till ten, wash tea things, make beds, rub furniture, and clean windows. Ten to twelve, go to market and prepare dinner. Twelve to two, devote to dish washing, sweeping up, and rubbing furniture. Two till six, spinning, mending clothes and darning stockings. Seven, tea. From that time till nine, a second course of mending and darning, and then to bed! And this daily course madam, with a strict observance of the rules of civility, frugality, decorum, and obedience, may in time enable you to do honor to the choice of Mr. Solomon Swallow."

Mrs. Swallow listened quietly to the end, and then mildly inquired,

"And do you really expect this of me, Mr. Swallow?"

"To be sure I do," responded her spouse.

"Then you'll be sadly disappointed, for I'll do no such thing."

"No?"

"No!"

"I've a way to make you."

"How?"

"Spoon diet, locks, chains, and a cowhide!"

"Mr. Swallow!"

"What?"

"You are a brute!" and Mrs. Swallow threw herself back and looked desperate."

Now this was a climax. Mr. Swallow was called a brute by his own fireside, and worst of all, by his own wife. He, Solomon Swallow, the celebrated founder of a sysem of Matrimonial Observations, called a brute, and by no less a person than Mrs. Swallow. At first he was so astonished at such an open manifestation of rebellion to his royal will; that he only looked aghast; but when he came to himself he saw that something must be done at once, or the field was lost forever.

"You call me a brute, Mrs. Swallow?"

"I did, Mr. Swallow."

"A brute?"

"A brute!"

"I'll go mad and break things, Mrs. Swallow."

"As you like, sir."

And Mr. Swallow did go mad, but he had a method in his madness, for he seized the cheapest article of delf that was on the table, (an old plate with a crack in it) and dashed it into a thousand pieces on the hearth, as if he was in a tremulous passion.

"How do you like that, Mrs. Swallow?"

"Vastly, Mr. Swallow—try it again."

And again he did try it, (for he had become desperate) demolished the cream jug.

"Now," said the lady, "it is my turn," and jumping up she sent the slop bowl to keep company with his tea table companions.

This of course was too much for Solomon; it snapped assunder the last remaining chord of the little reason he had left, and he slapped his *helpmate*—we use the word in its most positive terms—on her right cheek; but scarcely had the echo of the blow melted into silence, ere the indignant dame seized the tea-pot and shivered it to pieces against the head of the devoted Mr. Swallow. Nor was this all, for as he was rolling heels over head from the effects of the awful collision, she plied him with the remainder of the tea traps, until there was scarcely a bone in his body which had not echoed to the shock of cups and saucers, and rounds of buttered toast.

Unable to carry the war on any longer for that day, Solomon gathered himself up as well as he could, and vowing vengeance, he stuck his pipe in his mouth, and his hands in his pockets and sat down to look at the fire, as he could bite a piece out of the girdle without setting his teeth to an edge. His good lady, too, being determined to follow the example of her lord and master in other matters besides delf breaking, placed another chair back to back with Solomon's, and after providing herself with a novel, sat herself down and began reading away, as if there were no such things as beds to make, or stockings to mend, in all Christendom.

Here this affectionate couple sat for six mortal hours, each bent upon sitting the other down, and ruminating the while upon their relative positions. But it must be confessed that Mrs. Swallow had the best of the bargain, for indepenpent of Solomon's mangled head, and parboiled neck and shoulders, he saw, as plain as mud, that the watch dial and the crockery must be replaced; so that the reducing of the first chapter of this voluminous system to practice must be attended with an outlay of at least twenty dollars. "This being the case, I might as well be hung for a sheep as a lamb," thought he, and with that he rose from his chair, stole softly from the room, and turned the key upon the gentle Mrs. Swallow.

The turning of the key made her aware of his intention, when she rushed to the door, but it was too late.

"Open the door this instant, Mr. Swallow."

"Not until I have kept you here seven days upon bread and water," returned the victorious Solomon, and he went upon his way rejoicing.

But alas! how fleeting is human greatness; in about half an hour he returned to see how matters were going on, but he had scarcely put his eye to the keyhole when he began roaring like a bull, for Mrs. Swallow had torn every one of his fine linen shirts (that on his back excepted) into pieces, to make a rope to let herself down from the window; nor was this all, for upon further examination, he discovered that she had thrown a variety of chair cushions, bed linen, &c., into the yard, to make her descent safe and comfortable.

O! chop fallen Solomon Swallow.

The archieves of the Swallows are silent as to the remaining occurrences of this eventful day; but on the very next morning, about seven o'clock, Mr. Swallow popped his head from under the blankets and said, "Mrs. Swallow, dear, isn't it time to get up?"

"Yes," returned the lady, "and you may call me when you have lit the fire and put the kettle on."

Poor Solomon! There were no alternative, so he set about his work with an alacrity which showed that he had the terror of a broken head and demolished body of linen running strongly in his memory. In short, Solomon was a conquered man. That he had to prepare breakfast, sweep the room, &c. The next his assistance was required in the rubbing of furniture and the making of beds, and before the week was out he was initiated into the mystery of washing coarse towels.

Degenerate Solomon Swallow! Nay, in after times, when the little Swallows began to gather around him, it was whispered that his better half (and she was his better half) used to employ him at yet more deeply conjugal offices.

But for this we have no proof, other than the fact that he was the only nurse that Mrs. Swallow would trust with her children.

About five years after the celebration of his nuptials, a friend called to see him.

"You must go with me to the theatre, Mr. Swallow," said the friend.

"He shan't," said Mrs. Swallow.

"He must," returned the friend, "and so must you."

"I may, but he can't," replied the dame; "for he must stop at home with the children."

And Mrs. Swallow did go to the play, and Solomon stopped at home.

"Oh, hen-pecked Solomon Swallow!"

The morality of this authentic tale is, that "bachelor's wives and old maid's children" are always excellent in theory, but as bad as can be in practice—and that a managed wife is better than no wife at all. Had Solomon only treated his better half decently in the beginning, things might have gone on decently to the end; but as it was, he compelled her to be a Tartar in her own defence, and had to take the consequence.

JOHN FITCH.

This is the name of an American citizen, which, at present, is but little known to his countrymen, but which, at no distant day, may take a high rank among the benefactors of the age. John Fitch was the first person known to have erected, and navigated a vessel by means of the steam-engine. Nothing is more common than the inventions of one man being carried to the credit of another; it is an every day occurrence to find the failure of one man's project taken up, and made to operate successfully by another. A screw, a fly wheel, a piston wrongly constructed by one, may be successfully applied by another. We know not whether the world is to blame for this, or to be charged with ingratitude and neglect: they are accidents which attend life, the errors and mistakes of genius. Every where the genius of Fulton is applauded, and his name will go down to posterity with honor, not so much from being the first who applied steam to the propelling of boats, but the first who did *so successfully*. He obtained the reward, and in one sense the reward to which he was entitled. The memory of John Fitch, which, though late, ought to be paid, as the first person who actually applied steam to the propelling of vessels in this, or any country, and when we look at steam navigation as it exists, steam ships, steam frigates, and steam batteries, and the vast changes in commerce and war, brought about by steam, justice to John Fitch should be no longer postponed. He was born in Connecticut, was a watch-maker in Trenton, a soldier of the Revolutionary war, a surveyor of public lands in the West, a poor, hard-working ingenious man, whom all considered, as men of genius are considered, *visionary*. In 1785 he made a model of a steamboat with perfect steam machinery. He tried wheels first, but they were badly constructed, and he substituted paddles, which worked rather better, and then he regarded his model, examined his empty pockets, and saw before him in visions of hope, the great results which would hereafter grow out of steam navigation. He petitioned the Continental Congress for aid. They had no money to give to such experiments. He begged the Legislature of Pennsylvania to assist him, without effect. He talked to the Western members of Congress of the great waters of the Mississippi, and the lakes covered by steamboats, and conveying the produce of that section of the Union to the ocean, but they considered it chimerical and wild. He wrote to Dr. Franklin, and boldly contended that the sea would be navigated by steam, hereafter, and earnestly implored co-operation and aid, but when a man strikes at something bold and high, promising new and extraordinary results, talked of immense revolutions in trade, immense expedition in travelling by a new process, the old and long standing impressions of weak and visionary projects meet him at every turn, and finally his condition was hopeless. At length he drew and engraved a map of the North Western territory of the United States, and struck off the sheets on a cider Press, and by this he made eight hundred dollars, and in 1787 formed a company of forty shares, and commenced a boat of sixty tons, which, after immense difficulties and delays, rough machinery, and small cylinders, was found only to go against wind and tide at the rate of *three* miles an hour. This was no failure, it was a triumph, and Fitch doubled his shares, constructed a new engine, built a new boat called the *Perseverance*, and on the 12 of October, 1788, the boat ascended the Delaware to Burlington, with thirty passengers, and made the passage in three hours, and twenty minutes, and afterwards made eighty miles in one day. There is near us, as we write, a gentleman who stood on the wharf, and saw the boat ascend the Delaware. This was the first successful application of steam to the propelling of vessels. Fitch, therefore, was the original inventor, and to him all honor was due.

In 1788, after great exertions, he completed a larger boat, but it took fire, and burnt to the water's edge. In 1791, he obtained a patent, and a committee of the New York Legislature in 1817 said that Livingston's and Fulton's boat was substantially the invention of Fitch. He went to Europe, obtained no encouragement, worked his passage back as a common sailor, and pennyless and hopeless, he poisoned himself in Kentucky in an obscure tavern, and was buried in a corner of the yard, without a stone to mark where the remains lay of the first discoverer of the application of steam to propelling vessels. He desired to be buried on the banks of the Ohio, and exclaimed in apparent distress of mind, when deliberating on his hard fate; "Why these earnest solicitations, and excruciating anxieties! why not leave them, and retire to rest under the shady elms on the fair banks of the Ohio, and there eat my coarse but sweet bread of industry and content, and when I have done, to have my body laid in the soft, and loamy soil on the banks of the Ohio, my name inscribed on a neighboring poplar, that future generations, when traversing the mighty waters of the West, may find my grassy turf." And still later, he breaks forth in the same poetical strain, referring to the position of his grave, and hoping that it may be made on the shores of some of the waters of the West, in order that the "song of the boatman may enliven the stillness of his resting place, and the music of the steam Engine, sooth his troubled spirit." Fulton has the Eulogy, the fame, the money—Fitch the real inventor, is only now to receive the honor of a monument over his grave, which is proposed to be done in Kentucky. We see in this, the instability of human affairs, the little security which genius can afford, the doubtful reward which merit claims, and the lesson it teaches, is this:—always distrust your own judgment on the possibility of success of any invention, and never pronounce that man visionary, who rests his plans on reasonable grounds of success.—[New York Sun.

ISRAEL PUTNAM.

In these little sketches we do not propose to be profound; only talkative, chatty, and simple. As we have very little space this week, for this feature, we shall continue our subject without needless preface.

Putnam's early days were spent as those of most boys placed in his situation of life. One of his favorite amusements was "bird nesting," a cruel and useless custom, followed in all country places with a ferocity perfectly atrocious. These hunts for nests were followed in company; Putnam was always the leader of across a fine nest which lodged on a frail branch of a very high tree. The tree stood apart from the others, and was difficult of climbing. Besides this, it was evident that no pole, or contrivance, would answer the purpose of getting the nest—there was no way of obtaining it save by venturing on the branch, which, nine chanses to ten, would break under the weight of the robber. No one would venture.

Putnam regarded the nest and limb for a moment in silence, and at length said—

"That bird has all the qualities of a soldier. It has completely fortified its home. I'll wager that there is not a boy for ten miles round that could get that nest."

"I'll try it," said he deliberately taking off his jacket and rolling up his pantaloons to his knees.

The little knot of boys attempted to dissuade him; but to no purpose. Go he would.

"I'll fancy that one of the King's strong holds," said Putnam, "and may I be shot if I don't come off victor."

The tree was ascended—the limb gained. Putnam placed his foot on it, and it creaked, while the old bird flew off with a sharp cry, and remained describing circles round the tree, and uttering touching complaints.

"Bah!" said Putnam, "do you not prey on our fields? Do you not tax us for your support? Do you not take our goods against our will just like a king?"

He ventured a foot further on the limb. It bent low, and a murmor arose from the boys below. Putnam put his knee to the branch, and reached towards the nest. The limb broke partially—a shout below—and Putnam persevered. His fingers touched the wished-for prize, and just as he cried—"I've got it," the limb broke clear off, and he fell; but not to the ground. His pantaloons caught in one of the lower branches, and his head hung downwards.

"Put, are you hurt," asked one of the boys.

"Not hurt," answered the undaunted heart, "but sorely puzzled how to get down."

"We can't cut away the limb because we have no knife."

"I can't stay here till you get one."

"We will strike a light and burn the tree down."

"Aye, and smother me in the smoke. That won't do."

There was a boy named Jim Randall, in the group, who was noted for being a crack marksman, and who afterwards fought very bravely at Putnam's side. Him Putnam addressed:

"Jim Randall, there's a ball in your rifle?"

"Yes."

"Do you see that very litule limb that holds me here?"

"I do."

"Fire at it."

"What to cut you down?"

"Of course."

"But I might strike your head?"

"Shoot. Better blow out my brains than see me die here, which I shall in fifteen minutes. Shoot!"

"But you will fall."

"Jim Randall, will you fire?"

The sharp crack of the rifle rang through the forests—the splinters flew—and Putnam fell to the ground. He was severely bruised; but laughed the matter off, and nothing more was thought of it.

Three days after Putnam met Randall and the rest, and, taking the nest from his pocket, said—

"Here is that nest. I said I would have it or perish, but I went alone, because I determined no one should see me fail, and aid me to escape the consequences."

The same indomitable spirit was displayed in that instance as in the perilous leap, and many other dangerous and daring exploits, performed by the gallant man in his efforts for the ascendency of the cause of liberty.

Noah's Messenger.

MERCANTILE EDUCATION.

The following remarks are from the pen of Charles Eames, Esq., and appeared in the columns of the New World, a short time before it was discontinued. While under the editorial control of Mr. Eames, it was conducted with singular ability, and every paper from his pen bears the impress of the ripe scholar and the finished gentleman. The subject of mercantile education is attracting considerable attention at this time. The establishment of a commercial college was broached some time since, by the former president of the New York Mercantile Library Association. Edmund Coffin, Esq., and we earnestly hope that the plan may meet with the countenance and support of our rich and liberal merchants. There is, perhaps, no profession, not even the legal, clerical or medical, that requires a greater amount or variety of knowledge successfully to enter into the practice of commerce in all its bearings. The truly accomplished merchant, who engages in trade on a liberal scale, should understand, and be able to speak fluently and write readily, the languages of the various countries with which he may have commercial intercourse,—should be acquainted with the geography, laws, customs and commercial regulations of those countries. He should, moreover, possess some knowledge of the principles of commercial law of insurance, co-partnership, &c. Chemistry, too, is all important, in some branches of trade, to enable him to detect the pure from the adulterated article of merchandize. Let us hear, however, the remarks of Mr. Eames on on this subject:—

Merchants, as a class, have good cause of complaint against the Popular Education of the day. They have certainly contributed largely, often munificently, to the leading literary and scientific Institutions among us, and even in the best of these Institutions, the claims and the wants of the Mercantile Profession have been quietly and wholly overlooked. There is not at this moment, so far as we know, in any American College or University, a single Professorship, devoted to the mastery and exposition of those branches of the study, which are to the merchant professional, and which, therefore, it especially concerns him to master. Education in laying out her work, does not seem to see Commerce.

Now Education is, of course, Literature and Science in embryo. And so popular Letters and Science, it would appear, have, for the most, let the Merchant and his profession alone. The fact is really remarkable. Here is a form of industry which spreads itself all over the business of the world—which wields a vast proportion of the floating capital of all civilized communities—which concerns itself, in the daily routine of its action, with an infinite variety of knowledge—which embraces the whole social statistics of every considerable nation in the ken of its calculations—which has its very life as a profession, in the prompt intercommunication of the most practical forms of Intelligence—which aims at nothing less than to know the wants of all men, that it may get gain by supplying them—which thus snatches up every new fact as something which its touch may turn into gold—and yet this is the one Profession, which Education, and Science, and Literature, have seen fit mainly to neglect. Commerce has been three-quarters of the international History of the world, from the day of Methusaleh, to the day of McAdam, yet the first complete and creditable History of Commerce, as a practical Profession, obviously demands quite as much as any other Profession known among men, an elaborate preliminary training, and yet the first Text book—the first Manual—specially designed to teach the young man who intends to be a Merchant, all that he should chiefly seek, as a Merchant, to know; is yet to be introduced into any course of study in any College, or Academy, or School! Our leading Seminaries of Learning should look to this fact, and to many another fact too near akin to it, or they may well find themselves receding in importance and public estimation every year.

This train of thought has occurred to us in looking over the volumes of a publication now in successful progress among us, which, in view of the novelty, comprehensiveness, and great utility of its plan, we cannot but regard as a most honorable example of American enterprise and sagacity. We refer to the Merchant's Magazine, we believe, in its sixth year, and edited and published by Freeman Hunt, of this city. The idea of publishing a Magazine devoted mainly, if not exclusively, to the interests and the use of the Mercantile class, is we believe, entirely original with Mr. Hunt. It is so at least in this country. And certainly the whole History of Periodical Publication, on this side of the Atlantic, present no single instance of so good a purpose carried so ably and so fully into effect. In the Magazine, and in the "Library of Commerce," recently commenced as a suppliment to it, the editor has undertaken to present a complete Encyclopedia of Commercial knowledge, which shall differ from all other Encyclopedias, in keeping fully up with the times.

We believe we speak the unanimous opinion of those who have been led to examine the work critically, when we say, that in this endeavor Mr. Hunt has succeeded admirably. His Magazine is quoted and referred to, here, and in Europe, as a work of almost official authority. The French Ministry of Commerce, and the London Board of Trade, are subscribers, and have frequently made the most honorable mention of it. Chancellor Kent, in the last edition of his Commentaries, has often referred to it, as a work of established authority on the matters of which it treats. It circulates all over the commercial world, and wherever it appears, it is received as a standard work of sterling value.

This is certainly high praise for any Periodical Publication, and we have been led thus to speak of it, because, from its character and design—at once novel, national, and of the highest practical utility—its success certainly reflects honor on the periodical Literature of the country, while it fills a niche before unoccupied in the periodical Literature of the World.

For the Quincy Patriot.

LETTER FROM BOSTON.

July 24th, 1845.

Within one week ending Friday last, twenty-three lives have been lost, in, and near the city of New York, caused by the extreme heat and imprudence. At the President's House, in Washington, the thermometer rose to one hundred and forty-eight degrees in the sun. In Philadelphia, several persons have been killed by the extreme heat. As a matter of curiosity, I give you the range of the Thermometer in the following cities, on certain days, since the 8th inst.

In Charleston, July 9th,	94	degrees.
" Boston, July 12th,	101	"
" Rochester, July 12th,	97	"
" New York, July 12th,	94	"
" Burlington, (Vt.) July 12th,	100	"
" Pittsburg, (Pa.) July 12th,	102 1-2	"
" Hudson, (N. Y.) July 12th,	99	"
" Salem, July 12th,	103	"
" Boston, July 13th,	98	"
" Philadelphia, July 13th,	101	"
" New York, July 12th,	99	"
" Albany, July 13th,	98	"
" Brooklyn, July 13th,	95	"
" Baltimore, July 13th,	95	"
" Hartford, July 13th,	91	"
" Burlington, (Vt.) July 13th,	96	"
" New York, July 14th,	98	"
" Brooklyn, July 14th,	96	"
" Philadelphia, July 14th,	102	"
" New York, July 15th,	93	"
" New York, July 16th,	95	"

It will be perceived, that with the exception of two cities in Pennsylvania, the thermometer has risen higher in Massachusetts, than other cities North of South Carolina, during the past fortnight of extraordinary heat, being in Salem July 12th, one hundred and three degrees, or five degrees over blood heat.

The fire at New York on Saturday last, of which you will no doubt refer in your columns of this week, is a great calamity. The loss of many valuable lives, of over three hundred houses, many of them superb, including with their contents from five to ten millions of dollars, will be severely realized by the New Yorkers for years to come. The space of the conflagration between Wall street and the Battery, was the finest part of the city for beauty and edifices—some of the dwellings destroyed by the devouring element, were constructed of marble, and others built in the most costly manner. Many it is said retired on Friday night worth hundreds of thousand dollars, and arose on Saturday morning last, pennyless. The dry goods dealers have lost two millions of dollars. The amount of insurance at about forty different offices in and around New York, is four to four and a half millions. The Boston Insurance Offices lost but a small amount by this awful conflagration; but many of them have suffered largely within a few weeks by marine losses—several large ships insured here have recently been lost at sea, with valuable cargoes.

Since my last the royal steamer Britannia has arrived here, leaving England on the 4th July, inst. The Cambria steamer arrived in Liverpool from Boston 27th ult. in ten days and sixteen hours, the shortest passage ever made. The British Parliamentary proceedings are without interest. Nothing important from Ireland. Cotton is in active demand, sales extensive, and money like many parts of the United States, is abundant and at a low rate of interest. Great rains have fallen in France. The news from the Continent generally, is devoid of interest. Advices from Canton 20th of March, and Calcutta 24th April, reached London on the 1st inst., but they are of no importance, except the total destruction by fire, near Calcutta, of the American ship Virginia. All hands were saved except the supercargo—the ship was homeward bound.

Politically, all is quiet at present. The ascendency of the Native American Party in Boston over its municipal affairs, I can safely predict will last only the year out. Still I learn they are going into the State election with a list of officers, probably headed by the renowned General Henry A. S. Dearborn as their candidate for Governor—their vote and the Water question are likely to defeat a choice of Senators and Representatives to the next General Court from Boston. Gov. Briggs will without doubt be renominated by the Whig party for governor. Among the candidates named for governor by the Democratic party, are Judge Pliny Mirick and Col. Isaac Davis, of Worcester, Charles G. Greene, Esq. of Boston, and Gayton P. Osgood, Esq. Andover—all talented and worthy men. A State Democratic Convention is to be held at Worcester early in September next, when the nomination of governor and lieutenant governor will be made. If some gentleman should be selected from Norfolk County as the candidate for lieutenant governor, the Hon. Benj V. French, of Braintree, or Dr. Artemas Brown, of Medway, would be acceptable to the Democracy of Massachusetts.

Among the wonders of the age is Electro Magnetism—great will be the use of this science to mankind, and that very soon. By the means of the Electric Telegraph distant places are brought into instantaneous proximity. There is in New York a Telegraph moved by this power, which prints with the usual letters of the alphabet, as plain as the largest type. The editor of the Boston Bee of Tuesday last says: "A man might, if the wires were laid, sit at New York, and with as much rapidity as the quickest workman can set types, print a letter at New Orleans. And before long, there is every reason to expect that these communications may be made between all the important parts of the country in a few seconds, and with nearly as much rapidity as they would be performed by any system of symbols in the same room. Some striking examples of the effects of this rapid communication have been experienced in the detention and capture of criminals who had imagined they had made their escape in safety. Hitherto it has been thought that a man having the start per railway was secure from pursuit; but now this new agent will arrest his arrival at any point with more ease than a man on the fleetest horse could overtake another on foot." L.

QUINCY PATRIOT.

SATURDAY, JULY 26, 1845.

John A. Green, Editor.

Pic Nic. The Ladies of the Parent Female Total Abstinence Society of Boston, have it in contemplation to hold a grand pic-nic in the course of next week, at Hingham. A steamer capable of conveying six-hundred persons will be chartered for the day, a Band of Music will be employed, and everything that can add to the pleasure of the excursion will be called into requisition.

The Stolen Books. A part of the books stolen from the school-house in the North District of this town, have been found at the Antiquarian Bookstore in Boston, where they had been sold by a person unknown to the purchaser, and thus the rogue has as yet escaped detection.

Take Notice. An error occurred in the advertisement of Mr. Cummings' relative to the price of his wood in last week's paper—it should have read $6 75 per cord for Nova Scotia wood, instead of $7 75; and it is a prime article.

Thunder Storms. The tempest on Thursday of last week was disastrous in many places. A cow belonging to Mr. Nathaniel M. Bean, of this town, was struck by lightning and killed. An observatory in North Weymouth, we understand, was also struck and shattered to pieces.

The tempest of last Tuesday morning was indeed grand and terrific—a more magnificent display has not been witnessed for years, the whole heavens appeared as one sheet of fire, so quickly did one flash succeed the other. The lightning struck one of Mr. Zelotus Beals' barns in Abington, which very soon became enveloped in flames. The fire rapidly communicated to another barn belonging to the same gentleman—thence to his shop and dwelling house, which stood adjacent—and they, together with several tons of hay and much other valuable property, were entirely consumed. Loss estimated at two thousand dollars. The buildings were insured at the office of the Hingham Mutual Fire Insurance Company for seven hundred dollars.

Homicide. A man, named Horatio K. Clark, about forty years of age, was knocked down in Broad street, Boston, on Sunday night last between ten and eleven o'clock, by a man as yet unknown. The assault was seen by a gentleman who was passing at the time. The watch was immediately called, and he was taken to the watch-house, it being supposed at the time that he was drunk. He was however subsequently taken to the hospital, where it was discovered that he was fatally hurt; and he died next day of concussion of the brain; but there was no indication that he had been intoxicated.

Great Fire in New York. A very destructive conflagration commenced in New York early last Saturday morning, destroying about three hundred buildings, and other property, in all to the amount of nearly ten millions of dollars, one half of which was covered by insurance. Several lives were lost, occasioned by three explosions, as it is asserted of saltpetre in one of the buildings—the shocks were heard several miles, and many windows in the city were broken. The fire commenced in a street in the rear of the Merchants' Exchange, burnt over a part of the district destroyed by the great conflagration of 1835, and thence extended to Broadway and the Battery. It was in a part of the city where were located many of the extensive and valuable mercantile firms, and their stores were crowded with the rich and costly articles of foreign and domestic trade. It is stated that this severe loss of property will not severely effect the merchants or the insurance offices, as they are wealthy and have guarded themselves since 1835. The Broad Street Hotel, Gen. Washington's head quarters in the time of the Revolution, took fire but was saved from much injury.

Texan Embassy. Hon. Ashbel Smith, Texan Secretary of State, whose departure from this country, but recently, created some little excitement and speculation, has returned, after visiting England and France.

It was the practice of Stephen Girard to build high houses, his maxim being: "get the lot and build high—there are no ground rents above."

Troops for Boston. The Bangor Whig states that two of the companies of United States troops now stationed at Houlton, (Me.) have been ordered to Boston.

There is a house now standing in North Scituate, in which has resided a man and his wife who have lived together in conjugal blessedness over seventy years, and always in the same house they now occupy.

A lady at Saratoga sent a few weeks since to a fashionable dealer in Broadway, (N. Y.) for a lace collar, directing several to be forwarded by mail that she might select one. Half a dozen were sent, from which one was selected, and the others returned by the same conveyance. The whole postage, including that on the original order, and on the package returned, was twenty-five cents.

Although New Bedford may be considered small, numbering over twelve thousand inhabitants, yet its real estate is valued at twelve millions of dollars, being one thousand to each man, woman and child. New Bedford has two hundred and forty vessels engaged in the whale fisheries.

An individual of Norristown (Penn.) has taken out a patent to burn brick with stone coal. He has burned a kiln containing two hundred and fifty thousand which are said to be of a superior quality By the use of coal as fuel, the expense is much reduced, and the time required to burn diminished one half.

The authorities of Boston have decided to erect a new jail on the City Lands at South Boston, and the sum of fifty-five thousand dollars has been appropriated for that purpose.

A young lady in Philadelphia, while in an overheated state, attempted to eat an ice cream. She had swallowed but one spoonful when she fell dead.

Fort Pulaski, at the entrance of the port of Savannah, (Ga.) has already cost eight hundred thousand dollars, and is not half finished.

Miss Blanchard, who shot a man by the name of Pettiway, her seducer, in New Orleans, a short time has been discharged, Pettiway having cleared out, and no one appearing against her.

The daily receipt of Croton water at the reservoirs in New York is fifteen millions gallons, three times the ordinary wants of the city require; and yet as the Journal of Commerce states, during the late warm weather, the whole fifteen millions gallons have been exhausted, and drafts in addition made upon the previous supply.

After long deliberation, the full bench of the Supreme Court of this State, have decided, "that the fact of an old man, a widower, wishing to marry a young wife, is not of itself evidence of insanity."

In 1768, an individual of Patchogue, (L. I.) cut his name on the shell of a tortoise and let it go; and, in 1844, the tortoise so marked, was found crawling over his grave.

A meeting-house in Andover, (Mass.) was recently struck by lightning, and considerably damaged. The electric fluid shivered the lightning rod on the north side, broke a large window on the east side, entered the church, knocked down one of several painters at work there, ran through the stove funnel, and finally passed out an east window and disappeared under the house, leaving five or six large distinct holes.

A communication in the New Hampshire Patriot states that there was recently a meeting at Henniker (N. H.) of seven brothers, whose united ages were a little more than four hundred and fifty-three years—the average being sixty-four and a half years. They have never all been together before, even in childhood; and now met for the *last* as well as the *first* time.

The Journal de Paris says that an operative has invented a machine to make shoes, by means of which any person possessing sufficient strength to turn a wheel, can in the course of a day, finish fifty pairs of excellent shoes of every size. French shoes ought to be cheap at this rate, though they are now the dearest kind in the American market.

Gen. Santa Anna has taken a beautiful private residence, about nine miles from the city of Havana. It is supposed he is awaiting advices from Mexico, in hopes of a return to power.

It is said that the Wesleyan Methodists of Great Britain are about to disown any connexion with those of the United States who are slave-holders.

The Senate of Texas adopted a resolution declaring that John Tyler, Ex-President of the United States, the zealous and untiring advocate of annexation, the official mover and supporter of the measure, is entitled to the lasting gratitude of the Republic.

At the least, three thousand houses have been consumed, and twenty thousand persons rendered houseless, by the two late disastrous fires in Quebec.

The New York Mirror says that there is a block at the Five Points—that plague spot of the city—which is occupied by no less than ninety families The proprietor is a woman who keeps a groggery in the basement, and makes it a written condition with all her miserable tenants, that they shall purchase their provisions exclusively of her.

At St. Louis, a thief stole fifty dollars in gold from the trunk of a passenger, and in his hurry to get away, left four hundred dollars in gold of his own money behind him.

It is singular that three great feats accomplished by practical science during the present generation, viz: lighting by gas, crossing the Atlantic by steam in ten days, and rapid traveling by the same motive power on railways, were all denounced as utterly impracticable by educated and distinguished philosophers, at the period of their conception.

A street sweeping machine has been recently exhibited in New York. The machine is of the simplest possible construction, and appeared to perform the work for which it was intended very thoroughly.

A colored Temperance Convention has been held at Hudson, (N. Y.) Three thousand members were present. The next Convention will be held in July 1846.

An old man who lived in Newport, (Ky.) fell dead while giving evidence. He was told that he was swearing to a lie; which caused him to become so much excited as to induce apoplexy, it is thought. He fell and expired almost instantly.

It is said that the Canadian French are nineteen out of twenty, for the annexation of Canada to the United Statds.

The most particular of casuist, must feel a sense of disappointment when he considers the reputation and standing of Mr. C. Brinckerhoff's Health Restorative. The proprietor trusts, that any who doubt its remedial power, will not blindly condemn it untried; in fact, the only way to test its worth, is to get it for your own case, or that of your relative or friend, and then witness its effect. We predict that the result will only serve to increase its already unparalelled reputation. 15

A Mineral Water manufacturer, of Philadelphia, makes and sends off twelve hundred dozens of bottles per day. He supplies sixteen hundred public houses, besides agents in various places, and employs one hundred men constantly.

A traveller informs the editor of the Buffalo Commercial Advertiser, that in Illinois he saw forty thousand acres of wheat in one body, divided only by cross roads. The yield upon the whole lot gave promise of something better than was seen last year.

The great Western Convention assembled at Memphis on the 4th. One hundred and fifty delegates being present from the Western States. The object is to promote Western improvement and trade. As the attendance was partial, and as some of the most important States were not represented, no final action was had. The Convention, therefore, adjourned over till the 12th of November next.

The Indian Council held recently in the Creek nation, determined to send deputations to the Camanches and Pawnee Mahaws, for the purpose of inducing thoss tribes to join in the efforts to preserve peace among the red men. Should they consent, a grand council of the tribes will be held at the Great Salt Plains this summer.

It is stated that the Congress Spring at that renowned watering place—Saratoga—is one of the most productive pieces of property in the Union. It yields an income of about twenty thousand dollars; its waters are bottled in vast quantities, and it is sent to every portion of the civilized world, and more recently to China. A little acid added, and it effervesces freely, making delicious lemonade.

The Phi Beta Kappa, of Cambridge, have made choice of Rev. Andrew P. Peabody of Portsmouth, (N. H.) as their orator, and Rev. Charles Brooks, of Newport, (R. I.), as the poet, at their approaching anniversary.

The city inspector states that, during the last week, the deaths in New York, had been four hundred and seventy-four, more than one half over the preceeding week, and two hundred and seventy-five more than during the same week of 1844. The increase is mainly in the class of congestive diseases which have been produced by the excessive heat.

The Second Assistant Postmaster General, has written a letter to the editors of the New York Christian Advocate, that although two newspapers may be printed on one sheet, yet postage is to be charged on each.

Tomato Catsup may be made by cutting the Tomatoes in slices, and on every layer sprinkle a little salt; let them stand a few hours, then add a little horse-radish, garlic, pepper and mace; boil well and strain, then bottle, cork and seal for use.

A project of establishing a Railroad in Broadway, New York, by tunneling the street, excites attention in the city, as a method of relief from the great number of omnibuses and other vehicles which throng that great thoroughfare.

MARRIED.

N. B. Bell out of order.
Also, next TUESDAY EVENING in the Temperance Reading Room, at eight o'clock.
Per order of the Union Board.

T. KELLOGG, Sec.

A public, social Temperance Meeting will be held in the Temperance Reading Room, THIS EVENING at half past seven o'clock.

T. KELLOGG, Secret.

The Selectmen of Quincy, hereby give notice they will be in session, at their room in the Town House, the last SATURDAY in each month until further notice, from *two* to *five* o'clock afternoon. All persons having business with the Town are requested to present it on said days.

BRYANT B. NEWCOMB,
JOSEPH W. ROBERTS,
LEVI G. FOLSOM,

First of August in Norfolk County.

The Abolitionists in Norfolk County are hereby informed that, in compliance with the request of General Agent of the Massachusetts Anti Slavery Society, the Board of Managers of the Norfolk County Anti Slavery Society have selected DEDHAM as the most suitable place for the celebration of the event of West India Emancipation. The members and friends of this Society, and the Massachusetts Society and its auxiliaries, and the public in general are cordially invited to assemble at the Town House in Dedham, on FRIDAY, *the first day of August*, at NINE o'clock in the forenoon, whence they will march in procession to the Grove where the celebration will be held. William P. Atkinson of Weymouth, as Chief Marshal, will have the general direction of the arrangements of the day. It is confidently hoped that the several towns in the county will turn up even larger delegations than on any former occasion. Besides the topics immediately connected with the illustrious anniversary itself, our own new duties and duties arising from the annexation of Texas, and the prospect of a pro-slavery war, will be considered and discussed. Let the whole anti-slavery strength of the County be present to express the sense of the importance of the events that now depend to the fate of our enslaved countrymen, our own hopes, and to those of the race.

As to the details of the occasion, the Board of Agent, that "the convenience of all parties best promoted by making this celebration in the Pic Nic; that is, by having no tables set and general contribution of provision; but letting each individual or party carry their own provisions, and at proper time eat it on the grass in such plan and manner as they please. They think that the experience of past years proves that it is impossible to obtain provisions to a large multitude, justly and satisfactorily, on the plan formerly adopted; and that a great expense of labor, time and money may be saved by the simplicity of the proposed arrangement; while, at the same time, the picturesque effect of the scene will be enhanced by its adoption. The friends, therefore, who may resort to this celebration, will please remember that they must furnish themselves with the utensils, drinking vessels, &c. as well as provisions which they may require for their own use. *Ice and cold water will be furnished on the ground.* When the meeting adjourns for refreshment, the company will naturally fall into groups, according to their affinities, and partake of such stores as they have provided for themselves.

A Programme of the order of procession and the services of the day will be furnished hereafter by the Chief Marshal. Let there be a generous emulation between the different towns of the county, as to which will send the largest delegation. Let their best to make it a proud day in their annals of the land!

EDMUND QUINCY, *President.*

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs, Asthma, and CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine in every case of pulmonary diseases, warrants the Agent in soliciting for treatment the worst possible cases that can be found in the community—those who seek relief in vain from any of the common nostrums of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, in the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be provided with Buchan's Hungarian Balsam of Life, not to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the throat, Bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

DAVID F. BRADLEE, sole Agent of the United States, 119 Court-street, Boston.

C. BRINCKERHOFF'S

THIS MEDICINE being productive of the most powerful and certain remedial effect in the cure of Liver Complaint, Consumption, Pain in the Chest and Side, Coughs, Colds, profuse Night Sweats, and Asthma, its importance will be admitted by all. Having for its commendation the testimony of many of our most truth-loving and respected citizens, we are bound to acknowledge that there must be some great cause for their praise, or it would not be given so freely and frankly, The Health Restorative, from its first introduction to the present day, has never been known to fail of its intended beneficial effects, and where it has not fully cured, it has been traced most conclusively to the fault of the patient in not complying with the simple directions attached to the bottle. So prolific a disease as Consumption, and so dangerous a one to afflict the human race, has induced the needy and soulless trafficker to invent and recommend his nostrums, which only slightly palliate the more aggravating symptoms, or else are entirely useless, and thus to gain money, they deceive their sick and dying fellow men, without even so much as a thought of the baseness of their trade. We leave such demons to the stings and upbraidings of their own conscience. The Proprietor having experienced the curative property of the Restorative in his own individual case, and in numberless others can recommend it to the confidence of the sick, feeling sensible that if a faithful trial is made, the most auspicious result is certain. The following certificate is from Dr. Chilton, the well known New York chemist.

"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."
JAMES R. CHILTON, M. D.

OPENING OF
Spring and Summer Goods.

THE subscriber invites the attention of her friends, and the public generally, to her new stock of Rich and Fashionable

STRAW BONNETS,

having made such arrangements with the manufacturers as will warrant her in saying that her present assortment, for quality, variety and style, far surpasses that of any previous season. In addition to the above splendid stock, she would particularly wish may be seen a new and beautiful style of

SUMMER RIBBONS,

which having been selected with great care, cannot but give perfect satisfaction.

—ALSO—

ARTIFICIAL FLOWERS,

CONSTANTLY ON HAND.

FANCY BONNETS

made to order, and in the most fashionable styles, together with the usual assortment of

Millinery and Fashionable Articles,

CONSISTING IN PART AS FOLLOWS:

Hosiery, Gloves, Glove-Ties, Mitts, Collars;
Linen Cambrics, Lawns, Fancy Silks and Satins;
Cravats, (Paris Cord, Gimps, and other Trimmings for Dresses,) Muslins, Laces,

MOURNING GOODS.

Grave Clothes and Mourning Bonnets,

ALWAYS ON HAND.

Straw Bonnets Altered CLEANSED AND PRESSED in the best manner, as usual, at short notice.

She would also give notice to those wishing Dresses made, that she has a young lady with her who will attend to that branch of business entirely, and will be happy to wait on those wishing her services, either at their own houses or at this establishment.

N. B. All of the above articles will be found at the Store of

S. S. MARSH,

a few rods South of the Stone Temple, in the same building of the Quincy Bookstore, entrance on the south side. tf Quincy, May 3.

Twenty Dollars Reward.

THE SCHOOL HOUSE of the North District, Quincy, was forcibly entered, on Friday, Saturday, or Sunday night last, by breaking the locks and fastenings of the doors; and about thirty volumes of the SCHOOL LIBRARY of that District stolen. Certain Books, also, belonging to the school children were destroyed.

A reward of twenty dollars will be paid for such information as will lead to the recovery of the Books, and the detection and conviction of the perpetrators of this shameful outrage.

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*
JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine;

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health, and have not raised any blood since the use of the first bottle of this excellent preparation.
WYMAN ABERCROMBIE.
Quincy, April 3d, 1843.

From Ibrakim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark:

DEAR SIR—I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. Yours, truly,
IBRAHIM BARTLETT.
Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.

Only Office in Boston, No. 51 1-2 Hanover Street (up stairs.) People in other cities and in country towns may obtain the Medicine by sending for it through conductors of railroad cars, drivers of stages, or in such other way as may be most convenient to them.

July 19. tf

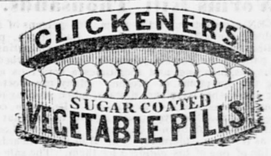
Administrator's Sale.

WILL be sold by public auction, on WEDNESDAY, the sixth day of August, at three o'clock in the afternoon, by order of the Court of Probate, on the premises, a piece of Land situated in Quincy, the property of Peter Newcomb, deceased, containing about one quarter of one acre, and bounded easterly on the Church land, southerly and westerly on William P. Apthorp's land, and northerly on Elm street, together with all the buildings thereon.

Said buildings consist of a well finished two story House, in good repair, suitable for one or two families, and the outhouses attached to the same. The land is of the best quality, and there is upon it several excellent fruit and ornamental trees.

The Estate above described presents a good opportunity for those desirous to purchase, as it is sold by order of Court and will be disposed of to the highest bidder.
JOHN NEWCOMB, *Adm.*
Quincy, June 28. 6w

SUGAR COATED



A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skillfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine is almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronize them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 75 cents per box, with full directions, and sold by the following list of Agents

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; R. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 28.

Dr. D. Jayne's

CARMINATIVE BALSAM.

THIS is one of the most efficient, pleasant, and safe compositions ever offered to the public, for the cure of the various derangements of the stomach and bowels, and the *only* article worthy of the least confidence for curing Cholera Infantum, or Summer Complaint,—and in the above and following diseases, it really acts like a charm, viz:

Dysentery, Diarrhœa, or Looseness—Cholera Morbus, *Summer Complaint,* Cholic, Griping Pains, Sour Stomach, Sick and Nervous Headach, Heartburn, Waterbrash, Pain or sickness of the Stomach, Vomiting, Spitting up of food after eating, and also when it passes through the body unchanged,—want of appetite, restlessness, and inability to sleep; wind in the stomach and bowels, hysterics, cramp, nervous tremors and twitchings, sea-sickness, faintings, Melancholy, and lowness of spirits, fretting and crying of infants, and for all bowel affections and nervous diseases.

Prepared only by Dr. D. Jayne, and sold by
CALEB GILL, Jr.
Quincy, July 19. 3w

POETRY.

AT HOME.

What is that sound of sweetness
That thrills the wanderer's breast,
And brings with magic fleetness
The thoughts of peace and rest?
What is that word of gladness,
That o'er the heart doth come
With magic joy and sweetness?
'Tis Home! sweet Home!

Oh, touching is the feeling
When scenes of days long past,
Upon the memory stealing
Their vivid image cast?
Though cares are gathering o'er us,
As far and wide we roam,
Yet, hope is still before us,
Of Home! sweet Home!

And why is Home thus pleasant?
Why should that magic sound
Bring future, past and present,
In one bright chain around?
Because in fond connection
With it an idea comes,
Those objects of affection
At Home! dear Home!

Because our childish hours
Were spent beneath its shade,
Around its verdant bowers,
And by its streams we played—
Sweet hours of youthful pleasure,
That now again have come,
Your memory still I cherish,
With Home! bright Home!

If to an earthly dwelling
The heart thus closely holds,
What feelings should be swelling
To that which heaven unfolds?
The weary there shall never
Again be found to roam,
But be at rest forever,
At Home! blest Home!

AFFECTATION.

Said Ann to her mother, (affecting to pout,)
"That impudent man I detest!
I can't show my face, within doors or out,
But I meet the full gaze of that pest.

"Don't you think, my dear ma, that a few hours ago,
After passing him, (would you believe it,)
He turned himself round, and starred at me so,
So steadily—none can conceive it."

"Be cautious, my child—there is company here—
And you may for imprudence be blamed;
Who told you of all this impertinence, dear?"
"Why, I saw it, and was so ashamed."

"Beware affectation and vanity, too,"
The mother replied with a smile—
"When you saw him so steadily looking at you,
Pray where did you look all the while?"

From the Boston Traveller.

THE FIREMEN'S HYMN.

At midnight's calm and careless hour,
When gentle dreams the slumberer claim,
To startle from their pleasing power,
And grapple with the bursting flame—
To hear without, the rush of feet,
And trumpets deep appalling din;
To madly strive, and no retreat
To find from burning death within:—

A wife's imploring agony!
A cry from childhood's distant room!
O, gracious God! for wings to fly
And save them from the raging doom.
Relief is near!—the FIREMAN'S grasp
Is on them, and his ready arm
Has borne the living from the clasp
Of Death, and wife and babe from harm.

The tear of gratitude, the joy
Of giving joy to keen despair,
—Earth's only cup without alloy—
Are known and *felt*, not spoken there.
And these are ours! O THEU, may we
Look ever to the fountain, whence
All mercy flows, and learn of Thee,
Who art thyself, Benevolence.

ANECDOTES.

"Mr. Dentist, do you see that decayed tooth?" "Yes sir." "Well, I want you to pull it, provided it don't hurt too much." "Yes sir." "Well now put on the *tweezers*; if it hurts bad, I'll sing out *hold on*, and you'll hold on, won't you?" "Yes sir." "*Hold on!* Hallo! you've not only pulled the tooth, but half of my jaw bone. Why didn't you let go when I sung out?" "Because you told me to hold on."

An Irish sergeant, on a march, being attacked by a dog, pierced the animal with his halbert. On the complaint of the owner, the superior officer said to the offender, "Murphy, you were wrong in this. You should have struck the dog with the butt-end of your halbert, and not with your blade. "Plase your honor," says Murphy, "and I would have been glad for to save myself the trouble of claining my iron, if he had only been so kind as to bite me with his tail instead of his teeth."

A shrewd farmer in the Vermont Legislature declined to answer the speech of a member who was remarkable for nothing but his frothy and pugnacious impudence and self-conceit, thus:—"Mr. Speaker, I can't reply to that are speech, for it always wrenches me terribly to kick at nothing."

A noted medical gentleman, celebrated almost as much for his love of good living as for his professional skill—called one day upon a certain excentric nobleman, whom he found sitting alone at a very nice dinner. After some time, the doctor, receiving no invitation to partake of it, said, "My dear Lord, if I were in your lordship's place, I should say, 'Pray, Doctor, do as I am doing.'" "A thousand pardons for the omission," cried his lordship, "pray then, my dear Doctor, do as I am doing—go home and eat your own dinner."

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Handcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Krauth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea-sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; R. Gleason, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

June 28. tf

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, "if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world." The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educated and experienced Physician, rather than the precarious and dangerous doings of Quacks and inexperienced Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10; sent to all parts of the Union. Office and consultation rooms.

MISCELLANY.

THE GOLDEN CLASP.

BY PROFESSOR J. INGRAHAM.

PART I.

A modest and exceedingly pretty young girl, plainly attired, entered one of the goldsmith stores of —— street, and seeing that a gentleman was engaged with the proprietor, she timidly shrunk aside near the door until he should be at leisure. The assistants were also occupied with customers whose dress and appearance showed them to belong to the class of the rich, and so she was suffered to remain for some time standing there before she could be attended to. The gentleman, who was a fine noble looking person, with a remarkably polished dress, seeing her waiting, courteously stood aside, and said to the goldsmith—

"Do not occupy yourself with me now, Mr. Broochard, I can examine these watches myself while you see what this young person wants who has been waiting so long and patiently, to get an opportunity to address you."

"What do you wish, Miss?" asked the goldsmith, with a look which conveyed a reproof to her for interrupting him while engaged with a customer of more value to him.

The girl hesitatingly approached the counter, and taking from her bosom a small golden clasp, bent over to him, and said in a low trembling voice—

I wish, sir, you would be so kind as to keep this a few days and let me have seven dollars for it."

Low as she spoke her soft trembling voice reached the ears of Col M'Henry, the gentleman who was present, and he turned to observe the face, and hear the reply of the goldsmith to this timid and painful uttered request. The goldsmith took the clasp scornfully between his fingers, and then throwing it down said sharply to her—

"This is no pawn broker's shop, and even was, that thing is not worth two dollars."

"It is of inestimable value to me, sir, indeed it is the only thing valuable that I have" answered she earnestly and her cheek slightly flushed at the rude manner of his reply.

"I don't know what you value it at," answered with a cold laugh, glancing at Col Henry whom he saw severely observing him. "I would not like to give you six shillings for it."

"But sir," pleaded the girl, unconsciously being overheard, "I *must* have seven dollars to-day, and I have no other way of getting it, and I was in hopes, sir, that you might let me have that sum on it; for I will certainly come back and take it up again."

"I tell you," answered Mr. Broochard angrily, "I keep no pawn broker's shop. Go to the Jews."

"They won't give me but two dollars, sir, and I want seven."

"And so you think to get it out of me"

The young girl was about to speak again, but as if not knowing what further argument to urge, hesitated, and was slowly turning away, when she checked herself and again spoke to him—

"Sir," she said, in a low thrilling voice of earnest entreaty, "my mother is lying very ill, and our rent is due at twelve o'clock to-day, and the persons we sew for having disappointed us in our pay, I have no other resource but this! Oh, sir, will you take this clasp, only for a few days, I will then repay you?"

Mr. Broochard felt that Col M'Henry's eyes were upon him, waiting an answer, and he wished him to think him a man of business, (which meant in his notion a man without heart,) he answered promptly and sternly, "No. Do you think we are simpletons to throw away money in this way. If you have nothing more to say, please stand

"And so you think to get it out of me?"

The young girl was about to speak again, but as if not knowing what farther argument to urge, hesitated, and was slowly turning away, when she checked herself and again spoke to him—

"Sir," she said, in a low thrilling voice of earnest entreaty, "my mother is lying very ill, and our rent is due at twelve o'clock to-day, and the persons we sew for having disappointed us in our pay, I have no other resource but this! Oh, sir, will you take this clasp, only for a few days, I will then repay you?"

Mr. Broochard felt that Col McHenry's eyes were upon him, waiting an answer, and as he wished him to think him a man of business, (which meant in his notion a man without a heart,) he answered promptly and sternly, "No. Do you think we are simpletons's here to throw away money in this way. If you have nothing more to say, please stand aside for customers. Well, Colonel, what do you think of those watches? Latest importation—full jewell'd and warranted in all points. I will sell you the one you just laid down, for one hundred and ninety-five dollars."

The gentleman, however, was not heeding him, but watching the young girl whom he saw leave the counter, and with a heavy drooping step approached the door. Her face had struck him for its sweet intelligent loveliness, and her modesty had for him an unresistable charm, but her plea of poverty, and her eloquent appeal to the tradesman, deeply interested his feelings and enlisted his sympathies in her behalf. He had silently observed the progress of her interview with him, with emotions of contempt for the one, and pity for the other.

Her hand was on the knob of the door, when advancing towards her—

"You asked, I believe, for seven dollars?" he said, with a gentle interest in his tone that at once awakened hope in her heart, and brought the light to her eyes and the hue to her cheeks, as she diffidently answered—

"Yes, sir. I would not have been so bold and urgent but——."

"None too much so. There is a ten dollar note—I have no smaller bills." And he placed it in her hand.

"Sir, you are too kind ——."

"Not a word. I am happy to do you a service."

"Take the clasp, sir; although I am ashamed to offer it to you, since the gentleman says it is so valueless. But to me it is valuable as life, and I foolishly thought it must be to others."

"I do not want it," child, answered Col Mc Henry feelingly putting the hand aside which urged it upon him.

"Indeed, sir, you must take it, for I shall feel in some degree less under obligation to a stranger. Besides, I wish to call and redeem it. Will you give me your address, sir?" and as she spoke, he still declining the jewel, she laid it on the show case.

"Oh, no matter—but if you insist—the United States Hotel."

"Thank you, sir; you can never know the blessings to others that will follow your kindness to me to-day."

Thus speaking and looking upon him with an expression of gratitude in her tearful eyes, she left the shop, forgetting the golden clasp, which she had left upon the show case. "Will you look at one of the watches now, Col. Mc Henry?" superciliously asked the goldsmith, without lifting his condemned eyes.

"No, sir," answered the gentleman sternly, and taking his gloves and cane from the shop of the avaricious goldsmith, who, too close to risk a trifle to relieve the wants of a poor family probable lost a large amount by the purchases his wealthy customer might have made, as well as his own self respect, such as it was; for avarice always shrinks into its shell before the broad sun of benevolence.

"Now there goes a man who throws away money upon vagrants, because I keep mine to support my family," said the goldsmith, looking after him, "he thinks me a miser, and I think him a fool. Oh, here is that clasp after all!—She left it for him on the show case, and he was too proud to take it away, if he saw it. Seven dollars! It is not worth more than five."

He opened it as he spoke, and taking up a sharp instrument, tried the firmness of the gold.

"It is good old Mexican gold. It might have cost once twenty dollars. Ah! what a star of diamonds within it!" he exclaimed, as in working about with the point of the steel he discovered a cavity. "Twelve large diamonds of the purest water! This is indeed valuable! Let me see—they are worth at least five hundred dollars! What value to ask so much!—No, no, she could not, either, for she would not have let it go for so small a sum, or else asked for nearer its value. I suspect she was ignorant of this cavity, which I detected only by accident, she has probably stolen it, and will never come for it. Ah, ah, Abraham Broochard, thou has made a good morning's work of it!" he said exultingly, to himself.

Then looking round among his shop boys to see if he were unobserved, he carefully, yet with a cheerless air, locked the clasp in his private drawer, and taking out the key, placed it in his pocket. He had hardly done so, when Col McHenry re-entered, and without speaking or even looking at him, cast his eyes upon the show case for the clasp, which he recollected, after going out, the young girl had lain down but did not take it up again, and, so he turned back for it. Abraham Broochard was very busily engaged in replacing the watches in their doe skin coverings, and preserved silence and ignorance. At length Col McHenry spoke.

"The young person laid her clasp on the case, sir, which I neglected to take up. It were a pity, it should be lost, she valued it so highly."

"The clasp! Oh, oh! I have not seen it, sir. She took it up again."

"Did you see her?"

"Yes, oh yes! I had my eyes on her, and said at the time, you'd never see your ten dollars or the clasp again?"

The gentleman eyed him steadily an instant and then glancing round the show case again, as if in search of it, he quit the shop.

PART II.

Several days elapsed, and Col McHenry had forgotten the circumstances just narrated, when he was passing down Arch street, he felt his sleeve suddenly pulled by some one whom he had heard running behind him, and looking round he beheld, with a cheek glowing from the pursuit, the young girl he had seen at the goldsmith's.

"Oh, sir. I am so happy to have found you," she said, at once addressing him, as he stopped and with pleasure listened to her—"I was at length enabled to get my pay, and by other work have earned enough to pay you the ten dollars you so kindly gave me. You don't know the good you did, sir—the suffering you relieved—the evil your timely aid averted.—Here is the money, sir."

"Nay, my good girl, I do not want it. I made you a present of it at the time and did not expect you to return it. I am however glad to find you have had the disposition to do so, and that I was not deceived in my estimation of you."

"You *must* take it sir;" she said with ingenious earnestness. "I should be distressed to be longer under obligation to an entire stranger. Besides, sir, I would like my clasp if you please."

"Did you not take it from the case where you laid it down?" he asked, with surprise and justly directed suspicion.

"No, sir; indeed, sir, I hope it is not lost. It is of countless value to me. It was given to me by—by—

"By a sweetheart?" he added, smiling.

"He is now—*dead*," sir," she answered with overflowing eyes.

"You do well to value it. I did not take it up. Are you sure you left it there?"

"Yes sir; hoping you would take it and keep it till I paid you."

"Well, my child, I have not got it; but I believe the goldsmith has. Let us go to him."

On their arrival, Mr. Broochard denied ever having seen it since she went out, and that he saw her take it with her and place it in her bosom as she left the shop. The young lady turned pale, and was inconceivably distressed.

"Come with me; I will find the clasp for you," said Col McHenry, offering her his arm and leaving the goldsmith's with her.

"I do hope I shall find it, sir," she said as they walked. "It was Robert's last dying gift. It was given him in Cuba by a rich lady whose life he had saved by rescuing her from the water. He was a sailor, and he had little to leave me but his memory, and my poor clasp. Oh, sir, if it is lost I shall never forgive myself for offering to pledge it. But, sir, our extremity was very great."

Colonel McHenry stopped with her at a justice's office, and he briefly and clearly made his complaint, and in a very few minutes Mr Abraham Broochard was brought by an officer in the presence of the magistrate. He appeared to be in great trepidation, and was pale as ashes; for he had been suddenly taken without warning from behind his counter, leaving his shop in charge of his astonished assistants.—Colonel McHenry and the young lady having been sworn, deposed that they both had seen the clasp on the show case, where each went out and left it, the former further deposing he had not gone three steps from the door before he returned and found it missing, and no one in the vicinity but the defendant.

The goldsmith was then called up to be sworn as to his knowledge of the facts. He approached the stand, where the magistrate held the Bible, and laid his hands upon it with a perceptible tremor of his whole body; but love of money was stronger than the fear of the law, and he took the oath. It appeared as if he would have sunk through the floor when he did it; but the moment it was done, he recovered his audacity. At this moment an officer, who at the suggestion of Col McHenry, had been privately despatched by the justice with a search warrant to the shop of the goldsmith, now entered and placed something in the magistrate's hand after whispering briefly to him.

"Did you ever see this gold ornament before?" asked the magistrate, holding up the clasp before the young girl.

"Oh, it is my clasp—it is my clasp!" she cried, springing forward.

"Yes it is the same," answered Col McHenry.

"And did you ever see it before sir?" demanded the justice sternly, holding it in the direction of the goldsmith, who had seen it at the first, and was appalled with fear and consternation. Instead of replying, he uttered a wild, hysterical laugh, and fell his length in convulsions upon the floor.

He was in a few weeks afterwards taken from prison, tried and condemned for *perjury*; but his reason forsook him, and instead of the gallows, he is now raving in a mad house.—Thus was avarice and parsimony and indifference to the suffering of others punished in this life; the acts of the selfish man showing to all how that acquisitiveness wrongly directed is fatal to its possessor.

Col McHenry proved to be a bachelor; and though a little turned of thirty, his heart was keenly alive to all the inner sensibilities of our nature. He could feel for the down trodden poor; and sympathise with the unfortunate. To this truth none could more positively attest than the young friend of the "golden clasp," for ere two moons had waned, she rejoiced in the euphonic title of *Mrs.* Col McHenry, surrounded with all the appliance of wealth that a grateful heart like hers could enjoy or even desire. Her poor afflicted mother was well provided for, when she soon recovered her health and happiness, and prosperity smiled upon all.

A BAD HABIT.

"Oh, Mother? I am *tired to death!*" said Jane Mills as she threw herself into a chair on her return from school.

"*Tired to death!*" repeated her mother.

"Yes, mother, I am—*almost*, I mean," she added.

"No, my daughter, not even *almost*," said Mrs. Mills.

"Well, at any rate," continued Jane," I would not walk from here to school to day, *for any thing in the world.*"

"Oh, yes you would, my dear," said her mother gently.

"No, mother, I am *sure I would not.* I am certain nothing would tempt me."

"But I am nearly certain you would be induced to go without any urging," answered her mother.

"Well, mother, try me, and see if any thing would make me willing to go."

"Suppose," said Mrs. Mills, "I should offer to take you with me to the new panorama this afternoon? I expect to visit it?"

"Do you, mother," said Jane with great animation. "May I go? You promised to take me when you went.

"I intended to have done so," replied her mother, "but the place is a long way beyond your school."

"But I am quite rested now, dear mother," said Jane, "I would not fail of going *for all the world.* Why do you smile, mother?"

"To think what an inconsistent little daughter I have."

"What do you mean by *inconsistent*, mother?"

"Why, when a little girl says one minute that she would not walk a particular distance *for any thing in the world*, and the next minute says she would not fail of walking still further *for all the world*, she not only talks inconsistently and extravagantly, but foolishly. It is a very bad habit to use such expressions. Yesterday, when you came from school you said you were frightened out of your life, and when I enquired into the cause of your alarm, you replied that you had *met as many as a thousand cross dogs* on your way home from school.

"Now, my daughter, I wish you to break yourself of this bad habit. When you are tired, or hungry, or frightened, use the simple words that express your meaning. For instance, you may be tired—very tired—or excessively tired. Or you may be alarmed, or frightened, or terrified.

"From this time let your lips speak the thing you mean. The Bible says, "Let your yea be yea, and your nay nay;" and adds—"Whatsoever is more than these cometh of evil."

"Will you try to remember what I have been saying, and strive to correct this fault, my dear child?"

"Yes, dear mother," replied Jane, "for I know it is wrong, and feel ashamed and sorry for it."

"Well, my dear," added her mother.—IMPROVE. And now you may get ready to go with me to see the panorama."

"ANY OTHER TIME WILL DO AS WELL."

"Nature never says this. She jogs on without delay, and always does her work in season.

The Parson puts off preparation for Sunday, from Monday to Tuesday, and from Tuesday to Wednesday, and so on to Saturday. He can write a sermon *at any time.* The first of the week glides away in visits—in amusements—in business—the last of the week is to be devoted to study—but company, a sick parishioner, and twenty unexpected avocations break in upon this reserved part of the week—no preparation is made for the duties of Sunday until Saturday evening—a genius may yet be tolerably well prepared in a few hours—but how few are the preachers of such genius!—yet even the *dull* have a resource—an *old* sermon with a *new* text, is just as good as a new made sermon. True, for how few would know whether they had heard a sermon *once or a dozen times.* Happy dullness! Like people, like priest!

The Doctor has a patient in a dangerous situation—he hurries to his relief—he makes no delay. But suppose his patient has a lingering disorder—why, says the doctor, I can visit him *at any time.* He has assigned an hour indeed when he will see his patients; *any other time will do as well.* The patient waits until the time is past—then he becomes *impatient*—if his disorder is not violent, most probably he is cross and irritable—he frets at the doctor—and ten to one the doctor loses his custom. Then the doctor believes with the Prompter, that no time will do as well as the *right time.*

The Lawyer has several cases in court—he can prepare them for trial at any time. Several causes stand assigned for trial before his—he can finish the pleadings at any time—by some unforseen accident, business takes a new turn—the court urges forward to complete it—his causes are called, and they are not ready—a nonsuit—a continuance—or some other expensive alternative is the consequence.

The Farmer's fence is down, and his fields exposed to his neighbor's cattle—and he has a little job to do first—he can repair his fences *at any time*—before his *any time* comes, fifty or a hundred sheep get into his field and trample down his wheat. For want of an hour's work he loses ten, fifteen or twenty bushels of wheat. His apple trees want pruning—but he must dress his flax before he can do it—warm weather approaches—he will certainly prune his trees in a day or two—but he will finish a little job first—before he has done, the season is past—it is too late to 'prune his trees—they must go another year—*and half his fruit is lost.*

The lounging housewife rises in the morning in haste; for lazy folks are ever in a hurry. She has not time to put on her clothes properly—but she can do it *at any time.* She draws on her gown, but leaves it half pinned—her handkerchief is thrown across her neck—her shoes down at the heels—she bustles about with her hair over her eyes—she runs from room to room slipshod, resolved to *do up the work* and dress herself—but folks who are slipshod about the feet, are usually slipshod all over the house all day—they *begin everything, and finish nothing.* In the midst of the poor woman's hurry, somebody comes in—she is in a flutter—she runs into the next room—pins up her gown and handkerchief—hurries back with her heels thumping the floor—O dear you have catched us all in the suds—I intended to have *cleaned up* before any body came in—but I have had every thing to do this morning—in the mean time, she catches hold of the broom and begins to sweep—the dust rises and stifles every soul present. This is ill manners indeed to brush the dust into a neighbor's face, because the woman is *very sorry if it happens so.*

Many a neighbor has thus been entertained with *apologies* and *dust* at a friend's house; and wherever this takes place, depend on it, the mistress puts off to *any time*, that is to *no time*, what ought to be done at the *present time.*

A GOOD MORAL CHARACTER.

Few individuals there are who set out in early life with opinions exalted enough in respect to this great and important subject.—Young men and ladies are apt to be regardless of the position they ought to occupy in society; and, instead of pursuing a course which would elevate them and secure to them the approbation of the good and virtuous, they too often squander away their early days in the gratification of vain and idle curiosities. Alike regardless of popular opinion, they oftentimes indulge in *small* vices which, at length, from force of habit, are apt to lead them along in the paths of wickedness until their whole souls are deluged in iniquity and corruption, and themselves made the outcasts and despised of society. No man ever prospered in life and possessed the good will of society without sustaining a good moral character. It is as essential to one's prosperity and happiness as his very existence; and, indeed, however great and aspiring may be an individual's intentions, or however exalted a position he may occupy in society for a time, without a due regard to his moral character, his destruction will come as a whirlwind, and his own wickedness will overthrow him.

There is but one path to travel; and that is the path of honesty and virtue. In this is to be found peace and happiness. In this, and this alone, may we expect to receive the approbation of our Heavenly Father, and the peace of an approving conscience.—Bellows Falls Gazette.

THE STEAM ENGINE.

Years have rolled away, and the visions of the tea-kettle have been realized.

Talk of political revolutions, they are nothing to the revolutions of science. Amid the roar of a conflict which shook Europe, the ancient dynasty of France falls prostrate, crumbled with the ruins of its own Bastile. And now new bastiles are being created—new forts erected—the tools with which tyranny played its game of yore; the chains are again clanking on the people who once so nobly burst them. But there is no such reaction in the revolution of science. The echo of the cheery hiss of the old tea-kettle, when the boy Watts sat dreamingly listening to it, is to be heard in the loud roar of the steam pipe, rising often above the din of wind and waters, and proclaiming to both that a mighty power is battling with their fierceness.

Steam has made this old world of ours a new one. It makes ocean voyages pleasant trips; it binds cities together, literally with iron bands: it brings kingdoms into as close contiguity as parishes. What does it not do for man! Services the most mighty and the most trivial. It hurries him across the Atlantic in ten days, and grinds coffee in grocer's shops; it has power enough to pump up volumes of water from the bowels of the earth, and delicacy enough to drive a shuttle and weave fine linen. Mighty as is its strength, the childhood of intellect can guide it. Up and down fly the huge beams and cylinders that hundreds of horses would in vain crack sinews and muscles to control; and yet, let there be but the touch of a guiding lever—the stopping of a valve—demanding no more than a child's strength, and the vast moving fabric at once becomes motionless and passive—only so many tons of wrought and hammered metal.

There is, to our thinking, something awfully grand in the contemplation of a vast steam engine. Stand amidst its ponderous beams and bars, wheels and cylinders, and watch their unceasing play; how regular and how powerful—the machinery of a lady's Geneva watch is not more nicely adjusted—the rush of the avalanch is not more awful in its strength. Old Gothic cathedrals are solemn places, preaching solemn lessons, touching solemn things; but to

him who thinks, an engine room may preach a more solemn lesson still. It will tell him of mind—mind welding matter at its will—mind triumphing over physical difficulties—man asserting his great supremacy—'intellect battling with the elements.' And how exquisitely complete is every detail! how subordinate every part towards the one great end! how every little bar and screw fit together! Vast as is the machine, let a bolt be but the tenth part of an inch too long or too short, and the whole fabric is disorganized. It is one complete piece of harmony—an iron essay upon unity of design and execution. There is deep poetry in the steam engine—more of the poetry of motion than in the bound of an antelope, more of the poetry of power than in the dash of a cataract. And ought it not to be a lesson to those who laugh at novelties! and put no faith in inventions, to consider that this complex fabric—this triumph of art and science—was once the laughing-stock of jeering thousands, and once only the waking phantasy of a boy's mind, as he sat in seeming idleness watching a little column of vapor rise from the spout of a Tea-kettle?

For the Quincy Patriot.

LETTER FROM BOSTON.

There has been no small stir to-day with the commercial community, by reason of the unlooked for arrival, last evening, at East Boston, of the beautiful steamship Cambria, Capt. Judkins, in the remarkable short passage of eleven days from England. Thus this noble ship has twice crossed the Atlantic ocean in a fraction over twenty-two days. The European news by her is not of momentous importance. The cargo of the Cambria is valuable—the duties on the same exceeding fifty thousand dollars. Indeed, during the present month, the revenue at Boston Custom House has been over half million of dollars. The Rev. Dr. Sharp of Boston, was a passenger in the Cambria. He returns from the last visit he will ever probably make to his native land Old England. All accounts from the British Isle, justify the remark of a recent writer, that England is indeed in a "state of transition." In a commercial sense, it is too evident that the whole system of *protection* is soon to be abandoned; and, within ten years from the present time should peace continue, no duties on imports will exist but those imposed for fiscal purposes. The recent debates in Parliament on the total abolition of the Corn Laws are indications of this wonderful result. In the religious and ecclesiastical relations of the country, changes are equally apparent. The present policy of the British Government, backed by the influence of the Duke of Wellington, is peace. The National Councils and the people reprobate war *with any notion*, as the greatest evil that could befall them. The House of Lords has, recently, granted a large sum of money, the Catholic College of Maynooth, by a vote of three to one. Could such a vote have been obtained at any period since the revolution of 1683. Protestants voting endowments for the erection of Catholic Colleges in Ireland! But the political, ecclesiastical and the commercial reform does not stop here, it is also moral and social.—Dueling and fighting is now frowned down in the highest circles; and assobiations are forming over England, for mutual happiness and aid; more especially by the order of Independent Odd Fellows. It is true to the letter, that astonishing changes are going on in public opinion, in England. In all that relates to the great doctrines of social and political equality, in all that concerns the interests of labor, equal legislation and equal rights, England is advacing with more rapid strides than our own United States. In good truth, the English government is verging in spirit if not in *form* from a limited monarchy to a republic.

The Texas question is settled. A convention of the people of that country, called July 4th last, have ratified the annexation with the United States. Two Senators and two members of Congress will probably be found marching at the Halls of our National Capitol in December next.

I am sorry to learn from a gentleman who has just returned from a visit to Gov. Dorr at Providence, that great doubt exists if he ever recovers his health again. The persecutions of his enemies, have been too much for him, as he is likely soon to become a Martyr to their vengeance.

Our city is deserted of a large portion of its residents. The mania for "going out of town" continues unabated. Every thing in the shape of a boarding house or hotel in the vicinity of Boston is full. Thirty-five hundred visiters from various places are now at Saratoga Springs. The increased facilities and cheapness of travelling, induce large numbers to journey at this season of the year. Our rate of travelling here does not begin to compare as yet with England. In a recent letter from Willis, now in that country, to the New York Mirror, he says he passed on the railroads there two hundred and twenty miles in five hours.

I omitted to notice in my last, that the census of Boston has just been taken and we number one hundred and twenty thousand inhabitants. Yours, Z.

QUINCY PATRIOT.

SATURDAY, AUG. 2, 1845.

John A. Green, Editor.

Fatal Accident. While Mr. Ellis of Marshfield, was engaged in raising a building in Duxbury, on the 18th inst., a beam fell thirty feet and struck him on the top of his head, killing him instantly. He was forty-eight years old.

A Good Selection. It is said that the corporation of Harvard University have voted to invite the Hon. Edward Everett to accept of the office of President of that Institution, and it is believed that he will yield to their wishes.

Dark Day. It was so dark in Philadelphia, on Sunday last, at five o'clock in the afternoon, that it was found necessary, in some cases, to use candles and lamps to read by.

Temperance Movement. Orders have been issued to the public houses, restorateurs, &c., in Boston, by the Mayor and Aldermen, forbidding the sale of intoxicating drinks on the Sabbath.

Extradition. A proclamation of the President of the United States has been published, announcing an arrangement between this country and France, by which persons guilty of robbery or burglary, in either, shall be delivered up to their respective governments for trial and punishment.

Another Trial.—The Governor and Council have appointed Monday, the first day of September, for a new trial for the election of a member of Congress in the Ninth Congressional District in this Commonwealth.

The proprietors of Castle Garden, New York, have sent to the Board of Alderman of that city their bill for furnishing refreshments, during the great fire, to the military and police department.—It amounts to two thousand seven hundred dollars.

James G. Burney has been nominated by the Liberty party of Michigan as their candidate for Governor.

As some hands were recently engaged in removing wood from a pier in New York, for the use of the steamboats, they discovered a heap of gold coin, consisting of sovereigns and half sovereigns to the amount of one hundred and seventy-five dollars.

A brother of John C. Colt, says the New York Mirror has been hold to bail in fifteen hundred dollars in a civil suit, and fifteen hundred dollars in a criminal one, for a brutal and unprovoked assault on the person of a counsellor at law.

See that your barns are well ventilated while your hay is new. The frequent destruction of buildings of this description, by electrical contact, is in nine cases out of ten, the result of carelessness in the non-observanee of this important duty.

At the late anniversary of the Ohio Anti Slavery Society, it was resolved to raise five thousand dollars the ensuing year to pay lecturers and print tracts. This will aid the advancement of the cause wonderfully in that State.

There is a young giant growing in Limington, (Me.) He is nine years old, weighs one hundred and fifty pounds, and is a very cheerful little fellow. His father and mother are below the medium size.

In its approach to Wall street, the late great fire in New York, was arrested by the same building that stopped the great fire of 1835; it has sold twelve inch walls, which will stand alone if the whole interior be burnt out.

Geese and turkeys cost the farmer more than any living creature on the place in proportion to their value. A turkey consumes as much as a hog that that weighs one hundred pounds.

A remonstrance against grog shops in Philadelphia has been presented to the Grand Jury, signed by sixteen thousand ladies.

The Springfield (Mass.) Post says a lame man would have been drowned in the town brook, had he not been so full of liquor that the water could not get into him.

The Prince of Wales in England, is not three years old, and yet he has an income of four hundred thousand dollars per annum. Would it not read better in history, to give three hundred thousand dollars of this sum to the poor, who go to bed supperless with in a stone's throw of the Prince's palace?

Mahomet taught that he who treats his horse with cruelty, would hereafter find the animal ready saddled and bridled, standing at death's door, and must mount and ride him perdition.

An Irishman, a laborer on the Old Colony railroad, was drowned a short time since, while bathing in a pond in Abington.

An association has recently been informed for the purpose of making a systematic effort to rescue youth from the inroads of intemperance. Chancellor Walworth has been chosen President. It is called the New York State Juvenile Temperance Society.

A valuable collection of paintings, left by Joseph Bonaparte to the young Prince Musignano, now in this country, are to be sold on the seventeen and eighteenth of September next, at Bordentown, (N. J.) The collection is said to be very choice and valuable.

The trial of C. J. McNulty, on one of the five indictments charging him with embezzling the public money, whilst Clerk of the United States House of Representatives, has been closed by the United States Attorney entering a nolle prosequi. It was proved, that in relation to the money embraced in this indictment, it was his own money due to him as clerk of the House, and hence the nolle prosequi. The other cases against him, were continued till December next, which time the Court adjourned.

A meeting of slaveholders has been held in Charles county, (Md.,) to concert measures for preventing elopements of slaves, such as have recently occurred in that vicinity. They adopted resolutions, recommending the appointment of an additional police—excluding free negroes from the county after December next—and prohibiting ministers from holding evening meetings for slaves, and requiring one or more masters to be present when religious instruction is given to slaves in the day time.

The Supreme Court of New Jersey have decided the important point lately argued before them, to the effect that the new Constitution does not abolish slavery in that State, as it existed at its adoption, under the Gradual Emancipation Act of 1820. Three of the Judges concurred; the Chief Justice dissented; and another not having heard the argument, gaae no opinion.

An infant four months old, in New York, was suffocated in the following dreadful manner: The child was lying upon a bed which was generally removed in the day time and put in a box; and the female who had that duty to perform, rolled up the bed without noticing the child, and put it away. When the child was missed and search was made for it, it was of course dead.

It must be viewed as a curious circumstance that the British government at this moment are employing two natives of the United States, to translate all the public documents issued by the Celestials, of importance to be made, both sent out by the American Foreign Missionary Society.

It is the custom in New York, and perhaps in some other cities, for some of the churches to close their houses of worship during the hot season while the pastors retire to their country seats or to fashionable watering places. Such annoucements sound strangely in New England, where it has not been regarded necessary to suspend religious worship, during the customary pastor's vacation.

A writer in the National (D. C.) Intelligencer speaking of the alarming prevalence of intemperance of Virginia, notices the noble stand taken by Gov. McDowell, the present executive of the State, one the side of temperance, is strong terms of approbation.

The third Congregational Society of Danvers, (Mass.) have extended an invitation to Mr. Richard Toulman of Dorchester, late of the Theological Seminary, Andvover, to become their pastor. It is understood that he will accept the call, and that the Ordination will take place some time in September next.

The whigs of Philadelphia celebrated the fourth of July by a dinner. E. Joy Morris presiding.—Letters were received from many distinguished men. Hon. John Quincy Adams sent the following toast:

The Self-Evident Truths.—The tolling knell of slavery and oppression—the triumphant peal of the brotherhood of man."

The first steps have been taken in Baltimore for the erection of a monument to the memory of Gen. Jackson in that city. As both whigs and democrats are working hand-in-hand in the movement, there is no doubt of its success.

It appears from the New Orleans papers that the whole number of persons on board this ill-fated boat, at the time of her recent explosion, at New Orleans, was seventy-one. Twenty-eight are known to have been saved, including eleven dangerously wounded and now under medical treatment. Thirteen have died since the explosion, and twenty-nine are still missing; so that the probability is, that forty-two persons have perished by this single disaster.

Two hundred and fifty thousand dollars' worth of dimes and half dimes have been ordered to be coined at the Philadelphia mint, to meet the exigencies of the new postage law.

The Hon. Samuel Appleton has lately made a donation of one thousand dollars to the Boston Female Asylum. This sum makes three thousand dollars which that gentleman has given to this excellent Institutian, the first thousand having been given by him thirty years ago.

The proprietor of that old and excellent paper, the Massachusetts Spy, has commenced the publication of a daily paper.

The Washington Union intimates that upon official notice being received by the President of the acceptance by Texas of the annexation resolutions, the United States revenue laws will be extended to Texas, and United States Custom House officers appointed for her ports.

Hezekiah Williard, Collector of the Port of Providence, and Daniel Parmenter, have commenced suits for false imprisonment during the Door excitement in Rhode Island. Each lays his damages at ten thousand dollars.

Hon. John Pope lately died at his residence in Washington county, (Ky.) He had for many years been a prominent actor in the politics of the West, and had been several times in Congress.

A project has been started in New Hampshire of a railroad from Concord to Portsmouth, with a good prospect of success.

It is said that the estate of John Jacob Astor lost one hundred thousand dollars by the late fire in New York—about one sixth of a year's income.

Nine fugitives slaves passed through Oswego for Canada, a short time since. They were said to be a portion of the seventy-seven who escaped from their pursuers in the recent movement in Maryland.

A firm in New York, moved about thirty thousand dollars worth of silks, during the late fire, and sent them to a dwelling house. The store was untouched, but the dwelling was burned with its valuable contents.

A few days since a gentleman in Charlestown, (Mass.) took a bit of butter on his knife, when lo! out slipped an American Eagle of the real "simon pure," lost no doubt by some industrious dairy maid, and which the finder would wish to restore to its rightful owner.

A young girl has been fined in New Orleans lately, for appearing in the streets in boy's clothes. A justice admitted the right of married women to "wear the breeches," but denied that single females had any business with such an article.

The owner of Peytona, offers to run her in a match for ten thousand dollars, over the Long Island course, on the first Monday in October, against any other horse, for the championship of the American turf.

A young man, lately in the employ of the American Museum, in New York, as bill distributer, has received intelligence from England, that a relative, recently deceased there, has bequeathed to him the snug little fortune of thirty thousand dollars.

The ship European lately made a passage from Quebec to Glasgow in seventeen days, and from Montreal in nineteen. This is said to be the quickest passage ever made between those ports.

The account books, checks, and other manuscripts belonging to a firm, have been recovered, having suffered no further injury from the late fire, in New York, than the total erasure of all entries made in blue ink, while those made in black were uniformly legible. If this is true, it is a fact which should be generally known.

The Princial of the New York Deaf and Dumb Institution, has been married to a deaf mute, a pupil of the Institution.

The most courageous and strong minded persons seldom reflect how soon these gifts may forsake them. Should Consumption, that dreadful and unmerciful disease, or the distressing Liver Complaint or a severe Cold and Cold seize on the strongest of us, how soon we are dispirited, wrecked and reduced. In such afflictions, we naturally turn on every side to look for relief, and if our advice is heeded, or can be of any weight, we say, commence at once nsing that pleasant Herbal Syrup called the Health Restorative, and be convinced by demonstration, that those otherwise fatal diseases can be subdued. 16

MARRIED.

In this town, on the 30th ult., by Rev. Dr. Clark, Mr. William S. Glover to Miss Hannah Mary Ann Fisher, both of this place.

We were generously remembered by our friends.
Oh! may they live a long and happy life,
While they sojourn on earth as man and wife;
But, when death shall sever earthly ties,
Then may their spirits land in Paradise.

On the 29th ult., by Rev. Mr. Burrill, Mr. George Newcomb of Braintree, to Miss Charlotte Elizabeth Lake of this town.

DIED.

In this town, 1st inst., Mrs. Harriet Augusta, wife of Mr. Charles Page, aged 32 years and 6 months.

Funeral, this afternoon, at four o'clock, from her late residence in Granite Street. Relatives and friends are invited to attend, etc.

On the 27th ult., Charles Henry, son of Mr. Orin and Mrs. Elizabeth Caverly, aged 4 months.

In Milton, 27th ult., at the residence of Gen. Moses Whitney, Thomas Kittredge, M. D., aged 33.

Family School,

AT GERMANTOWN, QUINCY.

MISSES SULLIVAN design commencing the Autumn Term of their school on August 7th.—Length of term 12 weeks.

Miss MARY A. SPAULDING will continue to be associated with them as heretofore.

The second annual Fair of the Dedham Ladies Total Abstinence Society will open on WEDNESDAY, Aug. 13th, at *nine* o'clock in the forenoon, in Temperance Hall.

There will be offered for sale a great variety of articles both useful and elegant.

Tables will be furnished by the friends of Rev. Edwin Thompson, for his benefit, for which the patronage of all who appreciate his labors in the cause is solicited.

Dinner will be provided from *twelve* until *two* o'clock.

Tea will be served at *four* o'clock, at which time Addresses may be expected from distinguished friends.

Music also will add to the festivities of the occasion.

Admittance to the Fair, 12 cents; children, 6 1-4 cents. Tickets to the Tea Party, 25 cents.

Should the weather be unfavorable the sale will be deferred to the first fair day.

Jayne's Life Preservative.

An Alterative and Depurative, combining all the medicinal virtues of those articles, which long experience has proved to possess the most safe and efficient alterative and dubstruent properties, for the cure of Scrofula, King's Evil, White Swellings, Ulcers, Scrofulous, Cancerous and Indolent Tumours, Rheumatism, Gout, Scurvey, Neuralgia, or Tic-Douloureux Cancer, Goitre, or Bronchocele' (swelled-neck) enlargement of the bonds, joints or ligaments or of the ovaries, liver, spleen, kidneys, &c. All the various Diseases of the Skin, such as tetter, ring-worm, biles, pimples, carbuncles, &c., dropsical swellings, constitutional disorders, and originating from a depraved or impure state of the blood or other fluids of the body.

Prepared only by Dr. D. Jayne, No. 8 South Third street, Philadelphia, and sold by CALEB GILL, Jr., Quincy.

Quincy Aug. 2. 3w

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs Asthma, and CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the case of pulmonary diseases, warrants the American agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the Lungs, Bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

DAVID F. BRADLEE, sole Agent of the United States, 119 Court-street, Boston.

C. BRINCKERHOFF'S

HEALTH RESTORATIVE

THIS MEDICINE being productive of the most powerful and certain remedial effect in the cure of Liver Complaint, Consumption, Pain in the Side and Side, Coughs, Colds, profuse Night Sweats, Asthma, its importance will be admitted by all. Having for its commendation the testimony of hundreds of our most truth-loving and respected citizens, we are bound to acknowledge that there must be some great cause for their praise, or it would not be given so freely and frankly. The Health Restorative, from its first introduction to the present day, has never been known to fail of its intended beneficial effect, and where it has not fully cured, it has been traced conclusively to the fault of the patient in not complying with the simple directions attached to the bottle. So prolific a disease as Consumption, so dangerous a one to afflict the human race, has induced the needy and soulless trafficker to invent and recommend his nostrums, which only slightly palliate the more aggravating symptoms, or else are entirely useless, and thus to gain money, they deceive the sick and dying fellow men, without even so much as a thought of the baseness of their trade. We leave such demons to the stings and upbraidings of their own conscience. The Proprietor having every confidence in the curative property of the Restorative in each individual case, and in numberless others can recommend it to the confidence of the sick, feeling assured that if a faithful trial is made, the most auspicious result is certain. The following certificate is from Chilton, the well known New York chemist.

"I have analyzed a bottle of medicine called Brinckerhoff's Health Restorative,' and find it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."

DR. FERNANDS' Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*
JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine:

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health, and have not raised any blood since the use of the first bottle of this excellent preparation.

WYMAN ABERCROMBIE.

Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark:

DEAR SIR—I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. Yours, truly,

IBRAHIM BARTLETT.

Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.

Administrator's Sale.

WILL be sold by public auction, on WEDNESDAY, the sixth day of August, at three o'clock in the afternoon, by order of the Court of Probate, on the premises, a piece of Land situated in Quincy, the property of Peter Newcomb, deceased, containing about one quarter of one acre, and bounded easterly on the Church land, southerly and westerly on William P. Apthorp's land, and northerly on Elm street, together with all the buildings thereon.

Said buildings consist of a well finished two story House, in good repair, suitable for one or two families, and the outhouses attached to the same. The land is of the best quality, and there is upon it several excellent fruit and ornamental trees.

The Esiate above described presents a good opportunity for those desirous to purchase, as it is sold by order of Court and will be disposed of to the highest bidder.

JOHN NEWCOMB, *Adm.*

Quincy, June 28. 6w

SUGAR COATED

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skillfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 5 cents per box, with full directions, and sold by the following list of Agents

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; R. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 28.

Dr. D. Jayne's

CARMINATIVE BALSAM.

THIS is one of the most efficient, pleasant, and safe compositions ever offered to the public, for the cure of the various derangements of the stomach and bowels, and the *only* article worthy of the least confidence for curing Cholera Infantum, or Summer Complaint,—and in the above and following diseases, it really acts like a charm, viz:

Dysentery, Diarrhœa, or Looseness—Cholera Morbus, *Summer Complaint,* Cholic, Griping Pains, Sour Stomach, Sick and Nervous Headach, Heartburn, Waterbrash, Pain or sickness of the Stomach, Vomiting, Spitting up of food after eating, and also where it passes through the body unchanged,—want of appetite, restlessness, and inability to sleep; wind in the stomach and bowels, hysterics, cramp, nervous tremors and twitchings, sea-sickness, faintings, Melancholy, and lowness of spirits, fretting and crying of infants, and for all bowel affections and nervous diseases.

Prepared only by Dr. D. Jayne, and sold by
CALEB GILL, Jr.

ALBERT HERSEY.

Quincy Point, June 14. tf

Removal.

JOHN RUSSELL,

TAILOR,

WOULD respectfully inform his friends and the public, that he has removed his place of business to Rooms in the store of Mr Elisha Packard, *corner of Sea and Hancock Streets.*

From the flattering success he has met with since his commencement in business, he presumes a desire on the part of the community to reform the old and crank system of garment making pursued by country tailors generally.

A fair trial is all that is asked and no favor.

☞ French Reports received quarterly.

Quincy, May 3. tf

Dissolution.

POETRY.

GO NOT BACK.

My brother go not back,
The pledge is taken now;
I see it in the healthful smile
That plays upon thy brow;
I see it in the sparkling eye,
So dull and dim before;
Then go not back again, my friend,
To sure destruction's door.

My brother go not back,
Press on in virtue's way;
Be steadfast in thy sacred pledge,
And truth shall be thy stay.
Hope, bright as morning's dawn, shall spring
Where'er thy feet may tread—
Then go not back again, my friend,
To paths of terror spread.

My brother go not back,
To sorrow and to vice,
To reap the bitter fruits of sin,
Where none to glory rise;
Where stranger to the joys of earth,
Life will be steeped in wo—
Then go not back again my friend,
But upward, heavenward go.

My brother will not go—
I read it on his cheek;
I see it in the tears that flow,
And when I hear him speak.
He was resolved in God's own strength,
Who will, I know, sustain,
Never, while reason holds the throne,
To touch the cup again.

ACCEPTABLE WORSHIP.

BY WM. H. BURLEIGH.

Nor worthiest in his worship, who, afar
Retired from crowds, in meditation deep,
Passes his days beyond the maddened sweep,
Of stormy passions, and the angry jar
Of clashing interests, that naught may mar
His inward peace, though all his hours are given
To prayer and penitence and dreams of heaven;
Nor his whose set responses loudest are
In the full temple, when the many kneel
To utter forms the spirit does not feel;
For not in words, though breathed from tongues of flame,
Is the full heart of love revealed the best;
Nor in unuttered thoughts, that fill the breast
With quiet, and the bounding pulses tame.

Action—untiring, earnest, bold and free;
Its impulse, love; its object, truth and right;
By holy zeal sustained; by heavenly light
Directed over, though thick darkness be
Over the earth, and men no longer see
The soul's great birth-right; action, such as this,
Is holiest worship, and a purer bliss
Attends the offering than the devotee
Of forms can know. Words, offspring of the brain
High-sounding, yet not heart born, are in vain;
The heart turns loathing from them, that hath known
The baptism of the Spirit—turns to find
Its joy in doing—deeming thus his mind
Hath Christ, our Head and great Exemplar shown.

Wouldst thou, then, offer, with a willing mind,
A sacrifice acceptable to Him
Before whose throne adoring seraphim
Bend with veiled faces? Labor for thy kind;
Uphold the feeble and direct the blind;
Reclaim the wandering; the lost restore;
And bid the erring go and sin no more;
Live for humanity, and thou shalt find
Peace which the selfish heart can never know;
Joys that from holy action only, flow.
Be bold in truth—though all the world despise;
Be strong for right—though all the world oppose;
Be free in love—though all men are thy foes;
And God will smile upon thy sacrifice!

ANECDOTES.

A Frenchman went into an eating house to warm his hands. The proprietor asked him what he would like to take.

"Any thing you please," was the reply.

"Would you like to take a roast goose?"

"If you please."

The Frenchman made a good dinner, and was about to go, when the eating-house keeper asked for payment.

"What for?" exclaimed the Frenchman; "I have called for nothing. You ask me if I will take this and if I will take that, and I say, "if you please."

The landlord, pleased with his address, let him off. He told a friend of his good fortune, who tried to "come the same game," but with very different success, for he was kicked out of doors.

"The first man was an original," said the landlord, "but you are an imitator."

A common councilman's lady paying her daughter a visit at school, and enquiring what progress she had made in her education, the governess answered:

"Pretty good, madam, Miss is very attentive, if she wants anything it is a *capacity*, but for *that* deficiency you know we must not blame her."

"No, madam," replied the mother, "but I blame *you* for not having mentioned it before, for her father, thank fortune, can afford his daughter a *capacity*; and I beg she may have one immediately, cost what it may.

A beggar was asking alms, when a passer-by said to him, "Are you not ashamed to follow that infamous employment, as you are able to work?" To which the beggar smartly replied, "Sir, I asked your charity, not your advice!"

A barrister observed to his "learned friend" in court one day, that the wearing of whiskers is unprofessional. "Right," observed his "learned brother." "A lawyer cannot be too barefaced."

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Handcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Krauth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; R. Gleason, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

June 28. tf

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, 'if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educated and experienced Physician, rather than the precarious and dangerous doings of Quacks and inexperienced Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10; sent to all parts of the Union. Office and consultation rooms,

4 1-2 SUDBURY STREET,
(Opposite Alden Lane)

THE FORGED PATENT.

Remember you not no case like this? Or if
Your memory none records, is such a one
So much at odds with probability
Your fancy cannot imagine it?

The changes which the last twenty years have wrought in Illinois, would be incredible to any one who has not witnessed them. At that time the settlements were few and the spirit of enterprise which now pervades every corner of the State, had not been awakened. The bluffs of the beautiful Illinois river had never sent back the echo of the steam engine. Without a market for their produce, the farmers confined their labors to the wants of their own families. Corn was nearly the only crop raised and from the time it was 'laid by,' near the end of June, till 'pulling time,' in November, was a holiday, and the intervening period was passed in idleness, except the Saturdays. On that day, duly as it arrived, the settlers far and near, collected at the distillery, and amused themselves with shooting at a mark, 'trading nags,' and too often when the cup had passed freely round, in fighting.

This is by no means the picture of all the settlements of that period, but that it is graphically true of many, none of the old settlers will deny. But to my narrative.

One Saturday afternoon in the year 1819, a young man was seen approaching with slow and weary steps, the house or rather the distillery of Square Crosby, of Brent's Prairie, an obscure settlement on the Military Tract. As usual on that day, a large collection of people were amusing themselves at Crosby's, who owned the only distillery in that region—was a magistrate, and regarded by the settlers as rich, and consequently as a great man.

The youth who now came up to the group was apparently about twenty-one years of age, of slender form, and delicate complexion, with the air of one accustomed to good society, and it was evident at a glance that he was not inured to the hardships of a frontier life, or labor of any kind. But his dress bore a strange contrast with his appearance and manners. He wore a hunting coat of the coarsest linsey woolsey, a common straw hat, and a pair of dear-skin moccasins. A large pack completed his equipment.

Every one gazed with curiosity upon the new comer. In their eargerness to learn who he was, whence he came, and what was his business, the horse swap was left unfinished—the rifle was laid aside, and even the busy tin cup had a temporary respite.

The young man approached 'Squire Crosby, whom even a stranger could distinguish as the principal personage among them, and axiously inquired for a house where he could be accommodated, saying he was extremely ill and felt all the symptoms of an approaching fever.

Crosby eyed him keenly and suspiciously for a moment without uttering a word. Knaves and swindlers had been recently abroad, and the language of the youth betrayed that he was a 'Yankee,' a name at that time associated in the minds of the 'ignorant' with every thing that is base. Mistaking the silence and hesitation of Crosby, for fear of his inability to pay, the stranger smiled and said, 'I am not without money,' and putting his hand to his pocket to give occular proof of the assertion, he was horror struck to find that his pocket-book was gone. It contained every cent of his money, besides papers of great value to him.

Without a farthing—without even a single letter or paper to attest that his character was honorable—in a strange land, and sickness rapidly coming upon him—these feelings nearly drove him to despair. The 'Squire, who prided himself on his sagacity in detecting villians, now found the use of his tongue. With a loud and sneering laugh, he said: "Stranger, you are barking up the wrong tree if you think for to 'cotch' me with 'that arr' Yankee trick of your'n." He proceeded in that inhuman strain, seconded by nearly every one present, for the 'Squarr' was powerful, and few dared to displease him. The youth felt keenly his desolate situation, and casting his eye around over the group, in a tone of deep anxiety said, 'is there none that will receive me?' 'Yes, I will,' cried a man among the crowd; 'yes, poor sick stranger, I will shelter you.' Then, in a low tone he added, 'I know not whether you are deserving, but I know that you are a fellow being, and in sickness, and in want, and for the sake of him who died for the guilty, if not for your own sake, will I be kind to you, poor young stranger.'

The man who stepped forth and proffered a home to the youth in the hour of suffering was Simon Davis, an elderly man who resided near Crosby, and to whom the latter was a deadly enemy. Uncle Simon, as he was called, never retaliated, and bore the many persecutions of his vindictive neighbor, without complaint.—His family consisted of himself and daughter, his only child, an affectionate girl of seventeen.

The youth heard the offer of Mr. Davis, but heard no more, for overcome by his feelings and extreme illness, he fell insensible to the earth. He was conveyed to the house of his benefactor and a physician called. Long was the struggle between life and death. Though unconscious he called upon his mother and sister, almost incessantly, to aid him. When the youth was laid upon her bed, and she heard him calling for his sister, Lucy Davis wept and said to him, 'poor sick young man, your sister is far distant and cannot hear you, but I will be to you a sister.' Well did this dark-eyed maiden keep her promise. Day and night did she watch over him, except when she yielded her post at his side to her father.

At length the crisis of his disorder arrived—the day that was to decide the question of life or death. Lucy bent over him with intense anxiety, watching every expression of his features, hardly daring to breathe, so fearful was she of waking him from the only sound sleep he had enjoyed for nine long days and nights. At length he awoke and gazed up in the face of Lucy Davis and faintly enquired, "*Where am I?*" There was intelligence in that look. Youth and a good constitution had obtained the mastery. Lucy felt that he was spared, and bursting into a flood of irrepressible grateful tears, rushed out of the room.

It was two weeks more before he could sit up, even for a short time. He had already acquainted them with his name and residence, but had no curiosity to learn anything further, and forbid his giving his story till he became stronger. His name was Charles Wilson, and his paternal home, Boston.

A few days afterwards, when Mr. Davis was absent from home, and Lucy engaged about her house hold affairs, Wilson saw at the head of his bed, his pack, and recollecting something that he wanted, opened it. The first thing he saw was the identical pocket-book whose loss had excited so many bitter regrets. He recollected having placed it there in the morning before he reached Brent's Prairie, but in the confusion of the moment that circumstance was forgotten. He examined and found every thing as he left it.

This discovery nearly restored him to health but he resolved at present to confine the secret to his own bosom. It was gratifying to him to witness the entire confidence they reposed in the honor and integrity of a stranger, and the pleasure with which they bestowed favors upon one whom they supposed could make no return but thanks.

Night came and Mr. Davis did not return.—Lucy passed a sleepless night. In the morning she watched hour after hour for his coming, and when sun-set approached and he was still absent, terrified at his long and unusual stay she was setting out to procure a neighbor to go in search of him, when her parent hove in sight. She ran to meet him, and was bestowing upon him a thousand endearing expressions of affection, when his haggard woe-begone countenance startled her.

He uttered not a word, and went into his house and seated himself in silence. It was in vain that Lucy attempted to cheer him. After a long pause during which a powerful struggle was going on in his feelings, he arose, and took his daughter by the hand, and led her into the room where Wilson was seated.—"You shall know all," said he, "I am ruined—I am a beggar. In a few days, I must quite this house—this farm which I have so highly improved and thought my own." He proceeded to state that a few days before, Crosby in a moment of ungovernable malice, taunted him with being a beggar, and told him he was now in his power and he would crush him under his feet. When Mr. D. smiled at what he regarded as only an impotent threat, Crosby told told him, that the patent of his farm was a FORGED one, and that he, Crosby, knew the real owner of the land—had written to purchase it—and expected a deed in a few days. Davis immediately went home for his patent, and during his long absence had visited the Land Office. Crosby was right. The patent, beyond all dispute was a forged one, and the claim of Davis to the farm not worth a farthing.

It may be proper to observe, that counterfeiting soldier's patents was a regular business in some of the eastern cities, and hundreds have been duped.

"It is not for myself" said the old man "that I grieve at this misfortune. I am advanced in life, and it matters not how or where I pass the remaining days of my existence. I have a home beyond the stars, where your mother has gone before me, and where I would have long since joined her had I not lived to protect my child, my own, my affectionate Lucy." The weeping girl flung her arms around the neck of her father, and poured her tears upon his bosom. "We can be happy still," said she, "for I am young and can easily support us both."

A new scene followed, in which another individual was a principal actor. I shall leave the reader to form his own opinion of it, and barely remark, that at the close, the old man took the hand of Lucy, and the young Wilson, and joining them said, "My children I cheerfully consent to your union. Though poor, with good conscience you can be happy. I know Charles, that you will be kind to my daughter, for a few nights ago, when you thought no human ear could hear you, I heard you fervently implore the blessings of heaven upon my grey hairs, and that God would reward my child for all her kindness to you." Taking down his family Bible, the venerable old man added, "It is a season of affliction, but we are not forsaken, let us look for support to Him who has promised to sustain us." He opened his book and read, "Although the fig tree shall not blossom, neither shall fruit be in the vines; the labors of the olive shall fail and the fields shall yield no meet; the flocks shall be cut off from the fold and there shall be no herd in the stall, yet will I rejoice in the Lord; I will joy in the God of my salvation."

Charles and Lucy knelt beside the venerable old man, and while he prayed they wept tears of grateful emotion.

It was a sleepless but not an unhappy night to the three inhabitants of the neat and cheerful dwelling they were about to leave, and they knew not where. It was then that young Wilson learnt the real value of money. By means of it he could give a shelter to those who had kindly received him when every other door was closed upon him.

All night he thought of the Forged Patent. There were a few words dropped by Mr. Davis which he could not dismiss from his mind—that Crosby had written to the real owner of the land and obtained a promise of a deed.

It is now time for the reader to become more fully acquainted with the history of the young stranger.

His father, Charles Wilson, Sr. was a merchant of Boston, who acquired an immense fortune. At the close of the late war, when the solders received from the Government their bounty of one hundred and sixty acres of land, many of them offered their patents to Mr. Wilson for sale. Finding that they were resolved to sell them, he concluded to save them from sacrifice of their hard earnings, and purchase at a fair price all that were offered. In three years no small portion of Military Tract came into his possession.

On the day that Charles became of age, he gave him a deed of the principal part of his land in Illinois, and insisted that he should go out and see it, and if he liked the country settle there. Wishing him to become identified with the people, he recommended to his son on his arrival in the State to lay aside his broadcloth, and dress like a back-woodsman.

In compliance with the suggestion the young man had assumed a rude and rustic dress so inappropriate to his appearance and manners, as to excite the suspicion that he had some motives for concealing his real character.

On the morning of his son's departure Mr. Wilson received a letter from a man in Illinois who had frequently written. He wished to purchase a certain quarter section at government price, which Mr. Wilson promised he should have on those terms, provided he forwarded a certificate from the Circuit Court that the land was worth no more. The letter just received enclosed the certificate in question. Mr. Wilson had given this tract to Charles, and putting the letter and certificate into his hand, enjoined upon him to deed it to the writer agreeable to promise, on his arrival in Illinois.

The remarks of Mr. Davis forcibly reminded young Wilson of this incident, and on the next morning after he became aquainted with the design of Crosby, with a trembling hand examined the letter and certificate. It was written by Crosby, and the land he wished to purchase the identical farm of Davis.

Astonished that his friend the Judge should certify that the land was worth no more Mr D. asked to see the certificate; and after a moment's examination, unhesitatingly pronounced the signature a FORGERY.

An explanation from the young man now became necessary, and calling Lucy into the room, told them his story, and laid before them a pile of patents and bank notes, one after another, till the pile reached thousands.

It was a day of thankful happiness to old Simon Davis and his daughter, and not less so to young Wilson.

Not long after this scene, Crosby entered.—His air was that of a man who has an enemy in his power and intends to trample upon him. He scarcely noticed Wilson except with a look of contempt. After pouring out his maledictions upon the family, he advised them to leave immediately. The old man enquired if he would give him nothing for the improvements he had made? The answer was, "not a cent." "You certainly would not," said Wilson,—"drive out this old man and his daughter penniless into the world!"

"What is that to you," replied Crosby, with a look of malice and contempt. "I will answer you that question," said Wilson, and acquainted him with what the reader has learnt. Crosby at first was stupified with astonishment, but when he saw that all his schemes of villany were defeated, and proof of his having committed forgery could be established, his assurance forsook him, and he threw himself upon his knees and begged, first of the old man, then Lucy and Wilson, to spare him.

Much as they pitied, it was impossible for them not to despise the meanness of his supplications.

Wilson told him that he deserved no mercy. That a moment since he would have driven the family of Davis from their home, without the means of a temporary support. He would be more merciful, guilty as he was. He would pay Crosby a fair price for his property, and forbear prosecuting him, on condition of his instantly quitting the country.

Crosby accepted the offer. The writings were made out that day, and before morning, he and his family were on their way to Texas.

Why should I spin out the narrative. Lucy and Charles were married, and though a splendid mansion soon rose on the farm of Mr. Davis, both loved far better the little room where she had so long and so patiently watched over the sick bed of the homeless stranger. Mr. Wilson was rich, but never forgot those who were in want.

Cheered by the kind and affectionate attention of his children, old Simon Davis almost seemed to have renewed his existence. He lived many years, and long enough to tell the bright-eyed son of Charles and Lucy the story of the FORGED DEED. And when he told the listening boy how his father, when poor and friendless, was taken home and kindly treated, and in turn became their benefactor, he impressed upon the mind of his grandchild, that "even a cup of cold water given from a good motive shall not lose its reward."

PRODUCTS OF THE EARTH.

The potato is a native of South America, and is still found wild in Chili, Peru and Monte Video. In its native state, the root is small and bitter. The first mention of it by European writers is in 1588. It is now spread over the world. Wheat and rye originated in Tartary and Siberia, where they are still indigenous The only country where the oat is found wild is in Abyssinia, and hence may be considered a native. Maize or Indian Corn, is a native of Mexico, and was unkown in Europe until after the discoveries of Columbus. The bread fruit tree is a native of South Sea Islands, particularly Otaheite.

Tea is found a native no where except in China and Japan, from which country the world is supplied. The cocoa nut is a native of most equinoctial countries, and is one of the most valuable trees, as food, clothing and shelter is afforded by it. Coffee is a native of Arabia Felix, but is now spread into both the East and West Indies. The best coffee is brought from Mocha, in Arabia, whence about fourteen millions of pounds are annually exported. St. Domingo furnishes from sixty to seventy millions of pounds yearly. All the varieties of the apple are derived from the crab apple, which is found native in most parts of the world.

The peach is derived from Persia, where it still grows in a native state, small, bitter and with poisonous qualities. Tobacco is a native of Mexico and South America, and lately one species has been found in New Holland. Tobacco was first introduced into England from North Carolina, in 1586, by Walter Raleigh. Asparagus was brought from Asia; cabbage and lettuce from Holland; horse raddish from China; rice from Ethiopia; beans from the East Indies; onions and garlics are natives of various places both in Asia and Africa. The sugar cane is a native of China, and the art of making sugar from it.

THE LONGEST LADDER.

On approaching the roads of James Town, in the Island of St. Helena, your attention is attracted by an enormous ladder, that extends from the town beneath to a fort directly over the town, on the summit of a hill eight hundred feet high. On inquiry, I found that sentinels were placed both before and above, for the purpose of preventing any one ascending and descending without an order from the town major. This regulation was adopted in consequence of the number of accidents, attended with fatal consequences, that had occurred. Together with a companion, after dinner, I rambled down to the guard house, and having found the town major there, we obtained an order to permit our ascent.

The ladder is composed of steps more than three feet in width, and some four inches in breadth, firmly fastened in sides of great strength. On either side is a hand rail, of such a width that you can conveniently lay a hand on either side. The steps are upward of eighteen inches apart, and great numbers of them much decayed. At regular distances are small seats for resting places. On one side, without the ladder, a description of slide has been formed, along which pullies are fixed, for the purpose it would seem, of raising anything from the town beneath, or lowering from the fort above. The face of the hill, against which the ladder is erected, is extremely steep, so as utterly to preclude the idea of an ascent without artificial means; in places there are perfect precipices, the rocks completely overhanging.

At the bottom we found no sentry, and so proceeded to ascend at once, but had not attained above the height of one hundred feet when we heard a voice hailing us, and perceiving a sentry calling on us to return, who in his walk had been concealed from us when below by an intervening projection. Down we had to go, and having shown our pass, and satisfied the Cerberus, commenced our ascent again. At first we proceeded rapidly, but soon found that would not answer, the height of each causing considerable exertion. More slowly than we moved along, attained the third resting place, where we seated ourselves, and turned to view the town beneath, with its narrow streets, and confined situation, cowering as it were, between the two mighty hills that seemed to press it on either sids.

Aloft we turned our eyes, anxiously wishing ourselves at the top, but we had the best part of the ascent yet to accomplish, and to our task we once more went. As we attained a greater height, we found the steps getting more and more out of repair, in some places two or three steps together broken, so that we had to clamber up the best way we could. On, on we went, with alternate rests; the town, the bay and shipping beneath gradually became more minute, the moving bodies seeming almost mites. When we reached within a hundred feet of the top, the unusual fatigue almost overpowered us; the dizzy height so affected us that we felt as if we could scarce preserve ourselves from falling—yet we persevered and did succeed in reaching the top.

A moment later one human being would have passed into another world. My companion, who was before me, had scarce passed the gate at the top, when he fainted, completely overcome, and he afterwards declared to me, that for the last hundred feet or so, nothing prevented his physical energies from being overcome by the fatigue and the position he was in, but the immediate prospect of reaching a place of safety. Many lives have been lost on this ladder, and particularly those of passengers, whom curiosity induced to attempt the ascent. The artillery men and garrison of the fort are not, however used to going up and down, exempt from casualities, and it was only the very week before my visit to St. Helena that an artilleryman was killed in attempting to descend the ladder against time for a wager. Ladder Hill fort completely hangs over the bay; it is of great strength, and commands the roadstead beneath.

In the batteries are mounted generally eighteen, twenty-four and thirty-two pounders, but there are some few guns of a larger calibre. A singular accident happened a few years previous on this battery—A passenger from one of the ships in the bay had ascended to the fort, and looking from the ramparts of one of the batteries, perceived his vessel beneath, and thought he could reach her with a stone, but in his attempt to do so, overbalanced himself, and fell from the awful height, being dashed literally to pieces in the fall. After passing an hour at the fort, we descended but by the road, which is cut in a zigzag manner in the side of the hills.—*From "Reminiscences of a nine years Travel."*

IMMENSE NATURAL BEE-HIVE.

In a cavern on the right bank of the Colorado, about seven miles from Austin, (Texas) there is an immense hive of wild bees, which is one of the most interesting curiosities in that section. The entrance of this cavern is situated in a ledge of lime-stone, forming a high cliff which rises almost perpendicularly from the river bank to the height of about one hundred and fifty feet from the water's edge. This cliff fronts partly on a small stream, named Bill creek. The mouth of the cavern is about ten feet from the top of the cliff. In a warm day a dark stream of bees may be constantly seen winding out from the cavern like a long, dark wreath of smoke. The stream often appears one or two feet in diameter near the cliff, and gradually spreads out like a fan, growing thinner and thinner, at a distance from the cavern until it disappears. The number of bees in this cavern must be incalculably great—probably greater than the number in a thousand or ten thousand ordinary hives.

The oldest settlers say that the hive was there when they arrived in that country. The bees, it is said, have never swarmed, and it is not improbable that the hive has continued for more than a century to increase, year after year in the ratio that other swarms increase. The cave appears to extend back many rods into the ledge, and probably had many lateral chambers. The bees doubtless occupy many of these latteral chambers, and it is probable that new swarms annuall find new chambers to occupy, and thus they are prevented from going off in search of hives. Some of the neighboring settlers have repeatedly, by blasting the rocks, opened a passage into some of these chambers, and procured by this means many hundred pounds of honey.

But the main deposits are situated too deep in the ledge to be reached without great difficulty, and perhaps danger. A company was formed at Austin, a few years since, for the purpose of exploring the cavern and removing the honey; but some untoward event prevented the accomplishment of the undertaking. It was estimated that there are many tons of honey and wax in this immense hive, and if, its treasures could be extracted readily, they would doubtless be found far more valuable than the contents of any gold or silver mine that adventurers have been seeking for years in that section.

For the Quincy Patriot.

LETTER FROM BOSTON

Since my last, a State Convention of the Native American Party, was held at the old Cradle of Liberty in this City, and the Hon. Henry Shaw of Lanesborough, Berkshire County, was nominated as a Candidate for Governor.—Mr. Shaw is r somewhat noted man; for many years he was a member of our State Legislature, and proved himself a ready and fluent speaker, from 1817 to 1821;—was a member of Congress from this State, and greatly injured his popularity, by voting for the admission of Missouri into the Union, as a Slave State.—In 1838 and 1839, Mr Shaw was a member of the Supreme Executive Council of this Commonwealth. A Mr. Moore, is the Nominee for Lieut. Gov. It is estimated that this Party will throw at least ten thousand votes at the November election.

The Bostonians have been visited the past week, by the arrival of the new and beautiful Iron Steam Ship BANGOR. She lay at the end of Long Wharf one or two days, and attracted much attention among our citizens, being visited by great numbers. She was recently built at Wilmington, (Del.) and is designed to ply regularly between Bangor and Boston. She is built *of Iron*, one hundred and twenty-five feet in length, by twenty-three feet beam, two hundsed and twelve tons, with an average rate of speed eleven miles per hour. The steamer is three masted and truly a beautiful model. She is painted in the fashion of a man of war, and take her all in all was quite the "lion of the day" while here.

I hope the rumour is true that Gov. Everett, now our Minister to England will shortly succeed Hon. Josiah Quincy as President of Harvard University. Mr. Everett graduated at this College ih 1811. Among his class mates now living are Col. Walter Baker of Dorchester, Mass. Chancellor Dunkin of South Carolina, Rev. Dr. Frothingham, Dr. Reynolds and Townsend and Professor Webster of this city. Hon. John C. Gray, William P. Mason and others. The class numbered forty-nine, have "shuffled off this mortal coil." Mr. Everett is one of the most literary men of our country, and has probably received more honorary degrees from literary institutions on both sides of the Atlantic than any man living.—The Presidency of Harvard University is said to be worth near five thousand dollars per annum, and as *now managed*, the duties comparatively trifling and easy. It is earnestly hoped that Mr. Everett will introduce a salutary reform by uniting the office of President with that of a Professor, thereby saving the College some thousands a year. Mr. Bancroft's resolutions of reform in Cambridge College are so sound and proper that I trust, before long, they will be adopted and carried out faithfully.

We have passed another uncomfortable week here by reason of the warm dog-day weather, but the city continues healthy.

With sorrow I record the fact that intemperance is raging in Boston as well as the "Dog Star." Yes, rum drinking is gaining—philanthropy asks what must be done, and the answer echoes what. Prayers to Heaven for the drunkard—more efficient action by the friends of total abstinence, more suasion of course, but but if that *wont do*, let the majesty of the law have its full scope on all venders of vinous and alcoholic drinks. ZERO.

LADIES FAIR AT DEDHAM.
EDWIN THOMPSON.

MR. EDITOR, I learn by the papers that the Ladies of Dedham are about to hold another FAIR, for the benefit of the Temperance cause. I have enjoyed some opportunities for being acquainted with the movements of the friends of Temperance in this county for a few years past, and while I have seen some towns suddenly waking up to the importance of the cause, and their inhabitants marching up to the work in solid phalanx, determined to give no peace to an enemy whose ravages were sweeping fathers, mothers and sons into one common grave; I have witnessed also less activity at first, but a constantly increasing interest in other towns in the county, and have felt convinced that communities, like individuals, bear a much nearer resembance to each other, in works of philanthropy, than is generally admitted.

In respect to Dedham, one phase of the temperance movement has been especially prominent. I allude to the noble and never faltering perseverance of the LADIES of Dedham, exhibited not only in their constant attendance at the Temperance meetings, but in their untiring efforts to obtain means for carrying on the cause, and for relieving those individuals and families who, in casting a way the intoxicating cup, have required prompt aid and encouragement.

As in the days of the Revolution, the great Washingtonian Reform has received at the hands of WOMAN that aid, at the hour of need, without which its blessed results, to fallen humanity, would long since have ceased. As in the days of the Revolution too, this succor could not have been rendered except by that industry which never tires,—that hope which never falters,—and that love which never dies.

These words are intended as a simple tribute of gratitude to the LADIES OF DEDHAM, and as an assurance that their efforts are gratefully appreciated elsewhere.

Let such energy and faithfulness command the respect of all. Let each town in the county send delegates to the Fair. Let each delegate catch a full share of the spirit which has been again so nobly demonstrated in the shire town of the county!

I learn, Mr. Editor, that the proceeds of one of the tables at this Fair are to be bestowed upon EDWIN THOMPSON. This is right. I know Mr. Thompson, and believe that the day is not distant when there will not be a town in old Norfolk which will not bear willing testimony to his invaluable services in the Temperance cause. He saves no money by his labors in the cause he loves. He hardly pays his necessary expenses. His habits of life are simple and strictly economical. His visits to the different towns are frequently made on foot and when otherwise, he claims nothing for his travelling expenses, trusting that the friends of the cause will see that he shall not suffer from actual want. He is a fearless and faithful advocate of the cause. Faults he may have—but they are faults common to all honest minds and warm hearts, and are merged in the light of a life devoted early and late to his race. Greater lover hath no man than to be ready to lay down his life for his fellow man. I doubt not EDWIN THOMPSON would give us his last crust, and spend his last breath to save a poor drunkard!

JONATHAN BLACKBERRY.

For the Quincy Patriot.

ANTI SLAVERY CELEBRATION IN DEDHAM.

MR. EDITOR: Agreeably to notice, the friends of the oppressed from the several towns in Norfolk county, begun to assemble at the Town Hall in Dedham. About nine o'clock the procession under the direction of W. P. Atkinson of Roxbury, moved towards Harrison Grove. It was not so large a possession as in former years, owing to the celebrations in Waltham, Boston, Milton, and other places. The Banners, though plain and simple, bore significant mottos.

West Roxbury. He has sent me to preach deliverance to the captive.

Dorchester. Our watch-word be just and fear not. Let the oppressed go free.

The Union. We will yield every thing to it, but Truth, Liberty and Honor, these never.

One bore the words of C. M. Clay; cheering indeed this must be to the oppressed in that State when uttered by such a man. Kentucky shall be free. Another the words of the lamented Tollen: Shall a Republic which could not bear the bonds of a King, cradle a bondage which a King has abolished.

Another—Right makes might.

Another—Let your discretion be valor.

On arriving at the Grove they sung the following song for the first of August:

TUNE—*Away away the bowl.*

Our grateful hearts with joy o'erflow,
Hurra, Hurra, Hurra.
We hail the despots overthrow,
Hurra, Hurra, Hurra.
No more he'll raise the gory lash,
And sink it deep in human flesh,
Hurra, Hurra, Hurra.

We rais the song in freedom's name,
Her glorious triumph we proclaim;
Beneath her feet be slavery's chains,
Their power to curse no more remain.

With joy we'll make the air resound,
That all may hear the gladsome sound;
We glory at oppressions fall,
The slave has his deadly thrall.

In mirthful glee we'll dance and sing,
With shouts we'll make the welkin ring;
Shout! Shout! aloud, the bondmand's free,
This, this is freedom's jubilee:

The meeting then organized by choosing Wm. Lloyd Garrison, President, Richard Clapp, Esq. of Dorchester and Edwin Thompson, of East Walpole, Vice Presidents, and M. W. Chapman and Wm. P. Atkinson, Secretaries.

Selections from the Holy Scriptures were read by Wm. Lloyd Garrison, after which he gave invitations to all persons present who felt disposed to take part in the meeting.

Edwin Thompson then addressed them in his usual happy manner, illustrating the progress of the cause by interesting anecdotes. After some interesting remarks by Rev. Theodore Parker, the President addressed the audience in his cogent manner for about an hour. They then adjourned for a short time to allow to partake of refreshments and have a social intercourse, which they did in real Pic Nic style. The afternoon meeting was addressed by G. W. Richerman, from Fourean Association, in Roxbury, and Edmond Quincy of Dedham. A Reporter was present, and I hope Mr. Editor, you will allow a space in the columns of the Patriot, for extracts from the speeches

H. W. B.

The engineer of the steam bakery, at Roxbury, has had both of his arms terribly crushed by having them caught in the machine for rolling dough.

A State Convention of School Teachers has lately been held at Syracuse, (N. Y.) The attendance was large—31 counties being represented. The exercises consisted of addresses and discussions upon various topics connected with education.

The Springfield (Mass.) Republican says that the Palmer Manufacturing Company have declared a semi-annual dividend of fifteen per cent,—being a profit of thirty per cent. per annum! Will the proprietors, who are pocketing such enormous profits rais the wages of the operatives?

QUINCY PATRIOT.

SATURDAY, AUG. 9, 1845.

John A. Green, Editor.

QUINCY LIGHT INFANTRY. This ancient company, and in years gone bye, numerously filled corps in ranks, paraded yesterday, under the command of George Crane, and repaired to that far famed portion of our town—Squantum—to encamp for the night and also to partake of the rich bounties which the shore affords as well as to enjoy the invigorating breeze of that beautiful neck of land. We regret that the ranks were not so full, as anticipated, though the number, upwards of thirty, all told, spoke a zeal and patriotic feeling, worthy of the highest praise in these days of peace principles. Gladly would we join in discountenancing all movements towards a hostile and combative system, but until frail human nature can be so influenced as to follow the precepts of the Prince of Peace, we must adopt the maxim of the father of his country—George Washington—"in time of peace prepare for war." That the military institutions of our country when every thing is considered in the present state of society, are advantageous and serve to maintain law, order, and good government, there cannot be a doubt in reflecting minds.

The appearance of this corps under the discipline of their new commander, met the approbation of the community, and we rejoice that so favorable an impression was formed of his military etiquette, as well as gentlemanly deportment.

The hope is to be indulged that efforts may yet be made to increase the ranks of this company, and if the past members would put their shoulders to the task, it might yet flourish, at least, for a half century to come as the green bay tree. That such a result may be in the future receives our heartfelt encouragement.

DEDHAM TEMPERANCE FESTIVAL. A goodly number should attend the Ladies Fair at Dedham, advertised under our notices of this week. Two inducements should have weight with every true friend of this glorious reform—the attendance and management of the festival by the ladies of that place, as also the chance offered to encourage and cheer the heart of that noble and self-sacrificing advocate—Rev. Edwin Thompson. Whatever may be given to aid him in his labors will be like an offering to the Lord and yield an hundred fold in due time.

SABBATH SCHOOL FESTIVAL. A moral and interesting treat may be anticipated from the exercises to take place at the Methodist Chapel, Quincy Point, to-morrow afternoon, as will be observed by the notice. These exhibitions have an excellent tendency—awakening a desire in the scholar for advancement—encouraging the teacher in his labor of usefulness—and stimulating the pastor to gather a large flock into his fold. They should be encouraged as having a beneficial influence on the interest of society and the happiness of parents with regard to the future well-being of their children.

A Sabbath School Pic Nic of the Universalist Society of this town, took place last Wednesday afternoon, and was fully attended. We are gratified to learn that under the auspices of the pastor—Rev. S. A. Davis,—that all things bespoke the interest and zeal characteristic of his ministration in leading all to walk the paths of pleasantness and obtain the boon of eternal salvation.

I. O. of O. F. We learn that, the consideration of the numerous advantages which society derives from institutions calculated to direct the principles of benevolence to certain definite objects, has induced several brothers in Quincy and vicinity, to organize a branch of the interesting and highly useful institution of Odd Fellows in this town. Having obtained a charter from the Grand Lodge of Massachusetts, under the name of Mount Wollaston Lodge, No. 80, with power to ordain laws and regulations to carry these designs into effect, they have elected their officers, and the auxiliary branch is now in a flourishing condition.

LIST OF OFFICERS:

N. G.—ISAAC COWING.
V. G.—JOHN BROOKERSHIRE.
Secretary.—JOHN V. CLARK.
Treasurer.—JOSEPH B. WHITCHER.

LOOK OUT. On Wednesday afternoon, while Mr. Daniel Nightingale and his wife, of this town, were attending the funeral of his deceased brother, some person entered his house in the rear by breaking a pane of glass and raising the window, and stole from his trunk five dollars in silver.

ECCLESIASTICAL. Rev. O. H. Tillotson, late of Claremont, (N. H.) and formerly of this town, has accepted an invitation to take the pastoral charge of the Second Universalist Society, in Lynn, (Mass) and has already entered on his labors there. We bid him welcome, in a language of a cotemporary, to Massachusetts, and wish him God-speed.

Rev. J. W. Farnsworth has resigned his office as pastor of the Universalist Society in Ingham, (Mass.) He has been highly respected in that place. Letters to him are to be addressed for the present to the care of Rev. S. A. Davis, to this place.

Of the population of Ireland, eighty-one in one hundred are Roman Catholics, eleven Episcopalians, and the remainder dissenters.

There are in China, ten French Roman Catholic Bishops, four Assistant Bishops, and one hundred and fourty-four Priests.

In the city of Ghent are seven hundred green houses. King Leopold takes a lively interest in horticultural pursuits, and often labors for hours among his favorite plants.

The vice chancellor, at New York, granted six granted six divorces from the marriage *tie*, and twe from bed and board; one application he denied. Only four marriages were advertised on the same day.

Fruit promises to be abundant, says the Utica (N. Y.) Observer, in the region round about that city. Plum trees especially require propping to prevevt the limbs from breaking, such is the quantity and weight of the fruit.

It appears from the statistics of the Congregational churches of Massachusetts, says the New England Puritan, now publishing, that the dismissions, deaths and excommunications, exceed the admissions by three hundred and twenty-five.

A lady with an infant in her arms stepped into Congress Hall, Philadelphia, the other day, and asked for a room, saying that her husband would soon arrive with her baggage. One was provided for her, which she entered and immediately wrung the bell for a servant girl. The girl answered the call, when the lady requested her to hold the infant until she could step out and buy a pair ot stockings; the servant took the child, and the mother, has not been seen since.

All the dwelling houses houses in Federal street Boston, opposite the Odeon as far as Rev. Mr. Gannet's church, are now vacated, and will shortly be converted into stores.

Although upwards of a fortnight has elapsed since the great fire in New York, it continues to emit volumes of smo e from the mouldering ruins

There are men wh make use of their friends as they do their clothes, which they leave off when they have worn them out.

When Dr. Franklin was serving an apprentice. ship to the art of Printing, he was allowed thirty-seven and a half cents per week for his board.—Of this he expended but about seventeen and a half cents. What he saved he laid out in books.

Cologne, or any other liquid perfume made with essential oils, will scent a reem much better and longer, if, instead of sprinkling it about, you pour a few drops into a glass of water, and set it in some central place.

In two streets in Cincinnati, (Ohio) within two years, sixty-seven persons have carried on the business of selling liquor, says the Yanke Blade. Of these fifty-three died, of which forty-six died drunk.

Vegetation in and about Washington City, (D. C.) iis suffering more from drought than has been known before for twenty years. An almost unparelleled drought continues to scourge Virginia.

Two weeks have elapsed since the fire in New York, and now, on the place of one of the stores destroyed, has been erected a large brick store, one hundred feet long and forty-five feet wide, and nearly completed.

A great fire took place at St. John, (N. B.) on the evening of the 29th ult., which destroyed about forty-five buildings, mostly wooden, and property estimated at about sixty thousand pounds sterling.

A boy aged about nine years, recently fell from a tree in Newton, (Mass.) and broke his thigh, in consequence of having his trowsers' pocket filled with green apples.

The Worcester Spy mentions the discovery of a tract on the borders of a pond, near that town, of some three or four acres, which consists to an unknown depth, of a light grey fibrous vegetable matter, resembling sponge, when filled with water, and which is found, on trial to make excellent wrapping paper.

A merchant of Philadelphia, who was drowned a few days ago, had procured insurance on his life at two offices—ten thousand dollars dollars each. Thus securing to his family twenty thousand dollars. He had paid only two years premium.

It is estimated that in America, three hundred thousand drunkards have been reformed, and that more than five hundred thousand occasional and confirmed drinkers have forsaken their cups since the commencement of the temperance roform.

The African Luminary says that the British cruisers on the coast have taken twenty-eight slavers since the first of January. They belonged to Portuguese, Spaniards and Brazilians.

In 1840, the whole population of Worcester, was 7494. In 1845, it is 11,556!—showing an increase in five years, of fifty-four per cent. This result is shown by the census recently taken.

It is said that dried fruit, kept in old salt barrels will be saved from the depredation of insects.—These barrels will keep grain uninjured from insects.

Six bodies in all. or what remained of them have been recovered from the ruins in the New York fire, and there are two more yet to be recovered.

Several buildings were lately destroyed in New York. by fire. In one of the buildings resided, with others, an elderly man, who being too timid to make his escape through the smoke and flames, concealed himself between two feather beds, in which refuge he was found when the fire was subdued, but little hurt, one of his hands only being burned.

A young man who has spent some time at an Academy, has now gone as an apprentice to a mechanic with the provision that he shall have the privilege of room, books and time, to study the languages, at the same time he is getting his trade. Perhaps he took the idea from the example of the *learned blacksmith*, who became so famous a scholar over his forge and anvil.

The growing interest felt in the extension of that most meritorious and easy cure for Consumption and Diseases of the Chest, Mr. Brinckerhoff's Health Restrative, is a sufficient inducement for us often to recur to it. There is a high satisfaction to be gained by the performance of duty; then let us each and all use our influence in making known throughout our vicinage the assured qualities of this remedy, and thus add our mite to alleviate suffering. 17

NOTICES.

The regular Quarterly Meeting of the Young Men's Washington Total Abstinence Society will take place at the Temperance Reading Room, THIS EVENING, at half past seven o'clock.

C. E. RHODES, *Secretary.*

The Quincy Point Juvenile Cold Water Army, auxiliary to the General Cold Water Army, will hold their annual meeting for the choice of Officers, etc, TUESDAY EVENING, (Aug. 12th,) at the School Room, at *six* o'clock.

A punctual and full attendance of the Officers and members is requested.

MARY S. BAXTER, *Secretary.*

There will be a social Temperance Meeting of the Young Men's Washington Total Abstinence Society, at the Temperance Reading Room, on TUESDAY EVENING, at eight o'clock.

Ladies and gentlemen are invited to attend.

CHARLES E. RHOADES, *Secretary.*

The Union Meeting of the two boards of Officers of the Washington and Total Abstinence Societies, will be held at the Temperance Reading Room, over Mr. Gill's Bookstore, next MONDAY EVENING, at half past seven o'clock.

A public, social Temperance Meeting will be held in the Temperance Reading Room, THIS EVENING, at half past seven o'clock.

T. KELLOGG, *Secretary.*

The Selectmen of Quincy, hereby give notice that they will be in session, at their room in the New Town House, the last SATURDAY in each month until further notice, from *two* to *five* o'clock in the afternoon. All persons having business with the Town are requested to pre sent it on said days.

BRYANT B. NEWCOMB,
JOSEPH W. ROBERTSON,
LEVI G. FOLSOM.

Sabbath School Exhibition.

There will be an exhibition of the Sabbath Scho ol connected with the Methodist Episcopal Society at Quincy Point, on SUNDAY EVENING, next, Aug. 10th commencing at half past six o'clock.

The exercises will consist of speaking and singing such pieces as will be interesting to the public in general, and to the friends of Schools in particular. The objects are to interest the children more deeply in the school, and to obtain funds to replenish the Library with new and interesting books.

Tickets for admission, twelve and a half cents, which may be had at the stores of George Neweomb and I. G. Whiton, Quincy Point, Benjamin Neweomb Braintree Neck, at the Quincy Bookstore, and the door.

Temperance Fair and Tea Party.

The second annual Fair of the Dedham Ladies Total Abstinence Society will open on WEDNESDAY, Aug. 13th, at *nine* o'clock in the forenoon, in Temperance Hall.

There will be offered for sale a great variety of articles both useful and elegant.

Tables will be furnished by the friends of Rev. Edwin Thompson, for his benefit, for which the patronage of all who appreciate his labors in the cause is solicited.

Dinner will be provided from *twelve* until *two* o'clock.

Tea will be served at *four* o'clock, at which time Addresses may be expected from distinguished friends.

Music also will add to the festivities of the occasion.

Admittance to the Fair, 12 cents; children, 6 1-4 cents. Tickets to the Tea Party, 25 cents.

Should the weather be unfavorable the sale will be deferred to the first fair day.

Jayne's Life Preservative.

An Alterative and Depurative, combining all the medicinal virtues of those articles, which long experience has proved to possess the most safe and efficient alterative and duobstruent properties, for the cure of Scrofula, King's Evil, White Swellings, Ulcers, Scrofulous, Cancerous and Indolent Tumours, Rheumatism, Gout, Scurvey, Neuralgia, or Tic-Douloureux Cancer, Goitre, or Bronchocele' (swelled-neck) enlargement of the bonds, joints or ligaments or of the ovaries, liver, spleen, kidneys, &c. All the various Diseases of the Skin, such as tetter, ring-worm, biles, pimples, carbuncles, &c., dropsical swellings, constitutional disorders, and originating from a depraved or impure state of the blood or other fluids of the body.

Prepared only by Dr. D. Jayne, No. 8 South Third street, Philadelphia, and sold by CALEB GILL, Jr., Quincy.

Quincy Aug. 2. 3w

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs Asthma, and CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the case of pulmonary diseases, warrants the American agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the Lungs, Bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

C. BRINCKERHOFF'S

THIS MEDICINE being productive of the most powerful and certain remedial effect in the cure of Liver Complaint, Consumption, Pain in the Chest and Side, Coughs, Colds, profuse Night Sweats, and Asthma, its importance will be admitted by all. Having for its commendation the testimony of many of our most truth-loving and respected citizens, we are bound to acknowledge that there must be some great cause for their praise, or it would not be given so freely and frankly. The Health Restorative, from its first introduction to the presént day, has never been known to fail of its intended beneficial effects, and where it has not fully cured, it has been traced most conclusively to the fault of the patient in not complying with the simple directions attached to the bottle. So prolific a disease as Consumption, and so dangerous a one to afflict the human race, has induced the needy and soulless trafficker to invent and recommend his nostrums, which only slightly palliate the more aggravating symptoms, or else are entirely useless, and thus to gain money, they deceive their sick and dying fellow men, without even so much as a thought of the baseness of their trade. We leave such demons to the stings and upbraidings of their own conscience. The Proprietor having experienced the curative property of the Restorative in his own individual case, and in numberless others can recommend it to the confidence of the sick, feeling sensible that if a faithful trial is made, the most auspicious result is certain. The following certificate is from Dr. Chilton, the well known New York chemist.

"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."

JAMES R. CHILTON, M. D.

Administrator's Sale.

WILL be sold by public auction, on WEDNESDAY, the sixth day of August, at three o'clock in the afternoon, by order of the Court of Probate, on the premises, a piece of Land situated in Quincy, the property of Peter Newcomb, deceased, containing about one quarter of one acre, and bounded easterly on the Church land, southerly and westerly on William P. Apthorp's land, and northerly on Elm street, together with all the buildings thereon.

Said buildings consist of a well finished two story House, in good repair, suitable for one or two families, and the outhouses attached to the same. The land is of the best quality, and there is upon it several excellent fruit and ornamental trees.

The Esiate above described presents a good opportunity for those desirous to purchase, as it is sold by order of Court and will be disposed of to the highest bidder.

JOHN NEWCOMB, *Adm.*

Quincy, June 28. 6w

S U G A R — C O A T E D

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skilfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 25 cents per box, with full directions, and sold by the following list of Agents.

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; R. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 28.

Dr. D. Jayne's

CARMINATIVE BALSAM.

THIS is one of the most efficient, pleasant, and safe compositions ever offered to the public, for the cure of the various derangements of the stomach and bowels, and the *only* article worthy of the least confidence for curing Cholera Infantum, or Summer Complaint,—and in the above and following diseases, it really acts like a charm, viz:

Dysentery, Diarrhœa, or Looseness—Cholera Morbus, *Summer Complaint*, Cholic, Griping Pains, Sour Stomach, Sick and Nervous Headach, Heartburn, Waterbrash, Pain or sickness of the Stomach, Vomiting, Spitting up of food after eating, and also where it passes through the body unchanged,—want of appetite, restlessness, and inability to sleep; wind in the stomach and bowels, hysterics, cramp, nervous tremors and twitchings, sea-sickness, faintings, Melancholy, and lowness of spirits, fretting and crying of infants, and for all bowel affections and nervous diseases.

Prepared only by Dr. D. Jayne, and sold by

CALEB GILL, Jr.

Boston, March 15. 6m

POETRY.

THE WIDOWED INEBRIATE.

I'm thinking on thy smile, Mary—
Thy bright and trusting smile—
In the morning of our truth and love,
Ere sorrow came—or gile—
When thine arms were twined about my neck,
And mine eyes looked into thine,
And the heart that throbed for me alone,
Was nestling close to mine!

I see full many a smile, Mary,
On your lips beaming bright;
And many an eye of light and love
Is flashing in my sight;
But the smile is not for my poor heart,
And the eye is strange to me,
And loneliness comes o'er my soul
When its memory turns to thee!

I'm thinking on the night, Mary,
The night of grief and shame,
When with druken ravings on my lips,
To thee I homeward came:
O, the tear was in thine earnest eye,
And thy bosom widely heaved,
Yet a smile of love was on thy cheek,
Though the heart was sorely grieved!

But the smiles soon left thy lips, Mary,
And thine eye grew dim and sad,
For the tempter lured my steps from thee,
And the wine-cup drove me mad:
From thy cheek the roses quickly fled,
And thy ringing laugh was gone,
Yet thy heart still fondly clung to me,
And still kept trusting on.

O, my words were harsh to thee, Mary,
For the wine-cup made me wild;
And I chid thee when thine eyes were sad,
And I cursed thee when they smiled:
God knows I loved thee even then,
But the fire was in my brain,
And the curse of drink was in my heart,
To make my love a bane.

'Twas a pleasant home of ours, Mary,
In the spring time of our life,
When I looked upon thy sunny face,
And proudly called thee, wife—
And 'twas pleasant when our children played
Before our cottage door:
But the children sleep with thee, Mary,
I ne'er shall see them more!

Thou'rt resting in the church-yard now,
And no stone is at thy head;
But the sexton knows a drunkard's wife
Sleeps in that lowly bed:
And he says the hand of God, Mary,
Will fall with crushing weight
On the wretch who brought thy gentle life
To its untimely fate!

But he knows not of the broken heart
I bear within my breast,
Or the heavy load of vain remorse,
That will not let me rest:
He knows not of the sleepless nights,
When dreaming of thy love,
I seem to see thine angel eyes
Look coldly from above.

I have raised the wine-cup in my hand,
And the wildest strains I've sung,
Till with the laugh of drunken mirth
The echoing air has rung:
But a pale and sorrowful face look'd out,
From the glittering cup on me,
And a trembling whisper I heard
That I fancied, whispered by thee!

Thou art slumbering in the peaceful grave,
And thy sleep is dreamless now,
But the seal of an undying grief
Is on thy mourner's brow,
And my heart is chill as thine, Mary,
For the joys of life have fled,
And I long to lay my aching breast
With the cold and silent dead!

ANECDOTES.

"John did you leave Mr. Jones' umbrella at home?" asked a fond mother of her first born.

"No ma," said John.

"And why did you not my son. Didn't I tell you to?" said the mother.

"Yes, you did, ma," said John, "but did'nt you always tell me to keep something for a wet day, and as it looks as if to-morrow would be wet, what better thing can I keep than an umbrella?"

The ma smiled at John's juvenile simplicity.

Hopkins once lent Simpson, his next door neighbor, an umbrella. You will judge of the intellect of Hopkins, not so much from the act of lending an umbrella, but from his insane endeavor to get it back again. It poured in torrents. Hopkins had an urgent call. Hopkins knocked at Simpson's door, "I want my umbrella." Now Simpson also had a call in a directly opposite way to Hopkins; and with the borrowed umbrella in his hand, was advancing to the threshold. 'I tell you,' roared Hopkins, 'I want my umbrella.' 'Can't have it,' said Simpson, at the same time extending the machine dedicated to *Jupiter pluvius*. 'Why, I want to go to the east end; it rains in torrents; what' screamed Hopkins, 'what am I to do for an umbrella?' 'Do!' answered Simpson, darting from the door—'do as I did; *borrow one.*

On a recent moon light night, a mother had the following observation made to her by a little urchin of about six years of age: "It must be all nonsense, mother, about there being folks in the moon." "Why so?" "Oh, because, how could they crush themselves together when it's only *half moon*?" Mammy, (grinning) "May be the folks are like spy glasses, and SHUT IN.

"Hallo there, Tommy, my boy, what are you climbing that ladder for?" "To see how high the thermometer is, dad." "How high is it, my son?" "Jest above the third story vinders." "Hadn't no idea it was so warm."

"What did you give for that horse?" "My note, wasn't that cheap enough?"

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Handcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Krauth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea-sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., add a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; R. Gleason, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

June 28. tf

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are perverted and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, 'if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educated and experienced Physician, rather than the precarious and dangerous doings of Quacks and inexperienced Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10; sent to all parts of the Union. Office and consultation rooms,

4 1-2 SUDBURY STREET,
(Opposite Alden Lane)

Quincy, April 5. tf

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and ever prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*
JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine:

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast engailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health, and have not raised any blood since the use of the first bottle of this excellent preparation.

WYMAN ABERCROMBIE.

Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark:

DEAR SIR—I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. Yours, truly,

IBRAHIM BARTLETT.

Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.

Only Office in Boston, No. 51 1-2 Hanover Street (up stairs.) People in other cities and in country towns may obtain the Medicine by sending for it through conductors of railroad cars, drivers of stages, or in such other way as may be most convenient to them.

Boston, May 20. tf

MISCELLANY.

THE LANDLADY CAUGHT

Shortly after the first Republican Constitution of the State of New York was framed and the Judiciary system was established in the civil department, the supreme court, or branch of it called the "circuit court," was appointed for one of the circuits, in the county Duchess, and the eccentric Judge Crane was preside. Judge Crane was very wealthy highly respected for his public and private virtues, especially for his charitableness to the poor but he always dressed in a plain garb, would hardly ever wear an overcoat, whatever the weather might be, and it was seldom that he rode when he went abroad, although he owned many valuable horses. On the morning of the day in which the court was to begin, the Judge set out before day and walked gently on, through hail, rain and snow to the appointed place. On arriving at Poughkeepsie, (N. Y.) cold and wet, he walked to a tavern where he found the landlady and her servants were making large preparations for the entertainment of the Judges, Lawyers, and other gentlemen whom they expected would attend the circuit court.

The Judge was determined to have some sport, and in a pleasant tone addressed the landlady—'I have no money, and I was obliged to come to court, and I have walked through this dreadful storm more than twenty miles I am wet and cold, dry and hungry. I want something to eat before court begins;' when the landlady put herself in a majestical posture, and putting on a countenance of contempt said to the judge, 'you say you are wet, cold, dry and hot; how can all that be?' 'Why my dear madam,' says the Judge, 'I said I was wet and cold; and if you had been out as long as I have been in this storm I think you would likewise be wet and cold. I told that I wanted something to eat and drink.' 'But you have no money, you say,' retorted the landlady. 'I told you the truth,' says the Judge, 'the whole truth, and nothing but the truth,' but were I as rich as Cœsus, I would be willing to work for something to eat and drink,' 'Cœsus, who is Cœsus?' says the lady. 'I never knew him,' said the Judge, 'but I have understood that he was very rich. I want something to eat and something to drink and were I as poor as Job in his utmost calamity, and my health, and strength as well as now have, I would willingly go to work a little while, if I could get something to drink and a bite of good victuals.' 'Well, daddy,' says she, 'how much do you want to drink?' 'Why a gill of good brandy,' says he. 'Very well,' says she, 'I will give you half a gill and some cold victuals, if you will go into the back yard and cut and split three armfulls of wood and bring it into the kitchen, where the servants want to make a good fire to dry the gentlemen's coats when they come, and after you get the victuals, I shall want you to go away.'

He drank his brandy, went into the back yard, and soon cut and laid by the kitchen fire the required quantity of wood. The landlady placed a cold luncheon before him, remarking that there it was. 'And it is almost as cold myself' says he, 'but not half so wet, for neither tea nor coffee, nor chocolate to warm me.' 'Beggars must not be choosers,' said she, 'I have paid the full price demanded.' 'Well you,' said she, 'I would give you cold victuals and there is cold boiled ham, cold pork, cold beef, cold potatoes, &c., and if you want something hot, there is mustard and pepper, there is good bread, good butter and good cheese and all good enough for such an old ragamuffin as you are.' 'It is all very good,' says he pleasantly, 'but madam, be so good as to let me have some new milk, right from the cow to wet these cold victuals.' 'The cows have been milked,' says she. 'Then let me have

MISCELLANY.

THE LANDLADY CAUGHT.

Shortly after the first Republican Constitution of the State of New York was framed and the Judiciary system was established for the civil department, the supreme court, or that branch of it called the "circuit court," was appointed for one of the circuits, in the county of Duchess, and the eccentric Judge Crane was to preside. Judge Crane was very wealthy and highly respected for his public and private virtues, especially for his charitableness to the poor; but he always dressed in a plain garb, and would hardly ever wear an overcoat, whatever the weather might be, and it was seldom that he rode when he went abroad, although he owned many valuable horses. On the morning of the day in which the court was to begin, the Judge set out before day and walked gently on, through hail, rain and snow to the appointed place. On arriving at Poughkeepsie, (N. Y.) cold and wet, he walked to a tavern where he found the landlady and her servants were making large preparations for the entertainment of the Judges, Lawyers, and other gentlemen whom they expected would attend the circuit court.

The Judge was determined to have some sport, and in a pleasant tone addressed the landlady—'I have no money, and I was obliged to come to court, and I have walked thro' this dreadful storm more than twenty miles. I am wet and cold, dry and hungry. I want something to eat before court begins;' when the landlady put herself in a majestical posture, and putting on a countenance of contempt said to the judge, 'you say you are wet and cold, dry and hot; how can all that be?' 'No, my dear madam,' says the Judge, 'I said that I was wet and cold; and if you had been out as long as I have been in this storm I think you would likewise be wet and cold. I said that I wanted something to eat and drink.'—'But you have no money, you say,' retorted the landlady. 'I told you the truth,' says the Judge, 'the whole truth, and nothing but the truth,' but were I as rich as Crœsus, I would be willing to work for something to eat and drink.' 'Crœsus, who is Crœsus?' says the lady. 'I never knew him,' said the Judge, 'but I have understood that he was very rich. I want something to eat and something to drink and were I as poor as Job in his utmost calamity, and my health, and strength as well as I now have, I would willingly go to work a little while, if I could get something to drink and a bite of good victuals.' 'Well, daddy,' says she, 'how much do you want to drink?' 'Half a gill of good brandy,' says he. 'Very well,' says she, 'I will give you half a gill and some cold victuals, if you will go into the back yard and cut and split three armfulls of wood, and bring it into the kitchen, where the servants want to make a good fire to dry the gentlemen's coats when they come, and after you get your victuals, I shall want you to go away.'

He drank his brandy, went into the wood yard, and soon cut and laid by the kitchen fire, the required quantity of wood. The landlady placed a cold luncheon before him, remarking that there it was. 'And it is almost as cold as myself' says he, 'but not half so wet, for I see neither tea nor coffee, nor chockalate to wet it.' 'Beggars must not be choosers,' said he, 'but I have paid the full price demanded.' 'I told you,' said she, 'I would give you cold victuals, and there is cold boiled ham, cold pork and beef, cold potatoes, &c., and if you want anything hot, there is mustard and pepper, and here is good bread, good butter and good cheese, and all good enough for such an old ragmuffin as you are.' 'It is all very good,' said he pleasantly, 'but madam, be so good as to let me have some new milk, right from the cow, to wet these cold victuals.' 'The cows have not been milked,' says she. 'Then let me have a bowl of cold milk, said he. 'I will not send a servant in this storm to the spring house to skim it for you. 'Dear madam,' said he with a pleasant smile, 'I have a good wife at home older than you are, who would go out in a worse storm than this, to milk the cows, and bring the milk to the poorest man on earth, at his request; or to bring the milk from the spring house, *cream and all, without skiming*, to feed one of the most abject of the human race.' 'You have a good wife at home,' says she. 'Indeed I have,' said he, 'and she keeps my clothes clean and whole; and notwithstanding you called me an old ragmuffin, I am not ashamed to appear abroad in the clothes I wear in any good company.' 'Well, I must confess, says she, 'that when you have your broad brimmed hat off, you look middling well; but I want you to be off, for we want the fire to dry the gentlemen's great coats and umbrellas by; and among the rest we expect Judge Crane.' 'Judge Crane,' said he, 'who is Judge Crane?' 'The circuit Judge,' says she, one of the supreme Judges, you old fool.'

'Well,' says he, 'I will bet a goose that Judge Crane has not had, and will not have, a great coat on his back, or an umbrella over his head to day.'

'You old goose,' said she, 'I care nothing for your bets. Eat and be off, I tell you that Judge Crane is to be here, and we've no room for you.' 'I don't care one rye straw more for Judge Crane than I do for myself, and it has got to be so late, that if he was to come at this time of the day, he would more likely go directly to the court house, and stay until dinner time. I know something about the old codger, and some people say he is a rusty, fusty, crusty old fudge.' 'Pretty talk, indeed,' says the landlady, 'about the supreme Judge. Now eat and be off.' 'I tell you, said he, 'Judge Crane is not the Supreme Judge; and if he were, he is no more fit to be judge than I am.' 'Well, now be off with yourself,' she said. 'Don't be in so great a hurry,' said he mildly. 'I wish to know who is the landlord here? and to know where he is?' 'He is the high sheriff of the county, and won't be home till night; if he were here you would'nt stay long.—'Well, madam, said he, 'give us a cup of cider, to wet my victuals, if you won't give me milk.' 'Not a drop,' says her ladyship.

The Judge, who had got pretty well warmed and dried and wished for his breakfast, put on a stern countenance, and positively declared he would not leave the room and fire until he pleased. 'But,' added he, 'if you will grant my request, I will eat and be off.' The cider was immediately brought, and the judge partook heartily of the collation before him, took his broad brimmed hat, and gently walked to the court house, where he found good fires and clean floors, and during the court hours he presided with dignity and propriety.

When he withdrew, the landlady anxiously looked after him for some time as he walked steadily on to the court house, supposing him to be some poor man summoned up to court as a witness, or some culprit, or some vagabond, who might give her further trouble in time of court, and expressed to her servants a desire that they would see that he did not disturb the gentlemen and the judges who might put up there. While some of the girls declared if he did come, they would use some of his own expressions which he used respecting Judge Crane. Let me see, says one, 'rusty, crusty,' yes, and 'fusty old Judge,' says another.

When the dinner was announced, the court, not being thronged, was immediately adjourned, and the day being stormy and cold, the judges and lawyers poured into the sheriff's tavern, where they were sure of good fires and good fare, all except Judge Crane, who walked to a store and purchased a valuable shawl, and put it into his pocket on the inside of his coat; then walked quietly to the tavern. While he was detained, the landlady entered the dining room, and earnestly enquired if Judge Crane had come in. The answer was, 'not yet madam, and perhaps he may not come.' The landlady, who was anxious to pay the highest respect to the Judge, retired to the kitchen, not a little chagrined or disappointed. In the meantime the Judge arrived, and being at proper times very sociable, and at all times fond of cheering the minds of those present, he began to make some pertinent remarks, and to tell some lively anecdotes, intended to convey good morals, which set the whole company into a roar of laughter. At this instant, one of the waiting maids entered the room to inform the gentlemen that they might set down to dinner. She did her errand, and hastened back to her mistress with the tidings that the old fusty fellow with his broadbrim hat, was right in among the bare-headed gentlemen, talking as loud as he could, and all the judges and lawyers were laughing at him. 'Then go, said she, 'and whisper to the old man that I wish him to come into the kitchen.' The errand was done accordingly, and the Judge, in a low tone of voice, said to the girl, 'tell your mistress I have a little business to do with some of these lawyers, and when done I'll be off in the course of two or three days.' The girl returned and faithfully rehearsed the message; and added that she believed the old fellow was drunk, or he would not have said, 'as soon as my business is done, I'll be off in two or three days.'

"Well, Betty,' says the mistress, 'go back and when the gentlemen begin to sit down, do you stand by the head of the table, and whisper to some gentleman, that I wish a vacant place left at the head of the table for Judge Crane, and then do you hasten back and see that John has the cider and other liquors in good order. And Mary you fill two more tureenes with gravy, and put at each end of the table. And Martha do you see that the clean plates for a change are ready, and the tarts and pies, &c., are in good order.' Betty again repaired to her post at the head of the table, and softly informed a gentleman of the request of her mistress. 'Certainly,' says the gentleman; Betty hastened back to help John. The gentleman now sat down to an excellent repast, a short ejaculatory address to the throne of grace was delivered by Judge Crane, in which he adorned the Father of all mercies for feeding all his creatures throughout the immensity of space—invoking a blessing on that portion of earthly bounty then before them, and supplicated divine mercy through the merits of our Redeemer; the gentlemen carved and served round in usual form.

But as the Judge was of a singular turn in almost every thing, and had taken a fancy that if a person eats light food at the same meal, and that which is more solid and harder of digestion, that the light food should be eaten first; he therefore filled his plate with some pudding, made of milk, rice and eggs, and placing himself in rather an awkward situation, with his left elbow on the table and his head near the plate, to eat according to his custom, which was very fast, although he was not a very great eater. And some of the gentlemen near the Judge following his example, as to partaking of the pudding before the meat, of course a large deep vessel, which contained that article, was nearly emptied when Mary approached with her two additional turenes of gravy, according to the command of her mistress, and as she sat down the last near the Judge, he says to her in an austere manner, 'Girl, bring me a clean plate to eat some sallad on.' The abrupt manner in which he addressed her, and her disgust at seeing him there in that position, so disconcerted the poor girl that she did not observe that any one excepting the Judge had partaken of the pudding, nor did she know what he meant by sallad; but she observed that the large pudding pan was nearly empty and then hastened back with the utmost speed to her mistress, and addressed her with 'Lord, madam, that old fellow's there yet, and he is certainly crazy or drunk, for he is down at the table, and has eaten more than a skipple of the rice pudding already, and has his nose right down in the plate full now shovelling it in like a hog; and told me as if he was lord of the manor, to bring him a clean plate to eat sallad on. Bless me, where can we get sallad this time of the year? And the gentlemen have not done carving, and not one has begun to eat meat; much less to eat a tub full of pudding.

'Ay, he'll get a clean plate,' says Martha, before gentlemen want clean plates.' I'll clear him out,' say the mistress, and starts for the dining room, burning with indignation.

The Judge was remarkable for not giving unnecessary trouble to any body where he put up, and generally ate whatever was set before him without making any remarks; and seldom made use of more than one plate at a meal; but at this time he observed near him a dish of beautiful raw white cabbage cut up and put into vinegar, (which the low Dutch at Poughkeepsie, call *cold slaw*, and which he called *sallad*,) and he wished for a separate plate to prepare some of it for his own fancy. The carving and serving were not yet finished, when he expected a clean plate, when the landlady arrived at the door at the dining room determined to drive him out. She advanced with a firm step to the door and fixed her keen eye sternly on the Judge, when he turned his eye that way and observing her, mildly said, 'Landlady, can I have a clean plate to eat some sallad on?'

'A clean plate and sallad!' retorted the landlady, indignantly. 'I wish you would come into the kitchen until the gentlemen have dined; I have reserved that seat for Judge Crane.'

The company were struck with astonishment, and fixed their eyes alternately on the landlady and on the Judge; and sat or stood in mute suspense—when the Judge gracefully raised himself up in his chair, carelessly folding his arms across his breast, then putting his hand awkwardly on one side. 'You reserved this seat for Judge Crane, did you landlady?'

'Indeed I did,' says she.

'It was very kind,' says he, in an ironical tone, 'but if you will step to the door and see if he is coming or send one of the servants to call for him, with your permission and the approbation of these gentlemen, with whom I have some business to do, I will occupy this seat until you find the Judge.'

'Find the Judge,' said she with emphasis, 'go look for him yourself, not send me nor my servants. I gave you your breakfast for chopping a little wood, because you said you had no money—and I expected you would go away quickly and keep away, and now you must come here to disturb gentlemen at dinner.'

Here the whole joke burst upon the minds of the gentlemen present, who fell into a loud fit of laughter. After the tumult had a little subsided, the Judge mildly asked—'did I chop wood to pay for my breakfast?' 'Indeed you did,' said she, 'and said you had no money.' 'I told you the whole truth,' replied the Judge, 'but I have a beautiful shawl worth more than ten dollars, which I just now bought, and will leave it now with you in pawn, if you will only let me eat my dinner with these gentlemen.'

Here the gentlemen were biting their lips to keep from laughter. 'How did you buy a shawl worth more than ten dollars, without money?' 'I bought it on a credit,' says he.—'And where did you find credit to that amount?' said she. 'I brought it from home,' said he. 'That's a likely story, and something like your abuse of Judge Crane this morning, said she. 'How could I abuse the Judge if he was not present?' asked he. 'Why,' replied she, 'you called him rusty, fusty, fudge, and old codger, and you don't care a rye straw more for him than you did for yourself.' And here the company burst into an uproar of laughter again.—But as soon as it a little subsided, one of the gentlemen asked the landlady how she knew that the gentlemen she was addressing was not Judge Crane?' 'He Judge Crane? He looks more like a *snipe* than a *crane*.

Here the loud laughter burst forth for a third time. And after a little pause the Judge said, 'I must confess that I am not a bird of very fine feathers, but I assure you that I am a *Crane*, and a crane is often a very useful instrument; I saw a very good one in your kitchen this morning—and sometimes an instrument called a crane is of invaluable use, madam.' Before she had time to reply, some of the gentlemen with whom she was acquainted, assured her that she was talking with the presiding Judge. Astonished and confounded, she attempted some excuse, and hastily asked his pardon for the rudeness.

The Judge had by this time, unobserved, taken from his pocket the beautiful shawl and folded it at length one way, and in a narrow form the other, and being of a very fine texture, appeared more like an elegant sash, than like a valuable shawl. When he arose with graceful dignity and with a half smile advanced a few steps towards the landlady, saying, 'it is not my province to pardon, but it is my business to judge, and I judge that you and I shall be friends—and I judge that you will, without hesitation, receive this shawl as a present, if not as pawn.' So saying, he gently laid it over her shoulders and across her arms, saying, 'take it madam, and not attempt to return it, for it was purchased on purpose for a present for you.' She retired in confusion, hardly knowing what she did, and took with her the shawl worth twelve instead of ten dollars.

And here were three parties who had each two good lessons to meditate upon—the gentlemen had a good dinner and a good joke to talk over—and the Judge had good intentions in the joke, and good will and ability to follow up the lesson given.

WORK FOR CHILDREN.

There is no greater defect in educating children, than neglecting to accustom them to work. It is an evil that attaches mostly to large towns and cities. Children suffer much from it. The parent never considers whether the child's work is necessary or not to the child. Nothing is more uncertain that their future independence and comfort—much depends on being accustomed to work—accustomed to provide for the thousand constantly recurring wants that nature entails on us.

If this were not so, still it preserves them from bad habits—it secures their health—it strengthens both mind and body—it enables them better to bear the confinement of the schoolroom—and it tends more than anything else to give them just views of life.

It is too often the case that children, provided they spend a half dozen hours of the day at school, are permitted to spend the rest as they please. Thus they grow up in the world without a knowledge of its toils and cares. They view it through a false medium. They cannot appreciate the favors you bestow, as they do not know the toils they cost. Their bodies and minds are enervated, and they are exposed to whatever vicious associations are within their reach.

The daughter, probably, becomes that pitiable helpless object, a novel-reading girl. The son, if he surmounts the consequences of your neglect, does it probably after his plans and station for life are fixed, and when knowledge, for one of its important objects, comes too late.

No man or woman is fully educated if not accustomed to manuel labor. Whatever accomplishments they possess, whatever their mental training, a deduction must be made for ignorance of that important branch.

Ex-President Adams and the Right of Petition. Some time ago, Julius Pratt & Co., of Meriden, (Conn.) presented to the Hon. J. Q. Adams, an *ivory* cane, as a mark of respect for his public services, which he (Mr. Adams) deposited among other interesting relics, in the patent office, at Washington (D. C.) assuring the donors that, should the right of petition become triumphant, he would cause the fact (or enjoin this duty upon his successors) to be engraven upon the cane. In a letter to Julius Pratt & Co., dated the 26th of March, 1845, after referring to the repeal of the 25th rule, on the 3d of December, 1845, Mr. Adams says,—"On that day was the 'Right of Petition Triumphant' in the House of Representatives of the United States. May it never again be suppressed or impaired. I have caused the date, 3d Dec., 1844, to be engraved under the scroll bearing the motto, '*Right of Petition Triumphant*,' and have returned the cane to the Patent Office, to be there kept among the models characteristic of American intellectual energy, American exquisite handicraft, and American irrepressible love of freedom."

For the Quincy Patriot.

THE HYPOCRITE.

There is not a being, treading upon the wide earth, whose practice and influence, is more to be dreaded than the hypocrite. The murderer, who sheaths his dagges in the bosom of the unconscious sleeper, the incendiary who sets on fire the unguarded building, the thief who prowls around your house at the midnight hour, or the avowed robber, who robs and strips you of your all in the broad and open daylight, is far less to be dreaded than he who carries with him the smooth face of hypocrasy, and the silvered tongue of deceit. We go prepared for him who attempts to kill; the eye of the police is upon him who would set on fire the peaceful dwelling, and he who would steal, plunder or strip by violence from us; while he* is the unsuspected aggressor. Cast your eyes over the world's history, there you will find that his baneful influence has been felt in what ever nation, society, or family he entered.—He caused misery and degradation by filling the atmosphere with deadly miasma, and spreading blight and mildew upon every thing around him. He has raised his "hydra head" and gone forth, until like the roaring tornado he has swept down kings and princes, and even laid kingdoms with the earth. Hannibal, after having to the astonishment and terror of Rome, passed the Alps; after destroying and putting to flight the mistress of the world, after having taken more than three bushels of golden rings from the hands of her butchered knights, and made her very foundation quake, was at last brought to his end by the hypocrite, Cæsar, after having subdued eight hundred cities, and stained his garments in the blood of more than one million of his enemies; after having pursued and put to death the only rival he had on earth, was unhappily put to death by one who came to him under the guise of feigned friendship. Such has been his practice in all ages of the world. If we will but look around us, we shall find him still at work at the present day, leaving no stone unturned, that will bring consternation and distress upon all within his grasp. Cast your eyes over the society he enters, there you will find him thrusting his barbed arrows of deceit, at the magistrate, the physician, (for they always seek to injure those who are higher in the estimation of others than themselves) and even the clergy. To him it matters not, how fair may be the moral character, how bright the talents of his victim, how inviolable his veracity and integrity, or how great his usefulness in society; he will still endeavor to bring him down to a level with himself, to lesson his usefulness in the good opinion of others, and destroy his peace and happiness. Yet he will profess to be his most cordial and sincere friend, while at the very same time, "the poison of asps is under his tongue." Hundreds, yes, and I might say thousands of the youthful portion of our fair land, who have stepped forth into the world to think, and to act for themselves, who had once gained the esteem and friendship of all those around them, have been obliged to leave their friends, and and home, and roam abroad over the wide world without a shelter to protect them from the cold and chilling blast of winter's storm. Soon disease preys upon their bodies, and the blood that flowed so freely through their veins in former times, now becomes chilled, their eyes become sunken in their sockets, the cheek grows pallied, the pulse beats faintly, and they sink down to an untimely grave, unlamented and unwept.

Go with me in imagination to that lonely sufferer, who was once the brightest ornament in the circle in which he moved, who now lies emaciated and bleading beneath a burning sun upon a dreary and far distant shore, with no father's hand, who once led his tottering feet, to uphold him, no affectionate mother to bind up his bleeding wounds, or to wipe the cold sweat of death from off his brow, and hush every sound that would disturb his broken slumbers, no kind and affectionate sister's voice to sing the angelic notes around his pillow, and place back his golden locks, no brother's face, which so often reflected the joyousness of his own, to extend the hand he once delighted to clasp, to render him aid and assistance; as life's feeble lamp is about to be extinguished, he rolls his dim eyes in their sockets towards his once cherished and happy home, seemingly to take his farewell look of the scenes of boyhood, and lies down quietly to rest in the sleep of death, with no one to bid him a last *farewell*. This is no vain imagination of the head, it is stern reality. Go into our prisons and ask those unhappy inmates what brought them there, and a goodly number will tell you that it was the lying tongue of the hypocrite, by robbing them of all that was dear to them, their good *name*. Go upon the gallows, that is erected to *murder* thy brother and ask him as he stands there pale and trembling with the rope adjusted about his neck, what brought *him* there, and perhaps he will say not for crime that he has committed, and you believe him not; but before the setting of to-morrow's sun, thy doubts may be removed by reading in the public journals, the confession from him who committed the deed for which thy brother was hanged; beware then how you speak evil of your neighbor; run not from house to house, that you may slander and abuse those that never injure you, but guard well your own, and also your tongue, by thus doing you will not only prevent much misery in the world, but will be able to meet you neighbors with an unblushing countenance.

J. W. H.

*The females are not (although I am sorry to say it) exempt from this vile and abominable practice, but are in some places, more numerous than the men.

For the Quincy Patriot.

SUMMER RAMBLES NO. I.

NEW YORK, AUG. 8, 1845.

FRIEND GREEN: I left your pleasant place a few days since, anxious to avail myself of this pleasant season for travelling and recreation. After visiting the City of Notions, calling on a few friends, and dining at that splendid eating house of Ford, in Devonshire street, where by the way a man will find good cheer, cool seats, neat tables, pleasant waiters, and an agreeable and intelligent host, ever ready to attend to the wishes of his customers, sparing no pains to entertain all in the most agrecable manner.

I took passage at four o'clock, P. M., in the cars for Providence, arriving before six, went on board the good steamer Neptune, accompanied by a young man, Mr. S. from your town. This is decidedly the cheapest, and (all things considered) the *best* route by which one can visit New York; the whole passage costing only one dollar and seventy-five cents. The public appreciate the enterprize of the proprietors of this boat, it being crowded at every trip; while some of the others are but half freighted. The Captain and Officers of the Neptune, are unsparing in their efforts to entertain their passengers, being ever ready to give any information in pointing out the different islands, points, headlands, lights, &c., thereby creating a pleasing interest in the passing scenery, while the noble boat, as if conscious of her powers, marches her way in majestic beauty.

The passage of Hurl Gate, on Friday morning, was one of the finest displays of the superiority of steam power, I have ever winessed. On every side were seen vessels of various size and capacity, waiting for a flood tide to stem the rapid current. Not so the gallant steamer, snorting and puffing like some giant monster of the ocean, she gallantly breasts the foaming whirlpool of waters, dashing the spray from her stern in snowey wreaths, graceful as the glossy curls flung off in gaiety from the brow of beauty, she mounts against the rapid tide carrying forward in glad triumph, her hundreds of passengers and landing them safely in New York, after a journey of a few hours from Boston.

Friday morning found us strolling up Broadway, gazing with a strange feeling of curiosity and horror on the ruins of the great conflagration, in many places still smoking, and giving evidence by their disagreeable odor, that many things are now consuming; not unlikely among others, the mangled remains of some poor wretches, who fell victims to the devouring element, or the crushing masses of falling buildings. In the course of the day we visited different parts of the city; the Park, with its sparkling fountain; the Battery, with its green, cooling shade; witnessed the diversity of population, fashion, complexion and custom to be found in no other city this side of the Atlantic. Every nation, color, grade and cast of society has here an appropriate representative. In short, it is only where one has gazed on the gallant steamers and vessels that crowd the slips, contrasted Trinity church in its magnificent grandeur, with the unpretending beauty of the Sailor's Chapel, (a small church built on boats,) visited the Astor, with its resources of comfort and pleasure, the Exchange, apparently reposing in massive grandeur, the Custom House with its fair proportions of architectural beauty, compared the splendor of Broadway and Maiden Lane with the mud and filth of the Five Points, that he can form an idea of the virtue and vice, the generosity and meanness, the religion and immorality, the happiness and misery, that constitutes the motley assemblage of odds and ends, that go to make up the city of Gotham. C.

For the Quincy Patriot.

FIRST OF AUGUST.

MR. EDITOR: I send you the annexed as the conclusion of my report of the anti-slavery meeting, at Dedham, on the first of August:

"Mr. Thompson's speech was characterized by the quaint mingling of his humorous style and religious spirit." Slavery he said must go down in the United States, as it has in the British West Indies; and he appealed to sacred history for proof. "Our meetings have often been interrupted," he said; "but a short time ago, I read of one that was clamored down by the mob making a noise of an hour steady. But the opposition was hotter at Ephesus, when Paul preached there against the greatest idol of *that* place. They called out there three times as long, 'Great is Diana of the Ephsians," about the space of three hours. But it did not help her any—all that hallooing. She is now about as small concern as you can think of; while he who proclaimed that all nations are of one blood, is honored as an apostle and reverenced as a saint. And still that principle which would turn the world upside down wherein it is wrong side up, is going on triumphantly, and will ere long abolish slavery. He took leave to refer to scripture though people *did* call us infidels.

Theodore Parker being called upon by Mr. Garrison to confirm his title to the name by anti-slavery action with us to-day, came forward and said he knew the President of the day so that he thought it the wisest way to come out at once when his name was first called, for should he delay Mr. Garrison, would not fail to call names till he (Mr. P.) would answer it. Mr. Parker was exceedingly interesting in his address, throwing aside the common pro-slavery argument, that it is idle to rejoice that the British slaves are freed, while the oppressed British peasantry, who are so much worse off, are remaining in degradation and wickedness.—'Charity they say begins at home. Mr. President, I rejoice that she begins any where and is to go every where; and wherever she goes let us encourage and cheer her onward!'

Mr. Parker read the circular of the anti-slavery Unitarian clergy, to their brethren in the ministry, stating that it had already sixty signatures. It pledges the signers never to cease their efforts till slavery be at an end. He cheered the abolitionists with the spectacle and bade them take courage for when the logs begin to float off the wharf we know the tide is high. H. W. B.

QUINCY PATRIOT.

SATURDAY, AUG. 16, 1845.

John A. Green, Editor.

TO ALL INDEBTED. We find on examination, several hundreds of dollars due us, a large portion of which has been charged for years, and as we have payments to make a "little of the ready" to say the least would be very acceptable and doubtless cheer our creditors. To be serious in this matter, we owe money which must and shall be paid, and those indebted must be on hand and aid us in this determination; those who are so eager to interfere with our private affairs must be sure that they do not owe us, otherwise they will hear from other quarters.

P. S. We shall be at our office, this evening, from eight until nine o'clock, to receive the calls of our friends, and trust that a goodly number will improve the opportunity thus afforded, and be prepared with the "needful thing."

TEMPERANCE CONVENTION. The executive committee of the Massachusetts Temperance Union, have issued a call for a general convention of such friends of the cause in this and other States as "believe it necessary to employ legal measures in connection with others, for the suppression of the traffic in intoxicating drinks," to meet at Worcester, on Wednesday, the 17th day of September next, to continue in session through that and the following day. Efforts will be made to secure the presence of the most able and distinguished advocates and friends of the cause from neighboring States.

THE FALL CAMPAIGN. The Whig State Central Committee have issued a call for a State Convention of the Whigs of Massachusetts, to meet in Faneuil Hall, Boston, on Wednesday, the 24th of September, to nominate candidates for governor and lieutenant governor.

The Democratic citizens of the several towns in Massachusetts are to elect delegates to a State Convention to be holden at Springfield, on Wednesday, the 10th day of September next, to nominate candidates for the offices of Governor and Lieutenant Governor, and for the transaction of such other business as may come before the convention.

THE TEMPERANCE LAW. The Hon. JOHN DAVIS of Worcester, Senator in Congress, has been appointed by the Governor, to assist in the defence of the Massachusetts License Law, before the Supreme Court of the United States. DANIEL WEBSTER, the other Senator of this State, has been retained, it is supposed, to oppose the law.

MORE ANTI-RENT DISTURBANCES. The vicinity of Delhi, in New York, is excited by a renewal of the anti-rent quarrels. The Sheriff was resisted in an attempt to sell some cattle which he had levied on for rent. A party of fifty to one hundred men, disguised as Indians, fired upon the sheriff's party, wounding mortally a deputy, injuring others, and killing two horses.

THE BRANDING CASE. It is said that the man who branded the letters S. S. upon the hand of Capt. Jonathan Walker, in Florida, is a cousin of the notorious Thomas W. Dorr.—*Exchange paper.*

Like Roorback, "it is said" appears to be the father of lies. The statement of the matter as we have seen it in the papers, asserts "that the man who branded the letters S. S. upon the hand of Capt. Walker in Florida," is named Dorr, and connected to Luther Severance, whig Representative in Congress from Kennebec District, Maine.

SAD AFFAIR. We learn from a Boston paper, that on Saturday last, Samuel P. Barker left Scituate, for Cohasset, in a boat which he owned, and took with him, as a companion, one Peter Curtis. They arrived at Cohasset, and Barker sold his boat to a John Lincoln of that town, and one of Mr Lincoln's hired men, named Stoddard, took the boat, to carry Barker and Curtis home to Scituate. On the passage, the boat got aground—and while Mr. Stoddard was adjusting something connected with the anchor, Curtis, without any provocation, stabbed Stoddard, with a boat knife, seven times, before he could be secured. Two of the wounds were inflicted in the breast, one in the face, one on the head, and one in the abdomen. The last named wound is the only one which is considered dangerous. Curtis, as soon as they got ashore, was placed in custody.

FOREIGN INTELLIGENCE. The last arrival from Europe brings not much news. The death of Earl Grey is amongst the events of the day. He was the father of the Reform Act, and four years Prime Minister of England. The deceased nobleman filled a large space in the country's eye, during one of the most eventful periods of its history. He was in truth, a fine specimen of an Englishman. He was eighty-one years of age at the time of his death.

RASCALITY. The stables of Mr. Horace King, of Roxbury, proprietor of one of the line of omnibuses, were entered on Sunday night last, by some worthless scoundrels who cut to pieces and ruined several harnesses. The offenders have been arrested and committed to Dedham jail for trial.

REMOVAL. Rev. John Nichols, who formerly preached in this town, and latterly in Lynn, has taken charge of the Universalist Society in Hollis-ton, (Mass.)

ELECTION RETURNS. The Kentucky delegation in the next Congress will be politically divided in the same ratio as in the last House to judge from the returns that have received.

The result thus far ascertained in Indiana, North Carolina and Alabama shows an increase for the democratic party. It is supposed that the democrats have carried both branches of the Indiana Legislature, in which case they secure a United States Senator in place of a whig.

MEXICO.—The last intelligence leaves little doubt that Mexico will declare war against the United States. In fact, the Mexican Consuls in this country have received orders to close their respective offices. This movement wears a belligerent aspect. A large United States naval force is on the coast of Mexico; and several detachments of troops are on their way for land service.

NEW RAILROAD. The stockholders in the three railroads for which charters were obtained at the last session of the General Court, viz: Randolph and Bridgewater, Middleboro, and Fall River, have recently held a meeting at which it was agreed to unite the several routes and form one corporation. In accordance with this plan, the following gentlemen have been chosen Directors; and we further learn, that an Engineer will immediately survey the route between Braintree, to connect with the Fall River branch. By this communication a direct route to New York will be opened.

PRESIDENT.
Andrew Robeson of New Bedford.

DIRECTORS.
William R. Rodman of New Bedford,
Jefferson Boyden of Fall River,
Richard Boyden, "
Nathan Durfee, "
Micah H. Ruggles, "
P. H. Pierce of Middleboro',
Elisha Tucker, "
Dion Bryant of Bridgewater,
Edward Southworth of North Bridgewater,
C. S. Holbrook of Randolph,
Royal Turner, "
Apollos Randall of Braintree.

The Philadelphia Ledger has received a twig about two feet in length, completely covered with plums, so compact, that the point of a knife can scarcely be made to touch the wood without piercing the fruit.

It is stated in one of the Boston papers, that there are in that city more than two hundred gambling houses, and at least *one thousand 'professed gamblers*,—men having no other ostensible means of gaining a support.

To join glass together, melt a little isinglass in spirits of wine, adding thereunto about a fifth part of water, and using a gentle heat. When perfectly melted and mixed, it will form a transparent glue, which will unite glass so fast that the fracture will be hardly perceived.

As a lady at Baltimore was about to apply a bottle of aromatic salts to the nose of her husband, when an explosion took place within the bottle, knocking off the top, and driving a quantity of the salts and particles of glass into the gentleman's face and eyes, causing a great deal of suffering and some apprehension for the sight of the eye.

The Philadelphia papers say that the Post Office Department have decided to take only American coin in payment for postage, or to receive Spanish fips, levies and quarters, as equal only to half dimes, dimes and twenty-three cents.

The whigs of Maine, have nominated Freeman H. Morse of Bath, as candidate for Governor at the ensuing election. He was a member of the last Congress from Lincoln district.

Gen. Samuel Fessenden, of Portland, is the Liberty candidate for the same office, and Gov. H. J. Anderson of Belfast, is the democratic candidate for re-election.

About one thousand names have been obtained in Worcester, to the petition for the commutation of the sentence of Orin De Wolf to imprisonment for life.

A vacancy has occurred in the New Jersey delegation to Congress by the death of Samuel G. Wright, member from the second district; his disease was dropsy of the abdomen.

On one of the peaks of the Alps there is a block of granite, weighing, by estimate, 131,568 tons, so nicely balanced on its centre of gravity, that a single man may give it a rocking motion.

A musical instrument has been invented in Philadelphia, which is played upon by means of electro-magnetism.

A letter from Smyrna, in Egypt, states that a destructive fire occurred in that city, destroying five thousand houses. Loss estimated at three millions pounds sterling. The commerce does not suffer, as all goods are kept in fire proof stores. Business was suspended, and would be for some days. Vessels were also burnt in the harbor.

By a recent decision of the Court of Exchequer, England, no copyright in that country is now valid for an American work.

A Baptist missionary, states that the Chinese are supposed to spend three hundred and sixty million of dollars for incense to burn before their idols.—This is one dollar for every inhabitant of the empire, old and young; and it is only for a single item in the support of idolatry.

The Royal Printing Office of France possesses fonts of type in upwards of an hundred different languages, twenty of which are Oriental dialects. To this splendid collection it has recently added the Egyptian Hieroglyphics.

A burglar broke into an insurance office and not finding much in the way of funds, wrote a strong article against all corporations, and left it on the President's desk.

The citizens of Frankfort, (Ky.) have caused to be moved to the cemetery in that city, the remains of the famous Col. Daniel Boone, and of his wife. As they were the first settlers on the "dark and bloody ground," it is meet and proper that they should repose in honor, amid the scenes of their early trials.

From the latest authorities it appears, that the number of distilleries in the United States is ten thousand four hundred; the number of gallons of distilled liquors produced annually is forty-one million six hundred and two thousand six hundred and seven—which if sold at twenty cents per gallon, would produce $8,302,501 40.

In Pittsfield, (Mass.,) on the Fourth of July last, while some citizens were firing salutes in honor of the day, a young lady, who happened to be passing at the time, was struck dumb with the violence of the shock, and has remained so ever since.

The Grand Jury of Camden county, (N. J.) have found a true bill against the proprietors of the Camden Race Course, for sustaining a nuisance.

Every column of a newspaper contains several thousand distinct pieces of metal, the misplacing of any one of which would cause a blunder or typographical error. With this curious fact before the reader, he must wonder at the general accuracy of newspapers, and be more disposed to excuse than to magnify the errors of the press.

The Newburyport Herald says that the Essex Steam Mill, in that town, have made a dividend of forty two and a half per cent., the earnings of the past year.

The lands belonging to the estate of John Randolph of Roanoke, (Va.) are to be sold at auction in October, numbering about eight thousand two hundred acres, and very valuable.

It is estimated that upwards of ten thousand persons have visited Mount Auburn within three months—mostly strangers from abroad.

The Sarcophagus, that Gen. Jackson refused to be buried in, is stowed away in the cellar of the Patent Office, in Washington City. They say it more resembles an old Dutch hen coop, than any thing else.

The news of the decease of Gen. Jackson has made a deep impression in Europe, and the papers are filled with comments on this most extraordinary patriot and truly great man.

If you want to make a sober man a drunkard, give him a wife that will scold him every time he comes home

Frederika Bremer, the popular Sweedish novelist, is announced in the Liverpool papers as daily expected there, to take passage for the United States. She will be most cordially welcomed.

It is said that Hon. Levi Lincoln, for some time governor of Massachusetts, a member of Congress, and collector of the port of Boston, has recently received, by the will of the late Daniel Waldo, the sum of eighty thousand dollars.

The people of Cincinnati carry on a great trade in Eggs. The Gazette of that city has a statement of the shipments the last year to New Orleans, amounting 963,000 dozens, and 1,213,333 dozens the amount of city consumption, making an aggregate of 26,115,995 eggs.

The carpenters are now busily at work remodeling the seats of the Representatives' Hall, in the State House, Boston, and making other improvements. The large golden eagle, which was formerly placed over the entrance door of the rotunda, has been elevated to a perch over the speaker's chair. He is to have a scroll in his peak bearing the words—'GOD SAVE THE COMMONWEALTH OF MASSACHUSETTS.'

All newspaper history proves that the constant grumblers at any particular newspaper is the most incessant borrower of it, and may add, that he has not sense enough to be ashamed of himself.

A poor woman, a victim of intemperance, was recently found dead in an obscure street in New Orleans, with a small infant clasped in her arms, sucking at its dead mother's breast!

The farmers of Michigan are now in the midst of their wheat harvest, and it bids fair to prove the richest harvest ever gathered in that State.

Boughton, alias "Big Thunder" and Belden, alias "Little Thunder," of anti-rent notoriety in New York, have been released on bail. The former on securities for ten thousand dollars, and the latter on securities for five thousand. Walter Hutchings was also admitted to bail on securities for nine thousand dollars.

Hon. Josiah Quincy, Jr., of Boston, is to deliver the Address at the New York Agricultural Fair, at Utica, in September. A happier selection could scarcely have been made.

B. B. French, Clerk of the United States House of Representatives, estimates the post office expenses of the next session of the House, at $57,066 22.

Halves, quarters and ten cent pieces, made of pewter, are in circulation. They may be easily detected by their feeling greasy to the touch.

There about five hundred visitors at the various Sulphur Springs in Virginia—about three hundred of these at the White Sulphur. This is the fashionable place in the South.

A tremendous sensation has been created in Baltimore, by a person who walked into a tailor's shop, and paid with interest, for a suit of clothes which he bought twelve years ago.

In the cooler months of the year there is a rapid increase of mortality from Diseases of the Chest and Lungs. To assuage this evil, we must resort to that unfailing friend, the Health Restorative. If tried after every other means have been used, yet it will obtain the mastery of the disease, and subdue its violence, and finally eject it from the system. 18

DIED.

In this town, 13th inst., Louisa Jane, daughter of Mr. Noah and Mrs. Ellen N. Hersey, aged 2 years.

In Weymouth, 29th of June, suddenly, Mr. Silas Canterbury, 2d, aged 27 years.

NOTICES.

Rev. Mr. Carerher will deliver a temperance lecture in the Catholic Church in this town, (not at Willard's Sheds as was announced) next SUNDAY AFTERNOON, at half past five o'clock.

The public are invited to attend.

The Union Meeting of the two boards of Officers of the Washington and Total Abstinence Societies, will be held at the Temperance Reading Room, over Mr. Gill's Bookstore, next MONDAY EVENING, at half past seven o'clock.

A public, social Temperance Meeting will be held in the Temperance Reading Room, THIS EVENING, at half past seven o'clock.

N. B. The Room has been enlarged, and made comfortable.

T. KELLOGG, *Secretary.*

The Selectmen of Quincy, hereby give notice that they will be in session, at their room in the New Town House, the last SATURDAY in each month until further notice, from *two* to *five* o'clock in the afternoon. All persons having business with the Town are requested to present it on said days.

BRYANT B. NEWCOMB,
JOSEPH W. ROBERTSON,
LEVI G. FOLSOM.

Jayne's Life Preservative.

An Alterative and Depurative, combining all the medicinal virtues of those articles, which long experience has proved to possess the most safe and efficient alterative and duobstruent properties, for the cure of Scrofula, King's Evil, White Swellings, Ulcers, Scrofulous, Cancerous and Indolent Tumours, Rheumatism, Gout, Scurvey, Neuralgia, or Tic-Douloureux, Cancer, Goitre, or Bronchocele (swelled-neck) enlargement of the bonds, joints or ligaments or of the ovaries, liver, spleen, kidneys, &c. All the various Diseases of the Skin, such as tetter, ring-worm, biles, pimples, carbuncles, &c., dropsical swellings, constitutional disorders, and originating from a depraved or impure state of the blood or other fluids of the body.

Prepared only by Dr. D. Jayne, No. 8 South Third street, Philadelphia, and sold by CALEB GILL, Jr., Quincy.

Quincy Aug. 2. 3w

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs Asthma, and CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the case of pulmonary diseases, warrants the American agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the Lungs, Bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

DAVID F. BRADLEE, sole Agent of the United States, 119 Court-street, Boston.

AGENTS—A. E. Dubois, Randolph; R. Whiton, Hingham; D. Brewer, Dorchester; S. Langley, & Bonney, Abington; and in Quincy by

MRS. E. HAYDEN.

Quincy, March 1. 1y

Dr. D. Jayne's

CARMINATIVE BALSAM.

THIS is one of the most efficient, pleasant, and safe compositions ever offered to the public, for the cure of the various derangements of the stomach and bowels, and the *only* article worthy of the least confidence for curing Cholera Infantum, or Summer Complaint,—and in the above and following diseases, it really acts like a charm, viz:

Dysentery, Diarrhœa, or Looseness—Cholera Morbus, *Summer Complaint*, Cholic, Griping Pains, Sour Stomach, Sick and Nervous Headach, Heartburn, Waterbrash, Pain or sickness of the Stomach, Vomiting, Spitting up of food after eating, and also where it passes through the body unchanged,—want of appetite, restlessness, and inability to sleep; wind in the stomach and bowels, hysterics, cramp, nervous tremors and twitchings, sea-sickness, faintings, Melancholy, and lowness of spirits, fretting and crying of infants, and for all bowel affections and nervous diseases.

Prepared only by Dr. D. Jayne, and sold by

CALEB GILL, Jr.

Quincy, July 19. 3w

The Great Remedy

FOR

Consumption, Asthma, Dyspeptic Consumption, Spitting of Blood, Bronchitis, Difficulty of Breathing, Hoarseness, Influenza, Croup, Colds, Pain in the Breast and Side, Dyspepsia, and various affections of the Stomach and Liver.

Folger's Olosaonian, or All-Healing Balsam

IT is acknowledged that more persons die of Consumption than of any other disease. It is estimated that in the United States over THIRTY THOUSAND PERSONS annually fall victims to the dreadful scourge. The cause of the evil is generally overlooked. *A short dry Cough* is the precursor—a neglected cold. These symptoms are deemed unimportant. Pain in the Side, Hectic and night Sweats follow, and death ends the scene.

Would you find a REMEDY FOR THE EVIL. Here it is. The experience of more than twenty years has proved its efficacy, and thousands are rejoicing in its effects.

Case of INCIPIENT CONSUMPTION.—George W. Burnett, Esq. of Newark, N. J., had suffered under the effects of a severe cold for more than a year, and in the month of August, when his Cough had reduced him so much that he feared he would die, he commenced using the Olosaonian. He raised blood at this time, complained of pain in his side and chest, and was very much debilitated by *night sweats*. His appetite was gone, and altogether he appeared to be rapidly sinking. He was so much relieved by the use of this remedy that by the month of November he left for Pittsburg, Pa. with every prospect of being permanently cured.

Read the following case of CONSUMPTION.—The cure was truly a wonderful one and places the '*Olosaonian or All-Healing Balsam*,' at the head of the list of remedies for eradicating that dreadful disease:

George W. Hays, residing in this city, (New York) was seized with a severe cold in the early part of the summer. His cough became very troublesome and he began to *raise blood*. He complained of a severe pain in the chest and his breathing became so short that he could not walk any distance without stopping for breath. His night sweats reduced him very low. He was under the care of several physicians in Brooklyn, who told him they could do no good, as his disease was a settled and fixed Consumption. He removed to this city to die among his friends. He was by this time so weak that he could not walk without assistance. Although his friends had now given up all hopes of his ever being any better, he commenced using the '*Olosaonian, or All-Healing Balsam*,' and in a few weeks was so far restored as to able to resume his business.

Mr. T. Luban, residing at 52 Pine street, was severely afflicted with Asthma, in consequence of having taken a severe cold in the early part of last winter. In the early part of the night he could sleep tolerably well, but towards one o'clock in the morning his Asthma became so severe that he was obliged to get up and sit for the remainder of the night leaning forward on a chair. His cough was most distressing through the day. He had, during his sickness, tried almost every thing without relief. He never had a good night's rest in ten months, until he commenced taking the Olosaonian or All-Healing Balsam, when he found immediate relief, and before using half a bottle of it was perfectly well, and now sleeps as quietly as he ever did in his life.

Hundreds of cases could be given to prove the efficacy of the great remedy. And it possesses a property superior to all others, viz: it does not constipate the bowels. Reader, are you suffering under any of the above symptoms of disease? Try this remedy—It will allay the *Pain in your side and chest*—put to flight the COUGH which deprives you of sweet slumber and repose; if you have Asthma, be assured there is no medicine in the world that will cure you so speedily, and it will arrest all those disagreeable symptoms which strike such terror to the hand and give such dreadful forebodings of an untimely and speedy dissolution.

Sold at one dollar, per bottle, by REDDING & Co. State street, Boston; and by the following appointed agents:

Mrs. Hayden, Quincy; J. Babcock, Milton; M. D. Plumer, Milton; Eli Thayer, Weymouth; Mrs. A. Torry, do.; King & Nash, Abington; N. N. Dyer, do.; A. E. Dubois, Randolph; R. Gleason, Dorchester.

NEW VOLUME
OF THE
New England Family Magazine.
August, 1845.

WITH the August number commences a New Volume of the NEW ENGLAND FAMILY MAGAZINE. The success which the publishers have met with in this undertaking has determined them to make greater efforts to render the work still more valuable and attractive. To this end they have been to much expense in their arrangements to make the forthcoming volume one of great intrinsic merit. Woodcuts and Illustrations of interesting subjects will be frequently introduced, and the same care and discrimination that have been used in the selection of articles heretofore will be continued. The publishers are determined that this Magazine shall not be indebted for its popularity to extraneous means, but shall rest its claims for patronage on the excellence of its contents.

THE NEW ENGLAND FAMILY MAGAZINE will be printed with beautiful type, on fine paper. It will contain 48 pages monthly, making a volume of 576 pages of valuable and useful matter each year.

TERMS OF SUBSCRIPTION. *One Dollar and Fifty Cents per annum, in advance, or Two Dollars if not strictly paid within the year.*

☞One copy of the *Family Magazine* and one copy of "*Robert Merry's Museum*," (a Magazine for Youth published monthly, at one dollar per annum) one year, two dollars, if paid in advance.

☞The FAMILY MAGAZINE, will be furnished to Clubs at the following prices:

Three Copies, one year FOUR DOLLARS.
Five do. " " SIX do.
Ten do. " " TEN do.

☞Agents will be supplied with the above work at a liberal discount. All orders should be addressed

BRADBURY, SODEN & CO,
No. 12, School Street, BOSTON.

SUGAR CLICKENER'S SUGAR COATED VEGETABLE PILLS *COATED*

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skillfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill-health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 25 cents per box, with full directions, and sold by the following list of Agents.

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; E. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 28.

C. BRINCKERHOFF'S

THIS MEDICINE being productive of the most powerful and certain remedial effect in the cure of Liver Complaint, Consumption, Pain in the Chest and Side, Coughs, Colds, profuse Night Sweats, and Asthma, its importance will be admitted by all. Having for its commendation the testimony of many of our most truth-loving and respected citizens, we are bound to acknowledge that there must be some great cause for their praise, or it would not be given so freely and frankly. The Health Restorative, from its first introduction to the present day, has never been known to fail of its intended beneficial effects, and where it has not fully cured, it has been traced most conclusively to the fault of the patient in not complying with the simple directions attached to the bottle. So prolific a disease as Consumption, and so dangerous a one to afflict the human race, has induced the needy and soulless trafficker to invent and recommend his nostrums, which only slightly palliate the more aggravating symptoms, or else are entirely useless, and thus to gain money, they deceive their sick and dying fellow men, without even so much as a thought of the baseness of their trade. We leave such demons to the stings and upbraidings of their own conscience. The Proprietor having experienced the curative property of the Restorative in his own individual case, and in numberless others can recommend it to the confidence of the sick, feeling sensible that if a faithful trial is made, the most auspicious result is certain. The following certificate is from Dr. Chilton, the well known New York chemist.

"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."

The Great Remedy

FOR

Consumption, Asthma, Dyspeptic Consumption, Spitting of Blood, Bronchitis, Difficulty of Breathing, Hoarseness, Influenza, Croup, Colds, Pain in the Breast and Side, Dyspepsia, and various affections of the Stomach and Liver.

Folger's Olosaonian, or All-Healing Balsam.

IT is acknowledged that more persons die of Consumption than of any other disease. It is estimated that in the United States over THIRTY THOUSAND PERSONS annually fall victims to this dreadful scourge. The cause of the evil is generally overlooked. *A short dry Cough* is the precurser—or a neglected cold. These symptoms are deemed unimportant. Pain in the Side, Hectic and night Sweats follow, and death ends the scene.

Would you find a REMEDY FOR THE EVIL? Here it is. The experience of more than twenty years has proved its efficacy, and thousands are rejoicing in its effects.

Case of INCIPIENT CONSUMPTION—George W. Burnett, Esq. of Newark, N. J., had suffered under the effects of a severe cold for more than a year, and in the month of August, when his Cough had reduced him so much that he feared he would die, he commenced using the Olosaonian. He raised blood at this time, complained of pain in his side and chest, and was very much debilitated by *night sweats*. His appetite was gone, and altogether he appeared to be rapidly sinking. He was so much relieved by the use of this remedy that by the month of November he left for Pittsburg, Pa. with every prospect of being permanently cured.

Read the following case of CONSUMPTION.—The cure was truly a wonderful one and places the '*Olosaonian or All-Healing Balsam*,' at the head of the list of remedies for eradicating that dreadful disease:

George W. Hays, residing in this city, (New York) was seized with a severe cold in the early part of the summer. His cough became very troublesome and he began to *raise blood*. He complained of a severe pain in the chest and his breathing became so short that he could not walk any distance without stopping for breath. His night sweats reduced him very low. He was under the care of several physicians in Brooklyn, who told him they could do no good, as his disease was a settled and fixed Consumption. He removed to this city to die among his friends. He was by this time so weak that he could not walk without assistance. Although his friends had now given up all hope of his ever being any better, he commenced using the '*Olosaonian, or All-Healing Balsam*,' and in a few weeks was so far restored as to able to resume his business.

Mr. T. Luban, residing at 52 Pine street, was severely afflicted with Asthma, in consequence of having taken a severe cold in the early part of last winter. In the early part of the night he could sleep tolerably well, but towards one o'clock in the morning his Asthma became so severe that he was obliged to get up and sit for the remainder of the night leaning forward on a chair. His cough was most distressing through the day. He had, during his sickness, tried almost every thing without relief. He never had a good night's rest in ten months, until he commenced taking the Olosaonian or All-Healing Balsam, when he found immediate relief, and before using half a bottle of it was perfectly well, and now sleeps as quietly as he ever did in his life.

Hundreds of cases could be given to prove the efficacy of the great remedy. And it possesses a property superior to all others, viz: it does not constipate the bowels. Reader, are you suffering under any of the above symptoms of disease? Try this remedy—It will allay the *Pain in your side and chest*—put to flight the COUGH which deprives you of sweet slumber and repose; if you have Asthma, be assured there is no medicine in the world that will cure you so speedily, and it will arrest all those disagreeable symptoms which strike such terror to the mind and give such dreadful forebodings of an untimely and speedy dissolution.

Sold at one dollar, per bottle, by REDDING & Co. State street, Boston; and by the following appointed agents:

Mrs. Hayden, Quincy; J. Babcock, Milton; M. D. Plumer, Milton; Eli Thayer, Weymouth; Wm. A. Torry, do.; King & Nash, Abington; N. N. Dyer, do.; A. E. Dubois, Randolph; R. Gleason, Dorchester.

NEW VOLUME
OF THE
New England Family Magazine.
August, 1845.

WITH the August number commences a New Volume of the NEW ENGLAND FAMILY MAGAZINE. The success which the publishers have met with in this undertaking has determined them to make greater efforts to render the work still more valuable and attractive. To this end they have been to much expense in their arrangements to make the forthcoming volume one of great intrinsic merit. Woodcuts and Illustrations of interesting subjects will be frequently introduced, and the same care and discrimination that have been used in the selection of articles heretofore will be continued. The publishers are determined that this Magazine shall not be indebted for its popularity to extraneous means, but shall rest its claims for patronage on the excellence of its contents.

THE NEW ENGLAND FAMILY MAGAZINE will be printed with beautiful type, on fine paper. It will contain 48 pages monthly, making a volume of 576 pages of valuable and useful matter each year.

TERMS OF SUBSCRIPTION. *One Dollar and Fifty Cents per annum, in advance, or Two Dollars if not strictly paid within the year.*

☞One copy of the *Family Magazine* and one copy of "*Robert Merry's Museum*," (a Magazine for Youth published monthly, at one dollar per annum) one year, two dollars, if paid in advance.

☞The FAMILY MAGAZINE, will be furnished to Clubs at the following prices:

Three Copies, one year FOUR DOLLARS.
Five do. " " SIX do.
Ten do. " " TEN do.

☞Agents will be supplied with the above work at a liberal discount. All orders should be addressed

BRADBURY, SODEN & CO.,
No. 12, School Street, BOSTON.

Quincy, Aug. 9. 3w

SUGAR *COATED*

A MEDICINAL preparation is herein announced which has been long desired; and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skilfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 5 cents per box, with full directions, and sold by the following list of Agents.

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; R. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 28.

C. BRINCKERHOFF'S

THIS MEDICINE being productive of the most powerful and certain remedial effect in the cure of Liver Complaint, Consumption, Pain in the Chest and Side, Coughs, Colds, profuse Night Sweats, and Asthma, its importance will be admitted by all. Having for its commendation the testimony of many of our most truth-loving and respected citizens, we are bound to acknowledge that there must be some great cause for their praise, or it would not be given so freely and frankly. The Health Restorative, from its first introduction to the present day, has never been known to fail of its intended beneficial effects, and where it has not fully cured, it has been traced most conclusively to the fault of the patient in not complying with the simple directions attached to the bottle. So prolific a disease as Consumption, and so dangerous a one to afflict the human race, has induced the needy and soulless trafficker to invent and recommend his nostrums, which only slightly palliate the more aggravating symptoms, or else are entirely useless, and thus to gain money, they deceive their sick and dying fellow men, without even so much as a thought of the baseness of their trade. We leave such demons to the stings and upbraidings of their own conscience. The Proprietor having experienced the curative property of the Restorative in his own individual case, and in numberless others can recommend it to the confidence of the sick, feeling sensible that if a faithful trial is made, the most auspicious result is certain. The following certificate is from Dr. Chilton, the well known New York chemist.

"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."

POETRY.

NATURE'S NOBLEMEN.

Away with false fashion so calm and so chill,
Where pleasure itself cannot please;
Away with cold breeding, that faithlessly still
Affects to be quite at its ease;
For the deepest in feeling is highest in rank,
The freest is first in the band,
And nature's own nobleman, friendly and frank,
Is a man with his heart in his hand.

Fearless in honesty, gentle, yet just,
He warmly can love and can hate,
Nor will he bow down with his face in the dust
To fashion's intolerant state;
For best in good breeding, and highest in rank
Though lowly or poor in the land,
Is nature's own nobleman, friendly and frank,
The man with his heart in his hand.

His fashion is passion, sincere and intense,
His impulses, simple and true,
Yet tempered by judgment, and taught by good sense,
And cordial with me, and with you;
For the finest in manners, as highest in rank,
It it *you*, man! or *you*, man! who stand
Nature's own nobleman, friendly and frank,
A man with his heart in his hand!

LIFE AND DEATH.

O fear not thou to die!
Far rather fear to live, for Life
Has thousand snares thy feet to try
By peril, pain, and strife,
Brief is the work of death;
But life! the spirit shrinks to see
How full ere Heaven recalls the breath,
The cup of woe may be.

O fear not thou to die!
No more to suffer or to sin;
No snares without thy faith to try,
No traitor heart within:
But fear, oh! rather fear
The gay, the light, the changeful scene,
The fluttering smiles that greet thee here,
From Heaven thy heart that wean.

Fear lest in evil hour,
Thy pure and holy hope, o'ercome
By clouds that in the horizon lower,
Thy spirit feel that gloom
Which over earth and heaven
The covering throws of fell despair;
And deems itself the unforgiven
Predestined child of care.

O fear not thou to die!
To die, and be that blessed one,
Who, in the bright and beauteous sky,
May feel his conflict done—
Who feels that never more
The tear of grief or shame shall come
For thousand wanderings from the Power
Who loved, and call'd him home!

BLESSED BE THY NAME.

Blessed be thy name forever,
Thou of life the guard and giver;
Thou canst guard the creatures sleeping,
Heal the heart long broke with weeping.
God of stillness and of motion,
Of the desert and the ocean,
Of the mountain, rock, and river—
Blessed be thy name for ever.

Thou who slumberest not, nor sleepest,
Blest are they thou kindly keepest;
God of evening's parting ray,
Of midnight gloom, and dawning day,
That rises from the azure sea,
Like breathings of eternity;
God of life! that fade shall never—
Blessed be thy name for ever!

ANECDOTES.

'Who is that gintleman in black, who looks so benevolent that I am certain he'd think it no sin to *borrow* the keys of heaven from St. Peter, and let in all that would ask him?' This was asked by an Irish peasant of a citizen of "beautiful Cork," on the occasion of a great temperance procession.

'That's father Mathew, the Father of Temperance,' was the reply.

'And those marching afther him—who are they?'

'They are the 'Sons of Temperance.''

'Be my word, then,' said the peasant, 'the father of timperance has an extinsive family of his own, considerin' that he has taken the vows of celibacy.'

'Recollect, sir,' said a tavern-keeper to a gentleman who was about leaving his house without paying the reckoning, 'recollect, sir, if you lose your purse, you did'nt pull it out here.'

Let our rich men remember that their own offspring may sometime be poor. History tells of an ancient conquerer, who having harnessed several kings to his triumphant chariot, noticed one of them frequently looking back and narrowly watching the wheel. The conquerer asked him why he did so.

'I was thinking,' said he, 'how quick the top of that wheel would come down into the dust and the part now down would be on top.'

The conquerer unharnessed him. Rich men remember the wheel.

A young married couple riding home from church, out west, on a rainy day, the husband looking up and perceiving the clouds breaking away, said, "I hope we shall have a little sun." "Oh, la! my dear," simpered the innocent wife, "I would prefer a *little daughter*."

'What are you doing there, Jane?' 'Why, pa, I'm going to dye my doll's pinafore *red*.' 'But what have you got to dye it?' 'Beer, pa.' '*Beer!* who on earth told you that beer would dye *red*?' 'Why, ma said that it was beer that made your nose so red, and I thought ——' 'Here, Susan, take this child.'

'What is the price of this plug of tobacco?' said a rosin head to a merchant.

"One dollar,' was the reply.

'What is the price if I cut it in two?'

'Fifty cents of course,' said the merchant.

'Then I'll cut it in two.'

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skelcton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Handcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Krauth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea-sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York.

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; E. Gleason, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

June 28. tf

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, 'if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educaced and experienced Physician, rather than the precarious and dangerous doings of Quacks and inexperiented Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10; sent to all parts of the Union. Office and consultation rooms,

4 1-2 SUDBURY STREET,
(Opposite Alden Lane.)

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*
JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine:

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health, and have not raised any blood since the use of the first bottle of this excellent preparation.

WYMAN ABERCROMBIE.

Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark:

DEAR SIR—I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. Yours, truly,

IBRAHIM BARTLETT.

Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.

THE BARGAIN.

'May I trouble you to show me that cap with blue trimmings in the window?' a lady-like person, as she entered a fashionable lace shop. The proprietor with a bow, handed the lady a chair, and produced the cap alluded to, recommending it with the usual set phrases.

'Pray, what is the price?' inquired Mowbray, with a dissatisfied air, after viewing it in every imaginable position, and scrutinizing its materials and workmanship with the most patient minuteness.

'The price is seven shillings, madam,' answered the shop keeper, rubbing his hands.

'Seven shillings!' exclaimed Mrs. Mowbray; 'why, I have seen them marked up by the score of places for six, and at the bazaars they are cheaper still.'

'Excuse me, madam,' replied the shop-keeper, 'not such a cap as that, I think. Observe the fine quality of the materials and the fineness of the workmanship. It is a first-rate article.'

'Oh, yes, I see,' rejoined Mrs. Mowbray, 'the caps to which I allude are quite equal to it in every respect. The fact is, I do not particularly want it; but if six shillings will do, I will take it.'

The shopkeeper hesitated. 'I suppose you must have it, madam,' said he with a saddened countenance, 'but really, I get no profit by it at that price.'

'Oh,' said Mrs. Mowbray, with a bantering air, 'you shopkeepers never get any profit, we are to believe you. You mean to say you do not pocket quite fifty per cent by it.'

The shopkeeper, with a faint effort to smile, shook his head as he neatly folded and wrapped up the delicate article, and Mrs. Mowbray having counted out the six shillings, he politely thanked her, opened the shop door, and bowed her good day.

'There Jane,' said Mrs. Mowbray as she entered the parlor on her arrival home, 'what do you think of my new purchase?' holding up her new acquisition. 'Is it not a love of a cap? Guess what I gave for it.'

Jane examined it minutely, and guessed the price to be seven or eight shillings, the materials and work being, as she remarked, so good.

'Only six shillings!' said Mrs. Mowbray triumphantly, for the shopkeeper asked seven, but I succeeded in getting it for six; and (putting it on and walking up to the looking-glass) assure you I am not a little pleased with the bargain.'

'Well, said Jane, it is a wonder how they can afford to sell such a cap for the money, and the materials alone, I should think, would cost as much as that.'

'It is a wonder,' replied Mrs. Mowbray differently, as she turned herself round before the looking-glass, and inquired of her how it suited her face, and whether the color of the ribbon was adapted to her complexion.

A loud double knock was heard at the moment, and Mrs. Mowbray, taking off the cap with the greatest trepidation, remarked that she would not for the world that her husband should know of her purchase, as her month's millinery bill had been very high and Edward would be much displeased at what he would term extravagance.

The cap was hastily deposited before Howard had entered the room; who threw himself on the sofa, declared he was fatigued and should be glad of a cup of tea.

'You are late, my dear, this evening, are you not?' inquired Mrs. Mowbray.

'I am later than usual,' answered Mr. Mowbray, 'I have been attending a committee meeting of our benevolent society, which detained me some time.'

'Your benevolent society is always de

THE BARGAIN.

'May I trouble you to show me that dress cap with blue trimmings in the window?' said a lady-like person, as she entered a fashionable lace shop. The proprietor with a polite bow, handed the lady a chair, and produced the cap alluded to, recommending it with the usual set phrases.

'Pray, what is the price?' inquired Mrs. Mowbray, with a dissatisfied air, after viewing it in every imaginable position, and scrutinizing its materials and workmanship with the most patient minuteness.

'The price is seven shillings, madam, answered the shop keeper, rubbing his hand.

'Seven shillings!' exclaimed Mrs. Mowbray; 'why, I have seen them marked up at a score of places for six, and at the bazaars they are cheaper still.'

'Excuse me, madam,' replied the shop-keeper, 'not such a cap as that, I think. Observe the fine quality of the materials and the neatness of the workmanship. It is a first-rate article.'

'Oh, yes, I see,' rejoined Mrs. Mowbray; but the caps to which I allude are quite equal to it in every respect. The fact is, I do not particularly want it; but if six shillings will do, I will take it.'

The shopkeeper hesitated. 'I suppose then, you must have it, madam,' said he with a saddened countenance, 'but really, I get no profit by it at that price.'

'Oh,' said Mrs. Mowbray, with a bantering air, 'you shopkeepers never get any profit, if we are to believe you. You mean to say you do not pocket quite fifty per cent by it.'

The shopkeeper, with a faint effort to smile, shook his head as he neatly folded and wrapped up the delicate article, and Mrs. Mowbray having counted out the six shillings, he politely thanked her, opened the shop door, and bade her good day.

'There Jane,' said Mrs. Mowbray as she entered the parlor on her arrival home, 'what do you think of my new purchase?' holding up her new acquisition. 'Is it not a love of a cap? Guess what I gave for it.'

Jane examined it minutely, and guessed the price to be seven or eight shillings, the materials and work being, as she remarked, so very good.

'Only six shillings!' said Mrs. Mowbray triumphantly, 'the shopkeeper asked seven, but I succeeded in getting it for six; and (putting it on and walking up to the looking-glass) I assure you I am not a little pleased with my bargain.'

'Well, said Jane, it is a wonder how they can afford to sell such a cap for the money; and the materials alone, I should think, would cost as much as that.'

'It is a wonder,' replied Mrs. Mowbray, indifferently, as she turned herself round before the looking-glass, and inquired of her sister how it suited her face, and whether the color of the ribbon was adapted to her complexion.

A loud double knock was heard at this moment, and Mrs. Mowbray, taking off the cap with the greatest trepidation, remarked that she would not for the world that her husband should know of her purchase, as her last month's millinery bill had been very heavy, and Edward would be much displeased at what he would term extravagance.

The cap was hastily deposited before Edward had entered the room; who throwing himself on the sofa, declared he was fatigued and should be glad of a cup of tea.

'You are late, my dear, this evening, are you not?' inquired Mrs. Mowbray.

'I am later than usual,' answered Mr. Mowbray, 'I have been attending a committee meeting of our benevolent society, which detained me some time.'

'Your benevolent society is always detaining you, I think,' said Mrs. Mowbray, somewhat reproachfully; 'benevolent societies are very good things, no doubt, but I think you have quite sufficient to do, both with your time and money, without attending to such things. What can we do for the poor. It is very well for those who have nothing to do, and plenty of money to spare; but I cannot see how other persons have any business with benevolent societies.'

'Well, my dear, replied Edward, 'I have thought on the subject sufficiently to entitle me to a decided opinion; and I am sure if you had been with us to day, and had heard of the instances of good we have already effected, you would not hold so lightly the exertions of even such humble individuals as we. I hope I am neither neglecting my business or my home in these efforts, and I am confident you will rejoice with me when I tell you that we have good reasons to hope that we are making some impression, however little, upon the vice and ignorance which have so long made those lanes and allies at the back of our house a nuisance to the neighborhood.'

'Of course, my dear,' said Mrs. Mowbray, 'I wish always to sympathise with you in any of your efforts to do good.'

'We have some funds in hand,' remarked Mr. Mowbray, 'and I have promised our committee to visit the poor families myself, to-morrow, to ascertain their individual circumstances and the best means of serving them. Let me add, my dear,' said he, coaxingly, 'that I hope you will accompany me and share with me the pleasure of inquiring into their necessities, and endeavoring to alleviate their distress.'

Mrs. Mowbray would willingly have conceded to her husband the monopoly of this pleasure; but after making a host of objections and excuses, which were successfully combated by him, was at last brought to acquiesce in the wish, and promised to be in readiness the following afternoon to accompany him on what she nevertheless deemed a Quixotic expedition.

The next day Mrs. Mowbray was reluctantly ready on her husband's return from business, and, roughly attired for the occasion, they started on their exploratory tour.

Leaving the main thoroughfare, with its genteel houses and glittering shops, they turned down a little by-street, at the end of which they found themselves in the midst of a huge nest, as it were, of courts and alleys, which presented a striking contrast with the gaudy street they had just left. Mr. Mowbray was so shocked at the sight of such wretchedness, that she hesitated to proceed till reassured by her husband, who knew well the locality, and had often visited the poor families there before.

The appearance of the spot was indeed deplorable, and not a little startling to any whose walks had been confined to the public thoroughfares. It was a lovely afternoon, yet even the sun's piercing beams scarcely penetrated some of these cheerless gloomy nooks. Here were clusters of pestiferous hovels, some without doors, crowded with human beings, though unfit for the habitation of the most valueless animal. In many the old window panes were almost all broken, while in others they were so dirty, and patched with paper or stuffed with rags, that they but very partially admitted the light of day. Ragged and vicious boys were gambling in groups, and barefooted children were playing about the slimy mud, some squalid and puny in consequence of bad air and insufficient food, and others whose chubby features displayed, in spite of dirt and privation, a robustness of health that would have done credit to the nursery of a nobleman. Here were gaunt men, with dull meaningless countenances, sitting on their comfortless threshholds, and bony, haggard women screeching for their strayed children, while the scarcely concealed forms of some of the younger females might have served as models for the painter or sculptor. Yet even here were traces of human sympathies of the purest kind. Girls were nursing their baby sisters with the most patient devotedness. The playful innocent-faced kitten, a universal favorite, frolicked about in the dirty window-sill; the social dog seemed quite at home with the children, as they shared with them their pittance of bread; and from many superannuated saucepan and spoutless tea-pot, at the upper windows, grew the fragrant bergamot and the blushing geranium with strange luxuriance.

The appearance of such a neighborhood of two well dressed persons soon caused an unusual excitement, especially as Mr. Mowbray was known among the inhabitants; and wherever he appeared there it might be safely calculated there was something to be given away. Children after a hasty glance at the intruders, left their playfellows and ran to their homes; heads were thrust out of the windows, some shuffled to their own rooms, that they might be ready if called on; others obtruded themselves in the way with an obsequious courtesy; some came to the door with their little ones peeping from behind their aprons; and all around were on the tiptoe of expectation.

As they climbed the creaking stairs, and explored the naked garrets on the various houses, it was singular to mark the dissimilarity in character and circumstance of the various inmates—alike only in their poverty. Even in form and feature their contrast was striking.

In the countenance of some might be unmistakeably read the sensual and the brutish; while in the lineaments of others might be traced, notwithstanding dirt and rags, the predominance of the genteel and even the refined. Here was the round checked boor, who fattened amid the filth that seemed natural to him; and here the angular featured man of thought and of observation whom more favorable circumstances might have placed in a different sphere. The student of human character could not have desired a finer field for the prosecution of his studies than such a one as this; and the more so, as character was here so forcibly developed for good or evil, unweakened by any of the influences which affect civilized life. Mrs. Mowbray, as she joined her husband in kind conversation with the various families they visited, soon began to feel a deep interest in them, soothingly advised with them, and relieved some of their most pressing wants.

They had completed their intended round of visits, and were just leaving the court to return homeward, when a young woman carrying in her hand a milliner's basket, crossed before them. She was very meanly clad, and her appearance bespoke deep poverty, yet there was an air of respectability about her that could not be mistaken. She evidently shrunk from observation; but as she looked up with a surprised air at the unusual sight of two respectable dressed persons in such a place, her sad countenance, beaming with intelligence, so forcibly impressed Mr. Mowbray, that he stopped her, and asked her where she lived, expressing a wish to pay her a visit.

The young woman curtseyed, and led the way to a house superior to most of those they had just left, but scarcely less wretched and ruinous. It was a large building, and had perhaps once been tenanted by the wealthy; but it had long since fallen into decay, and its lofty capacious rooms had been divided into a number of smaller ones, each of which now contained a family, large or small as the case might be. Mr. and Mrs. Mowbray followed the young woman up the wide staircase to the top of the house, and then turning into a long gallery, their guide stopped at length at a door, and, lifting the latch, with a courtesy and an apology for the untidiness of the room, ushered them into her apartment, and dusting the chair, (there was but one) inviting Mrs. Mowbray to take a seat.

The room was spacious, and appeared the larger in consequence of being so scantily furnished. Some half dozen old books lay on the window, a few articles of crockery were arranged on a box in the corner of the room, and these, with a little table, a chair and a box which seemed to serve occasionally as a seat comprised nearly all the articles visible in the room. Every thing, however, was clean and tidy, and there was an air of decency and respectability about the room which pleasingly contrasted with those they had just left.

'Do you live here alone pray?' asked Mrs. Mowbray.

'No, sir,' replied the young woman feebly, 'my aged mother lives with me, (pointing to a bed at the further end of the room, and which the gathering shadows of evening had prevented them before observing;) 'she is ill, and has been confined to her bed for the last month.'

'Have you no father?' inquired Mr. Mowbray.

The young woman was silent for a moment as her tongue struggled to articulate an answer, while a tear trickled down her cheek.

'My father is dead, sir,' she replied; 'he died about six months ago after a short illness, and we were in consequence compelled to leave our former nice little home and take this room.'

'And pray, do you support yourself and your mother?' asked Mr. Mowbray, glancing at the table, which was strewed with lace, ribbon, &c.

'I make caps and collars,' said the young female, 'when I can get work to do; but it is very precarious, and so badly paid for that I have been obliged to pawn nearly all our furniture to keep out of debt. I am unwilling that my poor mother should be chargeable to the parish; but my hardest exertions are insufficient to supply us even with bread.

'Pray, whom do you work for?' inquired Mrs. Mowbray, looking curiously at an unfinished cap which lay on the table.

'I work principally, madam,' replied the young woman, 'for the large lace shop in the street close by. The cap, madam, will only bring me five shillings, when it is finished, and I have already spent all day in making it, and the materials cost me four shillings and six pence. Even this poor profit is to be reduced, for my poor employer told me last night he could not afford to give me so much for them, as ladies refused to give him his price.'

'*Ladies*, indeed!' exclaimed Mr. Mowbray indignantly. 'They little think when they are so mercilessly hunting for bargains, how sadly they are diminishing the wages of the poor.'

Mrs. Mowbray turned her head aside and blushed deeply, for she recognised in the cap before her the counterpart of the one she had bought the preceding day, and in the employer of this poor young woman the laceman of whom she had bought it.

Mr. Mowbray made some further inquires, and leaving the poor cap maker a trifle, promised to send a doctor to visit her mother; and to call on her again; and Mrs. Mowbray, before leaving gave her an order, with an assurance that she would endeavor to interest her friends in her behalf.

Mrs. Mowbray, though ashamed and self convicted, returned home pleased with her novel tour, and henceforward was the frequent companion of her husband on such occasions.—Bargain hunting had been in her case the result rather of thoughtlessness than of an unfeeling disposition; and from this time she was more liberal in her purchases, and never felt disposed to depreciate the value of an article without thinking of the poor cap-maker. She came to the wise conclusion, that an unnecessary or bad article can never be cheap, and that a good article is always worth a fair price. A bargain was ever afterwards associated in her mind with depreciated wages and the misery of the poor; and the charm which it had once possessed in her eyes was entirely dispelled by the recollection of the sorrow and oppression which were so often involved in its production.

A THEATRICAL AUCTIONEER.

A young wag who had made "going, going, going," his profession—a great favorite among knights of the buskin, being chosen a favorite among the ladies, was once mounted, hammer, in hand, selling a piece of furniture. He was well conversant with all the best dramatic productions of the day, and among the rest of the Hunchback, then the rage in Boston, where the joke occurred. Fanny Kemble was at the time delighting the town with her "*Julia*," and every body was well acquainted with the celebrated lines—

Clifford, why don't you speak to me?"
"O, Clifford, is it you?" &c.

"Going, going—last call—fifty-two — any more? fifty-three—thank you, sir—fifty-three dollars—any more? fifty-three—go on, gentlemen—than you, sir—fifty-three dollars! last call—once, twice—any more? gone! Who is it?" There was a pause and nobody answered. "Who is it? who bid fifty-three?" "Fifty-two was my bid," said some one. "Who bid fifty-three? some one said fifty-three, who bid fifty-three?"

"Clifford," said a voice near the door. *O, Clifford, is it you?*" exclaimed the auctioner dropping his hands *a la Fanny Kemble.* The joke was irresistible—every body recognized it, and catching the spirit of the thing, the audience followed up an ecstacy of laughter with three rounds of applause, while the auctioneer deliberately drew out his handkerchief and wiped his nose in burlesque imitation of Miss Fanny. "Clifford, did you say, sir? Clifford?" said the auctioneer, when the merriment had a little subsided. "Is it cash, sir?" Clifford the purchaser, it seems, was a bashful person, unacquainted with theatrical things, and had become somewhat alarmed at the unaccountable good humor of the crowd, so that he was afraid to open his lips again, lest he should excite another burst of fun. "Is it cash sir?" again inquired the auctioneer.

All eyes were turned upon Clifford, who looked very much as if he felt that his mother wanted him, but still he made no answer. The merry autioneer would rather lose his customer than his joke, and he suddenly exclaimed, still imitating the fiery eyed Fanny.

"Clifford: Why don't you speak to me?"

The assembly now fairly screamed with laughter, and amid an uproarious burst of applause, Clifford made a bolt for the door, and escaped.

GOOD LOGIC.

"I am going to stop my paper," said a miserly subscriber to one of his neighbors; "I cannot afford to take it."

"What is the price of it per year?" said the other.

"Two dollars," was the reply.

"And can't you afford two dollars a year? Think of it, only two dollars a year! A year is a long time. Perhaps you have only a very few more to spend on earth. A year! a whole year! and only two dollars! And what do you get for your money? A closely printed, useful sheet; giving you the news of the week, and a large amount of miscellaneous reading—philosophical and grave, light and humorous. And yet you can't afford two dollars for such a sheet for a whole year."

"Well, I declare, neighbor, you talk like an experienced man. I never thought of it just in that light before. It is only two dollars for a year. And yet the paper comes to me every week. And I love to read it. I always find something in it that interests me. And moreover on a second thought, I perceive that, after all, a good newspaper is about the cheapest thing a man can have. He gets more reading for his money than he can in any other way."

"True, neighbor, and this shows that what I have always said is true: Newspapers seem to have been designated almost for the peculiar benefit of the poor. No man is too poor to take a newspaper, because it is the cheapest thing he can have."

Here both the speakers joined and said:—"Blessed are the editors, for they feed the poor with knowledge;" and then they separated with looks of high satisfaction.

For the Quincy Patriot.

FACTS FOR FORTY MILLIONS.

MR. EDITOR: Can you make room, in some corner of your paper, for a few facts which I have collected with some labor, and which I think, seriously concern the working people of the Anglo-Saxon race?

The national debts of sixteen of the European Governments, at the closest estimate that can be made, amount, in our currency, to $10,305,000,000; all incurred for the expenses of war. This sum embraces merely the *arrearage*, not what has been *paid*, for carrying on war. The average of this amount is sixty-three dollars and twenty-five cents a head to the whole population of those sixteen nations.—The interest of this vast sum nearly equals a tax of *one dollar* on every inhabitant of the globe.

Since the Reformation (!!) Great Britain has been engaged sixty-five years, in the prosecution of seven wars; for which she expended, in our currency, $8,982,120,000. It has been estimated by our Missionaries that a school of fifty heathen children, on the continent of India, would only cost one hundred and fifty dollars per annum. Then this sum expended by a Christian nation in sixty-five nations in carrying on the war with other Christians, if applied to the education of the heathen, would have schooled 46,062,154 children per annum for sixty-five years! Allowing five years to each scholar, then 598,808,000 children might have been educated for the money that Great Britain drained from the sources and channels of her wealth and industry, to waste in wars, every one of which degraded her people in every quality of their condition.

From 1793, to 1815,—a period of twenty-two years—Great Britain, France and Austria expended $7,330,000,000 in war. The *interest* of this sum at six per cent., would have supported thirty thousand missionaries among the heathen during the whole period of twenty-two years, in which these christian nations were engaged in doing the devil's work on each other. The aggregate amount would have given five years schooling to 488,666,666 pagan children, on the Lancasterian plan. The interest *one month*, at the above rate, would build fourteen hundred and sixty-six miles of railroad at twenty-five thousand dollars per mile.

Consulting the best authorities I can command, I find that the aggregate amount of the expenditures of our own Government, from 1789 to March 4th, 1843, is $1,111,375,734.

Now—patriotic Americans! will you not read this reflectingly?—of this vast sum there have been expended only $148,620,055 for *civil* purposes, embracing the Civil List, Foreign Intercourse, and the Miscellaneous expenses. Then it follows that $962,755,680 have been lavished upon preparations for war in time of peace, within a little more than half a century, by this model Republic!!! Another fact:—From Jan. 1st, 1836, to March 3d, 1843, the war expenses of this Government were $153,964,881!!—*five millions more than all the civil expenses of the Government from* 1789 *to* 1843! Another fact: From 1816 to 1834, eighteen years, our national expenses amounted to $463,915,756; and of this sum, nearly $400,000,000 went in one way and another for war, and only $64,000,000 for all other objects! being twenty two millions a year for war, and about three millions and a half—less than one-sixth of the whole—for the peaceful operations of a government that plumes itself on its pacific policy! If we take into the account all the expenses and all the losses of war to this country, it will be found to have wasted for us, some *two or three thousand millions of dollars.* E. B.

For the Quincy Patriot.

QUINCY HIGH SCHOOL.

On the twenty-fifth day of July, 1822, the venerable ex-President John Adams, conveyed by deed to the town of Quincy, six acres of cedar swamp, in the town of Braintree—a pasture situated partly in Quincy and partly in Braintree, of seventeen and half acres—two pieces of cedar swamp, also in Braintree—the Babel pasture, so called, situated on Adams street, containing fifty-one acres, more or less. Also, eight acres of land, well known as the Hancock lot, now very valuable, "including Mr. Hancock's ancient cellar and well."

"The rent and herbage of these pastures, together with the profits arising from the sale of wood, fuel of any kind, timber and stone, to be placed at interest in some solid public fund, either of the Commonwealth or United States, and the interest again placed at interest as it arises, with what the town may grant or individuals subscribe," to build a stone School House, over the old cellar, on the Hancock lot, in which are to be taught the Greek and Roman languages, &c., or a proparatory course for entering a university and college, to be a *free town school*, accessible to all ranks and conditions of life, in the town of Quincy.

In a former deed dated June 25th, 1822, which I ought first to have alluded to, the venerable ex-President, gives to the town of Quincy, the Centre Rock pasture so called, about twenty-five acres, situated opposite the house formerly of Deacon Elijah Veazie, (on Granite street,) also the Mount Ararat pasture, near the seat of Hon. Thomas Greenleaf, about fifty-four acres. The rents, &c. to be applied as above stated, to build a stone Temple or Meeting House, for the use of Congregational Society in this town, and if wanted an Episcopal church, "next after the completion of said Temple, &c., that *all* the future rents, profits and emoluments arising from said land be applied to the support of a school, for the teaching of the Greek and Latin languages, and any other languages, arts and sciences, which a majority of the ministers, magistrates, lawyers and physicians, inhabiting in the said town may advise." The management of this property is under five trustees, with power forever to fill any vacancy that may occur in their number, whose duty it is to give their advice to the Selectmen for the time being, concerning the best mode of manageing the said estate for the best interest of the town.

I would respectfully inquire of the managers of this liberal bequest to the town, what is the

state of the funds, towards building an academy? Is it not time that an estimate should be made of the cost of erecting the stone Academy, and the probable annual expense of supporting the institution? Would it not be proper that the supervisors of this fund should make a report at each annual meeting of the town, of the state of their finances? Let us know what sum is wanting to erect the Academy, and if the sum is not too large, I have no doubt it could be immediately raised by subscription. The citizens are anxious to be enlightened on these matters, fully.

A PARENT.

For the Quincy Patriot.

SUMMER RAMBLES, NO. 2.

NEW YORK, AUG. 14, 1845.

FRIEND GREEN—In my last, I gave some account of the general appearances presented to a stranger on visiting this city. I will now descend in some measure to detail, commencing with competition that here meets the eye in various forms, not unfrequently calling forth displays of the want of moral honesty, for which humanity should throb and society tremble. One specimen that fell under my own observation, I will relate, to give an idea of the arts played off at times on passing travellers.

On Friday, Aug. 8th, just before the steamer Cleopatra left the dock, a poor countryman applied at the Captain's Office for a deck passage. He was charged and paid two dollars, although bills could be found posted up on every available sight, advertising to carry for two dollars cabin, one dollar sixty-two and a half cents deck passage. The Neptune had left a few minutes previous with a full freight, which may perhaps in some measure account for this inconsistency.

With the Long Island Rail Road, there appears to exist some arrangements that will not meet the views of justice entertained by most people. Fare from Brooklyn, (N. Y.) to Boston, (Mass.) is two dollars, while those passengers stopping at Worcester, forty four miles from Boston, are charged the same. Suppose a case; an individual at New York wishes to visit Boston *via* Worcester. He goes on board the cars at Brooklyn having previously procured tickets for Boston. At Worcester he stops until the next day, then goes on board the same line, carrying with him his check (good for Boston) received from the Conductor the day before, and in addition to the whole fare that he has already paid, is charged one dollar twenty-five cents for his passage from Worcester to Boston.

These facts are thrown out, not from any inconvenience received by your correspondent personally, but that a generous public may not be humbuged.

Friday evening, we visited the American Museum, corner of Broadway and Ann Street. This is a splendid affair of the kind, containing many of the rarest productions of nature and art. Here may be seen the New York giant, a lad aged seventeen years, and standing seven feet three inches in height—rattlesnakes, coiled and ready for a spring—a living Anaconda, inferior in size to the sea-serpent of Nahant only, with a fine collection of wax figures containing statues of the most distinguished characters in Europe now living; also, of our late lamented Jackson, receiving on his brow a wreath of victory from the hands of the beauty of New Orleans, while the fire of genius and patriotism that lighted up his countenance, though now slumbering in the tomb, seems again to burst forth under the hand of the artist, and imagination can picture that sword which mercy unsheathed and "necessity stained," ready to leap forth at the call of freedom and guide the stripes and stars again to victory. In the saloon attractions of various kinds are presented; music by Signor Bini, wit in abundance, and dancing to perfection by La Petite Caroline, with a splendid exhibition of dissolving views, that goes to excite the spirits, and kill the dull monotony of old time with laughing pleasure. C.

For the Quincy Patriot.

LETTER FROM BOSTON.

BOSTON, Aug. 21, 1845.

War with Mexico—Boston Harbor—Insurance Companies—Temperance in State Prison—Hon. S. F. Carey—The Hutchinson Family—Decline of Millerism—Politics once more—Anticipated visit to Quincy by Railroad velocity.

Recent advices justify the belief, that on the part of Mexico, a declaration of war or non-intercourse with the United States is now regarded next to certain. The Mexican government are doubtless waiting for intelligence from the Texian Convention, and when they find the annexation project ratified, a declaration of war will follow. In the mean time vigorous preparations for war are making on the part of the United States,—ships fitting out and our forts covered with ordnance. Troops it is said will soon be ordered to Fort Independence in Boston harbor, and that Island mounted with fifty-guns.

The Marine Insurance companies of Boston, now insist upon inserting the war-clause in all policies which are hereafter to be made out. As it is well settled, that no European power will unite with Mexico in hostilities towards our nation, fatal indeed must a war be to the near-sighted Mexicans. Ere long the Halls of the Montezumas will be adorned with the American insign. California and Mexico will soon be added to the United States.—But let me turn to certain home matters.

The Hon. S. F. Carey of Ohio, visited the State Prison at Charlestown on Sunday last, and addressed the convicts on the subject of Temperance, with wonderful effect. The spirit of philanthropy hovered over this scene of deep solemnity, and many of the poor convicts wept. The whole number there is two hundred and ninety-two, and when it was suggested for *all* to rise who had been drunkards, and who wished now to reform, a large majority arose, showing the connection of crime with strong drink. Mr. Carey is a talented and eloquent speaker on this great and good cause.—He has well spoken at the Odeon. Let him be heard elsewhere.

The Hutchinson family of celebrated singers sailed in the Cambria for England on Saturday last. They have had a great run in their native country, although strong anti-slavery in their notions. I believe they originated in New Hampshire. Their anti-slavery songs will be better received in England, than here.

Elder Himes, the great Millerite preacher here, delivered his farewell sermon in the Miller Tabernacle, Howard street, on Sunday last. At the close of his discourse, he gave notice with tears in his eyes, that the Temple would for the future, be appropriated to other uses than public worship.—The building is to be metamorphosed into an Opera or Concert room, for theatrical purposes, *sic gloria mundi*, I mean Mr. Miller's world.

Hon. Henry Shaw of Lanesborough, has accepted the nomination for Governor, by the Native American party of Massachusetts—there will be no choice of Governor by the popular vote, and it is *extremely uncertain* who will be Governor another year. The question will go to the legislature, and there be settled perhaps by *nice* calculation. The Democratic State Convention assemble at Springfield, the 10th of September next—a judicious nomination will insure success. Col. Davis of Worcester, Hon. G. P. Osgood of Andover, Judge Pliny Myrrick and Col. C. G. Greene of Boston, are named as candidates for Governor of the Old Bay State.

If all accounts are true, we expect to visit you at Quincy, by the cars of the Old Colony Railroad in about a month—as the locomotive now runs from Neponset village to the lower part of Dorchestar.

Yours, ZENO.

QUINCY PATRIOT.

SATURDAY, AUG. 23, 1845.

John A. Green, Editor.

THE OLD COLONY RAILROAD is progressing rapidly, and from present appearances, it seems that it will be soon finished. A steam engine has been put upon the track, for the purpose of drawing the dirt cars to South Boston, and is now actually employed on the road. The engineer, Mr. John S. Pickering, is an able and efficient officer and understands his business well, and we are happy that he has been appointed to that situation. It is supposed that in the month of October, the cars for the conveyance of passengers will run over part of the road.

DAMAGE BY LIGHTNING. During a recent thunder storm, a house in Duxbury, (Mass.) was struck by lightning, and injured considerably. The lightning entered the chimney, which was shattered to pieces, and came out into a chamber where two persons were asleep; forcing the top of a stove through an opposite window. The windows were broken to pieces, and a part of the breastwork of the chimney was thrown upon the bed. From thence it proceeded to the lower rooms, breaking out the windows and doing other injury. Under one of the beds a hole was made of a sufficient size for a man to go through, and on one of the pillows, where lay an infant, coals of fire found which were thrown from the chimney. Ten persons were lying abed in the house at the time, not one of whom were injured in the least.

BE ON YOUR GUARD. The Boston papers state that a gang of reckless fellows have lately arrived in that city from Canada, well supplied with counterfeit and altered bills of several denominations. The notes purport to be the issues of the Connecticut bank, Bridgeport, tens—Dover, twos—Northampton, ones and twos—Wrentham, twos—Fall River Union, twos—Manufacturers' Bowley, ones and twos, &c. Look out sharp, or you'll get shaved.

RESIGNATIONS AND APPOINTMENTS. Francis Bassett, Esq., who has held the joint offices of Clerk of the Circuit and District Courts, in Boston, for a period of over eleven years, has resigned.

John A. Robb, Esq., has been appointed Clerk of the District Court by Justice Story, who intimated that his own connection with that tribunal would not probably be of long continuance.

Seth E. Sprague, Esq., has also been appointed Clerk of the District Court by Judge Sprague.

PAYMENT OF ORDERS. In a late case before the Court of Common Pleas in Boston, Chief Justice Wells ruled that orders, payable in goods, must be paid in such goods at fair cash prices, and not at "six months prices," as contended by the defendants. Verdict accordingly. An appeal was taken to the Supreme Court.

BUDDING. All those who occupy land should remember that now is the season to bud, or inoculate fruit trees. Visitors in the country should amuse themselves in multiplying the resources of enjoyment.

PLYMOUTH ROCK. This well established democratic journal has recently been leased by Messrs. Thomas Allen and David J. Bailey, who have improved its appearance and added to its worth by their talents and enterprize. A generous support should be extended to them.

SHAVING AND HAIR CUTTING. We perceive that a new Barber's shop has been opened in this town, by Mr. Wm. E. Ambush, in Souther's building, corner of Washington and Coddington streets. The appearance within, is very neat and in good order; and well understanding how to keep his razors sharp, together with a skillful hand in their use, we have no doubt that he will meet with success. We recommend him to the patronage of the public.

"LETTERS ADDRESSED TO A YOUNG LADY, *on receiving from her a note announcing her 'Engagement.'*"

We have received a pamphlet of about forty pages bearing the above title, by R. M. Davens of Charlestown, Mass. and dedicated to the pupils of the Charlestown Female Seminary. The author seems to attach a great deal of importance to the exercise of the virtue "Discretion," before entering that questionable state of which he treats. As young ladies, in these days, have not the credit of practising this virtue when an "engagement" is thought of, however much they may possess of it, a perusal of the work may perhaps be of some benefit to them, although we cannot help thinking that the author might have employed his time and talents to a better purpose. As to the proper time for taking that important step, he says—"The sooner one is "engaged" the better, all things being favorable, after having attained to years of discretion, of which the seventeenth ought certainly to be considered one."

A NEW CITY OF SPINDLES. It will doubtless be recolleeted by most of our readers, that the Legislature of last winter, incorporated a company for manufacturing purposes, under the name of the Essex Company. Said company have recently purchased a large tract of land on both sides of the Merrimac river, between Andover and Lowell, and have commenced operations upon an extensive scale. An immense dam is now building across the river, just above Andover Bridge, twenty-five feet high. This, with the contemplated canal, will probably cost near a million of dollars, and the contract for both has been undertaken by one individual.

Public expectation has been on the tiptoe, as to which town this new city was to be located; and until lately, it was thought that it would be in Andover, but owing to the stubbornness of a certain speculator, who held land in that section, and would not on no condition whatever part with it, the company were driven to the other side, and the great city is to be located at Methuen. It is calculated that the water power here is much greater than at Lowell, and should times be good and no calamities present, a much larger city than Lowell will be built.

THE HAMPDEN STATESMAN. We have received the three first numbers of a new democratic paper published at Springfield, (Mass.) and edited by Apollos Munn, Esq. The mechanical department presents a handsome appearance, and it is one of the most neatly executed papers, that comes to our office. In that portion devoted to literature, it has exhibited so far, excellent taste in the selection of its articles. From the known character and abilities of Mr. Munn, it seems hardly necessary to say that in its editorial department, the paper exhibits strong abilities and a ready pen; and we are happy to see that Mr. Munn has independence enough (a failing quite to common among our brethren of the press,) to speak out boldly and manfully upon public men and measures, although they may belong to the same political party with himself. Mr. Munn is very severe upon Hon. Marcus Morton, for removing from the custom house, those who early advocated the election of President Polk, and retaining in office a large number of political opponents, who, if any removals were to be made, should have been in the opinion of Mr. Munn, displaced by the friends of the administration. We hope and cannot doubt that Mr. Munn's paper will meet with success, believing that an independent press, either democratic or whig, will do more to correct political abuses, than dozens of those other papers who blindly follow their leaders, whether they are right or wrong.

SPIRIT OF ENTERPRIZE. The last number of Hunt's Merchant's Magazine contains an interesting notice of the late Joseph Peabody, Esq., of Salem, (Mass.) It is there stated that he built and owned eighty-three ships, which, in every instance, he freighted himself: and for the navigation of them, he shipped at different times, upwards of seven thousand seamen. Since the year 1811, he has advanced thirty-five to the rank of ship-masters, who entered his employment as boys. He had performed by these vessels the following voyages, viz: to Calcutta, thirty-eight; Canton, seventeen; Sumatra, thirty-two; St. Petersburg, forty-seven; other ports in the north of Europe, ten; the Mediteranean, twenty, before the war of 1812.

NEW JERSEY STEAM NAVIGATION COMPANY.—We recommend this company to those who intend visiting the city of New York. They take passengers by the way of Providence, and their Boats are of the very best class. Capt. Thayer of the Rhode Island, Capt. Comstock of the Massachusetts and Capt. Manchester of the Narragansett, are all able and experienced officers, and have navigated the sound for many years. Their gentlemanly and accommodating agent, is Mr. Andrew Roberts, who can be found at the Providence Railroad depot in Boston, ready to wait upon and give information to all those who visit the great metropolis.

ELECTIONS. It is now generally conceded that the democrats have carried both branches of the Tennessee Legislature, which have heretofore contained whig majorities, thus returning a United States Senator. Hon. A. V. Brown, (dem.) has been elected Governor, and a gain in the congressional delegation has been made by the democrats.

In Kentucky the whigs retain their ascendency in the Legislature, and have made a gain in the election of members to Congress.

Alabama as well as Indiana, are thoroughly democratic in their Legislature, as also in their representation to Congress.

FIRE IN BRAINTREE. Last Thursday evening, between eight and nine o'clock, the barn of Capt. Edward Pray, in Braintree, a short distance from Weymouth Landing, was discovered to be on fire, which, together with its contents of several tons of hay, etc., was entirely consumed. His shop nearly adjoining narrowly escaped, and considerable damage must have occurred to his stock in its removal. Engines were in attendance from this town, but arrived too late to afford much assistance. The Independence Engine, at Neponset Village, Dorchester, came as far as this place, and for their spirit and zeal to travel such a distance of a very warm evening, deserves the commendations of the public. The fire is supposed to have been the work of an incendiary.

MEXICO. This country has not to the latest dates declared war against the United States. As yet they only "talk large" and in the end we are rather inclined to think it will amount to braggadocia. In the meantime, however, the government of the United States are taking efficient and formidable measures to meet any emergency which may occur.

BENEFIT FESTIVAL. Mr. L. Stimson, who for more than a quarter of a century has made his annual returns to this village for the purpose of teaching the beauty and the gracefulness of the dance, acquaints all his patrons and friends that he shall be happy to see them at the Hancock House, on Tuesday evening, the 26th inst. Mr. Stimson has been long known to this community and has ever received their affection and esteem; and many of our citizens, whose locks are silvered by the touch of time, owe their instruction to their kind old master, and remember his gentle and persuasive efforts with pleasure and gratitude. We hope they will gather around him on Tuesday evening next, and in the enjoyments of the hour recall those happy scenes of childhood when life was all sunshine and the pleasures of the day were undimed by dark fears for the morrow.

A gentleman from Texas, now in Europe, writes that a colony of fifteen thousand Swiss are preparing to leave their country and settle in Texas this fall

Female thieves in omnibuses is the last invention in New York. They are said to be very skillfull—very demure—but manage so to crowd the omnibuses that the young men—who are the favorite victims—are obliged to set up very straight so as "not to crowd the ladies." Having got them in "a fix" the ladies proceed to operate—"gently stealing."

A young lady in Philadelphia, while in an overheated state, attempted to eat an ice cream. She had swallowed but one spoonful when she fell dead.

George W. Simmons of Boston, the Oak Hall man, is actually "carrying the war into Egypt"—he advertises in several of the English papers.—The spirit of Yankee-dom is enveloping the whole world.

A most singular accident recently occurred in Boston. A lady, standing on a corner waiting for a carriage, had her foot smashed and two toes completely taken off, by the wheel of the carriage striking the curbing stone, with her foot between.

In 1835, there were in the United States nine hundred and eighty-four miles of railroads. Now there are four thousand seven hundred and fifty-two miles. If they increase as they have done, they will be as common as canals in China.

A young woman who died in New Orleans from a sun stroke was buried on the following day, and her brother who attended the funeral, was on his return also struck dead.

The Grand Jury of Suffolk County, in Boston, have presented as a nuisance the publication of demoralizing pamphlets and novels, most of which are translations from French writers.

The lodges of I. O. of O. F. at Brunswick and Hallowell, (Me.) have passed resolutions discountenancing the use of profane language as not only "an evil in its influence upon the young, but disreputable to him who indulges in it."

At a temperance meeting in Manchester, (N. H.) the prosecuting Committee were instructed to prosecute every violator of the license law.

The subject of employing the war-steamers of the United States as packets for the conveyance of freight and passengers between this and foreign countries, is to be brought before the next Congress. Among the routes mentioned is one between New York and Liverpool, and one between Boston and Havre.

At a council of Senecas, recently held at the Cataraugus reservation, (N. Y.) a member of the Society of Friends, was in due form inducted into all the rights and immunities of the Seneca nation, under the name of Sagonam, (benevolent, or bountiful,) and an Indian, was appointed to be his *cousin!*

A late English paper says that at the show of the London Horticultural Society, peaches, measuring each nearly a foot in circumference, were exhibited.

The Court Martial which tried Capt. Philip F. Voorhees, of the Navy, for a breach of orders in a capture, in March, 1844, of a part of the Argentine squadron, have found him guilty, and sentenced him to be reprimanded by the Secretary of the Navy, and to be suspended for three years from June 24th, 1845, the date of the sentence. This verdict and sentence have been confirmed.

The degree of L L. D., has been conferred upon the Hon. Rufus Choate, of Boston.

In the matter of entire devotion to the welfare of others, we think there is no better example than that of Mr. C. Brinckerhoff, in sending out his invaluable Health Restorative. For instance, it takes an immense expenditure of time, labor, and money, without any immediate remuneration and in fact the proprietor receives no actual benefit until a long time has elapsed. Having cured himself, he is determined that on his part, none shall need to do without the same benefit, save from their own negligence or supineness. 19

MARRIED.

In this town, on Sunday evening last, by Rev. S. A. Davis, Mr. Rufus Churchill, 2d, to Mrs. Lucy Ann Kimball, both of Hingham.

In Norway, 15th ult., Mr Lee Mixer to Miss Deborah Bennett.

DIED.

In this town, 18th inst., Francis Henry, son of Mr. Ephraim A. and Mrs. Joanna Whitney, of Boston, aged 6 months.

On the 19th inst., Hannah Frances, daughter of Mr. Seth and Mrs. Elizabeth Spear, aged 9 months.

On the 21st instant, James Augustus, son of Mr. Charles A. and Mrs. Abby B. Willett, aged 5 months; James Franklin, son of Mr. Thomas Litchfield of Scituate, aged 16 years and 4 months.

In Milton, 15th inst., Mr. Stephen Babcock, aged 67.

In a remote corner of one of the towns of Hampden county, (Mass.) are six families that have consumed for drink, within a year, *ten barrels* of ardent spirits.

The new militia law in Ohio requires every able bodied man to do military duty, work one day on the roads or pay fifty cents.

A New York company advertises to put roofs upon houses that are perfectly fire proof.

A CARD.

The members of the Tiger Engine, No. 2, of Quincy, tender their thanks to the citizens of Braintree for their bountiful supply of refreshments furnished at the fire on the evening of the 21st.

HENRY A. RANSOM, *Clerk.*

NOTICES.

Prepared only by Dr. D. Jayne, No. 8 South Third street, Philadelphia, and sold by CALEB GILL, Jr., Quincy.

Quincy Aug. 2. 3w

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs, Asthma, and CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the case of pulmonary diseases, warrants the American agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the Lungs, Bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

DAVID F. BRADLEE, sole Agent of the United States, 119 Court-street, Boston.

C. BRINCKERHOFF'S

HEALTH RESTORATIVE.

THE great and principal object to be desired in medicine that makes any pretension to cu[re] or any class of diseases, is, that it should sho[w] dance of such power of cure and in a reasonabl[e] of time. In disease of a complicated nature, the effect is deep seated, as in Consumption, Complaint, Coughs, Colds, Asthma, and pain Breast and Side, it is an extremely difficult mat[ter] bring it under the effect of usual remedies. It requisite that the compound should be of such [a] liar combination, that all its materials may act tan[e]ously upon the affected organ, and not lo[se] power diffused to other parts of the human fram[e] that these materials have some defined medicin[al] on that organ. Most truly in the Health Rest[o]do the component parts, when separately or c[on]evely considered, most convincingly show the[ir] vidual and connected power and efficacy. Th[is] this remedy exerts such an astonishing influ[ence] the complaints for which it is commended. If solitary case it had not power efficacious, the dence of the public would have been shaken, bu[t] its never failing promptness in checking the r[a]of disease, and its sure power in restoring to and strength, it is placed even beyond the pos[si]of a doubt that the acme of perfection in such a cine has been gained. Let the certificates greatest and most honest men of our country or ful trial of the Restorative, convince those wh[o] otherwise incredulous of such a remedy. The ing certificate is from Dr. Chilton, the well New York chemist.

"I have analyzed a bottle of medicine call[ed] Brinckerhoff's Health Restorative,' and find does not contain Mercury, or any other metallic ration, nor opium in any of its forms. It is co[m]of vegetable matter entirely."

NEW VOLUME
OF THE
New England Family Magazine.
August, 1845.

WITH the August number commences a New Volume of the NEW ENGLAND FAMILY MAGAZINE. The success which the publishers have met with in this undertaking has determined them to make greater efforts to render the work still more valuable and attractive. To this end they have been to much expense in their arrangements to make the forthcoming volume one of great intrinsic merit. Woodcuts and Illustrations of interesting subjects will be frequently introduced, and the same care and discrimination that have been used in the selection of articles heretofore will be continued. The publishers are determined that this Magazine shall not be indebted for its popularity to extraneous means, but shall rest its claims for patronage on the excellence of its contents.

THE NEW ENGLAND FAMILY MAGAZINE will be printed with beautiful type, on fine paper. It will contain 48 pages monthly, making a volume of 576 pages of valuable and useful matter each year.

TERMS OF SUBSCRIPTION. *One Dollar and Fifty Cents per annum, in advance, or Two Dollars if not strictly paid within the year.*

☞One copy of the *Family Magazine* and one copy of "*Robert Merry's Museum*," (a Magazine for Youth published monthly, at one dollar per annum) one year, two dollars, if paid in advance.

☞The FAMILY MAGAZINE, will be furnished to Clubs at the following prices:

Three Copies, one year FOUR DOLLARS.
Five do. " " SIX do.
Ten do. " " TEN do.

☞Agents will be supplied with the above work at a liberal discount. All orders should be addressed

The Great Remedy

FOR

Consumption, Asthma, Dyspeptic Consumption, Spitting of Blood, Bronchitis, Difficulty of Breathing, Hoarseness, Influenza, Croup, Colds, Pain in the Breast and Side, Dyspepsia, and various affections of the Stomach and Liver.

Folger's Olosaonian, or All-Healing Balsam.

IT is acknowledged that more persons die of Consumption than of any other disease. It is estimated that in the United States over THIRTY THOUSAND PERSONS annually fall victims to this dreadful scourge. The cause of the evil is generally overlooked. *A short dry Cough* is the precursor—or a neglected cold. These symptoms are deemed unimportant. Pain in the Side, Hectic and night Sweats follow, and death ends the scene.

Would you find a REMEDY FOR THE EVIL? Here it is. The experience of more than twenty years has proved its efficacy, and thousands are rejoicing in its effects.

Case of INCIPIENT CONSUMPTION—George W. Burnett, Esq. of Newark, N. J., had suffered under the effects of a severe cold for more than a year, and in the month of August, when his Cough had reduced him so much that he feared he would die, he commenced using the Olosaonian. He raised blood at this time, complained of pain in his side and chest, and was very much debilitated by *night sweats*. His appetite was gone, and altogether he appeared to be rapidly sinking. He was so much relieved by the use of this remedy that by the month of November he left for Pittsburg, Pa. with every prospect of being permanently cured.

Read the following case of CONSUMPTION.—The cure was truly a wonderful one and places the '*Olosaonian or All-Healing Balsam*,' at the head of the list of remedies for eradicating that dreadful disease:

George W. Hays, residing in this city, (New York) was seized with a severe cold in the early part of the summer. His cough became very troublesome and he began to *raise blood*. He complained of a severe pain in the chest and his breathing became so short that he could not walk any distance without stopping for breath. His night sweats reduced him very low. He was under the care of several physicians in Brooklyn, who told him they could do no good, as his disease was a settled and fixed Consumption. He removed to this city to die among his friends. He was by this time so weak that he could not walk without assistance. Although his friends had now given up all hope of his ever being any better, he commenced using the '*Olosaonian, or All-Healing Balsam*,' and in a few weeks was so far restored as to able to resume his business.

Mr. T. Laban, residing at 52 Pine street, was severly afflicted with Asthma, in consequence of having taken a severe cold in the early part of last winter. In the early part of the night he could sleep tolerably well, but towards one o'clock in the morning his Asthma became so severe that he was obliged to get up and sit for the remainder of the night leaning forward on a chair. His cough was most distressing through the day. He had, during his sickness, tried almost every thing without relief. He never had a good night's rest in ten months, until he commenced taking the Olosaonian or All-Healing Balsam, when he found immediate relief, and before using half a bottle of it was perfectly well, and now sleeps as quietly as he ever did in his life.

Hundreds of cases could be given to prove the efficacy of the great remedy. And it possesses a property superior to all others, viz: it does not constipate the bowels. Reader, are you suffering under any of the above symptoms of disease? Try this remedy—It will allay the *Pain in your side and chest*—put to flight the COUGH which deprives you of sweet slumber and repose; if you have Asthma, be assured there is no medicine in the world that will cure you so speedily, and it will arrest all those disagreeable symptoms which strike such terror to the mind and give such dreadful forebodings of an untimely and speedy dissolution.

Sold at one dollar, per bottle, by REDDING & Co. State street, Boston; and by the following appointed agents:

Mrs. Hayden, Quincy; J. Babcock, Milton; M. D. Plumer, Milton; Eli Thayer, Weymouth; Wm. A. Torry, do.; King & Nash, Abington; N. N. Dyer, do.; A. E. Dubois, Randolph; R. Gleason, Dorchester.

SUGAR — CLICKENER'S SUGAR COATED VEGETABLE PILLS — COATED

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skilfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine ib almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronize them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 25 cents per box, with full directions, and sold by the following list of Agents.

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; R. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 28.

POETRY.

THOUGHTS OF HEAVEN.

No sickness there,—
No weary wasting of the frame away
No fearful shrinking from the midnight air—
No dread of summer's bright and fervid ray!

No hidden grief,
No wild and cheerless vision of despair;
No vain petition for a swift relief,
No tearful eyes, no broken hearts are there.

Care has no home
Within the realm of ceaseless prayer and song;
Its billows break away and melt in foam,
Far from the mansions of the spirit throng!

The storm's black wing
Is never spread across celestial skies!
Its wailings blend not with the voice of spring,
As some too tender flow'ret fades and dies!

No night distils
Its chilling dews upon the tender frame;
No moon is needed there! The light which fills
That land of glory, from its Maker came!

No parted friends
O'er mournful recollections have to weep!
No bed of death enduring love attends
To watch the coming of a pulseless sleep!

No blasted flower
Or withered bud celestial gardens know!
No scorching blast or fierce descending shower
Scatters destruction like a ruthless foe!

No battle word
Startles the sacred host with fear and dread!
The song of peace Creation's morning heard,
Is sung wherever angel ministers tread:

Let us depart,
If home like this await the weary soul;
Look up, thou stricken one, thy wounded heart
Shall bleed no more at sorrow's stern control.

With faith our guide,
White robed and innocent to lead the way,
Why fear to plunge in Jordan's rolling tide,
And find the ocean of eternal day?

"HAVE FAITH."

Have faith! we cannot change our fate,
Unwisely grieving o'er the past;
And while we live, 'tis not too late
To hope for calm and joy at last!

I know how full of fearfulness
The heart hath borne its load of pain,
How fortune's smile and soft caress
Have mingled with the storm again.

But still, I turn not hopeless back,
I am not with the tempest bowed;
There's Spring beyond the Winter's track,
And light behind the darkest cloud!

WASHINGTON.

Few columns rose, when Rome was free,
To mark her patriots' last repose;
When she outlived her liberty,
The Emp'rors' mausoleums rose;
And Trajans shaft was rear'd at last,
When freedom from the Tiber passed.

"Better than Trajan" lowly lies,
By broad Potomac's silent shore,
Hallowing the green declivities
With glory, now and evermore.
Art to his fame no aid hath lent—
His country is his monument.

ANECDOTES.

In a late dispute on the subject of climates, an honest Irishman who was present, contended warmly in favor of his country. 'In the first place,' said he, 'the weather is much finer; in the next place, the days are much longer.' This, however, said a bystander, cannot be the case the whole year round? 'Arrah, dear honey, but it is though; and that is not all; the days are not only longer, but fath there are more of them.'

A buffoon, having offended his sovereign, the monarch ordered him to be brought before him, and with a stern countenance, reproached him with his crime. 'Wretch!' said he, 'receive the punishment you merit; prepare for death!' The culprit fell on his knees, and cried for mercy. 'I will extend no mercy other to you,' replied the prince, 'except permitting you to choose what kind of death you will die; decide immediately, for I will be obeyed.' 'I adore your clemency,' said the fellow, 'I choose to die of old age.'

'Caleb, spell Aaron.'
'Great A, little a r-o-n.'
'Very well. Ichabod, see if you can spell United States.'
'Yes, sir. Great country, little country, T-e-x-us.'
'Go up head.'

A Chinese of forty, who received a severe flogging of his mother daily, was observed to weep. The cause being inquired, 'Alas! the poor woman's hand gets weaker every day,' was his dutiful reply.

Two animals were lately seen, laying side by side in the gutter. One had a ring in his nose—the other had a ring on his finger. A passer-by exclaimed, 'A hog is known by the company he keeps,'—whereupon Mr. Porker 'sloped.'

A young fop, about starting down to New Orleans, proposed to purchase a life preserver. 'Oh, you'll not want it,' suggested the clerk; 'bags of wind don't sink.'

'I go it on my own hook,' as the drunken butcher said when he hung by the seat of his breeches.

A pert stripling once asked an old gentleman which was the right road to the state prison. 'The one you travel every day,' replied the latter.

A lady wrote some verses on a window declaring she would never marry. A wag wrote underneath—
'The lady who this resolution took,
Wrote it on glass to show it could be broke!

'I'm a straight forward man,' as the toper said when he pitched into the gutter, and 'nothing else.'

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Handcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Krauth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea-sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York.

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; R. Glenson, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

June 28. tf

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, 'if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educated and experienced Physician, rather than the precarious and dangerous doings of Quacks and inexperienced Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10; sent to all parts of the Union. Office and consultation rooms,

4 1-2 SUDBURY STREET,
(Opposite Alden Lane.)

Boston, March 22. tf

Quincy, April 5. tf

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*
JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine:

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health, and have not raised any blood since the use of the first bottle of this excellent preparation.

WYMAN ABERCROMBIE.

Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark:

DEAR SIR—I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. Yours, truly,

IBRAHIM BARTLETT.

Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.

MISCELLANY.

LOVE, A STORY,

FROM THE "CROCK OF GOLD

With the earliest peep of day, arose Grace, full of cheerful hope, and prayer happy resignation. She had a great deal that morning, for, innocent girl, she had tion that it was quite possible to be too the Hall; her only fear was being too Then there were all the household affairs to, and the dear babes to dress, and the to tidy up, and breakfast to get ready, and how she could not be abroad till half past so, to her dismay, it must be past nine ever she can see Sir John. Let us follow a little: for on this important day we shall to take the adventures of our laborer's one at a time.

By twenty minutes to nine, Grace had trived to bustle on her things, give the slip, and be tripping to the Hall. It is two miles off, as we already know; and is such a pretty creature that we can cle no better than employ our time thitherw by taking a peep at her.

Sweet Grace Acton, we will not v blusing maiden modesty by elaborate d form, and face, and feature. Perfect hood at fair eighteen: let that fill all ture up with soft and swelling charms wadding, or padding, or jigot, or jupe,— those graceful undulations are herself: powder, no carmine, no borrowed locks, or ambergris,—but all those feeble helps retricious art excelled and superseded just originals in nature. It will not do as a romancer may, of velvet cheeks and tresses: or invoke, to the aid of our inad description, roses, and swans, and peach lilies. Take the simple village beauty is: did you ever look on prettier lips, or er eyes,—more glossy, natural curls whiter neck? And how that little red hood cloak, and the simple cottage h down upon her cheeks, and the homely gown, all too short for modern fashion the white well-turned ankle, and the t leather shoe, and the bunch of snow- her tucker, and the neat mittens con darkly with her fair bare arms, pretty how well all these becomes thee! The along, with health upon thy cheek, a within thy heart; who can resist so elo pleader? Haste on, haste on, save thy f his trouble, as thou hast blest him in h his rustic lane is to thee the path of Heaven speed thee on it!

More slowly now, and with some thoughts, more heart-weakness, more ing.—Grace approached the stately m and when she timidly touched the "Ser bell, for she felt too lowly for the "Visit and when she heard how terribly loud how long it rung, and what might be th of her—was n't it ill considered?—er the poor girl almost fainted at the soun

As she leant unconsciously for stre gainst the door, it opened on a sudd Jonathan Floyd, in mute amazement, her in his arms.

"Why Grace Acton, what's the mat you? Jonathan knew Grace well, th been at dame's school together, and years attended the same Sunday class a There had been some talk amongst the about Jonathan and Grace, and ere n had been kind enough to say they wou a pretty couple. And folks were righ well as kind: for a fine young fellow athan Floyd, as any duchess's footma well built, and twenty-five; Antinous ery. MISCELLANY.

LOVE, A STORY,

FROM THE "CROCK OF GOLD."

With the earliest peep of day, arose sweet Grace, full of cheerful hope, and prayer, and happy resignation. She had a great deal to do that morning, for, innocent girl, she had no notion that it was quite possible to be too early at the Hall; her only fear was being too late.—Then there were all the household affairs to see to, and the dear babes to dress, and the place to tidy up, and breakfast to get ready, and anyhow she could not be abroad till half past eight; so, to her dismay, it must be past nine before ever she can see Sir John. Let us follow her a little: for on this important day we shall have to take the adventures of our laborer's family one at a time.

By twenty minutes to nine, Grace had contrived to bustle on her things, give the rest the slip, and be tripping to the Hall. It is nearly two miles off, as we already know; and Grace is such a pretty creature that we can clearly do no better than employ our time thitherward by by taking a peep at her.

Sweet Grace Acton, we will not vex thy blusing maiden modesty by elaborate details of form, and face, and feature. Perfect womanhood at fair eighteen: let that fill all the picture up with soft and swelling charms; no wadding, or padding, or jigot, or jupe,—but all those graceful undulations are herself: no pearl powder, no carmine, no borrowed locks, no musk or ambergris,—but all those feeble helps of meretricious art excelled and superseded by their just originals in nature. I; will not do to talk as a romancer may, of velvet cheeks and silken tresses: or invoke, to the aid of our inadequate description, roses, and swans, and peaches, and lilies. Take the simple village beauty as she is: did you ever look on prettier lips, or sweeter eyes,—more glossy, natural curls upon a whiter neck? And how that little red-ridinghood cloak, and the simple cottage hat tied down upon her cheeks, and the homely russet gown, all too short for modern fashions, and the white well-turned ankle, and the tidy little leather shoe, and the bunch of snow-drops in her tucker, and the neat mittens contrasting darkly with her fair bare arms, pretty Grace, how well all these becomes thee! There, trip along, with health upon thy cheek, and hope within thy heart; who can resist so eloquent a pleader? Haste on, haste on, save thy father in his trouble, as thou hast blest him in his sin,—his rustic lane is to thee the path of duty,—Heaven speed thee on it!

More slowly now, and with some anxious thoughts, more heart-weakness, more misgiving,—Grace approached the stately mansion: and when she timidly touched the "Servants'," bell, for she felt too lowly for the "Visiters'"—and when she heard how terribly loud it was, how long it rung, and what might be the issue of her—was n't it ill considered?—errand,—the poor girl almost fainted at the sound.

As she leant unconsciously for strength against the door, it opened on a sudden, and Jonathan Floyd, in mute amazement, caught her in his arms.

"Why Grace Acton, what's the matter with you? Jonathan knew Grace well, they had been at dame's school together, and in after years attended the same Sunday class at church. There had been some talk amongst the gossips about Jonathan and Grace, and ere now folks had been kind enough to say they would make a pretty couple. And folks were right, too, as well as kind: for a fine young fellow was Jonathan Floyd, as any duchess's footman; tall, well built, and twenty-five; Antinous in a livery. Well to do, withal, though his wages don't come straight to him; for, independently of his place,—and the baronet likes him for his good looks and proper manners he is Farmer Floyd's only son on the hill yonder, as thriving a small tenant as any round about, and he is proud of his master, of his blue and silver uniform of old Hurstley, and of all things in the general, except himself.

"But what on earth's the matter, Grace?" he was obliged to repent, for the dear girl's agitation was extreme.

"Jonathan, can I see the baronet?"

"What, at nine in the morning, Grace Acton?—call again at two, and you may find him getting up. He has n't been three hours abed yet, and there's nobody about but Sarah Stark and me. I wish those Lunnun sparks would but leave the place: they do his honor no good, I'm thinking."

"Not till two!" was the slow and mournful ejaculation: what a damper to her buoyant hopes! and Providence had seen fit to give her ill success. Is it so?—Prosperity may come in other shapes.

"Why, Grace," suddenly said Floyd, in a very pervous way, "what, what makes you call upon my master in this tidy trim?"

"To save my father" answered Innocence.

"How? why? Oh don't Grace, don't! I'll save him—I will indeed—what is it? Oh don't, don't."

For the poor affectionate fellow conjured on the spot the black vision of a father saved by a daughter's degredation.

"Don't, Jonathan? it is my duty, and God will bless me in it. The cruel Mr. Jennings has resolved upon our ruin, and I wished to tell Sir John the truth of it.

At this hearing, Jonathan brightened up, and glibly said, "Ah, indeed, Jennings is a trouble to us all: a sad life I've led of it this year past; and I've paid him pretty handsomely too, to let me keep the place: while as for John Page, and the grooms, and Mr. Coachman and the helpers, they don't touch much o' their wages on quarter day, I know."

"Oh, but we, we are ruined,—ruined: father is forbidden now to labor for our bread;" and then with many tears she told her tale.

"Stop, Miss Grace," suddenly said Jonathan, for the beauty and eloquence transformed the cottager into a lady in his eyes, and no wonder: "stop a minute, Miss,—please to take a seat, I sha'nt be gone an instant."

And the good-hearted fellow, whose eyes had long been very red, broke away at a gallop; but was back again almost as soon as gone, panting like a post horse. "Oh, Grace, don't be angry, do forgive me what I am going to do."

"Do, Jonathan?" and the beauty involuntarily started,—"I hope it's nothing wrong," she added solemnly.

"Whether right or wrong, Grace take it kindly; you have often bade me read my Bible, and I do so many times both for sake of it and you, ay, and meet with many pretty sayings in it: forgive me, if I act on one,—'It is more blessed to give than to receive:'" with that, he thrust into her hand a brass-topped, red leather purse, stuffed with money. Generous fellow! all the savings, that had heretofore escaped the prying eye and filching grasp of Simon Jennings. There was some little gold in it, more silver, and a lot of bulky copper.

"Dear Jonathan!" exclaimed Grace, quite thrown off her guard of maidenly reserve,—"this is too kind, too good, too much, indeed, it is: I cannot take the purse:" and her bright eyes overflowed again.

"Well, girl," said Jonathan, gulping down an apple in his throat, "I, I won't have the money, that's all. Oh, Grace, Grace," he burst out earnestly, "let me be the blessed means of helping you in trouble,—I would die to do it, Grace, indeed I would!"

The dear girl fell upon his neck, and they wept together like two loving little sisters.

"Jonathan,"—her duteous spirit was the first to speak, "forgive the weakness of a foolish woman's heart: I will not put away the help which God provides us at your friendly hands: only this, kind brother,—let me call you brother,—keep the purse; if my father pines for want of work, and the babes at home lack food, pardon my boldness if I take the help you offer. Meanwhile, God in Heaven bless you, Jonathan, as he will."

And she turned to go away.

"Won't you take a keepsake, Grace, one little token? I wish I had anything here but money to give you for my sake."

"It would even be ungenerous in me to refuse you, brother; one little piece will do."

Jonathan fumbled up something in a crumpled piece of paper, and said sobbingly, "Let it be this new half-crown, Grace: I won't say keep it always; only when you want to use that and more, I humbly ask you'll please come to me."

Now, a more delicate, a more unselfish act, was never done by man: along with the half-crown he had packed up two sovereigns! and thereby not only escaped thanks, concealed his own beneficence, and robbed his purse of half its little store; but actually he was, by doing so, depriving himself for a month, or may be more, of a visit from Grace Acton. Had it been only half a crown, and want had pinched the family, (neither Grace nor Jonathan could guess of Ben Burke's bounty, and for all they knew Roger had not enough for the morrow's meal,)—had poverty come in like an armed man, and stood upon their threshold a grim sentinel,—doubtless she must have run to him within a day or two. How sweet would it have been to have kept her coming day after day, and to a commoner affection how excusable: but still how selfish, how unlike the liberal and honorable feeling that filled the manly heart of Jonathan Floyd! It was a noble act, and worthy of a long parenthesis.

If Grace Acton had looked back as she hurried down the avenue, she would have seen poor Jonathan still watching her with all his eyes till she was out of sight. Perhaps, though, she might have guessed it,—there is a sympathy in these things, the true animal magnetism, and I dare say that was the very reason why she did not once turn her head.

THE PRETTY FOOT.

'By the by, are you a marrying man?' said Charles Russell to his bachelor friend, Frederick Somerville, as they discussed a cool bottle together at the Star and Garter, at Richmond. 'By the by, Fred, are you a marrying man?'

'My dear Charles, with a patrimony of one hundred a year, and an allowance from my aunt of a second hundred for gloves and shoe strings, how can I entertain such an idea?—but why do you ask?"

'Because I have just heard a strange whim which my cousin Ellen has taken into her head; and, 'pon my soul, if she perseveres in it, I should like some good fellow like yourself who will take care of her and her couple of thousand a year, to be the eccentric partner.'

Fred's curiosity was now raised. He entreated to be made acquainted with this strange whim; and a fresh bottle having been placed before the two friends, it was not long before the generous operation of the wine, and our friend Fred's inquiries, prevented Russell from burthening himself any longer with the secret.

And the secret was this; Ellen Cameron, a high-spirited and self-willed girl, of two and twenty years of age, and an unencumbered income of as many hundreds, having been disgusted at the treatment which a fair relative had received from one whom, after an attachment of some years, she had made her husband, vowed that, if ever she married, it should be to a man to whom she should be introduced for the first time, at the altar where she was to become his bride.

It was a strange idea, doubtless, but young girls, who are mistresses both of themselves and their fortunes, are apt to have strange notions. Ellen was one of these. With a good heart and an excellent understanding, and cultivated taste, she had just so much of oddity in her disposition as prompted her to make, and enabled her to persevere, in this extraordinary determination.

The strangeness or the notion seemed to possess charms for the somewhat romantic mind of Somerville, who, having inquired as narrowly into the state of the case as Russell's relationship to the lady would admit, expressed himself willing, could she be prevailed on to accept him, to undergo the ceremony of introduction and marriage at the same moment.

'But tell me, my dear Russell, do you know anything objectionable in her temper or disposition?'

'Nothing upon my word Fred. No woman is perfect, and Ellen has her failings; but despite certain eccentricities, and peculiarities, I do believe you would live very happily together.'

'But, my dear Russell, I have always vowed I never would marry even an angel if she exhibited a superabundance of foot and ancle. Tell me—has my fair incognita a pretty foot?'

'On my word she has—*there is not a fellow to it.* But I tell you what I can assure you although it is almost unfair to Ellen—yet I will let you into a secret; she will be at the opera to-morrow night, you may get a peep at her there.'

Full particulars of what box she was to occupy, together with other means of identifying her, were asked and given. The following night saw Fred at the opera before Spagnoletti's magic tap had given the signal for the commencement of the overture. His eyes were instantly turned upon the box that was destined to contain the object of his search—but that, of course, was empty. During the whole of the first act of the opera, his attention was revited to that spot, but not a soul broke in upon his solitude.

During the divertisement which followed, and exhibited attractions so powerful as to seduce the eyes of our hero from the object on which they had so long been fixed, the box was filled; and when Fred turned his eyes again in that direction, he felt convinced that the most prominent personage which it contained was the eccentric Ellen.

His glass was now directed for some momentous minutes to the box, and when he removed it to return the salutation of his friend, Russell, who now approached him, he was muttering to himself—'By heavens! she is certainly a fine girl!' Nor did he exhibit any selfishness in regard to this feeling—he never attemped to keep it to himself, but instantly confessed as much to Russell.

'She is certainly a very fine girl. Can't you introduce me to your cousin, my dear friend?' said he.

'Then the twenty-two hundred a year have no charms for you?'

'Faith! but they have though, and so has your cousin; therefore, the sooner you say a good word for me the better.'

Whether or not Charles, who adjourned to his cousin's box, introduced the subject of his friend's admiration of her that evening, we cannot take upon ourselves to assert: but certain it is, that Ellen's opera glass was, for the remainder of the night, much more frequently directed to the part of the pit, which was occupied by her aspirant, than any other.

The subject was introduced, however, at some period, and after sundry blushings and hesitations, Russell's wooing, in his friend's name, sped favorably; and six weeks after the eventful dinner at Richmond, saw a travelling chariot, with four of Newman's quickest, draw up at St. George's, Hanover square, and deposit at the snug and sly vestry door, the bridegroom expectant of Ellen Cameron, and her twenty-two hundred per annum.

Here he was met by his friend Russell, whose obvious confusion and anxiety could not escape the notice of Fred Somerville. He was about to enquire into the cause which produced this effect, when he was prevented by the arrival of the bride.

He would have flown to assist her from her carriage, but Russell seized him, and motioning him to withdraw, succeeded in leading him into the body of the church, not however, before he had discovered that his intended had a very pretty foot, which was certainly without its fellow—for he saw she had but one! He was at first bitterly enraged at the deception which had been practised upon him, but Russell soon calmed his irritation by a very satisfactory explanation of his conduct.

Well assured of Fred's worth and his cousin's amiability, he had felt convinced in his own mind that their marriage would prove a happy one; but the circumstance of Ellen's having unfortunately been deprived of one of her legs, he feared, would prejudice Fred against her. His anxiety for the happiness of both parties, had tempted him, therefore, to conceal this fact; for knowing as he did, Fred's devotion to a pretty foot, he feared lest this enthusiastic admiration of the extreme of feminine beauty should lose him an amiable and wealthy woman, had he been told at once, that although she had a singularly pretty foot, she had but one!

That this explanation was satisfactory we have ascertained already, and it was made evident by the fact of the worthy clergyman being called upon immediately to perform the matrimonial service, to say nothing of the worthy clerk receiving triple fees upon the occasion.

The marriage created a good deal of attention at the time, and many ill-natured jokes were cut upon the parties, but they heeded them not, and have been rewarded for it by a succession of many happy years. One only of these malicious witticisms will we record:

'So Fred Somerville has married a woman of property, I hear—old, of course,' said a young guardsman at Brook's.

'Not exactly old,' was the answer, from a quandam rival of Fred's; 'not exactly old, but with one foot in the grave.'

HELP US.

BY D. C. COLESWORTHY.

'Help us,' is the cry from scores of young men—active, intelligent and honest—who are now ready to engage in business and work for a living, but who have not the means. Some of them have been in business, but on account of hard times, and the little capital they possess, were obliged to wind up their affairs, at a loss perhaps, and a certain injury to their credit. But what is the opinion of the community in regard to those men? Do the people feel for their situation and endeavor to render them assistance? By no means. The rich, those who were young men thirty-five years ago, when business was good, and credit better, look on and wonder why they do not succeed, and as a precious crumb of comfort, remark, '*We* had nothing when *we* commenced.' Suppose these men were now stripped of their property, what could they do to acquire it again? Such a question they never ask themselves, when they look upon young men out of business.

Instead of rendering assistance to the unfortunate, those who have the means to help are the last to do any thing. If a man, perfectly upright, wishes to go into business, where can be obtained a few hundred dollars? He has no wealthy relatives. His aged parents are dependent on him and perhaps his young sisters; and what can he do? Will the bank discount his note? Yes—if he can get it endorsed by James Deering, Asa Clapp, or Samuel Chadwick. But suppose that other men of wealth not will thus favor him? Why then, the note is worth nothing, and the smiling cashier will tell him, as with agitation he inquiries of success, 'We are extremely short to-day and could'nt discount half the paper presented.' But just as the disappointed man leaves, it may be that he meets the clerk of some wealthy merchant, who has come for three or four thousand dollars—being the amount of a note cashed by the director. It would be difficult to make the young man believe that it was on account of no funds that the bank refused him money.

We ask in all seriousness—Would it not be better for our city—for our banks—and for our young men, if those who have money, were a little more accommodating, and labor to assist those are ready and willing to go into business? As soon as a man is thought to be poor, must he be lightly esteemed and his character and business habits questioned? Is it good policy to take particular pains to ruin him? This is not the course of true wisdom. It should be the delight of those who are able, to render young men all the assistance in their power. If some six or eight individuals would take it upon themselves to hold up, encourage and assist active and honest young men, who can tell the amount of good they might be instrumental of producing? We are certain, it would be an income to themselves, build up our city and give an excellent character to the place.

But alas for mankind! Gold and riches have blinded the eyes. Solicit help, and the question arises at once, What pecuniary benefit will it be to me? If you could know to a moral certainty, that by endorsing a note, or loneing a hundred or two dollars, the twenty-four per cent., with the principal in full would be forthcoming in a few months, you can be ready and willing to be called a benefactor to your race; otherwise you may live and die without the name of a philanthropist.

It may be that we preach in vain; but we have the satisfaction of discharging our duty. But one word more and we are done. Think of the shortness of life and the luxury of doing good, and when you see an honest and industrious young man, be ready to assist him. Forget not that you were once young and needed help. Depend upon it, you will be happier, and when you are dead, you name will be held in grateful remembrance. A good deed—a kind act will never be forgotten.

WORK A DUTY.

"Let no farmer's wife think his children too good to labor; but on the contrary, let her strive early to fix habits of industry. Let every mother teach her sons, that while labor on the farm is honorable, idleness, and vice alone bring reproach. And when this lesson is thoroughly impressed on her son, and corresponding habits formed, that son will be likely to make an efficient man and a useful citizen, whether he be following a profession or be engaged in the safe and more pleasant pursuit of agriculture. But when the mother, without this lesson, and without these habits, undertakes to make her son a gentleman, she is far more likely to make him a loafer.

"Let parents labor to give all their children a good education. Let an absurd notion that a farmer needs no education be banished from every dwelling. There is no pursuit, where intelligence, and a well cultivated and a well disciplined mind, is more necessary, than in the proper management of a farm. Let the mind be enlarged by a knowledge of history, political economy, and especially the sciences connected with agriculture. Let the young farmer enrich his mind by general reading—Let him thoroughly understand our political institutions—and be able to judge of his political rights and duties without the aid of some demagogue who had rather devote his time to watching over the public interests, than to the pursuit of honest industry. In short, let the farmer be able to reason, to examine, and judge for himself, and he will soon take the elevated stand in society to which his calling entitles him, and he will no longer have the opportunity of complaining that professional men have to much influence. This will have a great tendency to attach farmers's sons to their homes and to their farms.

ELOQUENT EXTRACT.

A spirit of fault finding; an unsatisfied temper; a constant irritability; little inequalities in a look, the temper, or the manner; a brow cloudy and dissati-fied—your husband or your wife cannot tell why—will more than neutralize all the good you can do, and render life any thing but a blessing. It is in such gentle and quiet virtues as meekness and forbearance, that the happiness and usefulness of life consist, far more than in brilliant eloquence, in splendid talent, or illustrious deeds that shall send the name to future times.

It is the bubbling spring which flows gently; the little rivulet which glides through the meadow, and which runs along day and night by the farm house that is useful, rather than the swollen flood of the warring cataract. Niagara excites our wonder; and we stand amazed at the power and greatness of God there, as he "pours it from the hollow of his hand." But one Niagara is enough for a continent or a world; while the same world needs thousands and tens of thousands of silver fountains and gentle flowing rivulets, that shall water every farm, and every medow, and every garden, and that shall flow on, every day and every night with their gentle and quiet beauty. So with the acts of our lives. It is not by great deeds only, like those of Howard, not by great sufferings only, like those of the martyrs—that good is to be done; it is by the daily and quiet virtues of life—the christian temper, the meek forbearance, the spirit of forgiveness in the husband and wife, the father, the mother, the brother, the sister, the neighbor, the friend, that good, is to be done; and in this way all may be useful.—*Rev. Allen Barnes.*

For the Quincy Patriot.

REFLECTIONS.

How mysterious, how wonderful is God's noblest work—*humanity!* How many hidden springs vibrate with extatic, or painful, emotion in obedience to commanding incentive! And then, who, of his own free will, can reach those keys, and bring forth their tones of joy or of sadness? 'Tis true, that man directeth not his own steps, nor thinketh at all times, as he will. Borne on spirit-wings, there come influences, and thread the mazy labyrinths of the heart. Yea, God's own angels are always engaged in conveying those influences,—in moulding the character. Who shall say aught of his future life with certainty? Who may declare that he shall not be visited with evil impulses, which shall plunge him into sin's dark vortex? Who can say that, ere the expiration of anoth-

er year, he will not be sinful, degraded and lost, as is now yonder son of adverse fortune?

There's a lesson of profit derivable from the story of Hazael of old, who, when told by the man of God of his future wickedness, indignantly exclaimed—"Is thy servant a dog that he should do this thing?" The subsequent history proves how rash, how unknowing was his exclamation, for he *did* perpetrate those very cruelties, in view of which the Prophet wept and humanity shuddered. Dost thou blame Hazael for his former reply and latter action? How inconsistent! Condemn not others in that which, to a certain extent, thou art daily performing. Thou knowest not whither thy steps may be led. Strong, resistless winds of circumstance may transport thee to untried being. As surely as those winds come, so surely shalt thou obey their mandate. 'Tis not thine to choose.

How long and patiently then, should we tarry before denouncing and casting off the unfortunate criminal. Adverse winds *have* reached him, and perhaps from very necessity he has yielded to their power. Boast not thyself over his degradation, but thank God that thou hast escaped the current which swept him on to his stern fate. How knowest thou that there was not "a chain fastened, one end in nature's holiest ground, which dragged him on to his destiny?"

Art thou clothed in the smiling garb of innocence? Thank the Creator that it is thus, and boast not of thy *own* power as the cause. *Thou* hast never been *compelled* to serve in the terrible school of abject poverty; thou wast not born in sin's highway, nor dilst thou inhale, with thy first breath, the poisoning, damning atmosphere of foul iniquity—iniquity begotten perchance, by squallid wretchedness and gnawing starvation. Thy Father was not lost in the degradation of the sot, nor did thy mother feed thy infancy with dry and mouldy crusts, earned by shivering, midnight toil, and moistened with tears of scorching anguish.

How much longer shall the cry of the unfortunate go up to heaven? And how much longer will man strive to torment his brother, who hath already been so sorely afflicted? The cry shall not go unheeded. God *will* hear, and recompensing angels shall descend and perform their task. "I *will* repay, saith the Lord."

How ardent should be the thanks of every philanthropist, that a brighter era is lawning upon man, and that the idea of a *common* welfare, is fast gaining ground. Yea, more,—how grateful should be the incense of the advocate of a limitless faith, that a day shall yet dawn upon the race of man, when the cruel circumstances which have so long held sway, shall be annihilated and when the vast whole shall join hands around the throne of Him who is the Redeemer—the Saviour—the Father of all. Then they shall all sing—

Sound the loud timbrel o'er Egypt's dark sea;
Christ Jesus has triumphed, God's people are free,

Heaven's celestial host will join in the chorus, and shout the long and loud *Amen*.

J. H. F.

For the Quincy Patriot.

HON. FREDERIC ROBINSON.

South Weymouth, Aug. 25, 1845.

Mr. Editor—As the Democratic Convention is near at hand, and as candidates for Governor and Lieutenant Governor, are then and there to be selected for the consideration of the people's verdict in November, I presume it will not be deemed illtimed or amiss to speak in reference to the distinguished gentlemen who have been named to fill the Executive chair of our time-honored Commonwealth. Among the names suggested and brought forward for Governor, that of the Hon. Frederic Robinson of Charlestown, meets the approbation of the people, and is received with an unusal degree of enthusiasm, as far as my observation and associations extend. Mr. Editor, who is Frederic Robinson? Why I need not say that I intend by asking the question, to libel the intelligence of your numerous readers and patrons, but in answering the question, who does not remember some few years since, that in our House of Representatives, one of the most odious, barbarous and vindictive laws that ever disgraced christendom—imprisonment of debt—was agitated and its repeal demanded? Frederic Robinson came to the rescue, surrounded by whig legislators who deemed misfortune in trade a crime, for which prison bolts and bars could alone expatiate. Nothing daunted by the formidable array of his opponents, he boldly and calmly came to the work of reform, possessing an active and vigorous mind, a discriminating judgment and an indomitable will that never tires or flags, in defence of popular rights. He eloquently sustained his cause and triumphantly caused the bill of repeal, whereby thousands of his fellowmen were saved to their families and friends, in lieu of being immolated with felons and murderers. For noble deeds like these, and subsequent devotion to the interests of the people, Frederic Robinson, meritedly deserves, and will receive the gratitude and support of the democracy of the Commonwealth.

For Lieutenant Governor, the name of the Hon. B. V. French of Braintree, has been suggested. As flattering as the compliment may appear, it is just. Mr. French is known in this vicinity and elsewhere very favorably, and is much esteemed—being very affable in his manner, bounteous and hospitable to friends—he is emphatically and truly, what is termed a plain country gentleman, and also a very extensive and industrious farmer. His having served with ability in the Executive Council, under Gov. Morton's administration, is sufficient evidence of his capacity to discharge the office of Lieutenant Governor, and I hope he may obtain the nomination. Truly, &c. E. T.

The Mexican War Government as at present organized, costs the government twenty-three millions of dollars, whereas the entire income from all quarters does not exceed eleven millions! No wonder a loan is required.

The lake of Granada, in Central America, is 128 feet above the level of the Pacific ocean, and is distant from it only about twenty thousand yards.

The area of Ireland is 12,819,423 Irish acres.—The total number of farms is 685,209, and of these 309,913 are under five acres.

QUINCY PATRIOT.

SATURDAY, AUG. 30, 1845.

John A. Green, Editor.

Mobism in Kentucky. The efforts of Cassius M. Clay to arouse the people of Kentucky and of the slaveholding States to the horrors of slaveholding have been defeated for a time. The publication of his paper—'The True American"—has been suspended, his printing materials packed up and sent to Cincinnati, while he was sick to his bed—and all this work accomplished by a committee of sixty, chosen at a public meeting held for the purpose. Thus has a desperate blow been given to the liberties of the press, the rights of opinion trampled down, by a gang of rowdies and tyrants, who pretend to the character of gentlemen of wealth and respectability in society. The course taken to defeat the cause of freedom and humanity will arouse a spirit and feeling which *will* conquer, and may C. M. Clay live to see the day when his glorious labors will be rewarded, his cowardly opponents rebuked, the slave set free, and the principles of our republican institutions sustained throughout the length and breadth of this confederacy.

Mexican Affairs. It is now rendered certain that a Mexican army of ten thousand men in three divisions, is on its march to invade Texas. As the United States have a large force within the borders of Texas, a hostile engagement may take place between them. The American General commanding made a requisition upon the Governor of Louisiana, for one thousand volunteer troops, which order was immediately answered and they are now on their march. Some definite news may be expected in a few days.

The two companies of United States troops, which have been stationed a few days on one of the forts in Boston Harbor, have been ordered to Texas.

The Tempest. During the very severe tempest, on Saturday last, the house of Mr. Charles Page in this town, was struck and considerably damaged.

A barn in the western part of the town, belonging to Mr. John C. Underwood, was set on fire by the lightning, and entirely destroyed with its contents of eight tons of hay.

The trunk of an old tree on the Neponset Turnpike, near the Railroad crossing, was also struck and set on fire.

In Dorchester, the Swan House, (so called) was considerably injured; and the cotton drying-house in the field adjoining was also shattered. Both of these buildings were set on fire but soon extinguished.

The Rev. Mr. Angier's church in Milton, several trees on Milton Hill, and also others near the Railway, were struck.

A butcher of Roxbury, while driving, had his horse instantly killed, and he escaped uninjured.

Mr. Daniel Britt, of North Bridgewater, while returning home through a field, was instantly killed. The fluid struck him on the back part of the neck, severing the flesh as if cut with a sharp knife.

Several houses in Hingham were struck and more or less damaged.

Scientific American. The first number of this weekly journal has been received. To judge from the appearance, it presents high claims to the support of the mechanic and every friend of scientific improvements. It is illustrated with several well executed wood engravings, of important inventions well designed to enhance its interest to the class of readers for which it is particularly devoted as well as to excite a spirit of advancement with the general reader. We cannot better express our views of the general outlines of this paper to the mechanic and manufacturer than the following extract from the prospectus:

"Each number will be furnished with from two to five original Engravings, many of them elegant, and illustrative of *New Inventions, Scientific Principles* and *Curious Works*; and will contain, in addition to the most interesting news of passing events, general notices of the progress of Mechanical and Scientific Improvements; American and Foreign Improvements and Inventions; Catalogues of American Patents; Scientific Essays, illustrative of the principles of the science of Mechanics, Chemistry, and Architecture; useful information and instruction in various Arts and Trades; Curious Philosophical Experiments; Miscellaneous Intelligence, Music and Poetry."

The terms are two dollars per year; and subscriptions will be received at this office.

Thursday Messenger. W. W. Clapp & Co., the veteran publishers of the Boston Evening Gazette, a paper conducted with ability and interest, have recently commenced the publication of the Thursday Messenger, at two dollars per annum. It is a large sheet, beautifully printed on fair type, and its columns filled with a variety of excellent reading matter.

Liberty Convention. A call has been issued for a grand Liberty Convention for the eastern States, to be held in Boston, commencing on the 1st of October next. The call is numerously signed by gentlemen of Massachusetts, Maine, New Hampshire, Vermont, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania.

Iowa. The people of Iowa have a second time voted not to come into the Union, as a State under the act of the last session of Congress. They object to the limits prescribed to the State in that act.

According to the figures of the New York Journal of Commerce, the United States Senate will be composed of thirty democrats, and twenty-four whigs. Of the House of Representatives two hundred and ten members have been elected—one hundred and twenty-eight democrats, seventy-five whigs, and six natives.

Twenty-eight thousand cases of shoes, containing one million one hundred and eighty thousand pairs, were made in the town of Haverhill, in this State, last year. The cost of the shoes was estimated at between six and seven thousand dollars.

Working on the Sabbath has been made a penal offence, by special enactment of the City Council of Richmond, (Va.)

On examination it was found that of the two hundred and three convicts in Auburn (N. Y.) State Prison, all but one were accustomed drink!

The slave traders who rescued a prize from a British cruizer, on the African coast, killing ten Englishmen a few months ago, have been tried in England and condemned to death. They are natives of Spain and Portugal.

The Burlington (Iowa) Hawk-Eye gives a historical sketch of that thriving place. It was settled just twelve years ago and now contains three thousand inhabitants—an increase of one thousand in two years. Its location (two hundred and fifty miles above St. Louis on the Mississippi) is very favorable to its growth and prosperity.

In Paris, when a corpse is carried through the streets, every person who meets it, from the king to the scavenger, takes off his hat and keeps it off till the mournful hearse has passed. Indeed, many persons not only uncover their themselves, but instantly drop on their knees on these occasions.

An Italian who had been strolling about Albany, (N. Y.) soliciting alms, was arrested under the vagrant act, when it appeared that he had quite a quantity of gold coin secreted about his person.

The editor of the Cincinnati (Ohio) Gazette recently counted twenty-one wagon loads of melons at one time in the street of that city. The prices ranged from one cent to one dollar apiece.

One section of the "Bill of Rights" introduced into the Texas Convention, stipulates that "no minister of the gospel or priest shall be a member of the General Assembly."

"He is a wise man who learns from every one; he is powerful who governs his passions; and he is rich who is content."

Ex-President Jackson, a few months before his death, declarel to the Rev. John Chambers that, for nine years, not one drop of intoxicating liquor had passed his lips.

Carter and Parke have been executed at Belvidere, (N. J.) for the murder of the Casner family, perpetrated in May, 1843. The culprits died protesting their innocence. The execution was attended by ten thousand persons.

Seven brothers recently met in New Hampshire, having been apart over thirty years; their united ages were a little more than four hundred and fifty four years.

It is said that orders have been sent by express vessels, to the Mediterranean Squadron, (which is the nearest,) to repair to the Gulf of Mexico, and also to other naval stations, announcing an expected declaration of war, by Mexico, against the United States.

The Post Master Genaral has received an application for the appointment of Postmaster, at Galveston, Texas.

Two thousand men are engaged in the burnt district in New York.

Charles A. Wheeler, who had his leg fractured by the accident which happened to the Weymouth Stage, at the Depot in Boston, continues to do well, and little doubt now remains that the limb will be saved. The fracture, however, was a horrible one, and several pieces of bone, of two or three inches in length have come out.

In Davidson County, (Tenn.) in which Nashville is situated, President Polk was beaten in the gubernatorial election of 1843, five hundred and eighty-three votes. In 1844, (the Presidential election) he was again beaten by five hundred and eighty three votes. In the late election (1845) the democratic candidate for Governor was beaten by his whig opponent by five hundred and eighty-three. Close running for three years.

Hon Asahel Huntington of Salem, District Attorney, on account of ill health, is about to tender to the Governor his resignation of the office he holds, and the duties of which he has so efficiently administered.

Ex-Governor Corwin, of Ohio, who has a very swarthy complexion, while traveling about fifteen miles from Cincinnati, was seized by a party of armed men, who rushed out of the woods, and, swearing that he was a colored man, they tied and bore him to a jail as a runaway slave!

A plum pudding was made in England, in 1658, of a compound of scraped biscuit, sweet currents, salt and pepper, which were made into a paste wrapped in a cloth and boiled in a pot of broth. It was then taken out of the cloth and put in a plate, and some old and rancid cheese was grated over it. It must have been a delicious composition.

The Maysville (Ky.) Eagle states that the excitement caused by C. M. Clay's True American has compelled the editor of the Christian Intelligencer to suspend the publication of his paper.

Students who enter Williams College are required to sign the Temperance pledge—which if they violate during their College term, they will be dismissed.

Ernest H. Cheatham, of Boston, who has for many years been employed as a designer for the Print Works in Lowell, committed suicide last Wednesday, at the Commercial Coffee House, in Milk street, by cutting his throat with a penknife.

The Parisians say the reason why there are so few fires in Paris, is, because there are so few houses insured.

A man who was in the habit of talking to himself, being asked by his wife why he did so, replied that he liked to converse with a man of sense.

Abstain from trifling, frivolous and profane language. The indulgence in such habits, indicate no trait of a gentleman or of good breeding, which should characterize all our intercourse in society.

A fool's tongue is long enough to cut his throat; a tattler's is long enough to cut half the throats of a whole neighborhood.

The Foreign Quarterly informs us that there are forty-two millions of serfs in the Russian empire, of whom fifteen millions belong to the Crown, and twenty-seven millions are private property—according to the recent census of Russia.

Lowell is not quite twenty-five years old, and already ninety-one mill powers have been sold there, and about all the mill powers have been exhausted. Steam, however, is to be used for more extensive manufacturing purposes. A great deal of the present water power, it is said will also be saved by what is called mule spinning.

A southern paper says that the Lowell Offering a work conducted by the factory girls, is better patronized in New York, Baltimore, Augusta and Savannah, than in New England.

An Oneida deputation of Indians have just returned from Washington, (D. C.) with the permission of government to go to Missouri and settle.

Rufus Welch, proprietor of the Great New York Equestrian Company, has sailed in a steamer in search of Novelties at London and Paris for the next season.

The editor of a paper in Little Fort, (Ill.) says that the town has nine places where liquor is sold, but not a single church!

Girls should bear in mind that it takes something more than a bustle, parrot twattle, and street-walking, to make *woman*.

The North Hampton and Springfield, and North Hampton and Greenfield Railroad Companies, have united and organized as one Corporation, by the name of the Connecticut River Railroad Company.

In London, the people pay a penny for being shaved, and a six-pence for a newspaper; but, in this country, they pay six-pence for being shaved, and a penny for the best newspaper. The printers are on the wrong end of the stick.

The Springfield Mutual Assurance Company require every house they may hereafter insure, to be furnished, either with a *scuttle* in the roof, or a *ladder* attached to the house.

The Ohio Penitentiary contains four hundred and sixty-four convicts, whose net earnings to the State, above expenditures, are $18,343. There are but seven female convicts among the whole number.

A *colored* temperance convention has been held at Hudson, (N. Y.) Three thousand were present, and the proceedings were conducted with great decorum. The next convention will be held in July, 1846.

The New York Tribune, states that two or three of the Lowell companies which made good dividends last year, earned them altogether by manufacturing for *foreign* markets, where their products came in direct competition with the cheap fabrics of England.

Virginia and Tennessee contain over fifty-eight thousand persons, over twenty-one years of age, who cannot read or write.

In 1758, a wager was won by a young lady at Newmarket, (Eng.) who had undertaken to ride one thousand miles in one thousand hours, which she effected in little more than two-thirds of the time!

Samples of *sole leather* enveloped in a letter, have been sent from Ohio to Danvers, (Mass.) by Uncle Sam's Mail. Postage only ten cents.

Jurors. Messrs. Thomas P. Newcomb and Lloyd G. Horton of this town, have been drawn as Petit Jurors to attend the ensuing session of the Court of Common Pleas, at Dedham, commencing the third Tuesday in September.

The devastation caused in all parts of this extended country by means of diseases of the Liver and Lungs, urges us to frequently point out to our readers the advertisement of Mr. C. Brinkerhoff's Health Restorative. This Herbal Syrup, is put forth boldly and confidently as a cure for those diseases, and the multitude of witnesses ready to prove its efficacy, are as respectable in character as in number, and their testimony is strong enough to win even the most stubborn of the incredulous.

MARRIED.

In this town, 24th inst., by Rev. S. A. Davis, Mr. William L. Barnard to Miss Susannah E. Ford.

DIED.

In this town, 25th inst., Samuel F., son of Mr. Charles E. Whiton, aged 1 year and 11 months.

On the 28th inst., Anne Dudley, daughter of Mr. James and Mrs. Catharine Day, aged 3 months.

In Braintree, 23d inst., buried in this town, Mr. Samuel Bent, aged 33.

In Weymouth, 17th inst., Miss Mary Sanborn, only daughter of Dr. Noah Fifield, aged 21.

In Orleans, 16th inst., Charles, son of Mr. Thomas Arey of this town, aged 4 month and 7 days.

In Dedham, 26th inst., Gen. Nathaniel Guild, 70.

Bricks. Bricks.

100,000 HARD AND SOFT BRICKS, superior to any that has been in the market this season, just received and now for sale.

N. B. A lot of soft BRICKS at the low price of $5,00, delivered at any part of the town.

EDWIN WOOD.

Quincy Point, Aug. 30. 3w

A CARD.

The subscriber would respectfully tender his most sincere thanks to the members of the Granite Engine Company, No. 3, and citizens of Quincy, for their energetic efforts to rescue his property from the flames during the tempest of Saturday last.

JOHN C. UNDERWOOD.

NOTICES.

By order of the Town Committee.

John H. W. Hawkins will lecture on Temperance, at the Railway Meeting-house, TO-MORROW AFTERNOON, at five o'clock, *precisely*.

N. H. GORDON, *Secretary*

Rev. John Gregory will lecture on Temperance in Rev. Mr. Allen's Meeting-house, next SUNDAY EVENING, at half past five o'clock.

A collection will be taken to defray the expenses of the house. T. KELLOGG, *Secretary*.

The Union Meeting of the two boards of Officers of the Washington and Total Abstinence Societies, will be held at the Temperance Reading Room, over Mr. Gill's Bookstore, next MONDAY EVENING, at half past seven o'clock.

T. KELLOGG, *Secretarn*.

There will be a social Temperance Meeting of the Young Men's Washington Total Abstinence Society, at the Temperance Reading Room, on TUESDAY EVENING, at eight o'clock.

Ladies and gentlemen are invited to attend.

CHARLES E. RHOADES, *Secretary*.

A public, social Temperance Meeting will be held in the Temperance Reading Room, THIS EVENING, at half past seven o'clock.

T. KELLOGG, *Secretary*.

'General Cold Water Army.'

At a meeting of the officers of the 'General Army,' with the Presidents and other officers of the Armies of the Point and West Districts, held in the Temperance Reading Room, Thursday evening, 14th inst. the following resolution was unanimously adopted:

Resolved—As the unanimous opinion of the officers present, that the proposed celebration of the 'General Army,' the present or the next month, had better be omitted, for the following reasons:

1st—The want of a convenient house or place; the expense and trouble of erecting a tent or enclosure in the grove being too great to warrant the undertaking this season. Next year the Lyceum Hall will probably be furnished with settees, which, with other seats that may be obtained, would seat the new Town Hall, which could doubtless be had, and would be suitable for the purpose.

2d—The want of time on the part of the officers to attend to such extensive arrangements.

Instead of the general celebration, the Officers recommend to the several Armies in the Centre, Point, and West Districts, to hold Pic Nicks, or in some other way to meet the long cherished expectations of the children through the town.

Should anything occur, to call together the General Army, due notice will be given. It is hoped they will hold themselves in readiness for any emergency.

EZRA WALKER, Jr., *Secretary*.

The Selectmen of Quincy, hereby give notice that they will be in session, at their room in the New Town House, the last SATURDAY in each month until further notice, from *two to five* o'clock in the afternoon. All persons having business with the Town are requested to pre sent it on said days.

LEVI G. FOLSOM.

Jayne's Life Preservative.

An Alterative and Depurative, combining all the medicinal virtues of those articles, which long experience has proved to possess the most safe and efficient alterative and dunbstrvent properties, for the cure of Scrofula, King's Evil, White Swellings, Ulcers, Scrofulous Cancerous and Indolent Tumours, Rheumatism, Gout, Scurvey, Neuralgia, or Tic-Doulourex-Cancer, Goitre, or Bronchocele' (swelled-neck) enlargement of the bonds, joints or ligaments or of the ovaries, liver, spleen, kidneys, &c. All the various Diseases of the Skin, such as tetter, ring-worm, biles, pimples, carbuncles, &c., dropsical swellings, constitutional disorders, and originating from a depraved or impure state of the blood or other fluids of the body.

Prepared only by Dr. D. Jayne, No. 8 South Third street, Philadelphia, and sold by CALEB GILL, Jr., Quincy.

Quincy Aug. 2. 3w

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs, Asthma, and CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the case of pulmonary diseases, warrants the American agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the clmate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the Lungs, Bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

DAVID F. BRADLEE, sole Agent of the United States, 119 Court-street, Boston.

N. B. All of the above articles will be found at the Store of
S. S. MARSH,
a few rods South of the Stone Temple, in the same building of the Quincy Bookstore, entrance on the south side. tf Quincy, May 3.

NEW VOLUME
OF THE
New England Family Magazine.
August, 1845.

WITH the August number commences a New Volume of the NEW ENGLAND FAMILY MAGAZINE. The success which the publishers have met with in this undertaking has determined them to make greater efforts to render the work still more valuable and attractive. To this end they have been to much expense in their arrangements to make the forthcoming volume one of great intrinsic merit. Woodcuts and Illustrations of interesting subjects will be frequently introduced, and the same care and discrimination that have been used in the selection of articles heretofore will be continued. The publishers are determined that this Magazine shall not be indebted for its popularity to extraneous means, but shall rest its claims for patronage on the excellence of its contents.
THE NEW ENGLAND FAMILY MAGAZINE will be printed with beautiful type, on fine paper. It will contain 48 pages monthly, making a volume of 576 pages of valuable and useful matter each year.
TERMS OF SUBSCRIPTION. *One Dollar and Fifty Cents per annum, in advance, or Two Dollars if not strictly paid within the year.*
☞One copy of the *Family Magazine* and one copy of "*Robert Merry's Museum*," (a Magazine for Youth published monthly, at one dollar per annum) one year, two dollars, if paid in advance.
☞The FAMILY MAGAZINE, will be furnished to Clubs at the following prices :
Three Copies, one year FOUR DOLLARS.
Five do. " " SIX do.
Ten do. " " TEN do.
☞Agents will be supplied with the above work at a liberal discount. All orders should be addressed
BRADBURY, SODEN & CO ,
No. 12, School Street, BOSTON.

C. BRINCKERHOFF'S

THE great and principal object to be desired in any medicine that makes any pretension to cure all or any class of diseases, is, that it should show evidence of such power of cure and in a reasonable space of time. In disease of a complicated nature, where the effect is deep seated, as in Consumption, Liver Complaint, Coughs, Colds, Asthma, and pain in the Breast and Side, it is an extremely difficult matter to bring it under the effect of usual remedies. It appears requisite that the compound should be of such a peculiar combination, that all its materials may act simultaneously upon the affected organ, and not have its power diffused to other parts of the human frame, and that these materials have some defined medical effect on that organ. Most truly in the Health Restorative do the component parts, when separately or collectively considered, most convincingly show their individual and connected power and efficacy. Thus it is this remedy exerts such an astonishing influence in the complaints for which it is commended. If in any solitary case it had not power efficacious, the confidence of the public would have been shaken, but from its never failing promptness in checking the ravages of disease, and its sure power in restoring to health and strength, it is placed even beyond the possibility of a doubt that the acme of perfection in such a medicine has been gained. Let the certificates of the greatest and most honest men of our country or a faithful trial of the Restorative, convince those who seem otherwise incredulous of such a remedy. The following certificate is from Dr Chilton, the well known New York chemist.
"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."

POETRY.

For the Quincy Patriot.

LINES

To John Jacob Astor, on reading that he is worth twenty-five millions of dollars.

Oh Jacob, plenty is your lot—
A happy man the while;
You always have a well fill'd pot
And means to make it boil.

Your elbows they are never out,
Your shoes are always good;
Your stockings whole beyond a doubt,
And then your luscious food!

Fat turkey, chicken or sirloin—
But lift your silver wand,
To whatsoever you incline
'Tis ready to your hand.

'Tis long ago since I have smelt
A turkey on the spit;
But then its flavor, oh ye powers!
I never can forget.

'Tis true, of goose I have enough—
A tailor, sir, am I—
But then tis so confounded tough,
Its flavor 's all in m' eye.

Well, though I am not rich mysel
I'm glad that you are so;
My mush and treakle answer well
To make my babies grow.

And though I'm sometimes out of grist,
When both our heads are cold,
'Twould puzzle a phrenologist
To tell which owns the gold.

F. M. Adlington, Weymouth, Mass.

I NEVER CAN FORGET.

I never, never can forget,
Although we may forever part,
The hour, the place where first we met
Is deep engraven on my heart.
Whete'er my fate through life may be,
My heart will cling the same to thee.

When summer's sun, with genial skies,
Shall wake to beauty thousand forms,
Or when old winter's winds arise,
And nature groans with blasting storms,—
Then each and every change I see
Shall waken tender thoughts of thee.

When glowing day, or mellow night,
Come on with nature's sweetest powers,
And sun or stars are beaming bright,
Oh! then, in those inspiring hours,
Shall deeper in my memory be
The happy hours I've passed with thee.

Should fame or fortune be my lot—
The world its smiles and favors shower,
Think not that thee will be forgot—
That earth's most precious gifts hath power
The void within my heart to fill?
Ah! no; they cannot—never will.

Or should some fickle fortune fail,
And friends prove false, and hopes decay—
Pale sickness make this form to quail,
And darkness lower upon my way—
Oh! *thou*, in that dark hour shalt be
A light, and joy, and hope to me.

I never, never can forget,
Although we may forever part,
The hour, the place where first we met
Is deep engravened on my heart.
What'er my fate through life may be,
My heart may cling the same to thee.

STANZAS FOR MUSIC.

She sleeps where none can wake her,
No deceiver can be found
To flutter round her, then forsake her,
Beneath yon hallowed mound.
She sleeps the dreamless slumber—
The long and quiet sleep;
No night's dark hours for her to number,
No morn to wake and weep!

Ere youth's first dawn had faded
On her fair and rounded cheek,
The clouds of early sorrow shaded
A spirit soft and meek;
As howls the storm at even,
Nor marks the rosebud's sigh,
So, breathing low a prayer to Heaven,
She bowed head to die!

ANECDOTES.

'Charles,' said a father to his son, while they were working in a saw-mill, 'what possesses you to associate with such girls as you do? When I was of your age I could go with the first cut.'

'But,' said Charley, 'the *first cut* is always a *slab*, did you know *that?*'

'Help me turn this log, Charles, quick!'

'I say, Mister, how came your eyes so crooked?'

'My eyes?'

'Yes.'

'By sitting between two girls and trying to look love at both at the same time.'

'How old are ye?' said Major Kiplins to a dwarfish young man.

'Twenty.'

'I wonder you ain't right down ashamed of being no bigger; you look like a boy of ten.'

'All comes of being a dutiful child.'

'How so?'

'When I was ten, father put his hand on my head and said, '*stop there!*' and he then run away. I've never seen him since, and didn't think it right in me to go on growing without his leave!'

A gentleman who had just been shaved by a barber, asked for a towel to wipe his face with, and, on being presented with one, asked the master of the shop if he had not another.

'No,' replied the barber, 'all my customers have used that for *three weeks*, and no one ever complained of it before.'

'If that's the case, I will not complain of it *again*!' replied the gentleman.

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Handcock, Wm. H. Aitree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Kraddy of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 20 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; R. Gleason, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

June 28. tf

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, 'if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educated and experienced Physician, rather than the precatious and dangerous doings of Quacks and inexperienced Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10; sent to all parts of the Union. Office and consultation rooms,

4 1-2 SUDBURY STREET,
(Opposite Alden Lane.)

Boston, March 22. tf

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*
JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine:

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health and have not raised any blood since the use of the first bottle of this excellent preparation.

WYMAN ABERCROMBIE.

Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark:

DEAR SIR—I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. Yours, truly,

IBRAHIM BARTLETT.

Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.

Only Office in Boston, No. 51 1-2 Hanover Street (up stairs.) People in other cities and in country towns may obtain the Medicine by sending for it through conductors of railroad cars, drivers of stages, or in such other way as may be most convenient to them.

Boston, May 20. tf

Balzorines—Balzorines.

The Great Remedy

FOR

Consumption, Asthma, Dyspeptic Consumption, Spitting of Blood, Bronchitis, Difficulty of Breathing, Hoarseness, Influenza, Croup, Colds, Pain in the Breast and Side, Dyspepsia, and various affections of the Stomach and Liver.

Folger's Olosaonian, or All-Healing Balsam.

IT is acknowledged that more persons die of Consumption than of any other disease. It is estimated that in the United States over THIRTY THOUSAND PERSONS annually fall victims to this dreadful scourge. The cause of the evil is generally overlooked. *A short dry Cough* is the precurser—or a neglected cold. These symptoms are deemed unimportant. Pain in the Side, Hectic and night Sweats follow, and death ends the scene.

Would you find a REMEDY FOR THE EVIL? Here it is. The experience of more than twenty years has proved its efficacy, and thousands are rejoicing in its effects.

Case of INCIPIENT CONSUMPTION.—George W. Burnett, Esq. of Newark, N. J., had suffered under the effects of a severe cold for more than a year, and in the month of August, when his Cough had reduced him so much that he feared he would die, he commenced using the Olosaonian. He raised blood, and was very much debilitated by *night sweats.* His appetite was gone, and altogether he appeared to be rapidly sinking. He was so much relieved by the use of this remedy that by the month of November he left for Pittsburg, Pa. with every prospect of being permanently cured.

Read the following case of CONSUMPTION.—The cure was truly a wonderful one and places the '*Olosaonian or All-Healing Balsam,*' at the head of the list of remedies for eradicating that dreadful disease:

George W. Hays, residing in this city, (New York) was seized with a severe cold in the early part of the summer. His cough became very troublesome and he began to *raise blood.* He complained of a severe pain in the chest and his breathing became so short that he could not walk any distance without stopping for breath. His night sweats reduced him very low. He was under the care of several physicians in Brooklyn, who told him they could do no good, as his disease was a settled and fixed Consumption. He removed to this city to die among his friends. He was by this time so weak that he could not walk without assistance. Although his friends had now given up all hope of his ever being any better, he commenced using the '*Olosaonian, or All-Healing Balsam,*' and in a few weeks was so far restored as to able to resume his business.

Mr. T. Laban, residing at 52 Pine street, was severly afflicted with Asthma, in consequence of having taken a severe cold in the early part of last winter. In the early part of the night he could sleep tolerably well, but towards one o'clock in the morning his Asthma became so severe that he was obliged to get up and sit for the remainder of the night leaning forward on a chair. His cough was most distressing through the day. He had, during his sickness, tried almost every thing without relief. He never had a good night's rest in ten months, until he commenced taking the Olosaonian or All-Healing Balsam, when he found immediate relief, and before using half a bottle of it was perfectly well, and now sleeps as quietly as he ever did in his life.

Hundreds of cases could be given to prove the efficacy of the great remedy. And it possesses a property superior to all others, viz: it does not constipate the bowels. Reader, are you suffering under any of the above symptoms of disease? Try this remedy.—It will allay the *Pain in your side and chest*—put to flight the COUGH which deprives you of sweet slumber and repose; if you have Asthma, be assured there is no medicine in the world that will cure you so speedily, and it will arrest all those disagreeable symptoms which strike such terror to the mind and give such dreadful forebodings of an untimely and speedy dissolution.

Sold at one dollar, per bottle, by REDDING & Co. State street, Boston; and by the following appointed agents:

Mrs. Hayden, Quincy; J. Babcock, Milton; M. D. Plumer, Milton; Eli Thayer, Weymouth; Wm. A. Torry, do.; King & Nash, Abington; N. N. Dyer, do.; A. E. Dubois, Randolph; R. Gleason, Dorchester.

August 16. tf

SUGAR COATED VEGETABLE PILLS

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply drops of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skillfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they find some excuse for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 5 cents per box, with full directions, and sold by the following list of Agents

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. E. Tolman, Dorchester; R. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 28.

MISCELLANY.

THE HEIR'S CHOICE.

"Have you heard that Harry Connor expected home this week?" said Patty Allen, at a sewing circle of our village, looking up from her work while she spoke, as if announcing something of importance.

"No, indeed! You don't say? La, now were the various ejaculations that responded to her remark. "Do tell! is he as rich as handsome as they say?"

"I had the news from his aunt," said Patty. "He is to be home on Saturday. Father says he will be the richest man in the county, for he has got his uncle's estate, and Doctor Parker was the first physician here for thirty years."

"Then the old mansion will be opened once more," said Ellen Eden, looking up with enthusiasm in her fine eyes; "it is so dull and gloomy now, in spite of its magnificent trees, and everything about it seems neglected that I shall be glad when its master returns to clear the dead twigs from the walks and train the roses on the trellice work again, as I remember them when I was a child."

Pshaw!" said Isabel Warner. "If it were mine, I'd cut down all the trees, and tear away the trellice-work porch; and in its place there should be a collonade with Corinthian pillars. I'd have larger windows put in, and the panes thrown into one; and there should be new marble mantles; and then would I give a great ball—oh, such a ball as we've never seen here, and then, girls, you should all be invited."

"I'm afraid," said Ellen, smiling, "that the old palace would scarcely know itself."

"That it would'nt; but what of that? Dr. Parker was a blue-law presbyterian, almost as bad as you, Ellen; but I warrant the young heir is not so old fashioned. Nay, I beg pardon," she said, as she saw Ellen's fair cheek; "I did'nt intend to hurt your feelings."

"There is no need of any apology," said Ellen mildly; "but dear Isabel, I only wish you were a blue law presbyterian, as you call it, or a blue-law-episcopalian, or anything else."

"Well—well—time enough yet," said Isabel half gaily, half pettishly; "but Patty, you have not told us yet if Mr. Conner is handsome," she remarked, turning to the first speaker.

"His aunt says he is, but he was always a pet. He'll be at church, however, on Sunday."

"Then we shall see for ourselves. And girls, the best one is she that gets the first introduction."

"Agreed," said all, and the conversation ceased.

Isabel Warner was a spoiled beauty, but with a naturally good heart, as was evident in her conversation with Ellen, which we have narrated. Between her and Miss Eden there could not be greater contrast than already existed; for Ellen was a girl of rigid notions of duty, an exemplary, though unobtrusive Christian, and one of the mildest and sweetest characters. While every one admired the high-spirited, and brilliant Isabel, all loved the modest and retiring Ellen; the one was the dahlia which flaunts before all eyes; the other was the retiring violet.

In her secret heart, Isabel, already the popular belle of the village, had resolved to make a conquest of the young heir. She indeed ostentation quite as much as she loved flattery; and she longed to be mistress of the mansion. She knew, however, that she had many rivals, for their was scarce a young lady in the village, either by birth, accomplishments or beauty, any pretensions to the alliance, but did not indulge a hope that she might be the favored one. And each resolved to appear to the best advantage on the following Sunday.

Accordingly, the church, on that day, presented quite an array of new bonnets and dressers. Our young ladies had really out

"No, indeed! You don't say? La, now!" were the various ejaculations that responded to her remark. "Do tell! is he as rich and as handsome as they say?"

"I had the news from his aunt," said Patty. "He is to be home on Saturday. Father says he will be the richest man in the county, for he has got his uncle's estate, and Doctor Parker was the first physician here for thirty years."

"Then the old mansion will be opened once more," said Ellen Eden, looking up with enthusiasm in her fine eyes; "it is so dull and gloomy now, in spite of its magnificent belt of trees, and everything about it seems neglected, that I shall be glad when its master returns to clear the dead twigs from the walks and tie up the roses on the trellice work again, as I remember them when I was a child."

Pshaw!" said Isabel Warner. "If it was mine. I'd cut down all the trees, and tear away the trellice-work porch; and in its place there should be a collonade with Corinthian pillars. I'd have larger windows put in, and the parlors thrown into one; and there should be new marble mantles; and then would I give a great ball—oh, such a ball as we've never seen here—and then, girls, you should all be invited."

"I'm afraid," said Ellen, smiling, "that the old palace would scarcely know itself."

"That it would'nt; but what of that? Old Dr. Parker was a blue-law presbyterian, almost as bad as you, Ellen; but I warrant the young heir is not so old fashioned. Nay, I beg pardon," she said, as she saw Ellen's flushed cheek;" "I did'nt intend to hurt your feelings."

"There is no need of any apology," said Ellen mildly; "but dear Isabel, I only wish I were a blue law presbyterian, as you call it—or a blue-law-episcopalian, or anything else."

"Well—well—time enough yet," said Isabel half gaily, half pettishly; "but Patty, you have not told us yet if Mr. Conner is handsome," she remarked, turning to the first speaker.

"His aunt says he is, but he was always her pet. He'll be at church, however, on Sunday."

"Then we shall see for ourselves. And now, girls, the best one is she that gets the first introduction."

"Agreed," said all, and the conversation ceased.

Isabel Warner was a spoiled beauty, but with a naturally good heart, as was evidenced in her conversation with Ellen, which we have narrated. Between her and Miss Eden there could not be greater contrast than already existed; for Ellen was a girl of rigid notions of duty, an exemplary, though unobtrusive christian, and one of the mildest and sweetest of characters. While every one admired the gay, high-spirited, and brilliant Isabel, all loved the modest and retiring Ellen; the one was the dahlia which flaunts before all eyes; the other was the retiring violet.

In her secret heart, Isabel, already the most popular belle of the village, had resolved to make a conquest of the young heir. She loved ostentation quite as much as she loved flattery; and she longed to be mistress of the old mansion. She knew, however, that she had many rivals, for their was scarce a young lady in the village, either by birth, accomplishments, or beauty, any pretensions to the alliance, who did not indulge a hope that she might be the favored one. And each resolved to apper to her best advantage on the following Sunday.

Accordingly, the church, on that day, presented quite an array of new bonnets and flowers. Our young ladies had really outdone themselves. Never had Tiverton shone in such an array of millinery. But Isabel was still the most beautiful girl there; and conscious that this would be so, she delayed her entrance until the services were about to begin.

The young heir sat in the old family pew, nearly opposite to that of the Warners, and more than once during the sermon, his eye wandered to the beautiful being opposite. Isabel's heart beat high with gratified pride; and her triumph was complete, when at the close of the services, the heir advanced to shake hands with her father, whom he recognized, and so designedly threw himself in the way of an introduction to Isabel, of which he availed himself immediately, by walking home with her.

In a short time the young heir became acquainted with the other ladies of the village; but he still showed a decided preference for Isabel. Probably he paid less attention to Ellen than to any of them; and certainly she was the only marriageable young lady in the village who did not seek every decorous opportunity to throw herself in his way. But Ellen neither courted his society nor flattered his tastes. She treated him frankly, and conversed with ease and animation when they met; but she rather shrank from than sought opportunities of meeting him. Yet Ellen felt that Harry Conner was one she *could* love; for constant flattery had altogether failed to corrupt the original nobleness of his heart.

Whether it was this conduct on the part of Ellen, or a gradually increasing appreciation of her qualities, that induced the young heir to seek her society more frequently than at first, we know not; but so he did, and eventually to such a degree that Isabel grew jealous.

One day a pic-nic party was projected, to be held on a picturesque island not far from our village. The party was given by the gentlemen, and great pains were taken to conceal from the ladies the nature of the preparation. All, therefore, that was known, was, that every thing was to be arranged in the most elegant manner. Henry Connor himself had superintended the arrangements, and his taste was proverbial. Every one promised themselves a day of enjoyment; even Ellen entered into the feeling of curiosity; and on the eventful morning many arose an hour before their usual time, impatient, as in earlier years, for the hour of setting forth.

The party was to meet at the house of Miss Warner, preparatory to embarking. All had now assembled; they were waiting for Miss Eden. At last she came, but not attired for the excursion. She had just heard that a poor woman, whom she was in the habit of assisting now and then with alms, was dying, and requested to see her.

"Are you not going?" said a dozen voices. "What is the matter?"

Ellen blushed, but said she could not go—Something quite unexpected had occurred to prevent. "I have run down, therefore, to make an excuse." She would not tell the reason, for she knew there were those present who would attribute it to ostentacious benevolence.

"Pshaw, how ridiculous!" said Isabel, who was vexed, aside to Harry Connor; she is only afraid to go; how I hate such strict, puritanical notions. As if a little harmless amusement was wrong."

"If Miss Eden will not go because she thinks it wrong, she is certainly very narrow minded; and what makes it worse is the hypocrisy which conceals the true reason. Still I cannot believe she is so bigoted."

"There is no other cause; you may depend on it. And we shall be quite as well without her: I hate such long sanctimonious faces, when others are disposed to be merry."

Ellen happened to be nearer than Isabel thought; and, hearing these words from her, her eyes filled with tears, which she with difficulty concealed by turning away. She longed, yet dreaded, to hear Harry Connor's answer.

"You are too harsh," was the reply. "But surely, she ought to be able to give a reason for remaining, if she is not afraid to go."

At these words Ellen was on the point of revealing all; but she reflected that her motives would be misrepresented; and, beside, her modesty shrunk from speaking of her own good deeds. She felt, therefore, that she must allow herself to be misunderstood by Harry Connor; but it was with a pang that she came to this conclusion; and the consciousness of this, led her now, for the first time, to suspect the true state of her heart. She loved the young heir.

Harry Connor was more disappointed, at Ellen's absence, he had believed he could be. He felt a little piqued at her refusal, for he had invited her in person; and to tell the truth, some of the arrangements had been prepared solely to please her. Indeed, Harry, without falling in love, had been growing more and more interested in Ellen ever since his return. The very indifference which she exhibited, so much in contrast with the marked attention which all the others paid him, had the effect to pique him; and pique often leads to warmer sentiments. Considerably mortified at her refusal, he resolved to revenge himself by flirting with Isabel Warner.

The woodland meal had been partaken of, and Harry, tired of the noise of the party, and still out of humor with himself and Ellen, strolled off from the party, and, entering a skiff, began idly to float down the stream toward our village. Unconsciously he went further than he intended; but before taking up the oars to row back, he resolved to land and pluck some flowers which he saw growing luxuriously on the bank. While thus engaged, he noticed a low, log-hut, hard by, from which arose a voice that he thought not unfamiliar. Curiosity prompted him to approach it. The door was opened, and peeping in, he saw an aged woman apparently in the last stages of disease, while Ellen Eden was propping the dying person with pillows.

"God will bless you for this," said the sufferer, feebly. "I know what you gave up to to come hither. I sent for Miss Isabel Warner whom I nursed when a child, but she said she could not come; and then I knew there was no one who would sacrifice their days pleasure for me, except you, Miss Ellen. But heaven will reward you for it."

"Say nothing of it, but compose yourself," replied the sweet girl. "I only did my duty."

"Ah! duty, duty—but that is it. Who do their duty?"

The young heir listened to no more, for he did not wish to be seen. He had heard enough. He noiselessly glided away, and entering his skiff, began to row up the lake. After a while he stopped, and looked at the log cabin he had left behind.

"And it was to seclude herself in that miserable hut," he said, "to watch over the couch of a poor dying woman, that she voluntarily gave up the anticipated pleasures of this day. And I have been calling her puritanical for it."

When Harry Connor rejoined the pic-nic party, he was no longer in a mood for reply to the gay sallies of Isabel Warner. His heart was by the bedside of that dying woman, where Ellen Eden watched in silence and alone. And he looked at the beautiful Isabel, and thought of her heartless refusal to visit her old nurse when dying, he wondered how he could have been deluded into believing her amiable as he had been. She seemed to him now a lovely Medusa, while Ellen rose up before him a ministering angel.

From that day, Harry Connor loved Ellen Eden. He made no allusion, when they next met, to her refusing to attend the pic-nic, but he strove, by the gentle kindness of his manner, to repay her for any regret she might have felt. Ellen scarcely knew what to make of this altered demeanor. There was something so kind in his tone, so respectful in his looks, something so different from anything she had before seen, her heart trembled with happiness. She had resolved to treat Harry so coldly that he would abandon her society; for she knew absence from that beloved object to be the only cure for unrequitted affection. But now she hesitated. A sweet hope began to dawn upon her. Could he really mean to give up the beautiful and brilliant Isabel for her? His intentions were not long secret. The more Harry saw of Ellen, the more he congratulated himself on his escape from Isabel. The very piety of our heroine, on which he at first looked with disapproval, now became a new attraction; for however men, in the giddy maze of gayety, may affect contempt for the christian, they always, in their most seriots moments, wish for a wife who shall be truly pious. Harry now found, moreover, that there was a vast difference between a false, ostentacious christianity, and the pure religion which Ellen practiced so unobtrusively.

"And are you really going to marry Ellen Eden?" said one of his friends to him. "I hear everywhere that she is a canting religionist."

"I am about to marry her," he replied.—"What you mean by a canting religionist, I do not exactly know; but Ellen, however pious she may be, has nothing of cant."

"She teaches Sunday school."

"But is not that a merit, rather than otherwise? Surely, to devote three hours, every Sabbath, to the gratuitous mental and moral instruction of others, is a self-denying task, worthy of all praise; and you will agree with me, that time thus occupied is spent more beneficially than in dressing for a ball-room."

"I am a stranger here, and know nothing of Miss Eden," said his friend, with some embarrassment. "Excuse me for what I said. I am sure I would much rather have a pious wife than an infidel one."

"There you are right, and it is that deep conviction which has made me think of Ellen for a companion. I am only too happy that she loves me. I am unworthy one so good and so pure. Believe me, my dear Frank, the best thing a man can do, is to choose a woman with strong religious feelings. Recollect, the wife is to be the mother of your children—your own consolar in the days of trouble—the guide, who, ever by your side, with sweet smiles and angelic words, is to win you up to heaven.—What would man be without woman? And how dreadful to see an irreligious female, one without any hopes or affections, except for this world, who is thinking continually of gayety and vain show, and who perhaps goes off to a ball when a child or a husband is lying almost at the point of death, with no one by to turn the thoughts to a better world!"

"I never considered the subject so seriously before," said his friend, grasping his hand.—"But I feel that you are right."

"Yes!" said Harry, "and even infidels, strange as it may seem, prefer a conscientious wife, before one who mocks at religion."

"I now see," replied his friend, "how it is that true love and religion are so intimately connected. Reverence is a prominent part in both. I, too, will seek a wife like Miss Eden." With these words they parted.

Harry Connor and our sweet Ellen were married within a month of this conversation, and a happier couple nowhere lives. The husband, like his uncle, has become a consistent christian, and chiefly through the gentle persuation of his wife. Their house is always open to innocent gayety; cheerfulness has her abode there; and all in our village, low and high, alike love them.

A word on Isabel, before we close. From the day of the pic-nic, she saw that her influence over the young heir was departing. She made several abortive struggles to regain him, but all in vain; and, unwilling to have it thought any rival had supplanted her, she hastily accepted an offer from a transient admirer, and was married about three weeks before Ellen. But the ill-sorted match turned out unhappily, as might have been expected; and, for several years, the once admired Isabel has been living in seclusion with her parents, a deserted wife. Misfortune, however, has not improved her character; for she makes all who approach her unhappy by her peevish repinings, attributing to a hard fate what was really the result of her own misconduct.

THE TEETH.

The prevalence of defective teeth in this country is the general subject of remark by foreigners, and whoever has travelled in Spain and Portugal is struck with the superior soundness and whiteness of teeth in those countries.

Nobody need to have an offensive breath. A careful removal of substances from between the teeth, rinsing the mouth after meals, and a bit of charcoal held in the mouth, will always cure a bad breath.

A lump of charcoal held in the mouth, two or three times a week, and slowly chewed, has a wonderful power to preserve the teeth and purify the breath. The action is purely chemical. It counteracts the acid arising from a disordered stomach, or food decaying about the gums; and it is this acid which destroys the teeth.

A dear friend of ours had, when about twenty years of age, a front tooth that turned black gradually, crumbled, and so broke off piecemeal. By frequently chewing charcoal, the progress of decay was not only arrested, but nature set vigorously to work to restore the breach, and the crumbled portion grew again, till the whole tooth was as sound as before? This I know to be a fact.

Every one knows that charcoal is an anti-putrescent, and is used in boxing up animal or vegetable substances, to keep them from decay. Upon the same chemical principle, it tends to preserve the teeth and sweeten the breath.

There is no danger in swallowing it; on the contrary, small quantities have a healthful effect on the inward system, particularly incident to summer. It would not be wise to swallow that, or any gritty substance, in large quantities or very frequently; but once or twice a week a little would be salutary rather than otherwise. A bit of charcoal as big as a cherry, merely held in the mouth a few hours without chewing, has a good effect. At first most people dislike to chew it, but use soon renders it far from disagreeable. Those who are troubled with an offensive breath might chew it very often, and swallow it but seldom. It is peculiarly important to clean and rinse the mouth thoroughly before going to bed, otherwise a great deal of the destructive acid will form during the night.

If these hints induce only one person to take better care of the teeth, I shall be more than rewarded for the trouble of writing. I am continually pained to see young people losing their teeth merely for the want of a few simple precautions; and one cannot enter a stage or a steam car without finding the atmosphere polluted and rendered absolutely unhealthy for the lungs to breathe, when a proper use of water and charcoal might render it as wholesome and pleasant as a breeze of Eden.—*Mrs. Child.*

For the Quincy Patriot.

QUINCY POINT TEMPERANCE PIC NIC.

With excellent fare, addresses, music, etc. the above passed off most agreeably, and notwithstanding the previous day had been very disagreeable, the weather was exceedingly fair, and the sun shining through the openings of the trees of the ground, lit up the ruddy countenances of youthful children gathered together to celebrate the praises of cold water,

"Cold water, cold water, cold water for me."

But to be more particular, I will give you a succinct account of the whole affair. The Pic Nic was held in Hayward's Grove. At a right good hour we were there. The cold water army had not then assembled, but the tables were there loaded down with all that is good and luscious, on which we could but feast our greedy eyes, while our palates might water in vain. We had just satisfied ourselves that all had been done to cater for the youthful appetites, when music struck upon our ear—the youthful band were coming. We stopped a moment to listen to the music which was discoursed most beautifully by the Fore River Band of Weymouth, as we afterwards learned, though at first we were almost satisfied that it was one from our neighboring city. The thick trees of the grove prevented a view of the army. To obtain a nearer view, we approached to the entrance, and lo! a most splendid sight met our eyes. Led by the above-mentioned band, a host of fair youth, arrayed in white, bedecked with nature's green, marched slowly along, with banners high uplifted, on which were inscribed most meaning mottoes; one of which we particularly remarked, and which some young men will have to take exceptions to, or reform. We think the motto needs no repetition here. The Band of musicians divide and the army enters the ground—some wander in every direction buoyant with youthful pleasure—others more thoughtful take their seats around the stage erected for the speakers, desirous of hearing how the temperance reform comes on.

Prayer is now offered by Mr. Burrell in which the blessings of heaven are invoked in aid of the great temperance reform. At its conclusion, the Marshal mounted the stand and called for the nomination of a President for the occation, which resulted in the choice of George Newcomb, Esq., who introduced himself with some very pertinent remarks. The children now sung, and considering their age, very correctly and sweetly; they were accompanied by the band. A few dialogues were then spoken by some of the youth, very well, though not quite loud enough to be heard by all who wished, after which we were surprised to hear that noble veteran and chief promoter of the temperance cause in this country, John H. W. Hawkins, introduced to the audience. His remarks were confined to the increase of intemperance in this country, which he chiefly attributed to the great emigration of foreigners into this country the few past years, in support of which he read some very startling facts. The band now played, and again we repeat, very sweetly, when the President of the day introduced Deacon Grant, that good old man, who has done so much to check the progress of intemperance in Boston, the substance of his remarks we are not able to give fully, owing to the fact that the children had become rather noisy and impatient to commence eating.

The President of the day now seeing that it was impossible to introduce more speakers (allowing that they had them) until the appetites of the youth were satisfied, now invited Mr. Burrell to make a blessing, after which the way the youth fell to food was a caution. The tables were, in a trice, cleared of their viands, and preparations were made for leaving the grove. At this moment we were obliged to leave, for our horse, we had understood, was not very partial to music, sweet as it was, and the procession must needs pass by where he was fastened.

Before we conclude our account, however, we would make some remarks upon the music. We have hinted that we were ignorant of the name of the band and were surprised to hear that it was from the country; but our surprise was increased into astonishment when we learned that it had not been formed more than six months. Being from the city and having the opportunity of hearing some of the best bands in the country, it is with truth that we say, we never heard the pieces they played discoursed better. With regard to the ladies we will say nothing. There are *one* or two whom we should be pleased to see again.

X. Y. Z., A FRIEND OF TEMPERANCE

For the Quincy Patriot.

HON. MARCUS MORTON.

This individual, the Collector of the port of Boston, like all prominent men has his enemies. But he has a *thousand* friends, to one foe, who will continue to stand by *as they have ever done*. If he lives, the United States Senate will confirm his nomination as Collector, and thus silence many who are now violent in their opposition to him for motives best known to themselves. By inserting the following article from the New Bedford Register, you will oblige an old friend and subscriber to your valuable paper. MILTON.

Marcus Morton, for a long time, has held a prominent place among the most distinguished men of the nation. He has been the leader of the democracy of Massachusetts for the last twenty years, and has raised it from a 'conveniently small' number to its present height.

His name has been more potent to lead us to victory than any other that could be selected—under him the democracy have rallied again and again. So strong has he been, that the federal party though always a powerful one in this Commonwealth, could not rely on their concentrated wealth, their boasted talents, and all the various ways by which they attempted to deceive the people against the democracy under the banner of Morton. They feared and hated him, yet they were obliged to respect his pure moral character, his high reputation as a man of talents, honor and integrity, and never during the long time he was the candidate of the democracy nominated by acclamation, dare they make a personal attack upon him. No man in this Commonwealth ever stood higher—none enjoys the respect and confidence of the democratic party in an equal degree—none is more worthy of entire confidence as a public officer—no individual could be more faithful and impartial in his administration as Collector of Boston.

In the changes he has made, we believe he has acted with a single eye to the public good, and by advice of distinguished members of the democratic party—here and at Washington.—He has been under the necessity of removing some of the most active, industrious and able managers, that could be found in creation, who have manifested a determination to break him down by misrepresentation and the manufacture of public opinion, aided by a few talented, respectable and wealthy individuals, for purposes known to themselves.

But, we believe, this attempt to induce the

Senate of the United States to reject one of the purest men in the Union, must fail. So far as the democratic party of this Commonwealth are concerned, if their voice can be heard, we feel assured it will fail. The democracy of this part of the State will stand by him to a man, and we believe he is equally popular at the west.

We hope the attempt to get Gov. Morton rejected will be withdrawn—too much has already been done by the Senate to break down the strong men of the republican party—we hope no good man will ever again be rejected. We have no democrats to spare, and he that denounces any of those who are recognized as members of the party for the gratification of personal feeling, is no democrat, and cannot expect to be treated as other than a disorganizer and an enemy to democracy.

We regret that it is our duty thus briefly to speak of defection, though of a very small extent, in the democratic ranks—of opposition to the most deserving son of the old Bay State. But as a faithful conductor of a public journal, we could not longer remain silent. Morton's fall would annihilate the party here, and, in our humble opinion, endanger the democracy of the Union. Beware, then, fellow democrats, of every man or set of men who would array one portion of the supporters of a Republican government against the rest—cherish and support your long-tried and faithful Morton—let not your enemies, under the guise of democracy, deceive you, and all will be well.

For the Quincy Patriot.

QUINCY HIGH SCHOOL.

Mr. Editor—I was glad to see a communication in a late number of your paper, over the signature of "A Parent," relative to the Quincy High School. I trust the writer will give us another article on the same subject. We want information relative to the Adams fund for the High School. Who are the supervisors, and what are they about?

Fair Play.

For the Quincy Patriot.

WEYMOUTH IN THE FIELD.

At a meeting of the democrats of Weymouth, held pursuant to notice, Sept. 2d, the meeting was called to order by Maj. Thomas B. Potter, chairman of the Town Committee.

On motion, Gen. Fisher A. Kingsbury was appointed Chairman, and Edmund Thomas, Secretary. Upon taking the chair, the Chairman adverted to the cheering prospects before us, the flattering auspices which now marked the course of our National Executive, and the success of our cause elsewhere; after which, upon motion of Col. John W. Thomas, a committee of five were appointed to draft resolutions for the consideration of the meeting, consisting of Edmund Thomas, Samuel Curtis, Martin Derby, David J. Tirrell and John W. Thomas. The Committee, after consultation, reported the following resolutions, which were accepted by the meeting.

Resolved—That while we lament the decease of the heroic and venerated Jackson, we have cause to rejoice that he closed his earthly career under a democratic administration and on the incoming to our glorious Union, of the gallant and patriotic State of Texas, the annexation of which he deemed of such vital importance to the country that his last energies were sacrificed upon the all important question.

Resolved—That we have the utmost confidence in the ability, impartiality and high sense of honor in which the Hon. Marcus Morton has discharged his official duties to the democrats of the Commonwealth, and we fully deem him competent to manage the affairs of the Boston Custom House, with honor to himself and to the country.

Resolved—That we recommend the Hon. B. V. French of Braintree, as a candidate for Lieutenant Governor. His long devotion to the democratic cause, his faithful discharae of public duties, his unsullied reputation, is a safe guarantee that his nomination would secure the response of the people.

Resolved—That with the glorious prospect before us, our success in Tennessee in the late contest, and our probable triumph in most, if not all, of the Southern and Western States in the coming elections, should stimulate us to renewed exertions for the redemption of the Old Bay State from federal thraldom.

The following gentlemen were chosen delegates to the Springfield Convention:—Gen. Fisher A. Kingsbury, Lovell Bicknell, Esq., Col. John W. Thomas, Leonard B. Tirrell, Thomas J. Nash, Lemuel Torrey.

Voted—That the proceedings of this meeting, properly attested, be published in the democratic papers of Boston and Norfolk County.

FISHER A. KINGSBURY, *Chairman.*
Edmund Thomas, *Secretary.*

Large beds of chalk have been found in Northwestern Arkansas, the first and only discovery of the kind in the United States.

The trustees of Alleghany College, Meadville, (Pa.) announce that having realized seventy-five thousand by the sale of perpetual scholarships, that institution will soon re-open.

The Hingham Patriot states that it is rumored arrangements are making for the erection of a large and commodious hotel at the head of Nantasket Beach, which will be ready for occupancy next season.

While the real and personal property of Boston has increased some twenty millions of dollars in three years, that of New York has diminished by fifteen millions.

The population of Mexico at the last census, amounts to within a fraction of seven million of peop'e. Of this population one-seventh are whites, the rest are Indians, half-breeds and blacks.

A patent has been granted to a Troy, (N. Y.) gentleman not to embalm but *petrify* bodies. The body is to lay two weeks in a liquid and then comes out solid as marble, and may be placed in a niche in the hall among other statuary.

A "ladies man," we suppose—lately applied for the benefit of the Bankrupt Act, and upon being asked how much he owed, he said he saw they charged a man ten dollars for kissing a girl in Ohio, and if the price was as high here, he supposed that he must be in debt about a half a million. Of course the attorney fainted.

QUINCY PATRIOT.

SATURDAY, SEPT. 6, 1845.

John A. Green, Editor.

"Pay Up." A little more of the "ready" is needed by us from our delinquent patrons. Give us a call *this evening* with the money in hand. We shall be glad to see you, and especially the cash.

Quincy. Our good old town is in a highly prosperous condition if steady employment and good wages to its mechanics and laborers, and active business with its tradesmen are any token of prosperity. The quantities of stone taken from our quarries and conveyed to the great cities of the Union, almost surpass belief, and although our ledge banks discount so largely yet the builders of Boston, New York and elsewhere are still "asking for more," and our granite-men never refuse when they are able to accommodate. The shoe business is also in a good condition, if we can judge anything from the neat and handsome houses that are springing up around and about us. No less than fifty-four houses (perhaps more) have been erected in this town within a year, and we hear of new ones commenced every day, nearly all which are erected by mechanics for their own accommodation—very few for the purpose of being leased.

Milton Academy. This institution, so long favorably known to the community, will be ready to receive pupils on the 10th instant, when a new Term commences. It will then be under the charge of Mr. Chute, formerly of Woburn, who is highly recommended as an able and efficient tutor. The location of the Academy is such that the attention of scholars will not be drawn from their studies, it being in a situation comparatively retired and withal healthy and pleasant. Persons having children desirous of attending an Academy where all branches of education suitable for admission into our Universities, or for a mercantile life are taught can find no Institution presenting more advantages than the Milton Academy. The names of the gentlemen who are its Trustees are well known in this community and under such guarantees it must fulfil the highest expectations both of parent and pupil.

New Roads. It is contemplated, and workmen are engaged, to construct a new road continuing Copeland Street, in the west district, through land formerly of George Faxon, and extending it to Franklin Street in the southerly part of the town; and also a road running from Coddington Street along the north side of the old Town House, to come out on the Turnpike, passing in the rear of the estates of Messrs. Savil, Adams, Horton and others. Both these roads would be of great benefit, as they would throw many house lots into the market and make two new thoroughfares, both of which, owing to the increase of business, are much needed.

Hancock House. This well conducted establishment has been much enlarged and offers great enducements from its location near the depot and from the neatness and regularity with which it is kept, to all persons transacting business in Boston to make it their residence during the summer or winter months. In the course of a few weeks the extensive alterations and additions made by Mr. French will be complete, and, with the completion of the rail road, the house will no doubt be well filled. Many applications for board, as we understand, have been made, the applicants wishing to run no risk in securing so desirable a situation.

Commutation of Punishment. Orrin De Wolf, under sentence of death at the Worcester jail, for the murder of William Stiles, has had his sentence commuted by the Governor and Council, to imprisonment for life in the State prison. He was, through defects in his education, and by bad associations, brought even in youth into the meshes of an abandoned woman, which rapidly worked his ruin. He is not yet twenty years old. His punishment was commuted, says the Worcester Spy, not simply on account of his youth, but upon the ground that in the circumstance of the murder there were substantial reasons for the mitigation of the penalty.

Anti-Rentism. The Governor of New York has issued a proclamation, by which the County of Delaware is declared to be in a state of insurrection, and martial law has been proclaimed and a battalion of militia ordered out. This is in consequence of the course of the anti-renders, in resisting the civil officers by armed and disguised forces in the execution of their duties.

The Slave Case. The Grand Jury of the United States Circuit Court at Portland, (Me.) have found bills against Capt. Cyrus Libbey, late master of the brig Porpoise, for participation in the slave trade, alleging a particular offence, which the statute of the United States, is declared to be piracy. Also, two other bills against the same, for being engaged in other offences, connected with slave trading—declared by the act of 1818, to be high misdemeanors, punishable by fine and imprisonment.

Fort Warren. The official name of the lower fort in Boston harbor, (now nearly completed,) is Fort Warren. It was formerly called Fort George. The Old Fort Warren, nearly opposite the Castle, is officially known as Fort Winthrop. Fort Warren is two or three miles inside of the outer light house, and has an entire command of the entrance to Boston Harbor, by the only ship channel, being on the westerly shore of the 'narrows'—it is immediately to be provided with cannon, and garrisoned.

Ex-President Adams. The Editor of the Newark (N. J.) Advertiser says that he has seen a long letter from the venerable John Quincy Adams, to the Rev. Dr. Murray, of Elizabethtown, in reply to the invitation to deliver the address at the inauguration of the monument to the memory of the Rev. James Caldwell, the martyr-pastor of the Revolution, in November next. Mr. Adams enters with characteristic feeling into the subject, expresses his hearty concurrence in the contemplated "commemoration of heroic virtue," and adds that an "infirm state of health, and the decays of body and mind incident to advanced age, have made it impossible for me to foresee whether at any given day in advance it may be in my power to address a meeting of my fellow-citizens." "But if the committee can make arrangements for the whole ceremony without dependence upon my participation in it, and yet reserving a short space of time in which, if present, I may express my feelings," etc, he will endeavor to be present. "To contribute one sprig of myrtle," says the venerable old patriot, "to clothe in unfading verdure the grave of that blessed martyr in the cause of my country's freedom, would be, could I command my one destiny, the last act with which I would close my own earthly career." This beautiful letter, which bears evidence of the tremulous hand of old age, will be published hereafter. We were much struck with the seal—an acorn springing into new life, with the motto "*Alteri Seculo.*"

John Randolph's Slaves. The slaves—nearly four hundred in number—manumitted by the will of John Randolph, being now free, by the final establishment of the will, the executor is endeavoring to procure a suitable location for them. The request of the will was that they should not be sent to Liberia; and the law of Virginia forbids their remaining there. The only alternative of the executor, therefore, is to find a location for them in a free State. A legacy of twenty-five thousand dollars was left for the settlement and support of the slaves.

District Attorney. Edward Mellen, Esq. of Wayland has been nominated by the governor to the Council for Attorney for the Northern District, in place of Asahel Huntington, of Salem.—Ill health was the occasion of the present incumbent resigning the office he has for many years honored.

Large Dividend. The State of Massachusetts recently received a dividend of thirty thousand dollars on its snares in the Western Railroad. On the 20th February last, it received a like amount, making the total sixty thousand dollars.

Burning Shanties. On Sunday evening, an unoccupied shanty on the Old Colony Railroad, a short distance in the rear of the stables of Ex-President Adams, was set on fire and entirely consumed in a few minutes.

On the following evening another vacant shanty was destroyed by fire, situated several rods to the north of the one destroyed on Sunday.

Both of these fires were doubtless the work of mischievous persons; and proper efforts should be made to find the incendaries and punish them.

No Choice. The return from the Ninth District of this State, indicate that there has been no choice for member of Congress. Hon. Henry Williams, (dem.) and Artemas Hale, (whig) received about an equal numbers of votes. The liberty candidate received over five hundred, and about four hundred scattering were cast.

Appointments. It is stated that Erastus Wales has been appointed Postmaster at East Randolph, in place of W. W. Linfield, resigned.

Joshua Seaver, Esq. has been appointed Postmaster at Roxbury, in the place of Horace Bacon, removed.

Extensive Peach Orchard. The most extensive peach orchard probably in this country, if not in the world, is located about forty-five miles below Philadelphia, and contains two hundred acres. In the year 1839, were gathered from this orchard eighteen thousand bushels of mature fruit, and yet only about one hundred and seventy acres were in bearing, and twenty-five acres of these had not then reached maturity.

The Bangor Steamer Burnt. This new and beautiful iron steamer was destroyed by fire, on Sunday last, about four o'clock in the afternoon, near Castine, (Me.) She was on her passage from Boston, with thirty-two passengers, and filled with freight. The fire broke out near the smoke-pipe, rendering the hose-pipe unavailable, and spread without control. The ship was run into Dark Harbor, Islesboro', and entirely consumed, with her freight—the whole supposed to be uninsured. The passengers and crew were safely landed. No explanation is given of the origin of the fire.

Life Insurance. The New England Mutual Life Insurance Company have issued between seven and eight hundred policies, since its incorporation, about eighteen months ago, and that not a single loss by death has yet occurred. This company is established on a firm basis, and is gradually and safely extending its operations. An arrangement has been perfected, by which pledged tee-totallers are permitted to withdraw into a separate department of the company, their policies to be conditional on the observance of the total abstinence pledge, and to be exempt from the risk of losses by deaths in the unpledged departments.

The Licence Law. It is generally believed that the Common Pleas judges have determined to try and sentence all offenders against the license law in Massachusetts.

Six hundred Irishmen in New Orleans, assembled in public meeting on the demand for troops, and with the greatest enthusiasm declared their readiness to enrol themselves for the defence of their adopted country. The Germans also volunteered to a man.

The Hon. Ashbel Smith, of Texas, has addressed a letter to the editor of the Galveston Civilian, in the course of which he denies that he opposed annexation, or went to Europe to concert measures adverse to the union of Texas with the United States.

The new Congregational Church, recently organganized at South Boston, have given the Rev. Joy H. Fairchild, an unanimous invitation to become their pastor, and he has accepted.

A large assembly lately convened at Cincinnati, (Ohio) and passed resolutions expressive of their decided disapprobation of the proceedings at Lexington, in reference to the press of C. M. Clay.

It is stated that the learned blacksmith, Elihu Burrit, has been obliged to defer his visit to the West, on account of a severe pulmonary attack, which threatens serious consequences to his health. The state of his lungs is such that he cannot sustain conversation more than ten minutes at a time.

Of five hundred and twenty-one Congregational ministers (or about that number) that have the charge of parishes in Massachusetts, seventeen are at this time over three score years and ten; and most of these seventeen have been settled, during the whole period of their ministry, over the same people. Of these five hundred and twenty-one, somewhat more than four hundred are Orthodox, and somewhat more than one hundred are Unitarians.

It has been said that on founding a colony, the first thing a Spaniard does is to build a gallows, a Portuguese to build a church, an Englishman a drinking booth, and a Frenchman a dancing floor.

The whole number of Welshmen in the United States, is said to be seventy thousand.

The Emperor Nicholas, of Russia, has appointed his grandson Alexander Alexandrowich, an infant three months old, chief of one of the battalions of Finlanders belonging to the Imperial Guard.

The Americans have six hundred whale ships in the Pacific Ocean, valued at more than twenty millions of dollars. The whole world besides has but half as many.

Eighty-three candidates have been offered for admission to Harvard University, of whom three were rejected, and eighty admitted.

A young man, connected with a respectable firm in the leather business, was decoyed into a gambling house in Baltimore, and was induced to play, by which he lost ten thousand dollars, within three or four hundred of all he was worth.

The cost of building a magnetic telegraph does not vary much from one hundred and thirty dollars per mile.

At a recent election in Alabama, it was submitted to the vote of the people, whether the Legislature should meet only once in two years, and by an overwhelming majority they decided in favor of it.

In the Court of Common Pleas, Chief Justice Wells presiding, on motion of R. H. Dana, Jr., Esq. of Boston, Joseph McRea Churchill of Milton, was admitted to practice as an Attorney and Counsellor in the Courts of this Commonwealth.

Gen. James Arlington Bennett, of the Arlington House, Long Island, has informed the editors of the New York Tribune, that he had been notified to stand in readiness to march three thousand man from the city of Nauvoo, (Ill.) into Texas, whenever it is certainly ascertained that the Mexican army has invaded the "sister State."

Cast iron posts, beams or supporters for dwellings or warehouses, have been condemned by a parliamentary commission in England. It is a common practice in many foundaries, to remove castings red hot from the sand; in several beams, large seams were discovered. The commissioners' report recommends wrought iron in the place of cast iron, for beanis and front posts, or supporters, as it can be relied upon, whereas cast iron cannot.

The "Miller Tabernacle," in Boston, is about to be transformed into an opera house; and the old New England Museum is to be fitted up as a theatre.

By a law of the Republic of Texas, 13,284 acres of land are set apart in each county for the support of primary schools, and 221,400 acres for the endowment of two colleges.

They had a thunder shower at Taunton, (Mass.) a few days since, which was an hour in passing over the town; the rain fell during the time to the depth of *seven inches on a level!*

Hay is dearer in New York than ever known, and the owners of horses and cattle begin to feel the effect of high prices upon their purses. The price ranges from one dollar to a dollar and an eighth per hundred weight.

A Norwich (Ct.) lady lately realized thirty dollars as the proceeds of one trip to market with the products of eighteen fowls—to wit, sixty chickens, and five hundred and forty dozen of eggs.

It is stated that the empire of Russia contains the largest gipsy population of all European States. It is estimated that about ninety thousand individuals pursue a vagabond mode of life in all parts of the empire. Since 1790, the government has used the most strenuous measures in order to force them to relinquish their wandering life, and induce them to settle in some occupations in the towns, but without success.

Old Colony Rail Road. The contractors for this road are pursuing their business with despatch. The rails are already laid to this village and several depots are now in the process of erection. One in Dorchester seems to be nearly completed.

Social Gathering. A Pic Nic entertainment of the friends of temperance was held last Thursday afternoon, in a grove a short distance from Spear's Store, in the western part of this town. A full account has been promised us for next week's paper.

Muffins. Take three pints of flour, one pint of lukewarm water, one teacupful of baker's yeast, one great spoonful of sugar, one teaspoonful of salt. Make up in the morning for tea, or at night for breakfast.

The Braintree Fire. In our notice of the fire by which the barn occupied by Capt. Edward Pray was destroyed, we stated that the engines from this town arrived too late to render much assistance. We were so informed on the evening of the fire, but are happy to learn that the Vulture Engine Company, at Quincy Point, in particular, did materially aid in arresting the progress of the flames. Their energy and efforts justly receive the thanks of the citizens of Braintree. The attempt to impute other than good motives to us, and to create animosity between the members of the Vulture Engine Company and the editor of this paper, is unworthy the character of a gentleman—mean, despicable and unprincipled.

The Baltimore Sun contains an article condemnatory of the haste with which bodies are conveyed to the tomb, in the course of which a number of testimonies are adduced in proof of the fact that burying alive is much more frequent than the world supposes, or has any inclination to believe.

Galvanism derives its name from Lewis Gavani, an Italian philosopher of the last century.

A CARD.

The subscriber hereby tenders his thanks to the members of the Quincy and Weymouth Engine Companies, for their prompt assistance in subduing the fire which occurred on the 21st ult.

EDWARD PRAY.

A public, social Temperance Meeting will be held in the Temperance Reading Room, THIS EVENING, at half past seven o'clock.

T. KELLOGG, *Secretary.*

A Card—Piles Cured.

Philadelphia, Nov. 2, 1842.

Messrs. Editors: As there are many persons who are suffering much from Hemorrhoides, or Piles, I would inform them, through the medium of your paper, that after many years affliction with them, and having in vain sought relief from various physicians, that I have at length been completely cured by the use of four bottles of Dr. Jayne's Vermifuge, which has not only cured me of the Piles, but has greatly benefitted my health otherwise. HUMANITY.

The agency for the sale of Dr. Jayne's Vermifuge, Balsam, Expectorant, etc. is at the QUINCY BOOKSTORE.

Quincy, Sept. 6. 3w

The Selectmen of Quincy, hereby give notice that they will be in session, at their room in the New Town House, the last SATURDAY in each month until further notice, from *two to five* o'clock in the afternoon. All persons having business with the Town are requested to give sent it on said days.

BRYANT B. NEWCOMB,
JOSEPH W. ROBERTSON,
LEVI G. FOLSOM.

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs, Asthma, and CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the case of pulmonary diseases, warrants the American agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the Lungs, Bronchitis, difficulty of breathing, heetic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

DAVID F. BRADLEE, sole Agent of the United States, 119 Court-street, Boston.

Agents—A. E. Dubois, Randolph; R. Whitcomb, Hingham; D. Brewer, Dorchester; S. Langley, & Bonney, Abington; and in Quincy by

Mrs. E. HAYDEN.

Quincy, March 1. 1y

As a barking dog may be silenced with a bone, so may a thirsty police officer be pro with a brandy smasher.

Atheists put on a false courage and alacrity midst of their darkness and apprehensions children, who, when they go in the dark, w for fear.

A convention is to be held in New York the ninth of October next, of farmers, ga silk culturists, and friends of agriculture ge resident in the United States. The board o agers have issued a circular, in which they those who are favorable to the cause of do economy, to be present on the occasion, a bring specimens of their handicraft work.

The Danvers (Mass.) Courier says that a chievous animal called a Mink, visited the pre of an individual in that town, and destroyed, in four days, upwards of sixty hens and chick and was finally killed, after having destroye last chicken and in the act of destroying th hen.

History relates that Euchidas, a citizen of tæa, went from thence to Delphos, on foot, to the sacred fire. This he obtained and ret with it before sunset the same day, having tra one hundred and twenty-five miles. No s had he saluted his fellow citizens and delivere fire, than he fell down dead at their feet.

The admirable facility now brought before alleviate and cure Consumption, and its dre kindred afflictions, is at once the most impo and interesting item of news we can introdu our readers. The agency made here for th of Mr. Brinckerhoff's Health Restorative is a sential addition to our force of arms against diseases. Where the others fail of cure, this centration of medicinal power, performs the plete extirpation of the evil.

MARRIED.

C. BRINCKERHOFF'S

THE great and principal object to be desired in any medicine that makes any pretension to cure all or any class of diseases, is, that it should show evidence of such power of cure and in a reasonable space of time. In disease of a complicated nature, where the effect is deep seated, as in Consumption, Liver Complaint, Coughs, Colds, Asthma, and pain in the Breast and Side, it is an extremely difficult matter to bring it under the effect of usual remedies. It appears requisite that the compound should be of such a peculiar combination, that all its materials may act simultaneously upon the affected organ, and not have its power diffused to other parts of the human frame, and that these materials have some defined medical effect on that organ. Most truly in the Health Restorative do the component parts, when separately or collectively considered, most convincingly show their individual and connected power and efficacy. Thus it is this remedy exerts such an astonishing influence in the complaints for which it is commended. If in any solitary case it had not power efficacious, the confidence of the public would have been shaken, but from its never failing promptness in checking the ravages of disease, and its sure power in restoring to health and strength, it is placed even beyond the possibility of a doubt that the acme of perfection in such a medicine has been gained. Let the certificates of the greatest and most honest men of our country or a faithful trial of the Restorative, convince those who seem otherwise incredulous of such a remedy. The following certificate is from Dr Chilton, the well known New York chemist:

"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."

POETRY.

For the Quincy Patriot.

THE SAILOR BOY.

The following lines were suggested by the fate of James W. Shaw of this town, who was lost at Key West, in the gale of Oct. 5th, 1844, by the upsetting and sinking of their vessel.

The shadows of night round the sailor-boy's dwelling,
In his wave girdled mansion were gathering fast,
On his ocean rocked pillow, in slumber revelling,
He rests all unconscious, nor feels the rough blast
That gathers around on the dark rolling billow,
And mantles in blackness the cloud hanging sky,
The waves rise in mountains, the masts bend like willow,
The storm mutters loudly—the red lightnings fly.

Still unmindful he rests of the swell of the ocean,
On pinions of fancy his mind spans the sea;
He heeds not the wind, or the wild billows' motion,
But dreams of his home in the land of the free:
In fancy again he beholds his fond mother,
Again feels a sister's warm kiss on his cheek,
He meets with old friends—clasps the hand of a brother
But sees not the death fiend who scowls o'er the deep.

O sailor boy! soon must thy slumbers awaken,
Thy home and thy kindred, thou'lt see them no more;
Already the fountains of nature seem shaken,
The waves break in mountains—the loud thunders roar.
Now roused by the war of the elements' waging,
He flies to the deck, and beholds the wild storm,
While lightning, and thunder, and wind seem engaging,
To 'whelm in the ocean the sailor-boy's form.

Now borne up aloft by the wave in its anger,—
Now sinking far down in the vortex below,
His mind braced with daring, his nerves droop with languor,
He's calmly awaiting the last overthrow.
But hope lingers on in her chambers of gladness,
And whispers of safety when lulls the wild gale,
Alas! it but lingers to sink into sadness,
The wind and the lightning at last must prevail.

His vessel to save every art tries the rover,
While joy once again cheers the sailor-boy's breast,
One wild shriek of anguish—their vessel is over,
He sinks with his messmates in ocean to rest,
The thunder in minute guns 's o'er his grave booming,
The lightning's bright torch lights his path to the skies;
His corse watched by sea-nymphs, where glow shells illuming
Their grottos of coral, now tranquilly lies. c.

THE COMING OF AUTUMN.

The leaves on the bough stirr'd
Are fading and falling,
And the wind and the wood bird
Are mournfully calling;
And music around us,
Of landscape and river,
And feelings that bound us,
Are passing forever.

The mists of the mountain,
With morning upspringing,
The chime of the fountain,
Its melody ringing;
The foam where the river burst
Up to the day,
And all by the sweet stream nurs'd,
Passing away!

So hearts we have cherish'd
When life was before us,
Are grown cold or perish'd
As years have roll'd o'er us;
And we look in the faces
Once glowing with gladness,
And we find in their places,
But sorrow and sadness.

O, life, it is tearful!
We're all of us sighing,
The moment we're cheerful,
That moment we're dying;
And all we have tasted,
And all we have spoken,
Are hopes that are wasted,
And hearts that are broken.

ANECDOTES.

A lad said to his playfellow, if you will ride the horse to pasture I will give you a big piece of gingerbread. 'How far is it?' It is about a mile. 'I had rather go a foot.' Why so? 'Because I can go it quicker.' Prove it, and I'll give you two pieces of gingerbread. 'Well, now, (steps off,) there, isn't that a *foot*?' Ah, but I didn't mean that kind of a foot. 'Well, but *I* did; and so, now ginger up the gingerbread.

A young lady being addressed by a gentleman much older than herself, observed to him, the only objection she had with a union with him, was the probability of his dying before her, and leaving her to feel the sorrows of widowhood. To which he made the following ingenious and delicate complimentary reply: 'Blessed is the man that hath a virtuous wife for the number of his days shall be doubled.'

'I say Jim what's the matter with your hoss. He looks as if he was lame in *four* of his legs, he lifts them all at once.'

'You had better look to your own cripple of a frame Joe, or the crows will steal it, harness and all, and leave you to haul your clams yourself.'

'You don't say so, do ye? now look here Jim, I'd advise you to sell out, and take the money you get and put some more to it, and buy another. You can get a pretty good hoss now for a dollar.'

It having been proved, on a trial that a man's name was really Inch, who pretended it was Linch, 'I see,' said the Judge, 'the old proverb is verified in this man: if we allow him an inch, he will take an L.'

A pedler, bending under the weight of his pack, encountered on a by-road a footpad who demanded his money. The pedler handed out his pocket book. "Is that all," asked the robber. "No." said the pedler. "Well, then, fork up, and be quick!" The pedler drew out a pistol, and shot the robber through the heart.

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbur, the Rev. M. Handcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Krauth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea-sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York.

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; R. Gleason, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

June 28. tf

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, 'if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educaced and experienced Physician, rather than the precatious and dangerous doings of Quacks and inexperienced Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*
JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine:

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health, and have not raised any blood since the use of the first bottle of this excellent preparation.

WYMAN ABERCROMBIE.

Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark:

DEAR SIR—I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. Yours, truly,

IBRAHIM BARTLETT.

Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.

Only Office in Boston, No. 51 1-2 Hanover Street, (up stairs.) People in other cities and in country towns may obtain the Medicine by sending for it through conductors of railroad cars, drivers of stages, or in such other way as may be most convenient to them.

The Great Remedy

FOR

Consumption, Asthma, Dyspeptic Consumption, Spitting of Blood, Bronchitis, Difficulty of Breathing, Hoarseness, Influenza, Croup, Colds, Pain in the Breast and Side, Dyspepsia, and various affections of the Stomach and Liver.

Folger's Olosaonian, or All-Healing Balsam.

IT is acknowledged that more persons die of Consumption than of any other disease. It is estimated that in the United States over THIRTY THOUSAND PERSONS annually fall victims to this dreadful scourge. The cause of the evil is generally overlooked. *A short dry Cough* is the precurser—or a neglected cold. These symptoms are deemed unimportant. Pain in the Side, Hectic and night Sweats follow, and death ends the scene.

Would you find a REMEDY FOR THE EVIL? Here it is. The experience of more than twenty years has proved its efficacy, and thousands are rejoicing in its effects.

Case of INCIPIENT CONSUMPTION.—George W. Barnett, Esq. of Newark, N. J., had suffered under the effects of a severe cold for more than a year, and in the month of August, when his Cough had reduced him so much that he feared he would die, he commenced using the Olosaonian. He raised blood at this time, complained of pain in his side and chest, and was very much debilitated by *night sweats.* His appetite was gone, and altogether he appeared to be rapidly sinking. He was so much relieved by the use of this remedy that by the month of November he left for Pittsburg, Pa. with every prospect of being permanently cured.

Read the following case of CONSUMPTION.—The cure was truly a wonderful one and places the '*Olosaonian or All-Healing Balsam,*' at the head of the list of remedies for eradicating that dreadful disease:

George W. Hays, residing in this city, (New York) was seized with a severe cold in the early part of the summer. His cough became very troublesome and he began to *raise blood.* He complained of a severe pain in the chest and his breathing became so short that he could not walk any distance without stopping for breath. His night sweats reduced him very low. He was under the care of several physicians in Brooklyn, who told him they could do no good, as his disease was a settled and fixed Consumption. He removed to this city to die among his friends. He was by this time so weak that he could not walk without assistance. Although his friends had now given up all hope of his ever being any better, he commenced using the '*Olosaonian, or All-Healing Balsam,*' and in a few weeks was so far restored as to able to resume his business.

Mr. T. Laban, residng at 52 Pine street, was severly afflicted with Asthma, in consequence of having taken a severe cold in the early part of last winter. In the early part of the night he could sleep tolerably well, but towards one o'clock in the morning his Asthma became so severe that he was obliged to get up and sit for the remainder of the night leaning forward on a chair. His cough was most distressing through the day. He had, during his sickness, tried almost every thing without relief. He never had a good night's rest in ten months, until he commenced taking the Olosaonian or All-Healing Balsam, when he found immediate relief, and before using half a bottle of it was perfectly well, and now sleeps as quietly as he ever did in his life.

Hundreds of cases could be given to prove the efficacy of the great remedy. And it possesses a property superior to all others, viz: it does not constipate the bowels. Reader, are you suffering under any of the above symptoms of disease? Try this remedy.—It will allay the *Pain in your side and chest*—put to flight the COUGH which deprives you of sweet slumber and repose; if you have Asthma, be assured there is no medicine in the world that will cure you so speedily, and it will arrest all those disagreeable symptoms which strike such terror to the mind and give such dreadful forebodings of an untimely and speedy dissolution.

Sold at one dollar, per bottle, by REDDING & Co. State street, Boston; and by the following appointed agents:

Mrs. Hayden, Quincy; J. Babcock, Milton; M. D. Plumer, Milton; Eli Thayer, Weymouth; Wm. A. Torry, do.; King & Nash, Abington; N. N. Dyer, do.; A. E. Dubois, Randolph; R. Gleason, Dorchester. tf August 16.

SUGAR CLICKENER'S SUGAR COATED VEGETABLE PILLS COATED

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he, afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skillfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the style (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 25 cents per box, with full directions, and sold by the following list of Agents

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; B. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 28.

MISCELLANY.

A YANKEE IN DISTESS.

'A few days since a raw-looking ge[t] carrying a cheap hair-trunk, made his appearance on board a sloop which plies between New York and a small port on the Connecticut coast, and inquired for the captain. He hailed from Coos county, New Hampshire, and presented in his appearance a perfect specimen of a fresh-caught Yankee. He wore a mixed suit of home-made frabric, with short square skirts such as are usually called 'bob-tail,' leadtons, and sleeves about six inches too short for the wrists. His pantaloons were striped, and his legs were thrust a long way through the leaving the interval between the legs of the trowers and his heavy laced boots arrayed in substantial pair of pepper-and-salt yarn stockings. On a head, adorned with a luxuriant growth of coarse sandy hair, tallowed to a nicety, was perched a hat much worn but in an excellent state of preservation, with a narrow brim and huge bell-crown, serving the purpose of a travelling valise in addition to the other uses of that article of wearing apparel. An immense collar, rigid with starch and erect the ears, supported by a cotton cravat of vivid gated yellow and black, completed the adornment of the outer man. He seemed about twenty-five years of age; was a lean, cadaverous-looking individual, standing some six feet when erect, but having a stoop of the shoulders which reduced him to about five-feet nine. A small pinched-up mouth, peaked nose, high cheek bones, sunken cheeks, prominent chin and a pair of bright twinkling eyes, of a most desribable color, gave an air of extreme 'cuteness' to his physiognomy.

'This was obviously his first visit to the water; but as he stood upon the sloop's deck whistling Yankee-doodle, his arms thrust into his pockets up to the elbows, one leg thrust forward, his eyes cast upward scanning the rigging with the air of a connoisseur he seemed as much at home as though he was a veritable 'ocean child.' In reply to a question as to his business, he drawled out:

'Capting what'll yeou charge to take a feller to York city?'

He was informed that the fare was one dollar and fifty cents.

'I 'spect yeou mean yeou charge a feller when you find him; what'll yeou take a feller for, when he finds himself?'

The price of passage without board, he informed, was seventy-five cents.

'Then I shall have to foot it to York; I see, I'm scant on't for funds, and I must have a leetle somethin' left to feed me a'ter I get there, I can't get along without victuals.'

'Can't help it,' said the captain; 'that's lowest; we ha'nt but one price.'

'Neow just take a feller for a half-dollar caping; come, now; if yeou will, I'll help up the chores while I'm aboard.'

'No sir, I can't take you for that price.'

The green-horn squirted a long stream of tobacco-juice upon the deck, resumed his tune of Yankee doodle, shouldered his hair trunk and walked off. In about an hour he returned and with a grin addressed the captain:

'Neow, look o' here, capting, I'm in distress, I posi-*tively* haint got but tew dollars in the world; I must get to York, or I shall starve, I can't get nothin' to du here. Neow, du be obligating; I've always hear'n tell that you was generous chaps.'

This appeal to the captain's profession pride had its effect; and he agreed to take the persevering mendicant for fifty cents, provided he would supply himself with provisions and render such assistance as he could in managing the vessel.

'The passage was unusually long, being delayed by contrary winds nearly a week beyond the ordinary time of starting. On the seventh day the Yankee ran out of provisions; and

Two Dollars per annum in advance—Two Dollars and Fifty Cents if not paid till the end of six months—Three Dollars if delayed till the expiration of the year.

No subscription nor advertisement will be stopped previous to the payment of all arrearages unless at the option of the proprietor. When subscribers wish their papers discontinued, they will give notice to that effect and at the time their subscription expires. Every subscriber will be held responsible for the payment of his paper so long as it is sent to his address at the Post Office, Tavern, or any other place wheresoever he may have ordered it, until legally notified to the contrary.

Advertisements, correctly and conspicuously, inserted at the customary prices. The number of insertions required must be marked on the advertisement, otherwise they will be continued until ordered out and charged for accordingly.

The privilege of annual advertisers is limited to their own immediate business; and all advertisements for the benefit of other persons, as well as all legal advertisements, and advertisements of auction sales, sent in by them, must be paid for at the usual rates.

Business letters and communications addressed to the Editor, postage paid, will receive early attention.

☞ Single copies of the paper, Five Cents.

FREEMAN HUNT,	*New York City.*

MISCELLANY.

A YANKEE IN DISTESS.

'A few days since a raw-looking genius, carrying a cheap hair-trunk, made his appearance on board a sloop which plies between New York and a small port on the Connecticut coast, and inquired for the captain. He hailed from Coos county, New Hampshire, and presented in his appearance a perfect specimen of a fresh-caught Yankee. He wore a mixed coat of home-made frabric, with short square skirts, such as are usually called 'bob-tail,' lead-buttons, and sleeves about six inches too short at the wrists. His pantaloons were striped, and his legs were thrust a long way through them, leaving the interval between the legs of the trowers and his heavy laced boots arrayed in a substantial pair of pepper-and-salt yarn stockings. On a head, adorned with a luxuriant growth of coarse sandy hair, tallowed to a nicety, was perched a hat much worn but in an excellent state of preservation, with a narrow brim and huge bell-crown, serving the purpose of a travelling valise in addition to the other uses of that article of wearing apparel. An immense collar, rigid with starch and erect to the ears, supported by a cotton cravat of variegated yellow and black, completed the adornment of the outer man. He seemed about twenty-five years of age; was a lean, cadaverous-looking individual, standing some six feet when erect, but having a stoop of the shoulders which reduced him to about five-feet nine. A small pinched-up mouth, peaked nose, high cheek bones, sunken cheeks, prominent chin, and a pair of bright twinkling eyes, of an indesribable color, gave an air of extreme 'cuteness' to his physiognomy.

'This was obviously his first visit to the salt water; but as he stood upon the sloop's deck whistling Yankee-doodle, his arms thrust into his pockets up to the elbows, one leg thrown forward, his eyes cast upward scanning the rigging with the air of a connoiseur he seemed as much at home as though he was a veritable, 'ocean child.' In reply to a question as to his business, he drawled out:

'Capting what'll yeou charge to take a feller to York city?'

He was informed that the fare was one dollar and fifty cents.

'I 'spect yeou mean yeou charge a feller that when you find him; what'll yeou take a feller for, when he finds himself?'

The price of passage without board, he was informed, was seventy-five cents.

'Then I shall have to foot it to York; you see, I'm scant on't for funds, and I must have a beetle somethin' left to feed me a'ter I get there; can't get along without victuals.'

'Can't help it,' said the captain; 'that's our lowest; we ha'nt but one price.'

'Neow just take a feller for a half-a-dollar, caping; come, now; if yeou will, I'll help du up the chores while I'm aboard.'

'No sir, I can't take you for that price.'

The green-horn squirted a long stream of tobacco-juice upon the deck, resumed his tune of Yankee doodle, shouldered his hair trunk, and walked off. In about an hour he returned and with a grin addressed the captain.'

'Neow, look o' here, capting, I'm in distress; I posi-*tively* haint got but tew dollars in the world; I must get to York, or I shall starve; I can't get nothin' to du here. Neow, du, capting; I've always hear'n tell that you sailors was generous chaps.'

This appeal to the captain's professional pride had its effect; and he agreed to take the persevering mendicant for fifty cents, provided he would supply himself with provisions, and render such assistance as he could in manageing the vessel.

'The passage was unusually long, being delayed by contrary winds nearly a week beyond the ordinary time of starting On the second day the Yankee ran out of provisions; and the captain, as an act of charity furnished him from the vessel's stores. About thirty-six hours before their arrival, in the exurberance of his exultation at having outwitted the captain, he disclosed to a fellow passenger that he had lots o' cash,' and he made quite a disply of loose change. This soon came to the ears of the captain, who was so indignant at the imposition which had been practised upon him, that he was about setting the tricky customer ashore, to 'foot it to York' the best way he could; but on reflection, he concluded that it would be a worse punishment to keep him on board, stop his rations, and put him to hard work. From this time until their arrival, the Yankee's situation was no sinecure. Furnished with a cloth, and a bucket of sand, he was set to *scouring the anchor!* Being inured to labor, that did not trouble him much; but to work on an empty stomach for thirty-six hours, and endure the curses of the enraged captain, and the taunts and jeers of the passengers and crew, and all for the small matter of twenty-five cents, he thought was 'paying rather dear for the whistle!' Great was his joy, therefore, when they hauled into the slip at New York, and before the sloop side had touched the dock, he jumped ashore. Leaving the little hair trunk to be removed after he had satisfied his hunger, he hastened to the nearest place where food could be procured. This happened to be a huckster's stand at the head of the slip; where, among other eatables, were displayed some fine looking boiled lobsters. Our verdant genius had often heard lobsters spoken of as excellent food, although he had never tasted any; this seemed a good opportunity to satisfy his hunger, and at the same time to enjoy a rare luxury; so after bargaining awhile, and beating the old woman down in her price some three or four cents, he bought three lobsters and as many Boston 'crackers,' with which he returned to the sloop.

'Meanwhile one of the passengers, a wag of the first order, having been up into the city, returned on board and noticed the Yankee, at the heel of the bowsprit seated on his hair-trunk, and 'going into' his bargain tooth and nail. It was a greedy spectacle! He wrenched the jaws and claws of the lobsters apart with unnecessary strength, drawing out with voracity sharp splinters of the meat, and biting them off close down to the sockets which held them. Such a smacking and cracking was never heard before. Carelessly sauntering within hearing, the waggish passenger gave the captain a wink, and remarked:

'This is a horrible business, captain!'

'What is a horrible business?' asked the skipper.

'Hain't you heard the news?' All the papers are full of it. Some Jersey fishing-smacks have been taking lobsters on the copperas-banks off Barnegat, and have sold them all over the city. Every person who has eaten any of them is poisoned. Fifty-three have died since morning; there is a tremendous excitement about it. As I came down, I saw an officer arrest the old woman who keeps a stand at the head of the slip, for selling some of the same lobsters.

The Yankee, who had already devoured one and part of another, paused at the narration, as if suddenly paralized; then dropping the fragment which he held, with the untouched prize into the water, his mouth filled with cracker and lobster, his enormous palms extended over his abdomen, his face pallid with terror, he exclaimed:

'Oh golly! what shally I du! What shall I du! I'm sartingly a dead man! Darn York! Cuss the lobsters! I wish I'd staid tu hum! Oh, my beowels! my beowels!'

'If that d—d green-horn has'nt been eating some of 'em!—run for a doctor!' exclaimed the captain. Some one started ashore for a physician. In the meantime the Yankee continued to groan and lament, attracting a large crowd of spectators by his cries: 'Oh, Suke!' if I had only taken your advice, and kept clear of this tarnel York city!' I'm dying—I know I am! My mouth tastes jest like a rusty cent! The doctor'll charge an all-fired price to cure me, I 'spect. There, I'm spitting green!—that's the copperas! I shall die before the doctor gets here! Murder! murder!

Some one personating a physician now made his appearance, felt of the patient's pulse, examined his tongue, and pronounced it a clear case of poisoning from eating copperas lobsters. He prescribed a powerful emetic, which was immediately administered in the form of a quart of lukewarm salt water. The effect was powerful beyond explanation. It produced a prodigious paroxysm, and kept him in a continual shudder for more than an hour, during which, his case seemed to be very doubtful. He kept girding his stomach with his two hands, squeezing his viscera, and bowing down as the contending forces racked his whole inner man. In the pauses of his pangs he uttered sundry exclamations, such as, 'Oh, Suke!' damn lobsters! cuss York city! Oh, my beowels! If I ever get hum again you'll never catch ——. There it is again! I *shall* die! Parson *Dulittle!* Parson *Dulittle!*' if I had'nt neglected your preachin'!' etc.—to the great edification and amusement of the by-standers. At length the doctor pronounced him free from danger and convalescent. The next thing was the payment of the fee, which he was informed was five dollars. He groaned in spirit, and his beowels, yearned worse than ever at the thought of parting with such a sum of money. There was no help for it, however; so he 'forked over' the V, and shouldering his hair trunk, went on his way, growling: "Cuss York city! cuss that doctor! and cuss them d—d p'ison lobsters!'

That evening the captain, the wag, and the pseudo-physician luxuriated at Florence's on lobster, salad and 'trimmings,' for which the Yankee's five dollars stood exchequer.

ILLUSTRIOUS MECHANICS.

Adam, the father of the human race, was a gardner. He had however, a strange propensity for tasting unwholesome fruit which produced very injurious effects, both upon himself and his offspring.

Noah was a shipwright and a husbandman; he navigated the whole earth in his ark, and got "seas over" in his vineyard.

Solomon was an architect, a poet and a philosopher; his conduct, however, was not always by line and rule, he trod the circle of dissipation, was erratic in his imaginations and violated his own maxims. His conscience and strength of mind, however, reclaimed him, and his repentence is the most beautiful of the works which he has left for the contemplation of his species.

The Apostle Paul, was a tert maker, and labored with his hands at his vocation, while he endeavored to infuse into the minds of his fellow-men, the important truths of revelation. While he screened them with earthly tabernacles from the weather, he held above their souls the ægis of divine protection.

Matthew was a poor fisherman, he relinquished his humble calling for that of a missionary and toiled assiduously to draw men from the fiery billows of perdition.

Quintus Cincinnatus was a ploughman and invoked to the government and dictatorship of Rome. His labors in the political field were as successful as those upon the soil.

Arsaces was a private mechanic, and was called to found the Parthian Empire. He built up a powerful nation, and erected for himself a mausoleum of fame, which is indestructible.

Tamerlane, the Conqueror of Asia, was also a mechanic; he rough hewed Bajazet, and carved his way to fortune and glory.

Massaniello, a Neapolitan fisherman, was raised to the command of fifty thousand men, and gave up fish lines for lines of bayonets, and river scenes for scenes of carnage.

John of Leyden, in Germany, was a tailor, and rose to the dignity of king. He cut out for himself a bad piece of work and afterwards came to miserable end. His goose didn't fly well.

Zeno, the famous Bishop of Constantia, who had the largest diocese in that country, was a weaver. He directed his attention to the habits of both soul and body.

Stephen Tudiner, a hatter in upper Austria, was made General, and commanded an army of sixty thousand. He made hats for others, but prefered himself a chapeau.

Walmer, a shoemaker, succeeded him in command, but was slain by Count Papenheim. He converted his awl into a sword; "his last state was worse than the first."

Edmund, a baker, of Sterling, in Scotland, showed such unparalleled bravery in the Swedish wars, under that "thunderbolt of war, Gustavus Adolphus," that he was made a general. A maker of bread might suppose to know how to rise.

Peter the Great, Emperor of Russia, worked at ship building. He learned the Russian Bear how to manage a boat.

Charles XI. of England, was a turner in ivory, nor could affairs of state divert him from morning task at the lathe. He turned his mind however, to other amusements, which tasked his health, and pared away his reputation.

Louis XIV. of France, was one of the best watch-makers of his reign. He forgot the burdens of power, in following the light footsteps of time, and escaped the flutterings of parasites on the pinions of chronometers.

Henry IV. of England, was a sailor, and rose from the forecastle to the throne. He managed the ship of state with nautical address, and beat her a considerable way up the harbor of Reform.

Benjamin Franklin was a printer, philosopher, and statesman. He drew lightning from Heaven, and left his name in large Caps upon the annals of his country. His spirit is among the * *

George Washington, Andrew Jackson, and William Henry Harrison, were farmers. From the pursuit of agriculture, they went forth to pursue the enemies of their country, and from the field of death gathered the "Golden Immortal."

Sir Richard Arkwright, who first conceived the idea of spinning cotton by means of machinery, passed the earlier years of his life in pursuing the humble occupation of a barber.—His genius proved brighter than his razors.

John Leslie, Professor of Natural Philosophy in Edinburgh, was the son of a farmer in Largo, Scotland. His pencil was a stick, and the ground his slate. From being the companion of cattle, he became the peer of learned men.

James Furguson was in earlier years a shepherd, watched the stars at night like his predecessors of Chaldea, and like them was led by his favorite planet to the contemplation of the works of the Deity.

William Clifford was bound out to a shoemaker, after having served a number of years in a small, coaster as cabin boy. Being too poor to purchase stationery, he used to hammer out as smoothly as possible small bits of leather, on which he traced problems with his awl. In latter years, his critical awl pierced the souls of many luckless scribblers.

[By request.]

JESUS CHRIST.

Green Port, May 18th, 1845.

My Dear Friend, H.:—You will please to observe, that the principle burden of my desertations is intended to invite your particular attention to Christ, his character, and attributes, and the unity existing between the father and the son, transcendant to his disciples and followers, emanating from the father to the son, and through the adorable character of Christ to the children of men, that is, to as many as believe in his name, his mission as the true *Messiah, Emanuel, God with us, i. e. God manifest in the flesh.* In the first place we must admit, that "no man has seen God at any time."

The like credence must be conclusively to the point in question, that the father sent his son, declared to be his only begotton son, to this earth. He was so recognized by John, as appears by his Gospel; also, by the evangelists and the Apostles, the records of which are unquestionably clear, and as clear are the purposes of Divine will recorded, plainly declared in the Divine inspiration and spiritual instruction of Christ.

Let us suppose that such a personage as was Christ were now on this earth, and sent by the Almighty Father, Christ declared of himself, and possessing all power, as he saith, "All power is committed unto me in Heaven and on Earth, etc." Now I ask, what would be the feelings and excitement of the inhabitant of this globe, were such a character to appear in this our day, performing all the wondrous works Christ performed at the time of the Roman Government, and in the days of Tiberius Ceasar. To show the consternation of the event, on the minds of the people at that day, I will copy a document, which was sent to me by a friend in London, and he copied it from the original manuscript, which was in the possession of the family of Hilby, and then was in the library of Lord Hilby in London, and which was translated from the original letters of Publius Lentulus at Rome:

To the Senate of Rome, concerning Jesus Christ:

It being the usual custom of the Roman Government; the Governments used to advertise the Senate and people of such material things as happened in their province, in the days of their Emperor Tiberious Ceasar.

Publius Lentulus President of Judea, wrote the following epistle to the Senate, concerning our Savior:

There appeared in these our days, a man of great virtue, named Jesus Christ, is accepted for a prophet of truth; but his own disciples call him the son of God.

He raises the dead, and cureth all manner of diseases; a man of stature somewhat tall, and comely, with a reverend countenance, such as the beholder may both fear and love; his hair is of the color of a chestnut fully ripe, plain to the ears, thence downwards it is more orient, curling and waving about the shoulders. In the middle of his head is a seam or partition of his hair, after the manner of the Nazarines; his face without a spot or wrinkle, beautified with a loveliness; his nose and mouth so formed as nothing can be reprehended; his beard thickish and in color like his hair not very long, but forked.

His look innocent and mature, eyes gray, clear and quick; in reproving he is terrible; in admonishing courteous, and fair spoken, pleasant in conversation mixt with gravity. It cannot be remembered that any have seen him laugh, but many have seen him weep.

His hands and arms most delectable to behold; in speaking, very temperate, modest and wise. A man for his singular beauty, surpassing the children of men.

READING WORKS OF FICTION.

There has been considerable difference of opinion in regard to the efforts produced upon the mind by fictitious narratives. Without entering minutely upon the merits of this controversy, I think that it may be contended that two evils are likely to arise from much indulgence in works of fiction. The one is a tendency to give way to the wild play of the imagination—a practice most deleterious both to the intellectual and moral habits. The other is a disruption of the harmony that ought to exist between the moral emotions and the conduct—a principle of extensive and important influence. In the healthy state of moral feelings for example, the emotion of sympathy excited by a tale of sorrow ought to be followed by some efforts for the relief the sufferer. When such relations in real life are listened to from time to time without any such efforts, the emotion gradually becomes weakened, and the moral condition is produced which we call selfishness of heart. Fictitious tales of sorrow appear to have a similar tendency—the emotion is produced witnout the corresponding conduct; and when this habit has been much indulged the result seems to be, that a cold and barren sentimentalism is produced, instead of the habit of active benevolence. If fictitious narratives be employed for depicting scenes of vice, another evil of the greatest magnitude is likely to result from them, even though the conduct exhibited should be shown to end in remorse and misery; for, by the mere familiarity with vice, an injury is done to the youthful mind, which is in no degree compensated by the moral at the close. Imagination, therefore, is a mental power of extensive influence, and capable of being turned to important purposes in the cultivation of individual character. But to be so, it must be kept under the strict control of reason and virtue. 'If it be allowed to wander at discretion through scenes of imagined wealth, ambition, frivolity or pleasure, it tends to draw the mind from the important pursuits of life, to weaken the habits of attention, and to impair the judgment. It tends in a most material manner to prevent the exercise of those noble powers which are directed to the cultivation both of science and virtue.—*Dr. Abercrombie.*

CAUTION TO PHYSICIANS.

Every person must have seen how readily persons who are fond of drink, are disposed to assign their physician's orders as an excuse for their indulgence. And although it is undoubtedly true, that the prescriptions of physicians have sometimes led their patients to the practice of using strong drink, they are still oftener made use of, as a plea, by those who seek an excuse for doing what they know to be wrong. It is therefore proper, in ordering ardent spirits, for physicians to be precise and definite in their directions as to quantity. I cannot but think there has been a want of caution among medical men in recommending spirits, by themselves, or as a component part of the medicines directed for their patients. It is not often that such prescriptions are indispensable, although, no doubt, they are often convenient, and it cannot be denied that alcohol is an important medicine; but the list of tonic and stimulant remedies is so extensive, as to afford a substitute for alcohol in almost every instance. And when intoxicating liquors *are* necessary, the fermented liquors, with very few exceptions, afford much the best kind of stimlus. There is one disease, of great danger, the treatment of which is sometimes successfully conducted by administering very large quantities of ardent spirit, as the sole remedy. The disease of which I speak is tetanus or locked jaw. A perpetual state of ebriety during the continuance of this affection, is very powerful in its relaxing effects, and has sometimes carried off the disease when opium has failed, or could not be borne. But of several successful cases which I have known of the treatment of this disease by ardent spirit, *I have never known an instance* where an *unconquerable* thirst for strong drink has not been the result. That patient has little to thank his physician for, who has saved his life upon such terms as these.—*Dr. Pierson.*

CURIOUS INFORMATION.

The diameter of each globule of blood in a man is from two to four thousandth part of an inch.

The seed of the puff-ball or hycopudon, is twenty-five thousand times larger than a human hair.

The weight of a particle—that is, the smallest part of copper—is the one hundred and four millionth part of a grain.

Gold can be beaten so thin that fifteen hundred leaves of it would equal in thickness common newspaper—or 282,000 leaves would make a thickness of one inch.

Cotton yarn has been spun so fine by hand in India, that one pound of it would reach one hundred and fifteen miles. When it lies on the grass in the dew, it is no longer visible. The natives call it "woven air." In England, it has been woven so fine that one pound will reach one hundred and sixty seven miles.

There are more than five and a half millions of pores in a piece of charcoal one inch in diameter.

Cork, if sunk two hundred feet in the ocean, will not rise on account of the pressure of the water.

Wrought iron will hold up forty tons to the square inch; steel sixty tons.

The strongest cable that can be made is of fine wire, which will hold up ninety tons to the square inch.

By experiments, it has been ascertained that in crushing, gun metal will hold up one hundred and sixty tons to the square inch; iron from fifty to ninety tons.

In quarrying mill stones, in France, they are hewn out, first in the right size, then deep grooves are made, and willow wedges are driven in. Water is then poured upon the willow, which causes the wood to swell and the rocks are thus split in the right shape.

The art of wire drawing is said to have been discovered at Nuremburg in 1810. The first wire mill in England was established in 1663.

Bigotry. She has no head, and cannot think; she has no heart and cannot feel; and when she moves it is in wrath; when she pauses, it is amid ruin; her prayers are curses, her communion is death; her decalogue is written in the blood of victims; if she stops for a moment in her infernal flight, it is upon some kindred rock, to whet her fang for keener rapine, and replume her wings for a more sanguinary desperation.

The way of the World. When a person doesn't stand in need of friends, they are as plenty as musquetoes in the latter part of August; but when he really wants them, they are as scarce as grasshoppers in winter. Wound a porpoise, and his comrade are sure to attack him. So it is with men in misfortune; they need not expect any mercy from his fellow men. 'Hit him again, he has no business to be a horse.'

A Crown Lost. After the troubles of the first French Revolution, Louis Philippe made his escape to the United States, and while residing at Philadelphia, he fell in love with Miss P——, daughter of a highly respectable citizen of the city. The lady was favorable to his advances, but was compelled to yield to the authority of her father, who declared that "no daughter of his should ever demean herself by marrying a school-master!"

For the Quincy Patriot.

CORRESPONDENCE.

Boston, Sept. 10, 1845.

End of Dog Days—Hints on Health—Summer Sickness—Good Times—Temperance versus Intemperance—Messrs. Webster and Choate.

The Dog Star has set, ending "dog days" for the season, and many there are who will by no means regret their exit. The past summer has been one of the warmest ever known in New England, and has been peculiarly prostrating to the human system. The effects are daily manifesting themselves by the wide spread of dysenteric and febrile diseases. As yet, autumnal disease has not assumed a severe type, but there are well grounded apprehensions that it may before cold weather sets in. Sudden transitions from heat to cold, exposure to evening air, and sleeping with but few bed clothes, are far more prolific causes of dysentery and fever, than the indulgence of ripe fruits; on the contrary, a free use of ripe fruits is a powerful anti-dysenteric remedy. A large portion of our citizens are still out of town, but business is active and most articles of commerce are on the advance in price.

A short time since, the Salem Gazette came out with the following paragraph:

"We regret to learn from our police officers [of Salem,] that intemperance is sadly on the increase among us. This melancholy state of things is attributed to the expectation, that the United States Supreme Court will pronounce the Massachusetts License Law unconstitutional. This expectation prevents all attempts to check the sale of intoxicating liquors by legal means, and the result is the increase of drunkenness above referred to."

To which the Emancipator of this city (Boston) replies as follows:

"Will the Gazette give an opinion, whether the legislature was wise in electing a Senator of the United States, to work against this license law, during the very time that he is *under pay as a Senator?* Mr. Choate, the last Senator, and Mr. Webster, the present Senator, are the counsel in the case in behalf of the rumsellers. No explanation can make this right. That Webster and Choate, as individual lawyers, may sell their individual talents for such service, is nobody's business; but that Senators, who are sent to represent the State, should sell themselves openly to defeat the will and destroy the peace of the State is abominable."

Without further comment, I will only say that the remarks of the Salem Gazette are applicable to Boston and *other* places. V. Y.

The Eastern Exchange Hotel, near the Eastern Railroad Depot, in Boston, will be open to the public about the tenth of October, and is to be under the management of T. J. Coburn, formerly of the Rickingham House, Portsmouth, (N. H.) It cost about one hundred thousand dollars.

The Haverhill, (N. H.) Democrat says that the first occupant of the new jail in Grafton county, was a student, and member of the senior class in Dartmouth College, being charged with theft at various times.

The attorney-general of the State of New York, (John Van Buren,) and Big Thunder's counsel (A. L. Jordon,) who had a discreditable fracas in court, at Hudson, (N. Y.) were locked up for forty eight hours, by order of the court, which adjourned over, in consequence of this sudden suspension of the case.

Among the patents recently extended for fourteen years was one for a *child's whistle!*

Dublin has now attained the third rank of importance as a commercial depot of Great Britain, being only exceeded by London and Liverpool.

A new fashion has grown up lately in Pittsburg, (Pa.) of papering the walls of churches, and one that adds much to their interior neatness and beauty.

Henry G. Green convicted at Troy, (N. Y.) of the murder of his wife, has been executed. The applications made by his friends to the governor, for his pardon or a commutation or respite of his sentence, were unsuccessful.

The democratic candidate for Governor in Vermont, has been elected a representive from a town which gives his whig opponent for Governor, a small majority.

Francis S. Durivage, Esq. long and extensively known as an instructor in French and drawing, died a few days since in Roxbury. For some years past he has been employed in the office of the Secretary of the Commonwealth.

Three thousand five hundred operatives are employed in the gigantic locomotive establishment recently put in operation in Russia for the construction of the large number of locomotives required for the great chain of railroads which the Emperor of Russia has directed to be constructed, (Major Whistler, a Bostonian, being Chief Engineer.)

Fourteen thousand bushels of wheat, and one thousand barrels of flour have been purchased in New York, for shipment to France.

The New York Sun states that Horace Greeley, the editor of the Tribune, lately officiated in the Church of the Christian Union, of which Rev. Mr. Channing is pastor. He made a prayer, gave out the psalms, and delivered a discourse on the subject of social reform.

The seven slave pirates convicted in England and sentenced to death are likely to escape through a legal quibble, the crime having been committed on board a Brazilian vessel on the high seas, and therefore not within English jurisdiction. A new trial has been granted.

QUINCY PATRIOT.

SATURDAY, SEPT. 13, 1845.

John A. Green, Editor.

Money. There are quite a number indebted to us who have not yet called and settled their accounts. It is to be hoped that some, at least, will call by the 16th of this month as we have a small sum to pay. We shall be waiting at the office this evening.

Daring Attack. Last Sunday evening, about eight o'clock, as Mr. Eleazer Frederick and his wife were returning home from a visit to a relative, when a short distance from the bridge which crosses the railroad, near the residence of Hon. John Q. Adams, they discovered three men, who soon approached them and one rudely assaulted Mrs. Frederick and only relinquished his grasp on receiving a blow from Mr. Frederick's cane. At this juncture another of them seized Mr. Frederick by the throat and demanded his money, but in the struggle Mr. Frederick got his knife and freed himself from the grasp by cutting the assailant's hand, and afterwards administered to him a severe blow. The rogues fled, but Mr. Frederick pursued one, whom he secured, and placed in charge of Deputy Sheriff Adams. The other two were arrested during the night and given in charge of the above officer. They were examined before William S. Morton, Esq. of this town, and bound over in the sum of five hundred dollars each for their appearance at the Court of Common Pleas to be held in Dedham this month, and in default two of them were committed to jail. The only cause assigned by them the next morning for committing the assault was that they had been drinking freely of intoxicating liquors. They were Irishmen, and laboring men, two employed on the Old Colony Railroad, and the other worked at the stone quarries and had resided in this place several years.

Quincy Lyceum. At the annual meeting of the Quincy Lyceum, held on the evening of the 10th instant, the following officers were chosen for the ensuing year, viz:

President—George Baxter.
Vice President—Seth Adams.
Secretary—James M. Wade.
Treasurer—Jonathan Baxter, Jr.
Curators—Caleb Gill, Jr., Urbane Cudworth and Elisha Marsh.

The Embezzling Case. The trial of William Wyman, President of the exploded Phœnix Bank of Charlestown, (Mass.) for an alledged embezzlement of its funds, has been concluded by a verdict of acquittal, rendered under instructions from the Court, on a point of law raised by his learned lawyer, Hon. Rufus Choate. The ground of his acquittal was on the technical point that the custody of the funds of the Bank was in the Cashier, and not in the President, the latter not being an *officer* of the Bank, withing the meaning of the statute. Wyman was then held to bail in seventeen thousand dollars on other indictments of a less serious character.

The Steamer Bangor. This iron steamer, which was entirely burnt up on Sunday of last week, so far as she was combustible, is still afloat and perfectly tight. She has been towed up to Bangor, where it is proposed to repair her immediately for a freight boat. The loss to the merchants of Bangor, in goods uninsured, as well as to the owners, was heavy, and several suits have been commenced against the owners of the steamship as common carriers.

Fire in Medway. The dwelling house and barn of Dr. Artemas Brown of Medway, who represented the county of Norfolk in the State Senate a few years since, were entirely consumed by fire on Wednesday night of last week. The furniture of the house, a horse, cow, and swine in the barn, were saved. An individual lately employed on the premises, and who had that day had a dispute about his claim for services, has been arrested and committed to Dedham jail, to await his trial at the September term of the Court of Common Pleas The evidence upon which he was committed was principally circumstantial.

Secret Society. The annexed notification was "picked up" by a gentleman in this town. It appears that a secret society exists in our midst, and the *quid nuncs* should be on the look out—it may be dangerous to the peace and harmony of community. We withhold the names contained in the notice, that the "Paul Prys" may have a wider field for operation. Who will ferret out the "piratical order" of "T. F. F."?

Quincy, Sept. 4, 1845.

Brother ——

You are hereby notified, that the Order of "The Faithful Few" will meet at *the Bridge on School Street over the Old Colony Railroad*, next SUNDAY, 7th inst., at half past one o'clock, if fair weather, and your attendance is particularly requested.

Per order of the Grand Master.

——— ———, *Scribe pro tem.*

Cassius M. Clay. This individual is said to be recovering from his severe illness, and enabled to travel. A great deal of interest is felt as to his future course, and it seems to be the general impression that he will continue the publication of his paper at Cincinnati, and circulate it as much in Kentucky as though it was published in that State. It is said that he is devoted to the cause, and will never abandon it but with life.

The Pic Nic Account. Our friend, who promised us a full account of the Pic Nic entertainment in the western part of the town for publication to neglect to fulfill his engagement. Did you forget it?

John Quincy Adams. At the age of seventeen this distinguished statesman and scholar received from his mother the following letter:

"You will doubtless have heard of the death of your worthy grandpapa, (Rev. Mr. Smith of Weymouth,) before this reaches you. He left you a legacy more valuable than gold or silver; he left you his blessings and his prayers; that you might return to your country and friends, improved in knowledge and matured in virtue; that you might become a useful citizen, a guardian of the laws, liberty and religion of your country, as your father (he was pleased to say) had already been. Lay this bequest up in your memory, and practice upon it; believe me, you will find it a treasure neither moth nor rust can devour."

"If," says a distinguished author, "there is any man who is now preeminently 'a guardian of the laws and liberty' of his country; if there is any statesman of incorruptible integrity and pure patriotism; whose character should shame the selfishness, and subserviency, and corruption of multitudes, and attract our youth to the path of persevering industry and stern uprightness, and regulated virtue—that man and statesman will be acknowledged to be John Quincy Adams."

A Strange Apology. Father Miller, the world destroying prophet, has published an apology and defence of his doctrine, in which he says:

"That I have been mistaken in the time, I truely confess; and I have do desire to defend my course any further than I have been actuated by pure motives, and ithas resulted to God's glory. My mistakes and errors, God, I trust, will forgive. I cannot, however, reproach myself for having preached definite time; for I believe that whatsoever was written was for our learning, the prophetic periods are as much a subject of investigation as any other portion of the word. My view of exact time depended entirely upon the accuracy of chronology: of this I had no absolute demonstration; but as no evidence was presented to invalidate it, I deemed it my duty to rely on it as certain, until it should be disproved."

Savings Banks. These institutions owe their origin to Miss Priscilla Wakefield, who, in 1804, induced six gentlemen, residing at Tottenham, England, to receive deposits from laborers and servants, paying five per cent., as interest. Four years later, eight persons, half of whom were ladies, took upon themselves the same responsibility at Bath.

Vermont Election. The returns are yet incomplete, but enough is known to render it certain that here has been no choice of Governor; the whig candidate was elected last year by the people. The Legislature will be whig in both branches, as it was last year. There has been a falling off in the vote—chiefly on the part of the whigs.

The Sheet Anchor. Rev. Charles W. Denison, who for some two or three years has been favorably known as editor of the Sheet Anchor, a neat and well conducted seaman's paper, is to leave that establishment. Rev. Sereno Howe of Hingham, son of the present proprietor of the Sheet Anchor, is to be editor, assisted by Capt. William Green, and Capt. T. V. Sullivan.

State Temperance Convention. There will be a Convention of the friends of Temperance from all parts of the State, at Worcester, on the third Wednesday of September, to continue in session two days.

Soon Caught. On Thursday evening last, at the Railway House, Milton, a young man was arrested for stealing five dollars from the drawer, while the bar-keeper was absent. The money was found upon him, and he was brought before Justice N. F. Safford, by constable Henry West, pleaded guilty, and was sentenced to two months in the county jail. He had not been long at large from the house of correction at South Boston, where he was sent for stealing a watch.

Shanty Burnt. Another shanty on the line of the Old Colony Railroad, in this town, was set on fire last Monday evening and consumed. A reward of one hundred dollars has been offered by the Contractors for the discovery of the perpetrators.

Maine Election. By the returns thus far received, there appears to have baen no choice for Governor. In both branches of the Legislature there will be a democratic majority. In the congressional district where a vacancy existed, the democratic nominee has succeeded by a small majority.

Democratic State Convention. This body assembled at Springfield, on Wednesday last, and was organized by the choice of Hon. Henry Crocker of Barnstable, as President, who was assisted by twelve Vice Presidents and six Secretaries. Upon the second balloting for a candidate for Governor, the Hon. Isaac Davis of Worcester, received a majority of votes, which selection was subsequently unanimously confirmed by the convention. Henry W. Bishop of Lenox, having received the next highest number, was, on motion, unanimously nominated for Lieutenant Governor. A series of resolves were reported by a committee, and after some debate accepted. The convention was numerously attended, and a spirit of zeal and union characterized the proceedings.

Accident. A child of Mr. Thomas Leary was run over yesterday morning, by a butcher's cart, the wheel passing directly over the middle of its body. To all appearances the child was not so seriously injured as might have been expected. No blame can be attached to the driver, The accident should serve as a warning to parents to keep their children out of the streets. It is surprising that so few casualties of this kind occur where so little caution is observed.

Highway Robbery. On Monday evening last, about half past seven o'clock, as Mr. Thomas A. Thayer, sailmaker, of South Boston, was returning home from this place, with a horse and buggy, and when within about a mile and a half from Granite Bridge, he was suddenly stopped by two men, who, with threats and great violence, robbed him of a carpet bag containing clothing and about eleven dollars in bills and change.

Counterfeiter Arrested. A man, who gave his name as Alonzo Reynolds, of Ferrisburgh, Addison county, (Vt.) was arrested on Tuesday afternoon last, in Roxbury by officer Leonard Haynes, for attempting to pass a counterfeit ten dollar bill of the Wrentham Bank. He was examined before Justice John J. Clarke, and fully committed for trial at Dedham.

An Eminent Jurist Dead. Hon. Joseph Story LL.D., one of the Justices of the Supreme Court, and Dane Professor of Law at the Cambridge University, expired at his residence, in Cambridge, last Wednesday evening. His disease was the stoppage of the intestines, or strangulation, the same sickness which ended the life of Hon. Hugh S. Legare, in Boston, in 1843. Judge Story was sixty-six years of age, graduated at Harvard University in 1798, and was appointed to the judgeship of the United States Court by President Madison in 1811.

Counterfeit Bank Notes. The Boston Atlas says that counterfeit bills are in circulation, principally one's altered to ten's Quiney Stone—ten's and fifty's, Eagle, Providence,—fifty's Blackstone Canal—and fifty's and one hundred's, Providence, purporting to be from eight to nine hundred dollars—when, in fact, the original value was thirty-six!

An Expert Thief. A young man has been committed to jail, in Boston, charged with having stolen a horse, belonging to Mr. Joseph Everett, butcher, of Brighton, from his wagon, which was standing near the market, on Saturday night last. The butcher was engaged at the hind part of the wagon, when the thief absolutely stole the horse from the thills, and got off unobserved.

Military Parade. The annual muster and review will take place on Boston Common, on Tuesday, September 23d, by order of Brig. Gen. John S. Tyler.

The Railroad. It is now stated that the railroad bridge over Neponset river will be so far completed that the engine car will be enabled to reach this town by the first part of next week.

The building intended for the depot in this place will be raised early in the ensuing week, and completed with all possible despatch.

It is now said that the cars will run the whole length of the road by the first of November ensuing.

Lyceum Meeting. At the annual meeting of the Weymouth and Braintree Union Lyceum, the following gentlemen were elected for its officers for the ensuing year.

President, Atherton N. Hunt;
Vice President, John W. Loud;
Secretary, John O. Foye;
Treasurer, Nathaniel Blanchard.
Directors, Thomas B. Porter, Peter H. Cushing, Asa B. Wales, John P. Peterson, and Elias Richards.

Useful Work for House-Keepers. "The New England Economical Housekeeper and Family Receiot Book, by Mrs. E. A. Howland," is the name of a work recently published, containing recipes for hvery description of cookery, together with a variety of valuable information pertaining to housewifery. A very excellent feature in this work is the medical department of useful and tried remedies for the various ills and accidents that occur in almost every family. It should be found in the hands of every one who is connected with the culinary department, and particularly those who would cook well at a moderate price. "To the experienced house-keeper it will be useful—to the inexperienced, a treasure.

This work is for sale at the Quniney Bookstore.

The train of cars were about to run over a basket a short distance from Waterford, (N. Y.) recently but the engineer stopped them time enough to prevent the basket from being crushed, and upon getting out to examine it, it was found to contain a lovely baby about five or six months old!

At the last Wesleyan Conference in England, it was resolved that no candidate for the ministry, having a matrimonial engagement, should be received as a student into the theological institutions of the denomination.

The Convention of Texas, have unanimously passed a resolution expressing the gratitude of the people of the Republic, for the many services rendered to them by Hon. Robert J. Walker, Secretary of the United States Treasury.

Needles were first manufactured in England by a negro from Spain during the reign of Queen Mary the bloody. At his death the art was lost, and not recovered again till 1666, in the reign of Elizabeth, when Elias Growse, a German, taught the art to the English.

The students of Cologne, in imitation of those of several German universities, have abolished duelling, and replaced it by a tribunal of honor, which they have called on the Government to sanction.

The building on Weehawken Hill, (N. Y.) for hatching chickens by steam, has been burnt, with thousands of turkies, chickens and ducks; partly insured.

The Worcester (Mass.) Transcript states that a farmer has during the month, threshed and cleaned *fifty bushels* of rye, the product of one and a half bushels of seed, sown about the first of September last. The ground had been recently cleared of a heavy growth of timber, and burnt over.

A letter in the Charleston, (S. C.) Mercury speaks the distress and consequent excitement experienced by the farmers of Spartansburg, in consequence of the failure of their crops, and the excessive price of provisions, which prevent the poor from purchasing; and it was apprehended would cause them to resortto force to satisfy their wants.

The New York Express says, that a select committee of the corporation applied some time since, to Professor Silliman, to obtain his views as to the explosive power of Saltpetre. The result of the investigation was, that saltpetre, of itself, was not explosive; but that the gases arising from it were highly so.

It is said that Oregon derives its name from *oregano*, a Spanish word, signifying pennyroyal or hyssop, which grows abundantly on the banks.

The colored men of New York State, by conventions and otherwise, are making zealous exertions for the removal of the restriction which prohibits from voting unless possessed of property to the value of two hundred and fifty dollars.

There are twenty-three asylums in the United States, containing two thousand seven hundred and sixty-three patients.

The strength of the Salina springs in New York may be estimated by the fact that forty-five gallons will make a bushel of salt, whereas at Nantucket it takes two hundred and fifty gallons of sea water to make a bushel. The saltness of the sea is nearly the same in all places.

The side window of the store of Jeffrey R. Brackett, jeweller, Boston, was lately smashed by a horse, who backed against it, by reason of a rein having caught under the shaft of the wagon.

On examination it was found that of the two hundred and three convicts in Auburn, (N. Y.) State Prison, all but one were accustomed to drink strong liquors.

A notice has been issued of the Commonwealth's attorney of the Mason circuit, in Kentucky, that in obedience to the instructions of the grand jury of that county, he will hereafter prosecute all persons who permit their slaves to go at large and trade as freemen. The penalty is ten pounds for each offence, upon the master, under the provision of the law of 1798.

The Galveston (Texas) News says that red fish, trout, drum and flounder, are very abundant in that harbor; red fish are caught there three feet long, and weighing sixty pounds; and that deer are so plenty on the Island, that nine have been killed by one discharge of a double barrelled-gun.

The works contemplated in various bills presented to the Parliament of England for objects of internal improvement, involve an expenditure of the enormous sum of four hundred and eighty-two millions, eight hundred and thirty-four thousand, four hundred and sixty-four dollars. Of this sum upwards of four hundred millions are for railways.

The amount of nails made in the United States is estimated to be fifty thousand tons! Forty thousand casks, or four millions pounds of nails are annually made by the Boston Company, at the Mill Dam.

It is stated that the Jews in Baltimore have called a meeting for the purpose of organizing a volunteer company, to do battle with the Mexicans.

Edward Dyer, Sergeant-at-Arms of the United States Senate, died at Washington, (D. C.) on the eighth instant, aged fifty-two years.

A lady of Farmington, (Ct.) stuck a pin in her thumb, and then put her hands in cold water, which produced inflammation, which was followed by mortification, causing her death in about twenty two days from the time of the accident.

There are about fourteen hundred newspapers printed in the United States, giving employment to about twelve thousand hands.

It is indeed a great affliction to be deprived of health, and when a reflecting mind takes in consideration the importance of preserving that health, no want of care or vigilance need be suggested. But with the diseases that mortals are subject to, a remedy for each particular disease no doubt exists, if it were only known. Occasionally a discovery is made in the vegetable kingdom, which proves to be a great blessing to mankind. The Health Restorative is one of this kind, it is doing wonders in diseases of the Lungs and Liver, and all derangements of the Stomach and Bowels, arising from Indigestions. It is recommended to all who are thus afflicted. 22

C. BRINCKERHOFF'S

THE great and principal object to be desired in any medicine that makes any pretension to cure all or any class of diseases, is, that it should show evidence of such power of cure and in a reasonable space of time. In disease of a complicated nature, where the effect is deep seated, as in Consumption, Liver Complaint, Coughs, Colds, Asthma, and pain in the Breast and Side, it is an extremely difficult matter to bring it under the effect of usual remedies. It appears requisite that the compound should be of such a peculiar combination, that all its materials may act simultaneously upon the affected organ, and not have its power diffused to other parts of the human frame, and that these materials have some defined medical effect on that organ. Most truly in the Health Restorative do the component parts, when separately or collectively considered, most convincingly show their individual and connected power and efficacy. Thus it is this remedy exerts such an astonishing influence in the complaints for which it is commended. If in any solitary case it had not power efficacious, the confidence of the public would have been shaken, but from its never failing promptness in checking the ravages of disease, and its sure power in restoring to health and strength, it is placed even beyond the possibility of a doubt that the acme of perfection in such a medicine has been gained. Let the certificates of the greatest and most honest men of our country or a faithful trial of the Restorative, convince those who seem otherwise incredulous of such a remedy. The following certificate is from Dr Chilton, the well known New York chemist.

"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."

POETRY.

THE LIFE CLOCK.

There is a little mystic clock
No human eye hath seen,
That beateth on and beateth on
From morning until e'en.

And when the soul is wrapt in sleep
And heareth not a sound,
It ticks and ticks the livelong night,
And never runneth down.

Oh! wondrous is that work of art
Which knolls the parting hour;
But art ne'er formed or mind conceived
This life clock's magic power.

Nor set in gold nor decked with gems,
By wealth and pride possessed,
But rich or poor, high or low,
Each bears it in his breast.

When life's deep stream mid beds of flowers
All still and softly glides,
Like the wavelet's step, with a gentle beat,
It warns of passing tides.

When threatening darkness gathers o'er
And hope's bright visons flee,
Like the sullen stroke of the muffled oar
It beateth heavily.

When passion nerves the warrior's arm
For deeds of hate and wrong,
Though heeded not the fearful sound
Its knell is deep and strong.

When eyes to eyes are gazing soft,
And tender words are spoken,
Then fast and wild it rattles on,
As if with love 'twere broken.

Such is the clock that measures life,
Of flesh and spirit blended
And thus 'twill run within the heart
Till that strange tie is ended.

NEVER GIVE UP!

Never give up! it is wiser and better
Always to hope than once to despair;
Fling off the load of Doubt's cankering fetter.
And break the dark spell of tyrannical care:
Never give up! or the burthen may sink you—
Providence kindly has mingled the cup,
And in all trials or troubles, bethink you,
The watchword of life must be, Never give up!

Never give up! there are chances and changes
Helping the hopeful a hundred to one,
And, through the chaos, High Wisdom arranges
Ever success—if you'll only hope on:
Never give up! for the wisest is boldest,
Knowing that Providence mingles the cup,
And of all maxims the best, as the oldest,
Is the trite watchword of Never give up.

Never give up! though the grape-shot may rattle,
Or the full thunder-cloud over you burst,
Stand like a rock, and the storm or the battle
Little shall harm you, though doing their worst:
Never give up! if adversity presses
Providence wisely has mingled the cup,
And the best counsel, in all your distresses,
Is the stout watchward of Never give up.

WHAT I LOVE.

I love the sober tranquil hour
When all is calm and still,
When silence reigns through grove and bower
And thoughts serene our bosom fill.
The world is hush'd, its cares and strife,
Seem buried, or perchance forgot;
And all the scenes of checkered life
Are now reviewed by busy thought.

I love the mem'ry of the joy
I knew in days of early youth,
When pleasure seem'd without alloy,
And every heart seem'd one of truth.
I deem'd not then that pleasure here
Would soon be chang'd for sorrow;
Nor yet that friends to-day sincere,
Would prove false ere the morrow.

I love to think of moments spent
With cherish'd friends the lov'd and true,
Whose ev'ry look or action lent
To nature's scenes a charm so new;
I love to think of friends so kind
Whose smiles have cheer'd bliss' lonely day;
And sweet the thought it brings to mind,
They'll think of me though far away.

ANECDOTES.

A gentleman travelling on the North River, overheard two ladies in an adjoining state-room, incessantly calling upon the Steward. "Steward!" called one, in a smothered voice, as if in intense suffering, "*do* come and open this window, or I shall die!" The window was accordingly opened; but directly the other lady exclaimed, "Steward! do come and shut this window, or I *shall* die!" This, too, was obeyed, when the first order was repeated, followed by the other in the same terms—and this continued until things began to grow serious, and the poor Steward commenced turning very red and perspiring with vexation. At this moment a gentleman, who had been a quiet observer of the scene, cried out in a loud voice, "Steward! why don't you wait upon the ladies there? Shut the window till one of them is dead, and thon open it and finish the other!"

Dr. H. called at the Times office, London, to inquire the price of inserting the death of a relative. "Ten shillings," said a clerk. The Dr. remonstrated and said he only paid seven for the last. "Oh," said the clerk, "that was a common death, but this is *sincerely regretted*." "Well, my friend," said the Dr. laying down the ten shillings, "your executors will never be put to that expense."

Rachel, my daughter, why don't you learn as fast as your little sister, Hannah? 'Why don't every stock of clover bear four leaves, mother?'

"Mr. C., if you'll get my pants done by Saturday night, I shall be forever indebted to you."
"If that's your game, they will not be done sure," said the tailor.

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skelcton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over Two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Furest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Bandcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Krauth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea-sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriquez, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York.

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; R. Gleason, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

June 28 tf

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, 'if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educaced and experienced Physician, rather than the precautions and dangerous doings of Quacks and inexperienced Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10; sent to all parts of the Union. Office and consultation rooms,

4 1-2 SUDBURY STREET,
(Opposite Alden Lane.)

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*
JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine:

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health, and have not raised any blood since the use of the first bottle of this excellent preparation.

WYMAN ABERCROMBIE.

Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark:

DEAR SIR—I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. Yours, truly,

IBRAHIM BARTLETT.

Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.

Only Office in Boston, No. 51 1-2 Hanover Street, (up stairs.) People in other cities and in country towns may obtain the Medicine by sending for it through conductors of railroad cars, drivers of stages, or in such other way as may be most convenient to them.

The Great Remedy

FOR

Consumption, Asthma, Dyspeptic Consumption, Spitting of Blood, Bronchitis, Difficulty of Breathing, Hoarseness, Influenza, Croup, Colds, Pain in the Breast and Side, Dyspepsia, and various affections of the Stomach and Liver.

Folger's Olosaonian, or All-Healing Balsam.

IT is acknowledged that more persons die of Consumption than of any other disease. It is estimated that in the United States over THIRTY THOUSAND PERSONS annually fall victims to this dreadful scourge. The cause of the evil is generally overlooked. *A short dry Cough* is the precurser—or a neglected cold. These symptoms are deemed unimportant. Pain in the Side, Hectic and night Sweats follow, and death ends the scene.

Would you find a REMEDY FOR THE EVIL? Here it is. The experience of more than twenty years has proved its efficacy, and thousands are rejoicing in its effects.

Case of INCIPIENT CONSUMPTION—George W. Burnett, Esq. of Newark, N. J., had suffered under the effects of a severe cold for more than a year, and in the month of August, when his Cough had reduced him so much that he feared he would die, he commenced using the Olosaonian. He raised blood at this time, complained of pain in his side and chest, and was very much debilitated by *night sweats.* His appetite was gone, and altogether he appeared to be rapidly sinking. He was so much relieved by the use of this remedy that by the month of November he left for Pittsburg, Pa. with every prospect of being permanently cured.

Read the following case of CONSUMPTION.—The cure was truly a wonderful one and places the *Olosaonian or All-Healing Balsam,* at the head of the list of remedies for eradicating that dreadful disease:

George W. Hays, residing in this city, (New York) was seized with a severe cold in the early part of the summer. His cough became very troublesome and he began to *raise blood.* He complained of a severe pain in the chest and his breathing became so short that he could not walk any distance without stopping for breath. His night sweats reduced him very low. He was under the care of several physicians in Brooklyn, who told him they could do no good, as his disease was a settled and fixed Consumption. He removed to this city to die among his friends. He was by this time so weak that he could not walk without assistance. Although his friends had now given up all hope of his ever being any better, he commenced using the *Olosaonian, or All-Healing Balsam,* and in a few weeks was so far restored as to able to resume his business.

Mr. T. Laban, residing at 52 Pine street, was severly afflicted with Asthma, in consequence of having taken a severe cold in the early part of last winter. In the early part of the night he could sleep tolerably well, but towards one o'clock in the morning his Asthma became so severe that he was obliged to get up and sit for the remainder of the night leaning forward on a chair. His cough was most distressing through the day. He had, during his sickness, tried almost every thing without relief. He never had a good night's rest in ten months, until he commenced taking the Olosaonian or All-Healing Balsam, when he found immediate relief, and before using half a bottle of it was perfectly well, and now sleeps as quietly as he ever did in his life.

Hundreds of cases could be given to prove the efficacy of the great remedy. And it possesses a property superior to all others, viz: it does not constipate the bowels. Reader, are you suffering under any of the above symptoms of disease? Try this remedy,—It will allay the *Pain in your side and chest*—put to flight the COUGH which deprives you of sweet slumber and repose; if you have Asthma, be assured there is no medicine in the world that will cure you so speedily, and it will arrest all those disagreeable symptoms which strike such terror to the mind and give such dreadful forebodings of an untimely and speedy dissolution.

Sold at one dollar, per bottle, by REDDING & Co. State street, Boston; and by the following appointed agents:

Mrs. Hayden, Quincy; J. Babcock, Milton; M. D. Plumer, Milton; Eli Thayer, Weymouth; Wm. A. Torry, do.; King & Nash, Abington; N. N. Dyer, do.; A. E. Dubois, Randolph; R. Gleason, Dorchester. tf August 16.

SUGAR COATED CLICKENER'S VEGETABLE PILLS

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine; for these pills are so skilfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they never the disease to the core, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine, while they speedy direct in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 25 cents per box, with full directions, and sold by the following list of Agents.

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; E. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 22.

SIMON SAWLEY'S SHILLING

On a steep hill-side, sloping down to our lovely English rivers, stands a sma lage, looking so still and sequestered, tha would imagine that the greater part of habitants are weavers, employed in a sil a little higher up the river. How it ha served its primitive rural appearance it ficult to say; perhaps the owner of the mentioned mill struck with the pictur beauty of its detached cottages, follow example of the original inhabitants, and smaller ones for his work people; for th side is dotted over with cottages of every ety, from amongst which rises the taper of the village church, surrounded by its burial ground. There is, however, one tion to the general aspect of the village the foot of the hill is one row of cottages the river, with gay flower-plats in front ing to the water's edge, and larger garde hind, divided from each other by thick hedges. In one of the cleanest of thes tages, with the trimmest flower-plats and stocked garden, there lived at the time I Westleigh, a certain Mrs. Simon Sawle she being the more authorative person, t sidence was always so designated in the Simon was a well-meaning, good nature offensive sort of a man—a good hand work; but not celebrated for great pow intellect or strength of mind. His wife pretty little woman, with soft brown eyes, clear complexion, a neat compact figure mild expression of countenance. Her was sweet and subdued in its tone, and to from appearances, you would have pronc her the meekest and gentlest of her gend But alas, appearances are proverbially dec —a truth to which no doubt, we can all t but none with more reason than poor S Martha Sawley, to use her own phrase, not a woman to be put upon by any b which meant that she was a woman who have her own way in spite of every body fact, like many mild looking, smooth-s women, Martha possessed that unconqu obstinancy that neither entreaties nor t can soften or subdue. She never scolde rarely lectured, but quietly and steadily ed the settled purpose of her soul, regu alike of the wishes or convenience of o If ever it happened that she met with than usual opposition, she would assum air of a deeply injured person, maintain stinate silence, or when absolutely oblig speak, answer only in monosyllables; short, fall into a sullen fit, from which n short of the most entire submission to h could arouse her. It was rarely indee honest Simon ventured upon any thing opposition; for, though not possessed traordinary developement of either the metical or reasoning powers he had le from experience, to count the cost before ing upon the war, and to avoid a contest must end in total defeat. There was, ho one point upon which, though secretly, dulged in feelings of a rebellious and ordinate nature, Mrs. Sawley insisted th should every Saturday bring home to h whole of his week's wages, without an duction whatever. This, of course, was right, and what every good husband do ought to do! but this was not all; she not allow him a penny in his pocket, no on the condition of never spending it she is wont to remark, "men are but m the best, and frail creatures," therefore i better not to put temptation in their way; sides, for her part, she could not see man, who had a good wife to provide thing comfortable for him, could want money." He worked for it, and she spe to the best advantage of course; and th her opinion, was the order of Providence.

SIMON SAWLEY'S SHILLING.

On a steep hill-side, sloping down to one of our lovely English rivers, stands a small village, looking so still and sequestered, that none would imagine that the greater part of its inhabitants are weavers, employed in a silk mill a little higher up the river. How it has preserved its primitive rural appearance it is difficult to say; perhaps the owner of the above mentioned mill struck with the picturesque beauty of its detached cottages, followed the example of the original inhabitants, and built smaller ones for his work people; for the hill-side is dotted over with cottages of every variety, from amongst which rises the taper spire of the village church, surrounded by its quiet burial ground. There is, however, one exception to the general aspect of the village. At the foot of the hill is one row of cottages facing the river, with gay flower-plats in front, sloping to the water's edge, and larger gardens behind, divided from each other by thick thorn hedges. In one of the cleanest of these cottages, with the trimmest flower-plats and best stocked garden, there lived at the time I knew Westleigh, a certain Mrs. Simon Sawley, for she being the more authorative person, the residence was always so designated in the village. Simon was a well-meaning, good natured, inoffensive sort of a man—a good hand at his work; but not celebrated for great power of intellect or strength of mind. His wife was a pretty little woman, with soft brown eyes, a fine clear complexion, a neat compact figure, and mild expression of countenance. Her voice was sweet and subdued in its tone, and to judge from appearances, you would have pronounced her the meekest and gentlest of her gentle sex. But alas, appearances are proverbially deceitful—a truth to which no doubt, we can all testify; but none with more reason than poor Simon. Martha Sawley, to use her own phrase, "was not a woman to be put upon by any body;" which meant that she was a woman who would have her own way in spite of every body. In fact, like many mild looking, smooth-spoken women, Martha possessed that unconquerable obstinancy that neither entreaties nor threats can soften or subdue. She never scolded, she rarely lectured, but quietly and steadily pursued the settled purpose of her soul, regardless alike of the wishes or convenience of others. If ever it happened that she met with more than usual opposition, she would assume the air of a deeply injured person, maintain an obstinate silence, or when absolutely obliged to speak, answer only in monosyllables; and in short, fall into a sullen fit, from which nothing short of the most entire submission to her will could arouse her. It was rarely indeed, that honest Simon ventured upon any thing like opposition; for, though not possessed of extraordinary developement of either the arithmetical or reasoning powers he had learned from experience, to count the cost before entering upon the war, and to avoid a contest which must end in total defeat. There was, however one point upon which, though secretly, he indulged in feelings of a rebellious and insubordinate nature, Mrs. Sawley insisted that he should every Saturday bring home to her the whole of his week's wages, without any deduction whatever. This, of course, was quite right, and what every good husband does, or ought to do! but this was not all; she would not allow him a penny in his pocket, not even on the condition of never spending it for as she is wont to remark, "men are but men at the best, and frail creatures," therefore it was better not to put temptation in their way; "besides, for her part, she could not see what a man, who had a good wife to provide every thing comfortable for him, could want with money." He worked for it, and she spent it, to the best advantage of course; and that, in her opinion, was the order of Providence.

One lovely evening towards the latter end of spring, Simon was busy in his garden. It happened that he was occupied near the hedge which divided his territories from those of his next neighbor. Like most remarkable individuals, Simon had his eccentricities, one of which was, when any affair of moment weighed on his mind, of indulging in audible soliloquy! and as he worked, he talked to the following effect: "Well it is too bad, that it is, thirty shillings a week, let alone odd jobs, and never a farthing to bless myself with. Tom Jones said he would'nt stand it if he was me; he'd be master. But it's easy talking; he knows nothing about it; isn't married, and don't know Martha. Well never mind. I've got—yes, here it is, safe and sound—I've got a shilling; I have a shilling that nobody knows nothing about." And after gazing at it fondly for some minutes, he put it again into his pocket, which he buttoned carefully up, pulled his waiscoat well down, and patting it several times to make sure there was no outward and visible sign of the hidden treasure, he resumed his work with great self-complacency. It is commonly said that stone walls have ears; and it has been a notorious fact ever since the day of King Midas's barber, that woods and groves are the most treacherous of confidants. Certain it is that Simon's secret was no longer his own! it passed into the possession of another through the instrumentality of the above mentioned hedge.

However Simon continued his work in blissful ignorance, until the sound of Martha's voice from the backdoor warmed him that supper was ready. That night he lay awake some time longer than usual, revolving in his mind how he should dispose of the bewildering sum in his possession. First, he thought of purchasing himself a new fishing-rod, then of buying a fine tulip for his flower garden. Various temptations of a similar nature presented themselves to his imagination; but to all there was one general objection, inquiries were sure to be made as to where the purchase money come from; Martha would get to know all about it, and that would never do; so the idea, was dismissed entirely. Then he determined to keep it until a good opportunity occurred of proving to his fellow workmen and acquaintances, especially to Tom Jones, that he had money, and could spend it on a glass of ale or mug of porter, with the best of them. At last a bright idea struck him: he would—yes, that he would—have it put in the savings bank.—With a mind set at ease by this laudable resolution, Simon fell asleep, and dreamed that his shilling had, in an incredibly short space of time, accumulated to such a degree, as to enable him to purchase a cow, two pigs, and a stock of tulips that made his garden the wonder and admiration of the whole village. The next morning proving to his great satisfaction wet, Simon (in order to put in execution the plan he had formed) proposed taking his dinner with him to the mill, instead of returning home at noon. Having happily accomplished his purpose with little trouble, (for as it was washing day, Martha was perfectly willing to have him out of the way,) he set off, walking with the conscious dignity of a man worth something. As he passed along, he was surprised to find himself the object of general attention and amusement. Inquiries as to health, state of mind, and future plans were showered upon him. One wished to know when he intended to set up his carriage, and another hoped he would not forget old friends, now that he was so great a man. Nor was his bewilderment lessened on arriving at the mill, for all his fellow workmen were ready with a joke and a laugh at his expense. But Simon, like Socrates, was a practical philosopher, and he bore all their raillery as a philosopher should—with unruffled calmness. As soon as the bell for the dinner hour rang, he left his work, and having despatched his meal with all possible speed, he not without some trepidation, made his way to a neighboring town, where he knew there was a savings bank which would be open that day. On reaching his distination he first looked cautiously round, to make sure he was unobserved, and seeing no one he knew, he boldly entered. Mr. Vivian, Simon's master, was one of the trustees and managers of this bank, and happened to be in attendance that day. Simon's domestic grievances were well known to him, and his appearance occasioned some surprise. "Well, Simon," what is your business; nothing the matter at the mill, I hope?"

"No, sir, replied Simon; "I came about a little matter of my own, regarding a bit of money I was thinking of putting into the bank."

"That's right, Simon; "I am glad to hear it," said Mr. Vivian. "You are getting good wages, and are now strong and hearty; it is very proper you should lay by something against old age or sickness. But how is it," added he, smiling, "that you have come without Martha?"

"The truth is," said Simon, twisting his hat round and round as he spoke, "the truth is sir, Martha don't know nothing at all about it; and that's one reason I brought it here, thinking it would be safe you know, sir."

"Oh, indeed! that is it, is it," said Mr. Vivian.

"Why you see, sir, it is this way," continued Simon lowering his voice to a confidential tone, "it's a trifle I made unbeknown to any body; so I says to myself if I keep it by me, Martha will be sure to get it, and if I spend it, why, she'll get to know, and I shall never hear the last of it; so I'll put it in bank, and then I shall have it safe, and it will be making more—and," concluded Simon, who during this speech had been fumbling in his pocket, from the bottom of which he at length brought forth his shilling, "here it is, and you'll be so good as not to mention it, sir."

"Oh, certainly not, if you wish it," replied Mr. Vivian, unable to suppress his amazement at Simon's simplicity, "but you are mistaken in supposing your shilling will, as you say, be making more. If you leave it here for five or six years it will still be but a shilling; on the contrary, if every week or fortnight you added a little more to it, it would at the end of that time amount to a sum that would really be useful to you."

It was no small disappointment to Simon to hear that his shilling would not accumulate of its own accord; but the great object was still attainable; so he said with a sgh, and in a somewhat despairing tone, "I'd like to leave it if you've no objection, sir; at any rate, it'll be safe; and if I should get another shilling why, I'd be sure to bring it too."

"If," said Mr. Vivian, who, though greatly amused, pitied Simon's evident disappointment "If you are really anxious to be laying something by and do not mind a little extra work, I think I can enable you to do so. I have occasion to send twice or three times a week to town on business, and am just now in want of a messenger I can trust. I know you to be honest and trustworthy, and if you like to undertake the job, I will put whatever you earn in that way in the savings' bank, and it will not interfere with your regular wages."

Simon's countenance brightedat this proposal. It was just the very thing for him. He eagerly accepted the offer, and ater expressing this thanks and begging his maiter's secrecy, with a lightened heart, as well as pocket, he returned to Westleigh. He was now doubly armed against the raillery of his companions. Various were the devices to which they resorted to induce Simon to part with, or even to display his treasure; but, to their great surprise, against remonstrances, entreaties, and ridicule, he was proof. It was all in vain, even when Tom Jones hid himself behind the old hedge. Whether Simon suspected the treachery of which he had been guilty, certan it is that he never again chose that part of the garden for his self-communings.

So weeks, months, and years passed away and the mystery of the shilling remained unsolved. What had become of it nobody could tell; and as it usually happens in such cases, there were not wanting persons faithful enough to doubt whether it had ever existed. In the meantime it must not be supposed that Mrs. Sawley silently acquiesced in her husband's spending any of his time in the service of another, in return for which nothing was forthcoming. On the contrary, few days passed on which she had not some observations to make on the comparative merits of prudence and good nature, always placing the former virtue (which, according to her defintion, consisted in getting everything and giving nothing) far above the latter, which she considered as only another word for sheer folly, and concluding with a general remark on the contemptible weakness of those who were guilty of it All this, however, Simon bore without flinching, for there is something in the knowledge of being treated with injustice that inspires even the meekest spirit with fortitude. Nay, sometimes, Martha could almost have imagined that Simon turned away his face to conceal a smle. A smile at her! but no, it was impossible; she could not admit her own eyes as credibe witnesses to such an act.

About six years after Simon's first visit to the savings' bank, he had the misfortune to break his arm. The fracture was severe, and the pain of setting united with the anxiety caused by the knowledge that he was for some time disabled from his work, brought on a low fever, which for many weeks confined him to his bed; and when at length he was able to leave it, he was so weakened and reduced as to render it doubtful when he would be strong enough again to provide for the wants of his family. Added to this misfortune, food was that year remarkably dear; the harvest was bad, and the potatoe crop indifferent; and though Martha was an excellent nurse and manager, it surpassed even her powers to provide food and medicine, with little or nothing coming in. Their neighbors sympathized sincerely in their distress, and gave the best proofs of their sympathy by rendering them all the assistance in their power; but they were poor themselves and found difficulty enough in making all ends meet. It was in the midst of these perplexities when rent was due, a doctor's bill in prospect, and turn which way they would nothing but debt and poverty staring him in the face, that Simon remembered his secret hoard. From the time of their first agreement, his kind master had regularly provided with the means of earning a small sum over and above his weekly wages which, instead of paying to him, he had put in the savings' bank. What it amounted to by this time he did not know; he thought it could never be more wanted, and whatever it might be, would afford some relief. His astonishment was scarcely less than his delight to find himself master of the almost incredible sum of thirten pounds twelve shillings and sixpence. It was enough, more than enough, to pay all his debts. No farmer contemplating his flocks and herds, his well-stored barns and crowded granaries; no merchant, welcoming into port the costly freight that almost doubles his overflowing wealth; no young heir, gazing on the spacious park, the sunny fields, and stately woods that he can call his own, ever felt such pure and unalloyed happiness as swelled the heart and glistened in the eye of poor Simon, as he looked upon his well earned wealth. And Martha, what did she say, what did she think? Martha had been taking a few lessons in a school that seldom fails to profit and improve those who come under its discipline—the school of adversity.

She had suffered anxiety, privation, and want; seen the husband, whom, after all, she truly loved, feeble and suffering without being able to procure those things she knew to be necessary to restore him to ease and health; and had known what it was to have her children crying around her for the bread she had not to give. The tears of joy she had shed when informed of his timely but most unexpected relief, were not unmingled with those of shame and self-reproach; and sincerely did she now regret her unkindness and selfishness. She said little, for Martha was not a woman of many promises; but she resolved that nothing on her part should ever again give occasion for concealment on his. Nor was her resolution in vain. In a short time Simon, with proper nourishment and good nursing, regained his accustomed health and strength, and returned to his employment; and though they had a hard winter and spring, yet pleased with themselves and each other, they got well through it. Theirs had always been a clean, well-managed household; but now, brightened by love and confidence, there was no happier family in Westleigh, nor did they ever fail to save something every week from their earnings to put into the savings' bank.

Great was the wonder and many the congratulations of the good people of Westleigh, and to think, as Simon said many times a day, "that all this good should come from my shilling; for he persisted in regarding this as the grand source of his happiness. To this day it is common in the village, when speaking of an industrious, prosperous family, to say that such persons have got a shilling that nobody knows off.'

THE CONSUMMATION. 'Twas twilight. Seated at the door of a moss covered cottage, was the pride of the village—lovely Phœbe. Her finely moulded form—her exquisite and voluptuous bust—her classic and beautiful chiselled features—her sweet lips—teeth of pearly whiteness—and such eyes! two drops of liquid azure set in snow! all combined, 'twas enough to melt the heart of an anchorite!

Beside this angel, knelt a youth, whose cheek, pale as ashes, told the tale—he was in love! "Tell me," said he—in trembling accents—"Tell me this night my fate. Keep me in agony no longer. Tell me what sacrifice I shall undergo for you—you, my soul's idol! Command me to perform a pilgrimage around this earth on burning coals—and it shall be done. Any thing—any thing—but cast me not off. Plant a dagger in my heart but keep me in suspense no longer! Say, lovely Phœbe—will you—*will you be mine?*" He trembled—his heart throbbed—she saw he was ready to swoon—a crimson flush mantled her cheek

"Like the rich sunset 'neath Italy's sky."

She took his hand in her tiny fingers—put her smiling lips to his ear, and whispered,

"Obed, *I shan't be nothin' else.*"

A BEAUTIFUL FIGURE. Life is beautifully compared to a fountain fed by a thousand streams that perish if one be dried. It is a silver cord twisted with a thousand strings that part asunder if one be broken. Frail and thoughtless mortals are surrounded by innumerable dangers, which make it much more strange that they escape so long, than that they almost all perish suddenly at last. We are encompassed with accidents every day to crush the mouldering tenements that we inhabit. The seeds of disease are planted in our constitutions by nature. The earth and the atmosphere whence we draw the breath of our life are impregnated with death—health is made to operate its own destruction! The food that nourishes the body contains the elements of its decay; the soul that animates it by a vivifying fire tends to wear it out by its own action; death lurks in ambush along our paths. Notwithstanding this is the truth, so palpably confirmed by the daily examples before our eyes, how little do we lay it to heart! We see our friends and neighbors perish amongst us, but how seldom does it occur to our thoughts that our knell shall, perhaps, give the next fruitless warning to the world!

EXECUTIONS. The frequency of executions is always a sign of the weakness or indolence of Governments. There is no malefactors who might not be made good for something; nor ought any person to be put to death, even by way of example, unless such as could not be preserved without endangering the community. In a well-governed State there are but few executions; not because there are many pardoned, but because there are few criminals; whereas, when a state is on the decline, the multiplicity of crimes occasions their impunity. Under the Roman republic, neither the Senate nor the Consuls ever attempted to grant pardons—even the people never did this, although they sometimes recalled their own sentence. The frequency of pardons indicates, that in a short time crimes will not stand in need of them; and every one may see the consequence of such conduct.—*Rosseau.*

WOMEN IN ADVERSITY. There is not on earth a more noble and sublime spectacle, than a virtuous woman, alone and unfriended in the cold world, struggling bravely against the frowns of fortune and the temptations of society run mad with riot and licentiousness, and maintaining herself pure, uncontaminated and above reproach—perhaps, too, feeding the hungry mouths of her fatherless children—by the labors of her own hands; and the wretch, who would rob her of one single penny of the subsistence thus acquired, deserves to be scourged with scorpions. Proud and happy are we, at all times and in all circumstances, to stand up as the champion and defender of such uncomplaining, unpretending virtue and beauty—for virtue is beautiful, and all the charms which ever flashed intoxication to the senses from woman's face and form are hollow and hideous with mockeries, if virtue commend them not to the heart and soul of the beholder.—*New York Tribune.*

A GOOD MAN APPROACHING HIS GRAVE.—We can conceive no spectacle more sublime than that of an old man—whose guide through life was virtue, and whose inseperable companions were justice and truth—rising among those whom in their youth he instructed in the principles of religion and science, and in their manhood he counselled in their duties as citizens and men, and bestowing on them, as it were, a parting benediction. It gives one a more exalted idea of our nature, and shows us how high above the grovelling things of life it may ascend when a proper direction is given to, and a due restraint is placed upon, its impulses. There are more true honors in the silver heirs of such a man, than in the diamond-set coronets of others.

WORKING FOR A LIVING. Whence originated the idea that it was derogatory to a lady's dignity, or a blot upon female character to labor; and who was the first to say sneeringly, "Oh, she works for a living!" Surely such ideas and expressions ought not to grow on republican soil! The time has been when ladies of the first rank were accustomed to busy themselves in domestic employments. Homer tells us of princesses who used to draw water from the springs, and wash with their own hands the finest of the linen of their respective families. The famous Lucretia used to spin in the midst of her attendants; and the wife of Ulysses after the seige of Troy, employed herself weaving until her husband returned from Ithica.—*Lowell Offering.*

PAYING LIKE A SINNER. Several years ago, in North Carolina, where it is not customary for the tavern keepers to charge ministers for lodging or refreshments, a preacher presumingly stopped at a tavern one evening, and made himself comfortable during the night; and in the morning entered the stage without offering to pay for his accommodations. The landlord soon came running up to the stage, and said, "there was some one in there who had not settled his bill"—the passengers all said they had but the preacher, who said he had understood he never charged ministers any thing. "What, you a minister of the gospel, a man of God," cried the inn-keeper, "you came to my house last night, you sat down at the table without asking a blessing; I lit you up to your room, and you went to bed without prayer to your Maker, (for I said there until you had undressed;) you rose and washed without prayer, ate your breakfast without saying Grace, and as you came to my house like a sinner, you have got to pay like a sinner."

GREEK WOMEN. Their feet and ankles, which, by the way, rather correspond to Grecian than to modern ideas of beauty, are completely hid by the folds of the trousers, that are tied like a purse just below the knee. This gives a woman, when walking, completely the appearance of a feathered-paw pigeon. This is the more striking, as Grecian coquettes effect as much as possible to imitate the walk of a bird. "You walk like a goose," "like a duck," however impertinent to the ear of an English belle, are the most flattering compliments that can be whispered in those of a Greek one.

A MAN OF CONSEQUENCE. By a single look at the man who is passing, you can tell that he is of some consequence in the world. Of the small fry—such as mechanics, common merchants and second rate lawyers, he takes no notice. Let a count come to our town—a baron—an officer in the army or navy—and there is nothing like it—the man of consequence takes him by the arm and parades the streets, making a fool of himself in the eyes of all the intelligent. Such is the man of consequence. Do you wish to follow in his illustrious footsteps?

PICKLED EGGS. When eggs bring too little, just boil them tolerably hard, take off the shells, put them in a jar, and pour over them scalding vinegar seasoned and spiced to your taste. Then stop the jar close, and in a month you will have the best pickles in the world.

DIARRHŒA. A simple cure is proposed in the Albany Argus for this disease. *Three strawberry leaves eaten green*, are said to be an unfailing and immediate cure for summer complaint, diarrhœa and dysentary. Strawberries are out of season, but we presume the green leaves can be had.

ALPHABETICALLY ARRANGED. A wife should be Amiable, artless, affable, and accomplished; Beautiful, benign, benevolent; Chaste, charming, candid, cheerful, complaisant, charitable, civil, constant; Dutiful, dignified; Easy, elegant, engaging, entertaining; Fond, faultless, free; Good, graceful, generous, governable, gay, good humored; Handsome, harmless, healthy; Intelligent, interesting, industrious, ingenious; Kind; Lively, liberal, lovely; Modest, merciful, mannerly; Neat, notable; Obedient, obliging; Pretty, peaceable, pure; Righteous; Social, submissive, sensible; Temperate, true; Virtuous; Well informed and Young.

OLD HUNDRED. The music in harmony of four parts of this venerable Church tune, was composed by Claude Goudimel, about the year 1544. The composer, who was Chapel master at Lyons, France, died in 1572, a victim to religious opinion. The harmony of this hymn has since been altered, as may be seen by comparing the same, as arranged in the present collections of Church music, with the original. It is a popular musical-historical error, that Luther was the composer of this chorale.—*Musical World.*

DON'T GRUMBLE He is a fool that grumbles at every little mischance.* Put the best foot forward, is an old and good maxim. Don't run about and tell acquaintances that you have been unfortunate. People don't like to have unfortunate men for acquaintances. Add to a vigorous determination, a cheerful spirit; if reverses come, bear them like a philosopher, and get rid of them as soon as you can. Poverty is like a panther; look at it steadily in the face, and it will turn from you.

HOW TO LEARN THE VALUE OF A DOLLAR. Reader, if you would learn the value of a dollar, go and labor two days in the burning sun as a hod carrier. If many of our young gentlemen had to earn their dollars that way, how much less dissipation, and folly and crime, would we witness every day. So of our fashionable young ladies. If they, like the poor widowed author of the song of the shirt, had to earn their dollars by making shirts at sixteen cents apiece, how much less foolish finery would we see about them, and how much more truthful notions would they have of the duties of life, and their obligations to the rest of the world.

FALL TRANSPLANTING. Mr. G. Newell of Dorchester, says: "Persons wishing to set out trees, will find the fall much the best time, as the land is in much better condition then than in the spring. In setting out trees in the fall, it requires a shovel-full of coarse straw manure around the tree, with a few shovels of soil on top, to prevent the heaving of the roots. Trees managed in this way, will make much larger growths the coming season than if set in the spring; the dry weather of the succeeding year will not affect them as those set out in the spring. All young trees should receive the above protection for three or four years after being set out; the extra soil can be removed late in the spring of the year, leaving the manure around the trees. Experience tells me that by setting out trees in the fall, with the above precaution, I do not lose one one-half that I do by setting out in the spring."

READERS. Coleridge divided readers into four classes. The first he compared to an hour glass, their reading being as the sand—it runs in and it runs out, and leaves not a vestige behind. A second class, he said, resembled a sponge, which imbibes everything and returns it nearly in the same state, only a little dirtier. A third class he likened to a jelly bag, which allows all that is pure to pass away, and retains only the refuse and the dregs. The fourth class he compared to the diamond miners in Golconda, who, casting aside all that is worthless, preserved only the pure gem.

RANCID BUTTER. To make rancid butter sweet, beat two pounds of it in a sufficient quantity of water, into which drop thirty drops of chloride of lime, and after washing it well, let it stand about two hours in the water; strain it off, and wash it again in fresh water, and it will be fresh and sweet. This is a French recipe—safe and simple.

For the Quincy Patriot.

LETTER FROM BOSTON.

BOSTON, SEPT. 18, 1845.

FRIEND GREEN: We are enjoying beautiful weather in our city for the present. Business does not appear to have abated, and I presume that our tradesmen are reaping fair profits from their industry. Although goods of every description are low, they are sold principally for cash—which enables our traders to dispose of their goods at reduced prices, and still reap a profit, inasmuch as the credit system which afforded larger profits often *reaped* goods, profits "and all" from them.

I merely drop you this brief letter to-day, for the purpose of informing you, and, through you, the citizens of Quincy, that the Native Americans of Boston, are thoroughly organized, and have commenced their "fall campaign." About twenty eloquent and intelligent speakers have been secured by the Executive Committee to visit the adjoining and interior towns, for the purpose of assisting in organizing the Native Americans throughout the State. A number of speakers will visit your town on next Thursday evening, when you may expect addresses from them, worthy of the attention of all Americans. I trust that they will meet with a cordial reception from the Americans of Quincy, who have the welfare of their country at heart.

Yours, G.

QUINCY PATRIOT.

SATURDAY, SEPT. 20, 1845.

John A. Green, Editor.

JOHN B. GOUGH. The deep interest felt throughout the community in this unfortunate man, authorizes us to give all the particulars which come from a reliable source, in reference to the late calamity which has befallen him. The following is from the New York Journal of Commerce of last Monday:

"Mr. Gough remains in an exceedingly excited state, and had neither ate nor slept. His nervous excitement exhibited all the deranged anguish which he has himself so eloquently described. In his most lucid intervals, he is entirely overwhelmed at reflecting upon what he has done—says he has disgraced religion and disgraced the temperance cause, and must be excommunicated from the church; and his tears flow so profusely that his garments are abundantly wet with them. His contrition seems of the deepest and most thorough character; but thus far all his emotions are in the highest degree excited. The house in Walker street, where he was found, has been visited by two friends. It is a small house, and occupied by a woman of middle age, and two young women. They were occupied with their needles, and their appearance indicated that they were accustomed to be so occupied. Their account of the matter is, that Mr. Gough came to the door and said he wanted a home. They supposed him to be, from his appearance, a young gentleman of good family, on a spree; and, after some parley, allowed him to come in and stay in one of the rooms; that he required wine and other stimulants constantly, supplies of which they procured him; and that they were unable to ascertain his name or anything by which his friends could be traced, until the handbill was published. This is their account of the matter; though it is evident that their sense of propriety could not be above the common grog-shop standard, or they would not have consented to supply so deranged an appetite. When found, Mr. Gough was in such a condition that he would almost certainly have died if he had remained for a day or two more, and the women evidently had become alarmed and really desirous to rid themselves of their lodger, lest the end of the affair should be of a graver character than would be agreeable to them.

When first accosted, Mr. Gough earnestly requested that he might be conducted to the house of his friend in Brooklyn. At that time, and ever since, he has told the same story about the glass of soda water and its effects, but of nothing which occurred afterwards has he been able to give any account and speaks of having left the Croton Hotel 'day before yesterday.' The matter will perhaps be determined more perfectly when Mr. Gough recovers his reason more fully, though we do not see how any testimony can be expected to corroberate his on this point. As to the possibility of drugging persons in this way, those versed in the art of crime say it is common, and that a glass of root beer, and many other drinks, can be easily so prepared that the man or woman who drinks is presently deprived of all discretion. But this does not seem to us a point of vast importance, though of much interest. Mr. Gough, notwithstanding the trick which he says was practised on him, does not attempt to excuse his own conduct, but condemns himself for what followed, with the most agonized feelings."

Thus has a noble and an eloquent advocate of the temperance reform, who has tasted "long time ago," of the intoxicating cup but had become again a man, returned to that liquid, as a drink, which steals away the senses and brutalizes human nature—fallen, it is hoped, but for a season, once more to assume the dignity of his creation, and by his new experience in the downward way, with the blessings he has enjoyed while a reformed citizen, to awaken a zeal by devotion to the cause and by the captivating influence he possesses, which will go on conquering and to conquer, while the breezes of heaven shall swell the loud anthem of rejoicing of the multitude reclaimed by his love, labor and eloquence. Pity the frailties of human nature, as none are free from them—throw the mantle of forgiveness over this transgression of John B. Gough—receive him, as he will doubtless return among the true friends of temperance, and he will, it is believed, remain a faithful sentinel on the watchtower of temperance.

STATE TEMPERANCE SOCIETY. Agreeably to previous notice a large and very respectable body of the friends of Temperance assembled at Worcester, during the present week. The Convention was organized by the appointments of Dr. S. B. Woodward, as *President*; Hon. S. Town, Wm. Davidson, Hon. A. Bigelow, G. Church, *Vice Presidents*; R. B. Hubbard, Daniel Kimball, H. Seymour, J. W. Goodrich, *Secretaries*; Rev. Dr. Edwards, S. L. Crocker, Dr. H. L. Sabin, Dr. C. Jewett, A. Bardwell, N. Crosby, Hon. J. G. Carter, *Business Committee.*

The meeting was unusually interesting. Several interesting speeches were made.

THE AMERICAN ARMY IN TEXAS. The official information from the head quarters of the "army of observation," is, that the troops from Louisiana had arrived at Gen. Taylor's camp in good condition—that President Jones, of Texas, had taken measures to organize one thousand men for the service—that Gen. Taylor had communicated to Gen. Gaines his wish not to have any more troops sent to him, as he did not apprehend that there would be any occasion for their services—and that there was no news from Rio Grande, and no Mexican army to be seen or dreaded.

COURT AT DEDHAM. The Court of Common Pleas are now holding a regular session at Dedham, Judge Colby of New Bedford, recently appointed, presiding. There are a very large number of criminal cases, and the Court will continue in session the ensuing week.

The three individuals, who made the attack upon Mr. Eleazer Frederic and wife, of this town, have been tried and found guility of only a felonious assault. They have each been sentenced to a fine of thirty dollars and costs of court.

STATUE TO ANDREW JACKSON. Measures are in progress at our National Capital, for the speedy erection of an appropriate monument to the memory of Gen. Jackson. It is proposed to raise the necessary funds, which are set down at one hundred thousand dollars, by volunteer contributions from the public, no subscriptions to be less than one dollar, nor to exceed one hundred dollars. A temporary committee of arrangements has been announced, consisting of fifteen of the most distinguished gentlemen in Washington. Auxiliary committees are to be appointed in the several States, who are to collect subscriptions and forward them to Francis P. Blar, who is to act as treasurer and disbursing agent.

CASSIUS M. CLAY. The agent for New England, of Mr. Clay's True American, has received a letter from him, in which he writes "The mob will not stop my paper. Somewhere, I will go on, soon. In the mean time, you may proceed to get subscribers, in all confidence. My defence against the manifesto and wongs of the mob, when out, will be sent to you, in advance of the papers." In conclusion, Mr. Clay says: "My health is yet bad, but improving slowly."

MEETING AGAINST TEXAS AND SLAVERY. A circular has been signed by a large number of individuals of Middlesex county, calling a "Mass Convention of the opponents of the Annexation of Texas to the Union, and of the extension of American Slavery, to be holden at Concord, on Monday, the twenty-second instant, at ten o'clock in the forenoon, to take into consideration the encroachments of the slave power of our country, and recommend such action as justice and patriotism shall dictate, to resist those encroachments," &c.

EGGS. We extract from some of our exchange papers the two following paragraphs concerning eggs.

"The editor of the Springfield (Mass.) Republican has been shown an egg laid by a common hen, which weighed *four and three quarter ounces*, and measured *eight and three-eights inches* in circumference the largest way, and seven and three-eights the smallest wayround."

"A woman in Amherst, (N. H.) upon breaking a large hen's egg found within the shell what appeared to be another egg, upon breaking which still another shell was found, and so on till five shells or eggs were found enclosed within the outer one. Rather tough."

"Tough" to believe as the last paragraph may appear to our cotemporary, yet it is a fact that our friend Mr. Amos A Mears of his town, showed to us a short time since, a perfect egg about the size of a robin's, whichhe found encased within a hen's that had been boild for use.

FIRE IN BRAINTREE. Last Thursday evening, about half past nine o'clock, a very brilliant light was seen in this town, caused by the conflagration of Mr. Caleb Hayden's barn with its contents of twenty tons of hay. It was undoubtedly the work of some evil-minded person, and the authorities of the town should endeavor to ascertain and punish the incendiaries. It is understood that there was no insurance.

MAINE ELECTION. It is still in doubt whether Gov. Anderson hasbeen re-elected—if so, his majority will be very small. There is a democratic majority in both branches of the Legislature which will secure his election in convention.

WHALER ARRIVED. The schooner Ontario, of this town, Capt. Prior, arrived on Wednesday evening last, aftera cruise of five months, with one hundred and twenty barrels, nearly all sperm oil.

LATER FROM MEXICO. The best and most important news is, a complete confirmation of previous advices, that there is no intention, even if there were any ability on the part of Mexico, either to declare war against the United States, or to attempt a recovery of Texas. The American residence at Vera Cruz, it is stated, had become entirely satisfied that war had ceased to be among the probabilities.

WHIG MEETING. The whig citizens of this town, are notified by their Town Committee, to meet at the Town Hall, this evening, Sept. 20th, at half past seven o'clock, to choose delegates to attend the State Convention, and for the transaction of other business.

SOUTH BOSTON FIRE. The valuable Lead Works at South Boston, owned by Henshaw, Ward & Co., were consumed by fire last Sunday morning, together with several dwelling houses. The reflection of the fire was very visible in this town.

A riding saddle, has been made entirely of straw and splits, even the girth, stirrups and stirrup irons, or at least what is usually iron, are in this case straw.

At the late annual exhibition of the Horticultural Society, at Newark, (N. J.) peaches were produced which measured twelve inches and a quarter in circumference.

Murat, a son of the great general, now resident at Bordentown, (N. J.) is said to have offered his services to the President, in case of war with Mexico

A late English paper contains an extended account of the arrest of a man because he attempted to hand the Duke of Wellington a letter in the street. O, the beauties of English aristocracy.

A circular from the General Post Office states that any memorandum upon newspapers, or newspaper wrappers, subjects the same to letter postage. As the charge is to be governed by the weight, correspondence in this way will be found to be rather more expensive than the usual mode.

So healthy a summer as that just closed, has never before been known throughout the South and West.

Green, the murderer of his wife, who was executed at Troy, (N. Y.) recently, has made a full confession of his crime and the motives which prompted him to the commission.

When the royal family of France are domiciled in the Tuilleries, their whole number, including attendants is fifteen hundred.

Wire fences are now made and highly approved in Scotland, and are said to be cheaper than one of boards, or of posts and rails.

According to Hon. B. F. Butler, rum and its consequences are a *yearly loss* to the State of New York, of eighteen millions of dollars, and to the United States of one hundred and fifty millions of dollars.

The degree of D. D. was conferred upon Rev. Hosea Ballou, 2d. of Medford, at the late anniversary of Harvard University. This is the first Doctor of Divinity in the Universalist denomination.

They are holding large and enthusiastic Temperance Mass Meetings in New York City. Five thousand people lately assembled at one of these gatherings, in Tompkins Square. These meetings will doubtless be productive of great good to the cause.

The Bank of England has so large an amount of specie on hand, that the directors declined receiving the two millions of dollars received in August, as a portion of the Chinese indemnification. The Bank had at that time, eighty millions of dollars in specie, a larger amount than ever before.

Boughton, or "Big Thunder," the anti-rent leader, who was to have been tried last week at Hudson, (N. Y.) has been so notorious for his conduct that only two men were found, at the last accounts, sufficiently unprejudiced in his case to sit upon his trial. It is thought no jury can be obtained in Columbia County.

A colored man has commenced a suit against the town of Nantucket, on account of his daughter being denied admittance to the public schools, to test the question.

The Washingtonians have a soda fountain in their Hall at Cincinnati, (Ohio) where temperance people can slake their thirst without going into barrooms.

The young lad who had his arm so badly injured while at work in the Lowell Corporation, as to require amputation, has been presented with six hundred dollars, to be appropriated to his education.

The five miles square of territory, owned by the Lebanon Shakers, in Connecticut, has become rich and valuable, and contains upwards of 100 houses. The property is supposed to be worth one million of dollars, and they are constantly adding to it.

A young man committed suicide at Norwalk, (Conn.) a few days since. While under the influence of *mania a potu*, he went into a shoe-maker's shop—seized a knife from the bench and cut his throat. He died in a short time, leaving a wife and two children.

One of the Van Dieman's Land prisoners, recently returning to St. Lawrence County, (N. Y.) where he formerly resided, found that his "better half" had buried her griefs, occasioned by his captivity, in the arms of another husband.

One of the pipes intended for the Trinity church organ, New York, will, it is said, or rather *would*, contain thirty men.

A rope has been completed in England for the Manchester and Riverpool railway, three miles in length, eight inches in circumference, and three tons in weight!

Zinc, by being melted and poured into water, has been found to assume new properties; it becomes soft and mallable, loseing none of its tenacity, but is capable of being spun into the finest wire, pressed into any required form, or rolled into any required thinness.

The Toledo Blade says the term "Buckeye" originated before Ohio was a State—that the broad seal of the territory was a *buckeye tree*, with logs in the foreground cut up in preparation for burning.—This was the origin of the name Buckeye being applied to the people of Ohio.

There is an extraordinary spring in Missouri, which has been sounded to the depth of five hundred feet without reaching its bottom.

The manufacturers in Waterbury, (Conn.) are engaged making money for the Haytien Government. Of one small coin, valued at about a third of a cent, they have an order for six tons.

A panther has been seen on the mountains of Hartland and Barkhampstead, (Conn.) It has made great ravages amongst the sheep.

The trial at Parkersburg, (Va.) of the citizens of Ohio, charged with aiding the escape of slaves from Virginia, has been postponed till November.

In the new constitution of Texas, it is proposed to incorporate this new novel feature, that each citizen of the new State shall hold his farm, of a certain size, free from all claims and legal process. Of course, if a man wants credit it must be had on some other basis than the land he owns. Such a provision, it is thought, will have a good effect by the strong inducements it holds out to every citizen to become interested in the soil.

Some of the police officers in New York made a descent upon a vessel, lying at one of the wharves of that city, and seized upon fifty kegs of gunpowder, which had been shipped contrary to law. It seems that the practice of shipping this dangerous commodity has been rather too general for the safety of the citizens.

It is extremely natural to us to have a shrinking dread of that most deceitful and dangerous disease, Consumption. It appears as if every friend and help had forsaken us, but God and eternity alone. The sufferer tests every avenue of escape and is repelled at all, but that which stands so open and wide, by means of the Health Restorative of Mr. C. Brinckerhoff. In this actual cure for such a disease, there is an unfailing source of hope. Make trial of it. 23

NOTICES.

Rev. J. Boyden, of Rhode Island, will preach in the Universalist Meeting-house in this town, TO-MORROW.

Dr. William B. Duggan will lecture in Rev. Mr. Allen's Meeting-house, TO-MORROW EVENING, at half past six o'clock.

Subject—The legalized traffic in Ardent Spirits.

A collection will be taken to defray the expenses of the house.

T. KELLOGG, *Secretary.*

There will be a social Temperance Meeting of the Young Men's Washington Total Abstinence Society, at the Temperance Reading Room, on TUESDAY EVENING, at seven o'clock.

Ladies and gentlemen are invited to attend.

CHARLES E. RHOADES, *Secretary.*

A public, social Temperance Meeting will be held in the Temperance Reading Room, THIS EVENING, at seven o'clock.

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs, Asthma, and CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the case of pulmonary diseases, warrants the American agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the Lungs, Bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

DAVID F. BRADLEE, sole Agent of the United States, 119 Court-street, Boston.

Probate Notice.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK ss. *Probate Office, Sept. 13, A. D. 1845.*

THE Administrator of the estate of CORNELIUS TIRRELL, late of Weymouth, in said County, gentleman, deceased, having presented his account in his said capacity for allowance,

Ordered—That said Administrator notify all persons interested therein, that they may appear and be heard concerning the same at a Court of Probate to be holden at Dedham, in said County, on the FIRST TUESDAY of October, A. D. 1845, by publishing this order three weeks successively in the newspaper called the Quincy Patriot, printed at Quincy.

S. LELAND, *Judge of Probate.*
Sept. 20. 3w

Administrator's Sale.

WILL be sold at public auction, on the premises in East Middleborough, on

TUESDAY, the 14th day of October next,

at two o'clock, P. M., by order of the Probate Court for the County of Norfolk, so much of the Real Estate of Amos Raymond, formerly of said Middleborough, and late of Weymouth, deceased, as shall produce the sum of six hundred and thirty-nine dollars and forty-seven cents, for the payment of debts and charges of administration, to wit:

About twenty-five acres of Wood, Mowing, Tillage and Pasture Land, on the east side of the road, with one half of the Dwelling-house, two thirds of the Barn and two-thirds of a Wood-shed, and the reversion of dower in the other half of the dwelling-house, the remaining third of the barn, the remaining third of the shed and about eight acres of Land on the west side of the road, together with the garden on the east side of the road, reserving to the widow of the deceased her right of improvement in the said eight acres, the garden, half of the house, one third of the barn and one third of the wood shed, the same having been assigned to her as a part of her dower.

Also—About fifteen acres of Swamp Land, partly grown to Cedar, known as formerly belonging to the farm of John Vaughan, deceased.

Also—One Pew, No. 6, in the Methodist Episcopal Church.

Should the proceeds in the sale of the above not be sufficient to meet the above mentioned sum, the reversion of widow's dower in about four and one quarter acres of Land known as the Thompson Lot, about one and one quarter acres of Woodland called the Savory Lot, and two undivided sevenths of about thirty acres of Land in what was called the thirds of the mother of said Amos Raymond, deceased, will also be sold.

For further information inquire of Alden Raymond, Jr., near the premises, and the subscriber will be on the premises at ten o'clock on the day of sale to give such information as may be desired.

Conditions made known at the time of sale.

ALVAH RAYMOND, *Adm.*
Weymouth, Sept. 20, 3w

Dental Surgery.

DR. A. EDWARDS, *Surgeon Dentist*, would inform the citizens of Quincy and vicinity, that he will be at the

the 15th of the present month, and remain two weeks, where he will be very happy to wait on all who may favor him with a call, in his profession.

All operations WARRANTED. Advice Gratis.
Quincy, Sept. 13, 2w*

Notice.

NOTICE is hereby given, that the third meeting of the creditors of

COLLINS FLANDERS,

of Quincy, in the County of Norfolk, an Insolvent Debtor, will be held at the Office of Aaron Prescott, Esq., a Master in Chancery for the County of Norfolk, at his office in Randolph in the County of Norfolk, on the SECOND MONDAY of October next, at two of the o'clock in the afternoon, when and where Creditors may be present and prove their claims. And also, that the matter of granting a discharge from all his debts to said insolvent debtor, will then be acted upon; and that the Assignee will settle his account and a dividend (if any) be declared.

Dated the 13th day of September, A. D. 1845.

Per order of the Master,
JNO. M. GOURGAS, Jr., *Assignee.*

C. BRINCKERHOFF'S

THE great and principal object to be desired in any medicine that makes any pretension to cure all or any class of diseases, is, that it should show evidence of such power of cure and in a reasonable space of time. In disease of a complicated nature, where the effect is deep seated, as in Consumption, Liver Complaint, Coughs, Colds, Asthma, and pain in the Breast and Side, it is an extremely difficult matter to bring it under the effect of usual remedies. It appears requisite that the compound should be of such a peculiar combination, that all its materials may act simultaneously upon the affected organ, and not have its power diffused to other parts of the human frame, and that these materials have some defined medical effect on that organ. Most truly in the Health Restorative do the component parts, when separately or collectively considered, most convincingly show their individual and connected power and efficacy. Thus it is this remedy exerts such an astonishing influence in the complaints for which it is commended. If in any solitary case it had not power efficacious, the confidence of the public would have been shaken, but from its never failing promptness in checking the ravages of disease, and its sure power in restoring to health and strength, it is placed even beyond the possibility of a doubt that the acme of perfection in such a medicine has been gained. Let the certificates of the greatest and most honest men of our country or a faithful trial of the Resterative, convince those who seem otherwise incredulous of such a remedy. The following certificate is from Dr Chilton, the well known New York chemist.

"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."

POETRY.

TEARS FOR THE DEAD.

INSCRIBED TO ONE DECEASED.

Departed one ! upon thy bier
No flowers of vain regret we strew ;
But joy thou canst no longer, here,
Sorrow, and care, and anguish know ;
Oh ! not for thee should tears be shed,
To dim the pinion pure and bright,
Of the redeemed spirit, spread
Rejoicing, for its upward flight.

Yet tears were shed, when thou didst die,
And loving hearts were bathed in woe,
And dimm'd was many a manly eye,
When thy fair form was stricken low ;
If love devoted might retain
Its idol ever by its side,—
Redeem from death those dear,—Oh ! then,
Beloved one, thou hadst never died !

If tears availed to wake the dead—
If grief might call the lost loved back,—
For thee were tears unnumber'd shed,
Our cries were wafted on thy track :
Yet no ! in sorrow for our loss,
Should we forget thy glorious gain ?
Oh ! what might tempt thy steps to cross
Again life's dark and toilsome main ?

Should tears be shed for thee ?—who now,
In yon far heaven of glory bright,
Art bathing thy celestial brow,
In floods of pure and wavy light ;
With the anjelic host enroll'd
And sharing in their blest employ,
Who tune their harps of shining gold
To " everlasting songs of joy ?"

In that blest world no tears can dim
The glory of the ransom'd soul !
But joyous song of seraphim
Through all-undying ages roll ;
Then should we mourn that thou art gone
From world like ours where tears abound,
To know the brightness of that dawn,
Where never dark'ning cloud is found ?

No ! loved one, no ! upon thy bier
No tears of vain regret be shed ;
We joy thou art no longer here,
With life's dark snares encompassed ;
That with the loved of God on high,
Thou dwellest in eternal day,
Where " tears are wiped from every eye,
And grief and sighing flee away !"

SLANDER.

A whisper woke the air—
A soft light tone and low,
Yet barbed with shame and woe :—
Now, might it only perish there !
Nor farther go.

Ah, me ! a quick and eager ear
Caught up the little meaning sound !
Another voice has breathed it clear,
And so it wanders round,
From ear to lip—from lip to ear—
Until it reached a gentle heart,
And *that—it broke !*

It was the only heart it found,
The only heart 'twas meant to find,
When first its accents woke ;
It reached that tender heart at last,
And that—it broke.

Low as it seemed to other ears,
It came—a thunder crash to *hers*—
That fragile girl so fair and gay,—
That guileless girl so pure and true !

'Tis said a lovely humming bird
That in a fragrant lily lay,
And dreamed the summer morn away,
Was killed by but the gun's report
Some idle boy had fired in sport !
The very sound—a death-blow came !

And thus her happy heart, that beat,
With love and hope, so fast and sweet,
(Shrined in its lily too
For who the maid that knew
But owned the delicate flower like grace
Of her young form and face ?)
When first that word
Her light heart heard,
It fluttered like the frightened bird,
Then shut its wings and sighed,
And with a silent shudder,—died !

ANECDOTES.

" Hallo !" roared a jocose steamboat passenger, going to a stranger's berth and giving him a tremendous shake. " Hallo ! don't you want to go ashore at Memphis ?" " Yes, yes to be sure !" said the man, jumping up, and dragging on his boots with desperate speed, for the bell was loudly ringing. " Well, we are just at Natchez now," replied the other, as he quietly tumbled into the Memphis man's berth, " I thought I'd let you know."

Mathews's attendant in his last illness intended to give him some medicine, but a few moments after, it was discovered that the medicine was nothing but ink, which had been taken from the phial by mistake, and his friend exclaimed, " Good heavens, Mathews, I have given you ink !" " Never—never mind my boy—never mind my boy," said Mathews faintly. " I'll swallow a bit of blotting paper." This was the last joke Mathews ever made.

Quit spitting that nasty tobacco on the floor, Josh, or I'll whop ye.

" La, mother, why don't you speak properly. You should have said, ' Cease ejecting that offensive saliva of the Virginia weed upon the promenade, or I shall administer to you a severe castigation.' That is proper, ma." Ma fainted.

An honest son of Erin, green from his perigrinations, put his head into a lawyer's office and asked the inmate,

" An' what do ye sell here ?"

" Blockheads," replied the limb of the law.

" Och ! then to be sure," said Pat, " it must be a good trade, for I see but one left."

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges : he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them ?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Handcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Krauth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York

Also, sold by Redding & Co., 8 State street, Boston ; J. Babcock and M. D. Plummer, Milton ; Eli Thayer, Weymouth ; King & Nash and N. N. Dyer, Abington ; R. Gleason, Dorchester ; Wm. A. Torrey, South Weymouth ; A. E. Dubois, Randolph ; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception ; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity : as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, ' if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educated and experienced Physician, rather than the precatious and dangerous doings of Quacks and inexperienced Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B --All letters must be directed thus :

" HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted ; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10 ; sent to all parts of the Union. Office and consultation rooms,

4 1-2 SUDBURY STREET,

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself ; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*

JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine :

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health, and have not raised any blood since the use of the first bottle of this excellent preparation.

WYMAN ABERCROMBIE.

Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark :

DEAR SIR—I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatulency, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to.

Yours, truly,

IBRAHIM BARTLETT.

Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.

The Great Remedy

FOR

Consumption, Asthma, Dyspeptic Consumption, Spitting of Blood, Bronchitis, Difficulty of Breathing, Hoarseness, Influenza, Croup, Colds, Pain in the Breast and Side, Dyspepsia, and various affections of the Stomach and Liver.

Folger's Olosaonian, or All-Healing Balsam.

IT is acknowledged that more persons die of Consumption than of any other disease. It is estimated that in the United States over THIRTY THOUSAND PERSONS annually fall victims to this dreadful scourge. The cause of the evil is generally overlooked. *A short dry Cough* is the precurser—or a neglected cold These symptoms are deemed unimportant. Pain in the Side, Hectic and night Sweats follow, and death ends the scene.

Would you find a REMEDY FOR THE EVIL ? Here it is. The experience of more than twenty years has proved its efficacy, and thousands are rejoicing in its effects.

Case of INCIPIENT CONSUMPTION—George W. Burnett, Esq. of Newark, N. J., had suffered under the effects of a severe cold for more than a year, and in the month of August, when his Cough had reduced him so much that he feared he would die, he commenced using the Olosaonian. He raised blood at this time, complained of pain in his side and chest, and was very much debilitated by *night sweats.* His appetite was gone, and altogether he appeared to be rapidly sinking. He was so much relieved by the use of this remedy that by the month of November he left for Pittsburg, Pa. with every prospect of being permanently cured.

Read the following case of CONSUMPTION.—The cure was truly a wonderful one and places the ' *Olosaonian or All-Healing Balsam,*' at the head of the list of remedies for eradicating that dreadful disease:

George W. Hays, residing in this city, (New York) was seized with a severe cold in the early part of the summer. His cough became very troublesome and he began to *raise blood.* He complained of a severe pain in the chest and his breathing became so short that he could not walk any distance without stopping for breath. His night sweats reduced him very low. He was under the care of several physicians in Brooklyn, who told him they could do no good, as his disease was settled and fixed Consumption. He removed to this city to die among his friends. He was by this time so weak that he could not walk without assistance. Although his friends had now given up all hope of his ever being any better, he commenced using the ' *Olosaonian, or All-Healing Balsam,*' and in a few weeks was so far restored as to able to resume his business.

Mr. T. Laban, residng at 52 Pine street, was severly afflicted with Asthma, in consequence of having taken a severe cold in the early part of last winter. In the early part of the night he could sleep tolerably well, but towards one o'clock in the morning his Asthma became so severe that he was obliged to get up and sit for the remainder of the night leaning forward on a chair. His cough was most distressing through the day. He had, during his sickness, tried almost every thing without relief. He never had a good night's rest in ten months, until he commenced taking the Olosaonian or All-Healing Balsam, when he found immediate relief, and before using half a bottle of it was perfectly well, and now sleeps as quietly as he ever did in his life.

Hundreds of cases could be given to prove the efficacy of the great remedy. And it possesses a property superior to all others, viz : it does not constipate the bowels. Reader, are you suffering under any of the above symptoms of disease ? Try this remedy.—It will allay the *Pain in your side and chest*—put to flight the COUGH which deprives you of sweet slumber and repose ; if you have Asthma, be assured there is no medicine in the world that will cure you so speedily, and it will arrest all those disagreeable symptoms which strike such terror to the mind and give such dreadful forebodings of an untimely and speedy dissolution.

Sold at one dollar, per bottle, by REDDING & Co. State street, Boston ; and by the following appointed agents :

Mrs. Hayden, Quincy ; J. Babcock, Milton ; M. D. Plumer, Milton ; Eli Thayer, Weymouth ; Wm. A. Torry, do. ; King & Nash, Abington ; N. N. Dyer, do. ; A. E. Dubois, Randolph ; R. Gleason, Dorchester.

tf August 16.

SUGAR COATED

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skilfully prepared, that they do not gripe the bowels ; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely : nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided ; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it ; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of ; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known ; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an inpatient constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse ; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed ; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—hence none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them ; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., 4 hemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 5 cents per box, with full directions, and sold by the following list of Agents.

J. Babcock, M. D. Plummer, Milton ; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth ; King & Nash, N. N. Dyer, Abington ; R. Gleason, R. F. Tolman, Dorchester ; R. Ford, Randolph ; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE B. LOCKE, Quincy. tf June 28.

MISCELLANY.

FLIRTING WITH THE LADIES.

A STORY WITH A MORAL.

" It will never no, Jedediah," said my Obed to my youngest brother, " it will do—this flirting with all the young ladies trifling with their guileless affections !"

My brother Jedediah was a handsome fellow. He had a fine person, when his day clothes were on—a clear, black eye red cheeks. He wore a pair of whiskers eighteen. During his vacations our v girls were all in a tumult ; all were anxious have the honor of his attentions—and an eye has closed, with a tear under its li ter waiting the whole evening at the w with the expectation of seeing Jedediah ri to the horse block. He saw their shy gl at him, as he stood of a Sunday in the ry of the church, and led the choir. He that they thought him handsome—that h admired, and he was fool enough to be fla by such things. His vanity grew at last his ruling passion : and he thought the tedious where all the eyes in the room not directed towards him.

He spent his vacations wholly with the riding with one, walking with another " setting up" with another. He made de tion in a garland of flowers, and expresse adoration to every bright eye in the with a bouquet of the sweetest and fr rose buds he could gather. As long as admiration had the charm of novelty, devotion ; but when that was gone, he way, like a surfeited bee, to some fresh

At the time Obed addressed him as stated, we were sitting at the breakfast Jedediah had just returned from a walk the hills with Isabel Johnson, one of the est girls of the village. As he came in room, he snapt the dew out of his wh with high glee, and sung out at the top voice :

" I say Absalom, that Bell Johnson is be sneezed at of a damp day. She's cauliflower. What a foot she's got ! ever see her dance, uncle Obed ? You her the shadow of a gossamer, she's s Ah, Absalom, my boy, such a tramp as w had ! Such flowers as we gathered ! every time she trod her little hoof up violets, there came up such a cloud of p we would have though Madam Flora wa ing up every one of her incense burning But hark ye ! We stopped awhile up brink of the ledge on Old Chesnut Hi looked upon the water as it tumbled mill-dam. Bell gazed at it, as if she thousand little naids dancing minuets u bubbles. While she was looking, I t little paw, *so*,—then I squeezed it gent and whispered in her ear, *so*. But uncl *mum's* the word—Bell and I know who's

It was then uncle Obed spoke. " do, Jedediah," said he, and his voice with emotion as he spoke ; it won't do. All this may be ' strawberries and cre such a crazy pate as yours. It may to win the heart of such an innocen as Bell Johnson, just to throw it away like a worthless orange, after you have s all the juice out. But, mark my word diah. I have seen more days than observed somewhat of the ways by whi idence brings its righteous ends abou tice is sure of foot, Jedediah, though mark that. And for every idle word of yours, there will be a day of accou or elsewhere. It is true I have seen s cious scoundrels in my day, die quietly beds, who deserved to die at the end of ter. And the preacher says, ' there event to all, both the righteous and the But, observe, my pretty fellow, I neve a graceless tongue that trifled with a affections, who did not, ever after, find

QUINCY PATRIOT.

Published every Saturday Morning, over Messrs. Josiah Brigham & Co.'s Store, in Hancock Street.

NUMBER 39. QUINCY, (MASS.) SATURDAY, SEPTEMBER 27, 1845. VOLUME 9.

JOHN A. GREEN, EDITOR AND PROPRIETOR.

CONDITIONS.

Two Dollars per annum in advance—Two Dollars and Fifty Cents if not paid till the end of six months—Three Dollars if delayed till the expiration of the year.

No subscription nor advertisement will be stopped previous to the payment of all arrearages unless at the option of the proprietor. When subscribers wish their papers discontinued, they will give notice to that effect and at the time their subscription expires. Every subscriber will be held responsible for the payment of his paper so long as it is sent to his address at the Post Office, Tavern, or any other place wheresoever he may have ordered it, until legally notified to the contrary.

Advertisements, correctly and conspicuously, inserted at the customary prices. The number of insertions required must be marked on the advertisement, otherwise they will be continued until ordered out and charged for accordingly.

The privilege of annual advertisers is limited to their own immediate business; and all advertisements for the benefit of other persons, as well as all legal advertisements, and advertisements of auction sales, sent in by them, must be paid for at the usual rates.

Business letters and communications addressed to the Editor, postage paid, will receive early attention.

☞ Single copies of the paper, Five Cents.

MISCELLANY.

FLIRTING WITH THE LADIES.

A STORY WITH A MORAL.

"It will never no, Jedediah," said my uncle Obed to my youngest brother, "it will never do—this flirting with all the young ladies, and trifling with their guileless affections!'

My brother Jedediah was a handsome young fellow. He had a fine person, when his Sunday clothes were on—a clear, black eye, and red cheeks. He wore a pair of whiskers at eighteen. During his vacations our village girls were all in a tumult; all were anxious to have the honor of his attentions—and many an eye has closed, with a tear under its lid, after waiting the whole evening at the window, with the expectation of seeing Jedediah ride up to the horse block. He saw their shy glances at him, as he stood of a Sunday in the gallery of the church, and led the choir. He knew that they thought him handsome—that he was admired, and he was fool enough to be flattered by such things. His vanity grew at last to be his ruling passion: and he thought the party tedious where all the eyes in the room were not directed towards him.

He spent his vacations wholly with the girls: riding with one, walking with another, and "setting up" with another. He made declaration in a garland of flowers, and expressed his adoration to every bright eye in the village with a bouquet of the sweetest and freshest rose buds he could gather. As long as their admiration had the charm of novelty, he was devotion; but when that was gone, he flew away, like a surfeited bee, to some fresh flower.

At the time Obed addressed him as I have stated, we were sitting at the breakfast table. Jedediah had just returned from a walk among the hills with Isabel Johnson, one of the sweetest girls of the village. As he came into the room, he snapt the dew out of his whiskers with high glee, and sung out at the top of his voice:

"I say Absalom, that Bell Johnson is not to be sneezed at of a damp day. She's a real cauliflower. What a foot she's got! Didst ever see her dance, uncle Obed? You'd think her the shadow of a gossamer, she's so light. Ah, Absalom, my boy, such a tramp as we have had! Such flowers as we gathered! Faith, every time she trod her little hoof upon the violets, there came up such a cloud of perfume, we would have though Madam Flora was lighting up every one of her incense burning altars. But hark ye! We stopped awhile upon the brink of the ledge on Old Chesnut Hill, and looked upon the water as it tumbled over the mill-dam. Bell gazed at it, as if she saw ten thousand little naids dancing minuets upon the bubbles. While she was looking, I took her little paw, *so*,—then I squeezed it gently, *so*—and whispered in her ear, *so*. But uncle Obed, *mum's* the word—Bell and I know who's who."

It was then uncle Obed spoke. "It won't do, Jedediah," said he, and his voice choked with emotion as he spoke; it won't do, I say! All this may be 'strawberries and cream' to such a crazy pate as yours. It may be fun to win the heart of such an innocent thing as Bell Johnson, just to throw it away again, like a worthless orange, after you have squeezed all the juice out. But, mark my words, Jedediah. I have seen more days than you, and observed somewhat of the ways by which Providence brings its righteous ends about. Justice is sure of foot, Jedediah, though slow—mark that. And for every idle word and deed of yours, there will be a day of account here or elsewhere. It is true I have seen some precious scoundrels in my day, die quietly in their beds, who deserved to die at the end of the halter. And the preacher says, 'there is one event to all, both the righteous and the wicked!' But, observe, my pretty fellow, I never knew a graceless tongue that trifled with a woman's affections, who did not, ever after, find a bitter curse in his cup. Judgment follows hard upon such misdeeds. I believe there is a special woe denounced upon the wretch—and he might as well attempt to fly into the regions of infinite space, as to try to escape it.

"Leave off these wicked ways, then, Jedediah, if you would prosper—if you would live to lie down without dreaming of fire and brimstone, or would die without hearing the wail of a broken hearted one knelling in your ears.—But let this motto be your guide when you go among the sweet innocent flowers whom God has raised up here:

"*Never excite expectations you do not intend to gratify!*"

Here uncle Obed's voice grew husky. He took a long and deed draught from his mug of cider, and then rose from the table and walked out of the room.

As he closed the door behind him, Jedediah drew a long breath, looked at me half mad and half ashamed, and then contemptuous whistled —*whew.*

My foolish brother continued to flirt with Isabel, until her whole being was locked up in his. Her friends cautioned her in vain—she was blind to the suggestions even of her better judgment. At length, when he had completely triumphed over her gentle heart, he left her, and sought some other sweet flower to blight, as he had done this.

Isabel bore his coldness awhile with apparent indifference. But the lustre gradually left her eye, her cheeks grew pale and thin, and her fine red lips to a death-like purple hue. She complained to none. She murmured nothing against him. Her friends observed that she mingled more with the pious, and less with the gay. It was evident, however, that the machinery of her existence was gradually running down; and every day was expected to bring some story of her sickness or death. At length she almost shunned society, and spent her time when the weather would permit, in wandering among the hills and forests.

One evening, of a pleasant day which she had spent away from home in this manner, her parents observed that she did not return at her usual hour. They became alarmed, and rousing a party of their neighbors, they went in pursuit of her. They travelled the forest and thicket for a long time in vain. They shouted her name through the deep glens, and blew their horn from the top of the hills. But the echo alone replied.

At length, about midnight, one of the party, on his return, discovered her on the edge of a high ledge of rocks, seated at the foot of an old beach, which hung far above the precipice. He called on her as soon as he discovered her. She returned no answer. He thought she might be asleep, and he clambered up the rocks to where she sat. He called again, and louder, but she answered not. Then he touched her shoulder and gently shook her, and started back with horror. *She was dead*—cold and stiff; though, as she sat, she looked more like one enjoying a quiet slumber. Her left arm rested on the trunk of the tree, and the fingers of her right hand were laid upon the letters of my brother's name, cut in the bark. It seemed as if she had been trying to trace them out in the dark. Doubtless such was the fact, and that her broken spirit had passed away while busied in this strange but natural effort.

She was buried in the village church yard the next day without any parade. But the story of her life and death became one of the traditions of the place, and the stranger may hear it told by any of the villagers, should he chance to ask whose neat white monument it is which stands in the corner of the yard, with a strangely quaint device sculptured upon it. Our schoolmaster had been a rejected lover of Isabel's and he procured the artist who executed the monument to engrave upon it an emblem of his own devising. It consisted simply of her name, in beautiful German capitals, under which there was a drooping lily, in full bloom, around whose stalk a small adder had coiled himself, his head thrust into the cup of the flower, as if he was sucking away the life juice of the lovely plant. This was her only epitaph. No one who knew her story could be at a loss as to the design.

My brother was absent when she died.—When he returned and heard the story of her death, he showed some signs of emotion. For several days he kept aloof from society; you could read remorse in his eye, and at times there was a twitching of the muscles of his face, as if he felt the gnawing of "the worm which never dies."

But it soon wore off, and he became as gay as ever. He mingled with his usual lightness in all the frolics of the village. He smiled as sweetly as ever upon our *belles*, and alas, poor human nature, they returned them as sweetly as ever.

I must confess that I thought sometimes of my uncle Obed's warnings, and looked for some dreadful fulfilment of the deceiver's curse. I felt a foreboding that a judgment would come. It did come.

After he had graduated he studied law and established himself in an adjoining county, in his profession. He had fine talents for the bar and rose rapidly in the esteem of the public.—Several years rolled away, and at the age of twenty-nine he found himself wealthy, and of high reputation. He still remained, however, reckless and wild in his intercourse with society, mingling in all of its gayest circles.

In the winter of his twenty-ninth year he caugh a dreadful cold, while on a sleigh ride, which made great inroads upon his health, and brought on symptoms of consumption. His physicians told him that he could not survive the rigors of another New England winter, and recommended a voyage to Cuba. I went with him as his nurse, and the following winwe spent in Havana. Here he rapidly regained his health, and as he spoke Spanish as fluently as a Castilian, he mingled a great deal with Spaniards. His fine person and fascinating manners soon found him a passports to the favor of many a black-eyed donna. He seemed perfectly happy while basking in the sunshine of their smiles. But alas, poor fellow, slow-footed justice was about to overtake him.

On some great occasion the Governor General gave a splendid ball at this place. I was satisfied with looking on the gay scene, but he mingled in all its luxuries.

I observed that he waltzed several times with the beautiful wife of a young Spanish officer of high rank. The last time he handed her a seat he plucked her a moss rose-bud from a vase, which stood near him, and dropped it into her bosom. Here he stopped and whispered something in her ear, and when she raised her head, I observed that a deep blush was passing over her face, and a smile of peculiar meaning curling her lips. He forgot that the eye of Spanish jealousy knew neither slumber or sleep.

Two days afterwards he was found by the city guard, about daylight, on the pavement in front of the Spaniard's house; a broken guitar lying beside him, and the Spanish dirk sticking in each side, both thrust quite through his heart. * * * *

I was at no loss to guess whose hand directthe blow. But I thought of Bell Johnson and Obed's warning, and felt that the Spaniard was but an instrument, raised up by one who has said "vengeance is mine!"

The sentence was just, and I did not murmur. * * * *

It is more than twenty years since these events occurred. But they are as if they occurred but yesterday; and now when I see a gifted young men, flirting or trifling with the gentle feelings of a lovely young girl, I think of Jedediah, and feel tempted to say to him, in the words of my uncle Obed—"Beware how you excite expectations you do not mean to gratify."

A SECRET WORTH KNOWING.

A young grocer, of good character and correct habits, commenced business in a good and improved neighborhood. His stock was small as were his means, and his stock of customers still smaller. His sales hardly met his expenses, and he was evidently going 'down hill,' and an old grocer at the opposite corner predicted that he would soon be at the bottom.

That the young grocer had reason to regret this opinion of the old grocer, will appear.—The latter had a daughter who had won the heart of the former. He offered himself to her and was rejected. It was done, however, with the assurance that he was the man of her choice—but that she acted in obedience to her father's commands.

Assured of the affections of the woman of his choice, he set himself about removing the only obstacle in the way of their union—the father's objection to his pecuniary prospects.

A year had elapsed, and lo! what a change! The young grocer was now going *up hill* with the power of steam locomotive; customers flocked to his store from all parts, and even many had left the old established stand on the opposite corner, for the youngest favorite.—There was a mystery about it which puzzled the old grocer sorely, but which he could not understand. He at length become nearly sick with losses and aggravations, and vain attempts to discover the secret of his neighbor's success.

At this juncture, Angelica—for that was the daughter's name—contrived to bring about an apparently accidental interview between the parties. After the old man had become, through the intervention of his daughter, tolerably good humored, he enquired with great earnestness of the young man, how he had contrived to to effect so much in a single year, thus to extend his business, and draw off the customers from the older stands.

The young man evaded an answer—but inquired if he had any further objections to his union with Angelica.

"None," replied he, "provided you reveal the secret of your success."

This the young man promised when his happiness was made complete. The old man commended his prudence on this point. The affair was all settled, and the marriage soon took place.

The friends of the young couple were all assembled, and among them many of the customers of the two stores. Angelica and Thomas were as happy as they well could be, and the old gentleman was, if possible, happier than they. The bride cake was about to be cut, when the old man called out for 'the secret.'

"Ay, the secret, the secret," said Thomas; "I advertise!"

The old gentleman was very, *very* old fashioned, and while he shook Thomas by the hand, kissed Angelica fifty times over, he merely muttered,

"*Why the dickens did'nt I think of that!*"

Age of Trees. The Elm tree is full grown in one hundred and fifty years, but lives from five to six hundred years. The Oak is full grown in two hundred years. The Ash in one hundred years.

MORAL COURAGE.

Have the courage to discharge a debt while you have got the money in your pocket. Have the courage to do without that which you do not need, however much you may admire it. Have the courage to speak your mind when it is necessary that you should do so; and to hold your tongue when it is better that you should be silent. Have the courage to speak to a friend in a "seedy" coat, even in the street, and when a rich one is nigh; the effort is less than many people take it to be, and the act is worthy a king. Have the courage to set down every penny you spend, and add it up weekly. Have the courage to pass your host's lackey at the door, without giving him a shilling, when you know you cannot afford it—and, what is more, that the man has not earned it. Have the courage to own that you are poor, and you disarm poverty of her sharpest sting. Have the courage to tell your personal defects, and the world will be deprived of that pleasure, by being reminded of their own. Have the courage to admit that you have been in the wrong, and you will remove the fact from the mind of others, putting a desirable impression in the place of an unfavorable one. Have the courage to adhere to a first resolution when you cannot change it for a better, and to abandon it at the eleventh hour, upon conviction. Have the courage to acknowledge your age to a day, and to compare it with the average life of man. Have the courage to make a will, and, what is more, a *just* one. Have the courage to face a difficulty, lest it kick you harder than you bargained for; difficulties, like thieves, often disappear at a glance. Have the courage to avoid accommodation bills, however badly you want money, and to decline pecuniary assistance from your dearest friend. Have the courage to shut your eyes at the prospect of large profits, and to be content with small ones. Have the courage to tell a man why you will not lend him your money; he will respect you more than if you tell him you can't. Have the courage to "cut" the most agreeable acquaintance you possess, when he convinces you that he lacks principle: a friend should bear with a friend's infirmities—not his vices. Have the courage to show your preference for honesty, in whatever guise it appears; and your contempt for vice, surrounded by attractions. Have the courage to give, occasionally, that which you can ill afford to spare; giving what you do not want nor value, neither brings nor deserves thanks, in return; who is grateful for a drink of water from another's overflowing well, however delicious the draught? Have the courage to wear your old garments till you can pay for new ones. Have the courage to obey your Maker, at the risk of being ridiculed by man. Have the courage to wear thick boots in winter, and to insist upon your wife and daughters doing the like. Have the courage to acknowledge ignorance of any kind; every body will immediately doubt you and give you more credit than any false pretensions, could secure. Have the courage to prefer *propriety* to *fashion*—one is but the abuse of the other. Have the courage to provide a frugal dinner for a friend, whom you "delight to honor." Have the courage to throw your snuff-box into the fire or the melt-pot; to pass a tobacconist's shop; and to decline the use of a friend's box or even one pinch. Have the courage to be indepenpent if you can and act independently when you may.

ECONOMY.

Don't pile on the wood; the room is warm enough. A good housewife saves a number of dollars in fuel in the course of a year.

You are sweeping a pin into the fire—stop and pick it up. Two or three rows of such pins ought to last a twelve-month; and they will last thus long in a prudent family.

Take back the brush; you are burning it on the stove. When you wish to sweep the hearth, take the old broom; it will answer just as well. In six weeks you will need a new brush in the house, if you continue to be as careless in the use of it.

Put on an apron when about your work; it will save your gown. With a little care that calico dress will last six months longer.

You look well, truly, with your feet in the fire. At this rate, you will need a new pair of shoes every fortnight. Your last shoes were not worn much, they were burut out.

There is a needle-full of thread on the window; put it in your drawer, or it will be lost. A dozen such threads will make a skein.

You intend to pass this evening at a neighbor's house; carry your knitting-work with you. You can work while you are talking.

Take that dipper from the stove; there is no water in it. To-morrow I shall have to carry it down for Mr. Pennell to solder the bottom.

You put too much soap on the clothes; it was but last month that Fernald brought us a barrell, and now it is half gone.

So much for economy. Who will not save?

How to get Rich. A man to become rich has only to descend from that pedestal on which his pride has exalted him, and conform to the usages of less ambitious men. Of all things in this wide world pride is the most expensive and extravagant habit acquired, just subtracts a proportionate quantity of wealth, and impoverishes the person who yields to it. Every man has the secret of becoming rich who resolves to live within his means; and independence is one of the most effectual safeguard of honesty.

SINGULAR TRADITION.

Among the Seminole Indians there is a singular tradition, regarding the white man's origin and superiority. They say that when the Great Spirit made the earth he also made three men, all of whom were fair complexioned; and that, after making them, he led them to the margin of a small lake, and bade them leap in and wash. One immediately obeyed and came out purer and fairer than before; the second hesitated a moment, during which time the water, agitated by the first, had become slightly muddied, and when he had bathed came up copper colored; the third did not leap in till the water became black with mud, and he came out with his own color. Then the Great Spirit laid before them three packages of bark, and bade them choose, and out of pity for his misfortune in color, gave the black man the first choice. He took hold of each of the packages and having felt the weight, chose the heaviest, the copper colored one then chose the second heaviest, leaving the white man the lightest. When the packages were opened, the first was found to contain spades, hoes, and all the implements of labor; the second enwrapped hunting and fishing and warlike apparatus; the third gave to the white man pens, ink and paper—the engine of the mind—the means of mutual mental improvement—the social link of humanity—the foundation of the white man's superiority.

LINES AND BAIT will be kept constantly on hand and let with the Boats.

Those who wish to enjoy the recreation of fishing and sailing during the approaching summer season will meet with every attention.

GROCERY STORE,

GATHERING SEEDS.

It is now time to think about gathering seeds of many kinds for next year. There are but few people who consider that plants as well as animals may be much improved by selecting the best, most perfectly grown and earliest seed. The next year's crop will not only by this means be increased in quantity, but its quality will also be improved. All kinds of seeds that grow in husks or pods should be strung up and suspended from the ridge pole or rafter, where they will be out of the way of mice, and where they will dry gradually. Great care should be taken to keep them from an excess of moisture, which will cause them to mould and destroy the germinative principle; and on the other hand, they will not be so good if they are shelled out (especially if it is done before they are perfectly ripe) and placed in the sun or any situation where they will dry very rapidly; they thus become shrivelled and will not so readily vegetate, although the vital principle may not be destroyed. The seeds of squashes, pumpkins, cucumbers, melons, etc, should be carefully cleaned from the pulp which surrounds them, and then be placed in a situation where they will dry gradually, being every day stirred up or turned to prevent their moulding. Seeds, after thus being prepared, may be preserved almost any length of time, in a perfectly good state, by packing them in pulverized charcoal and keeping them in a dry place, or stopping entirely from the air in a glass bottle.—*Maine Farmer.*

Be of Good Cheer—Press On. Though the hour be dark, though the dungeon door be bolted and barred upon us, strong hands and strong hearts can and will cause light to shine upon the darkness, and make a way of escape. Then "be of good cheer, O ye of little faith," hope for brighter days, when misery, and ruin, and poverty shall no longer mantle the earth with sack-cloth and ashes; the "oil of joy shall be given for mourning, and the garment of praise for the spirit of heaviness;" when bright roses shall grow over the grave of despair, and the placid breeze of morn and even waft naught but happiness and love. But with all thy hoping, *labor* to accomplish the desired aim. Work as if the glittering object were in full view—and though often times the heart may faint under almost insufferable difficulties, "Learn to *labor* and to *wait*." Press on—look not back until the goal is gained, and thy reward will be sweetened ten thousand times by the difficulties which have been strewn in thy path.

A WORD FOR OLD MAIDS.

Certainly young ladies seem to cherish a very great horror of dying unmarried. An "old maid," in their estimation is a title of deep reproach. Thus we heard one Miss say to another, as two ladies passed them in the street the other day, "There go two old maid sisters." And what if they were maids, and old, too? Is it any reproach to a lady to be either or both of these? It by no means follows, because a lady remains unmarried, that she does so by compulsion, or that she is destitute of those endowments of person, and mind, and heart which are adapted to render her attractive and loveable. It is among the possibilities of life, that a lady should prefer the independence of a single life, to the *chances* of improving her condition by uniting her fortune with any man. It is yet more probable that a lady, failing to receive the addresses of a man whom she could respect and love, should have so much taste and heart as to refuse every other offer. It has been our good fortune to know many most estimable married ladies; but we verily believe that we can match every one of them with an "old maid" equally estimable. And when we have seen a poor, broken spirited wife, teased and tormented by half a score of children, or ill-treated by a cross and unfeeling husband, we have been tempted to think that, after all, to be an *old maid* is not the worst ill that can befall a woman.—*Boston Traveller.*

A JUGGLER JUGGLED. A juggler, after performing several feats of legerdemain, asked any of the company to favor him with a ninepenny silver piece, and he could convert it into a dollar. A spectator out with his leather pouch and handed the exhibitor a ninepence, which the latter readily apparently converted into a silver dollar—handing it to the spectator to ex-

The glory of the ransom'd soul!
But joyous song of seraphim
Through all-undying ages roll;
Then should we mourn that thou art gone
From world like ours where tears abound,
To know the brightness of that dawn,
Where never dark'ning cloud is found?

No! loved one, no! upon thy bier
No tears of vain regret be shed;
We joy thou art no longer here,
With life's dark snares encompassed;
That with the loved of God on high,
Thou dwellest in eternal day,
Where "tears are wiped from every eye,
And grief and sighing flee away!"

SLANDER.

A whisper woke the air—
A soft light tone and low,
Yet barbed with shame and woe:—
Now, might it only perish there!
Nor farther go.

Ah, me! a quick and eager ear
Caught up the little meaning sound!
Another voice has breathed it clear,
And so it wanders round,
From ear to lip—from lip to ear—
Until it reached a gentle heart,
And *that*—*it broke!*

It was the only heart it found,
The only heart 'twas meant to find,
When first its accents woke;
It reached that tender heart at last,

THE COW. This animal I have always looked upon with the greatest respect. Her benefactions do not close with her life; her hoofs are made into glue; her horns into combs; her bones into knife handles and cane tips; her hair worked up into plaster; her skin into shoes, and her meat into food. Who can wonder that the Hindoos always regarded her with a religious veneration?—*Colman.*

GOOD ALVICE. Attend to your own business in preference to your neighbor's. Every one has enough to do to manage his own affairs, without meddling with the concerns of others. Remember that however numerous may appear the sins, failings and imperfections of your associates in society, yours are equally as numerous, perhaps, though not equally *known*. *Let every one mend one*, and the world will be soon healed.

PICKLED CUCUMBERS. To each hundred cucumbers put a pint of salt, and pour in boiling water sufficient to cover the whole. Cover them tight to prevent the steam from escaping and in this condition let them stand for twenty four hours. They are then to be taken out, and after being wiped perfectly dry, care being taken that the skin is not broken, placed in the jar in which they are to be kept. Boiling vinegar (if spice is to be used it should be boiled with the vinegar,) is then to be put to them, the jar closed tight, and in a fortnight, delicious hard pickles are produced, as green as the day they were upon the vines.

BUCKWHEAT CAKES. To three pints of buck wheat flour, mixed into a batter, add one teaspoonful of carbonate of soda dissolved in water; and one do. of tartaric acid dissolved in like manner; first apply the carbonate, stir the batter well, and then put in the acid; thus the use of yeast is entirely superseded, and cakes "as light as a feather" are insured. One great advantage is that the batter is ready for baking as soon as it is made.

INDIAN SLAP JACKS. Scald a quart of Indian meal—when lukewarm, turn, stir in half a pint of flour, half a tea-cup full of yeast, and a little salt. When light fry them in just fat enough to prevent their sticking to the frying pan. Another method of making them very nice is to turn boiling water on the Indian meal, in the proportion of a quart of the former to a pint of the latter—stir in three table spoonfuls of flour, three eggs well beaten, and a couple of tea spoonfuls of salt.

QUINCY PATRIOT.

SATURDAY, SEPT. 27, 1845.

John A. Green, Editor.

STEAM ENGINE ARRIVED. Last Saturday, one of the locomotives, of the Old Colony Railroad for the first time, paid a visit to this town, the bridge across Neponset river having been so far completed as to allow a passage. It is now daily employed in transporting to and through this place, materials used in the construction of the road.—The Depot building near the Hancock House, is progressing towards completion, and an activity seems to pervade all hands to press forward to a final consummation.

RE-NOMINATED. The State Convention of the Whigs was held last Wednesday, in Boston. It was fully attended and harmoniously conducted. Hon. Seth Sprague, Jr., of Duxbury, presided, assisted by fourteen Vice Presidents, and five Secretaries. His Excellency George N. Briggs, and his Honor John Reed, were unanimously nominated as candidates for re-election to the offices of Governor and Lieutenant Governor.

MASSACHUSETTS LICENSE LAW. At the late State Temperance Convention, there was some debate upon the propriety of enacting more efficient laws for the suppression of the traffic in ardent spirits which seemed to be based upon the anticipated decision of the Supreme Court *in favor of the constitutionality* of the Massachusetts License Laws. John Tappan, Esq., of Boston, assured the convention that that he was authorized to state, *that such would be the decision.*

TEMPERANCE LECTURE. Dr. William B. Duggan of this town, gave a historical lecture last Sunday evening, with particular reference to the laws concerning intoxicating liquors. It evinced great research—the deductions were to the purpose, the the language employed chaste and pertinent, and the style of delivery graceful and impressive.—Much information was gleaned from it to the limited reader, and the lecturer's efforts deserve the thanks of every friend to the great moral reform.

NATIVE AMERICANISM. A meeting was held at the Lyceum Hall in this town, last Thursday evening, which was addressed by Messrs. George P. Gifford, John E Gowen, and George A. Smith, of Boston, upon the principles of the Native American Party. It was well attended, and the remarks of the speakers listened to with attention. Pamphlets were graitously distributed; and notice given of another meeting at an early day.

A JUDGE APPOINTED. Hon. Levi Woodbury, now a Senator in Congress from New Hampshire, has been appointed one of the Associate Justices of the Supreme Court of the United States, in the place of Joseph Story, decease, and has accepted.

SLAVERY AND TEXAS. The convention of friends opposed to slavery and the annexation of Texas, which assembled at Concord, (Mass.) was not very fully attended.

W. A. White, Stephen C. Phillips, Caleb Stetson, W. H. Channing and others, addressed the meeting. The convention adjourned to meet at Cambridge, in two weeks, from last Monday.

JOHN B. GOUGH. A confession, purporting to come from this individual, has been published in several papers, but it turns out to be a hoax. Mr. Gough, it is stated, is now in Roxbury, where he has been several days.

STATE CONVENTION. The Liberty party in this Commonwealth, are to meet in Convention, in the city of Boston, on Tuesday, the 30th day of September next, at three o'clock in the afternoon, to nominate candidates for governor and lieutenant governor for the ensuing year, and to transact any other business that may be deemed advisible.

POLITICAL. The whigs of this town meet at the Town Hall, this evening, at half past seven o'clock, to elect delegates to attend the County Convention at Dedham.

SANDWICH RAILROAD. It is now stated that a subscription is being made to procure an immediate survey of a route most practicable for a railroad to Sandwich, to be continued from the Old Colony Railroad, or some one of its contemplated branches. Great confidence is expressed by those interested and competent to judge in the premises, that the road will be constructed within a twelvemonth, and that the investment will be safe and profitable.

VENERABLE CLERGY. There has been published a list of clergymen in Massachusetts, who remain in the same position which they occupied in 1822, from which we extract the names of all living in Norfolk county:

Rev. John Pierce, D. D., Brookline, March 15th, 1796.

Rev. Elisha Fiske, Wrentham, June, 12th, 1799.

Rev. John Codman, D. D. Dorchester, December 7th, 1808.

Rev. Richard S. Storrs, D. D., Braintree, July 3d, 1811.

Rev. Ralph Sanger, Dover, Sept. 16th, 1812.

Rev. John White, West Dedham, April 30th, 1814.

Rev. Jacob Ide, D. D. Medway, October 26th, 1814.

Rev. Jonas Perkins, Braintree, June 14th, 1815.

Rev. Alvan Lamson, D. D. Dedham, October 29th, 1818.

Rev. Calvin Hitchcock, D. D., Randolph, Feb. 28th, 1821.

Rev. Ebenezer Burgess, D. D., Dedham, March 14th, 1821.

ECCLESIASTICAL. Rev. Z. H. Howe will be ordained to the pastoral care of the Universalist Society, in Abington, on the second day of the ensuing month. Services will commence at two o'clock in the afternoon.

Rev. J. W. Talbot has accepted an invitation to settle over the Universalist Society, in Hingham.

MAMMOTH FRUIT. In a recent visit to the Horticultural Hall, our attention was directed to numerous specimens of fruit raised by Hon. Benjamin V. French of Braintree, and especially to a plate of apples, (Glori Mundi), weighing each one pound and six ounces. Mr. French since his retnrn to his native town from a successful mercantile life of several years in Boston, has devoted much of his time to agricultural and horticultural pursuits, and it is said with the most gratifying results. His example as well as the zeal and spirit exhibited is worthy of great praise and should be more generally followed.

STATISTICS OF QUINCY. George Newcomb, Esq., has collected the following information concerning certain branches of industry in this town, in pursuance of an act of the General Court, he having been employed by the Selectmen who were otherwise engaged. It will be perceived that this table does not embrace every branch, but only includes all named in the act.

Kind of Business.	*Gross value yearly.*		*No. hands*

The sum paid by the French government for the support of religious worship is stated to be 37,684,350 francs. Of this amount the Romanists receive 36,318,900 francs; Protestants, 1,255,050 francs; Jews, 110,400 francs.

A gentleman of Alton, (Ill.) is having a car constructed to run over the prairies by steam, without a railway. The wheels are four feet broad, and about six feet in diameter; the size of the car is about fifteen by twenty feet; it will carry from forty to fifty tons at a trip, at the rate of ten miles per hour.

The three Ohio citizens captured and sent to prison at Parkersburgh, (Va.) still remain imprisoned, notwithstanding the order of Court admitting them to bail. Freehold security in Virginia, is required, and up to the latest accounts such bail had not been procured, although Ohio men of undoubted responsibility have offered to indemnify any Virginia freeholder who will enter into the proper recognizance.

Boston will have three theatres, two museums, and a circus, in full operation shortly, to say nothing of the balls, concerts, etc.

The Boston Morning Chronicle, has been discontinued, as Messrs. Leavitt and Alden say, on account of dilatoriness of the subscribers in paying and the lack of interest among their friends in extending its circulation.

The Capitol at Washington is being put into the most complete order. The Halls of both Houses have been carpeted and brushed up in the neatest possible manner.

The last legislature of Connecticut, adopted such measures, that hereafter elections will be decided by pluralities,—not majorities. This will put an end to the importance of third parties.

A cotemporary considers it a '*fixed fact*' that those merchants who *buy* and *sell the cheapest*, are those that advertise the most liberally.

There are now published in Lower Canada, twenty-nine newspapers, and in Upper Canada, thirty-four, making a total of sixty-three.

At the late term of the Court of Common Pleas, held in Tauton, five persons were convicted of violations of the license law.

The number of free colored people in the city of Baltimore, by the last census was 17,967, while the slaves numbered only 3199.

Cassius M. Clay arrived at Cincinnati, (Ohio) on the 12th, looking rather feeble from his late sickness.

A RAILROAD TO LAKE ERIE is now enjoying the attention of capitalists, and over a million and a half has been subscribed in this to the New York and Erie Railroad. The sum required is three milions, and there appears every reason to believe that it will be forthcoming.

The State Prison at Sing Sing, (N. Y.) contained eight hundred and sixty-two persons, of whom seven hundred and ninety-eight are males. During the past four weeks eight prisoners died there.

It is stated by a correspondent of the New Haven Courier that a firm of that city have a contract with the government for thirty thousand pistols, at six dollars and fifty cents each—the contract to be filled within five years

Six thousand persons perished in China, during the month of May, four thousand by an earthquake in the Province of Honan, in the centre of the Empire, and two thousand by the burning of the Canton Theatre. The earthquake is said to have destroyed ten thousand houses.

A short time since, a thief entered a house in Providence, (R. I.) a baby not liking the appearance of the intruder, set up a scream so loud as to induce the father to come to its aid, and at the same time he nabbed the thief before he had time to fill his pockets. Those who do not like watch dogs, had better get a baby.

NOTICES.

A public, social Temperance Meeting will be held in the Temperance Reading Room, THIS EVENING, at seven o'clock.

T. KELLOGG, *Secretary.*

The Union Meeting of the two boards of Officers of the Washington and Total Abstinence Societies, will be held at the Temperance Reading Room, over Mr. Gill's Bookstore, next MONDAY EVENING, at half past seven o'clock.

T. KELLOGG, *Secretary.*

County Convention.

Delegates from the Whigs of Norfolk County are requested to meet in Convention, at Dedham, on WEDNESDAY, October 1st, at ten o'clock in the forenoon, for the purpose of nominating candidates for the Senate, choosing County Committee and transacting such business as may come before them. Each town is entitled to send three times as many delegates as it is entitled to Representatives to the General Court.

SAMUEL WALKER,
WARREN LOVERING,
E. P. TILESTON,
OLIVER FELT,
FRANCIS HILLIARD.

Dedham, Sept. 17th, 1835.

The several towns in Norfolk County are requested to send delegates to the Convention to be held at Boston, (at some time during the Eastern Convention, October 1 and 2,) for the purpose of nominating a list of Senators to be supported by the Liberty party at the fall elections.

Notice will be given of the time and place on the first day of the Convention. OTIS CARY,
Chairman of the County Com.

A Norfolk County Democratic Convention to nominate candidates to be supported at the ensuing election for the Senate, and for the transaction of such business as the good of the cause may require, will be held at the Town Hall, in Dedham, on TUESDAY, the 7th of October next, at one o'clock, P. M. The several towns are requested to send one delegate for every 50 democratic votes cast at the last gubernatorial election, and if any town have a fraction over 25 it is entitled to an additional delegate.

In behalf of the County Committee,
W. H. SPEAR, *Chairman.*

Dedham, Sept. 15, 1845.

N. B. A meeting of the County Committee will be held at the same place at 12 o'clock, M. A punctual attendance is requested. W. H. S.

From the Norridgewock (Me.) Journal.

We publish the following, as among the many evidences which we are constantly receiving of the increasing popularity of Dr. Jayne's Expectorant. We have no interest in "puffing" it—any further than we have a desire to promote the health and happiness of our fellow creatures, who are wasting away with those complaints, for which this medicine is an absolute remedy. And in calling the attention of the public to it, we feel that we are in the faithful discharge of our duty.

New Portland, Nov. 4, 1842.

Mr. Pratt,—Sir: I wish you to send me 3 bottles of Jayne's Expectorant, and in this connection, I would say, that I deem it an invaluable medicine, and an article that no family should be without for a single day. I have used it for two years in my family, and have always found it a quick and efficient remedy for tightness of the lungs, produced by long protracted colds, which produce the short hacking cough, the premonitor of consumption, in which it so frequently terminates in this climate. If properly and seasonably administered, it will effectually break up the most violent colds, and thereby prevent the many violent fevers, so frequently consequent upon them. I would most cheerfully recommend this medicine to the public in all cases of that nature, as invaluable.

JOHN H. WEBSTER.

For sale at the QUINCY BOOKSTORE.
Quincy, Sept. 27. 3w

The Selectmen of Quincy, hereby give notice that they will be in session, at their room in the New Town House, the last SATURDAY in each month until further notice, from *two* to *five* o'clock in the afternoon. All persons having business with the Town are requested to pre sent it on said days.

BRYANT B. NEWCOMB,
JOSEPH W. ROBERTSON,
LEVI G. FOLSOM.

GREAT ENGLISH REMEDY

For Coughs, Colds, Asthma, and Consumption.

The great and only remedy for Colds, Coughs, Asthma, and CONSUMPTION, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the case of pulmonary diseases, warrants the American agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished Physicians, as confirmed and incurable. The Hungarian Balsam has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of Colds, Coughs, Spitting of Blood, pain in the side and chest, irritation and soreness of the Lungs, Bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, Asthma, Influenza, Hooping Cough and Croup.

☞ Sold in large bottles, at $1 per bottle, with full directions for the restoration of Health.

Pamphlets, containing a mass of English and American certificates, and other evidence, showing the unequalled merits of this Great English Remedy, may be obtained of the agents, gratuitously.

DAVID F. BRADLEE, sole Agent of the United States, 119 Court-street, Boston.

AGENTS—A. E. Dubois, Randolph; R. Whiton, Hingham; D. Brewer, Dorchester; S. Langley, & Bonney, Abington; and in Quincy by

MRS. E. HAYDEN.

Quincy, March 1. 1y

Hon. Henry W. Bishop, the candidate for Lieutenant Governor, nominated at the late Democratic State Convention, has declined to run for the office. The State Committee will elect another candidate in a few days.

The friends of Hon. Edward Everett have held a meeting in Boston, for the purpose of devising some appropriate demonstration of a public nature on the occasion of his return from the Court of St. James.

A Convention on the subject of the abolition of capital punishment will be held in Boston, Friday, the third of October next.

Gen. Edward P. Gaines, in right of his wife, as the only heir of the late Daniel Clarke, is about to bring suit for a tract of land on Bayou Bœuf, near New Orleans, comprising twenty miles front, and covering thirty plantations, assessed at four hundred and fifty-two thousand dollars. On these lands there are nearly two thousand slaves, and the annual product is about ten thousand bales of cotton.

The celebrated Ibraham Pacha, it is said, intends to visit England in the spring.

Even the untutored savage will instinctively seek out Herbs and Plants to cure disease, without diving into the depths of the earth, to dig up deleterious minerals. Upon the earth's surface there germs plants suited our wants. The Health Restorative, as proved by Dr. Chilton of New York, is wholly compounded of vegetable matter, and there does not exist a preparation capable of even apparently doing such benefit. In Consumption, Liver complaint, and all diseases of the Chest and Lungs, it is a certain and unfailing remedy.—The happiest effects are guaranteed on an impartial trial of it. 24

DIED.

In this town, 21st inst., Mary Jane, daughter of Mr. Isaac and Mrs. Charlotte W. Shute, aged 2 years.

On the 26th inst., Mr. Jonathan Baxter, aged 72 His funeral will take place this afternoon, Sept. 27th, at three o'clock, from his late residence. Relatives and friends are invited to attend.

On the 25th inst., Mr. James Packard, Jr., aged 36.

In East Bridgewater, Mr. Dexter Dean.

C. BRINCKERHOFF'S

THE practical use of the Health Restorative being to relieve and cure those most hazardous and agonizing of all diseases, Consumption, Liver Complaint, severe Coughs and Colds, and Pains in the Side and Chest, it is considered both right and proper that a statememt be made more particularly relating to its properties. In the first place, it fortunately is compounded of native plants herbs and roots, and has not sought, therefore, the adventitious aid of dangerous mineral preparations, which only palliate at the best instead of curing disease. The fact of the Restorative being purely vegetable, is corroborated by the testimony of the eminent Dr. Chilton of New York, who after a careful and minute examination of it, decides the truth of it, and so effectually stops cavil on that point. Further, the promptness of the action of this medicine is without doubt unparalleled; it shows such energetic action in eradicating disease and then healing the part, that the transition from impaired and enfeebled health to convalescence is astonishing and conclusive. The happiness of being the instrument of such unbounded benefit, is too great to permit this Restorative to circulate as heretofore within narrow circumscribed limits, and the Proprietor has made such arrangements with his General Agent that the remedy can be reached by all. The continual accessions of certificates stating the most touching cases of disease happily cured, prevents the possibility of their being published to any extent, but yet they are left at the office of the General Agent for examination. The following certificate is from Dr. Chilton, the well known New York Chemist.

"I have analyzed a bottle of medicine called 'C. Brinckerhoff's Health Restorative,' and find that it does not contain Mercury, or any other metallic preparation, nor opium in any of its forms. It is composed of vegetable matter entirely."

WOULD respectfully inform his customers and the public, that he has received several cases of English, French and German

BROADCLOTHS,

OF THE VERY BEST DESCRIPTION.

Among the selection I have made may be found, Plain and Double Weaved English BEAVERS; Plain and Figured PILOT CLOTH;

Several pieces of FRENCH BROADCLOTH, suitable for Over Coats or Dress Frock Coats, which will be found to be entirely new articles in this market, and will come very cheap.

In addition to the above named, I have also received a complete assortment of Superfine Clothe, such as JET BLACK, BLUE BLACK AND GOLDEN BROWN'S:

A good assortment of BLUE, which will come remarkably cheap for Dress or Frock Coats, or Boys' Jackets and Pants.

A COMPLETE ASSORTMENT OF

FRENCH DOESKINS AND CASSIMERES.

Among the assortment I have received may be seen, a lot of heavy TWEEDS, all wool, suitable for Coats which will come cheaper than can be bought in any store in Boston,--say fifty cents per yard or a Coat made up complete for $4,00.

VESTINGS,

Of every description; FIGURED SILK AND SATIN, remarkably cheap; a good variety of Cashmere and Valencia. A Vest will come from $1,75 to $3,50, made to order.

The liberal patronage I have received since I came to Quincy, has enabled me to open as choice a selection of Goods as ever was introduced into this market.

I return my customers and the public my sincere thanks for their liberal patronage, and I respectfully invite them to call and examine my present stock of Goods. I can make garments considerably cheaper, as well and of as good cloth as can be had in any Store in the city of Boston. The reason I can do these things are, in the first place I am prepared to cut and make a garment with any man that can be named there, in the next place, I can purchase my goods as cheap as any man can do, and I cut and superintend my own work. These are facts that are worth the consideration of those who wish to get their garments where they can get them cheapest and best, and to suit them in every respect or no sale.

I have adopted the one price system. I am fully convinced it is the most honest way of doing business, and my terms are Cash. JOHN DINEGAN,

Quincy, Sept. 20. tf

Administrator's Sale.

WILL be sold at public auction, on the premises in East Middleborough, on

TUESDAY, the 14th day of October next,

at two o'clock, P. M., by order of the Probate Court for the County of Norfolk, so much of the Real Estate of Amos Raymond, formerly of said Middleborough, and late of Weymouth, deceased, as shall produce the sum of six hundred and thirty-nine dollars and forty-seven cents, for the payment of debts and charges of administration, to wit:

About twenty-five acres of Wood, Mowing, Tillage and Pasture Land, on the east side of the road, with one half of the Dwelling-house, two thirds of the Barn and two-thirds of a Wood-shed, and the reversion of dower in the other half of the dwelling-house, the remaining third of the barn, the remaining third of the shed and about eight acres of Land on the west side of the road, together with the garden on the east side of the road, reserving to the widow of the deceased her right of improvement in the said eight acres, the garden, half of the house, one third of the barn and one third of the wood shed, the same having been assigned to her as a part of her dower.

Also—About fifteen acres of Swamp Land, partly grown to Cedar, known as formerly belonging to the farm of John Vaughan, deceased.

Also—One Pew, No. 6, in the Methodist Episcopal Church.

Should the proceeds in the sale of the above not be sufficient to meet the above mentioned sum, the reversion of widow's dower in about four and one quarter acres of Land known as the Thompson Lot, about one and one quarter acres of Woodland called the Savory Lot, and two undivided seventhsof about thirty acres of Land in what was called the thirds of the mother of said Amos Raymond, deceased, will also be sold.

For further information inquire of Alden Raymond, Jr., near the premises, and the subscriber will be on the premises at ten o'clock on the day of sale to give such information as may be desired.

Conditions made known at the time of sale.

ALVAH RAYMOND, *Adm.*

Weymouth, Sept. 20, 3w

Building Lots in Quincy.

ON WEDNESDAY, Oct. 8th, at two o'clock, P. M., on the premises, (under license of Thomas Adams, Esq.,) thirteen lots of Land, of about an acre each, situated in Quincy, on the Turnpike leading to Hingham, about three-fourths of a mile from the centre of the village, near the residence of Jonathan Baxter.

ALSO—Immediately afterwards, five Lots, of about three-fourths of an acre each, situated on South and Elm Streets, in Quincy, near the residence of the late Edward Miller, Esq.

These Lands are pleasantly situated about eight miles from Boston, in one of the most pleasant and thriving villages in the vicinity, and so near the Old Colony Railroad as to render them very desirable building lots for gentlemen doing business in the city.

ALSO—Three acres of Salt Marsh at the Broad Meadows, so called, in Quincy.

Terms liberal. For a plan, and further particulars, apply to the Auctioneers.

N. A. THOMPSON & Co., *Auctioneers.*

HARRINGTON & MEARS.

Quincy, April 12. tf

POETRY.

For the Quincy Patriot.

OLD ERIN AWAKE!

Old Erin has started again on her taps,
And her boys are all making their liberty caps,
She comes in her strength like the waves on our shore
And regenerate Erin will stagger no more,
Huzza, huzza, huzza, huzza, huzza, huzza,

Saint Patrick drove out all our vermin 'tis said
But 'tis some we'll drive yet who are eating our bread;
O'Connell, that task is assigned to thee,
And now give but the signal old Erin to free.
Huzza, etc.

The vipers we nourish'd and fed by our toil
Shall be pampered no more on the Emerald Isle,
So Erin prepare, for O'Connell make room,
He is gradeing the hand to build Emmett a tomb.
Huzza, etc.

For Erin her rank with the nations will take,
Her old gauntlet is ready when life is the stake;
Her helmet is off and her bosom is bare
But her shield is of proof against tyranny's spear.
Huzza, etc.

Her herald advances with trumpet in hand,
And she waits but the signal and word of command,
She stands like a queen in her beauty and might,
And her motto is freedom and God for the right.
Huzza, etc.

Brave Erin is ready she fears not a scar,
And now boys for O'Connell and Erin go bragh;
On—on for old Erin, resounds from afar,
For old Erin ma vourneen, dear Erin go bragh.
Huzza, huzza, huzza, huzza, huzza, huzza.

F. M. Adlington, Weymouth, Mass.

THE SICK ODD FELLOW.

Upon his fevered couch he lay,
From home and kindred far away,
A stranger,—have ye felt the power
Of those sad words in sorrow's hour,
When no kind hand was near
To soothe the brow oppressed with care,
In suffering all our griefs to share,
Or wipe the falling tear?

Thus felt that lonely one, as now
He pressed his parched and aching brow,
Now sought, but sought, alas! in vain,
To still the thoughts that o'er his brain
Their gloomy shadows flung.
To die—though that were sad, in truth,
'Mid life, and hope, and sunny youth,
Not this his heart so wrung:

But death alone!—nature must dread
The anguish of a dying bed,
And though all powerless then may prove
The strongest, deepest, earthly love
To check the tyrant's sway,
If gentle sympathy be nigh
To catch the last expiring sigh,
'Twill cheer that dreary way.

But list a voice of love is heard,
And "brother" speaks in each kind word,
Like woman's soothing tenderness,
It lulls each anxious fear to rest,
And bids the wanderer know
That Friendship, Love and Truth have power
To reach e'en sorrow's darkest hour,
And o'er it radience throw.

THE WIND.

The wind is a bachelor,
Merry and free;
He roves at his pleasure
O'er land and o'er sea;
He ruffles the lake,
And he kisses the flower,
And he sleeps when he lists
In a jas'mine bower.

He gives to the cheek
Of the maiden its bloom,
He tastes her warm kisses,
Enjoys their perfume,
But, truant-like, often
The sweets that he sips
Are lavished next moment
On lovelier lips.

ANECDOTES.

A French cook so trained a monkey as to make him useful in plucking his poultry for the spit. He had just plucked one of a brace of partridges, on one occasion, when a hawk pounced upon and carried it off. Poor Pug was in a terrible fright, well knowing the licking that awaited him, however, he plucked his courage up, and the remaining partridge, and laid the bird in the window. The hawk, pleased with the feast returned for another tit-bit, when Pug seized him and in spite of his scratching and screeching, plucked him alive, and laid him and the patridge down before the cook, and with a gesture stronger than language, seemed to say—"It's all right; there's your brace of birds—a fair exchange is no robbery."

A good lady, who had two children sick with the measles, wrote to a friend for the best remedy. The friend had just received a note from another lady, inquiring the way to make pickles. In the confusion the lady who inquired about the pickles received the remedy for the measles, and the anxious mother of the sick children, read with horror the following: "scald them three or four times in very hot vinegar, and sprinkle them with salt, and in a few days they will be cured."

In a town in the western part of the State, not many years since, a minister, who was suspected of indulging in convivial entertainments with a chosen set, read the hymn, and sat down as usual while it was being sung. But it so happened that while the choir were engaged in their devotions, the sleepy god took possession of his senses. The singing was at length finished, and the congregation waited for the good word but none came. As soon as the deacon observed the sad catastrophe, one of them turned to the parson, and with an audible voice said to him—'*It is out,*' meaning the hymn. 'Is it,' said the parson, half waking—'*well fill it up again and charge it to Jim Haines.*'

Why are busy cooks like broken merchants? Because they are gone to pot.

Worms Kill Thousands.

CHILDREN are most subject to them, but persons of all ages are liable to be afflicted with them. Bad breath, paleness about the lips, flushed cheeks, picking at the nose, wasting away, leanness, pain in the bowels, joints or limbs, disturbed sleep, frightful dreams, moaning and sometimes a voracious appetite, are among the symptoms of worms. Many are doctored for months for some other imaginary disease, when one box of Sherman's Worm Lozenges would effect a cure. Dr. Ryan, corner of Prince street and the Bowery, cured a man of worms that was reduced to a skeleton, and by only one box of Sherman's Lozenges: he is now as fat as an Alderman. The Hon. B. B. Beardsley has saved the life of one of his children by them. The sale of over two millions of boxes has fully tested them. They are the only infallible worm destroying medicine known. What family will be without them?

Consumption, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the lungs, will find a healing value in Sherman's Cough Lozenges. They saved the Rev. Richard De Forest, the Rev. Mr. Streeter, Jonathan Howarth, Esq., and that worthy old hero, Leonard, from the consumptive's grave. They cured in one day the Rev. Mr. Dunbar, the Rev. M. Handcock, Wm. H. Attree, Esq., of distressing coughs. They are the pleasantest cough medicine and cure the soonest of any known remedy.

Headache, Sea-sickness and palpitation, relieved in from five to ten minutes by Sherman's Camphor Lozenges. Persons attending crowded rooms or travelling will find them to impart buoyancy of spirits and renew their energies. Those suffering from too free living will find a few of the lozenges to dispel the horrors and lowness of spirits. Mr. Keauth of the Sunday Mercury, has repeatedly cured himself of severe headache by them. Captain Chadwick, of the packet ship Wellington, has witnessed their efficacy in a great many cases of sea-sickness. They operate like a charm upon the agitated or shattered nerves, as Sherman's Poor Man's Plaster does upon the Rheumatism, lumbago, pain or weakness in the side, back, breast, or any part of the body. Mr. H. G. Daggers, 30 Ann Street, Henry R. Goulding, 35 1-2 Chatham street, Moses J. Henriques, Esq., and a multitude of others have experienced the wonderful effects of these Plasters. Price only 12 1-2 cents. Caution is necessary to see that you get the genuine Sherman's Lozenges and Plasters, as there are many worthless articles attempted to be palmed off in place of them, by those who would trifle with your life for a shilling.

Dr. Sherman's warehouse is at 106 Nassau street, New York

Also, sold by Redding & Co., 8 State street, Boston; J. Babcock and M. D. Plummer, Milton; Eli Thayer, Weymouth; King & Nash and N. N. Dyer, Abington; R. Gleason, Dorchester; Wm. A. Torrey, South Weymouth; A. E. Dubois, Randolph; and by Mrs. E. HAYDEN, rear of the Stone Temple, Quincy.

June 28. tf

Hunterian Dispensary.

NO. 4 1-2 SUDBURY STREET, Boston.

Highly Important to Invalids.

SALUTARY CAUTION TO THOSE SEEKING MEDICAL AID.

THE HUNTERIAN DISPENSARY, established for the suppression of Quackery, and for the sale of genuine Medicines, offer their assistance and counsel to the sick and afflicted, knowing from experience and unequivocal knowledge that hundreds annually find a premature grave from the malpractices of unlettered and unlicensed practitioners. The records of our Hospitals are a sad proof of the above. Dishonesty and the speculation of Quacks, which continually make the most sacred science subservient to their purposes, have availed themselves of every expedient, like every other road to deception; but if there be men who are depraved and reckless, there are some too whose actions are guided by the interest of their patients alone, and whom no imputation can effect.—The limits of an advertisement can hardly do justice to our subject, for it is an important one. When Celsus treats of the diseases of the sexual system, before entering upon the subject he apologizes for the indecency of his subject, as if a Medical man could be reproached for soothing suffering humanity: as well might it be said to Massagni, that there were indecent things in anatomy, therefore we ought not to fear that we should, in our turn, be accused of immorality in thus placing before the public this appeal in behalf of the invalid. The late Sir Astley Cooper, Bart., Surgeon to his late Majesty, observes, 'if one of these miserable cases could be depicted from the pulpit as an illustration of the evil effects of a vicious and intemperate course of life, it would, I think, strike the mind with more terror than all the preaching in the world.' The irritable state of the patient leads to the destruction of life, and in this way, annually great numbers perish, undoubtedly the list is greatly augmented from the maltreatment and the employment of injudicious medicines.

The long experience, together with the infallible remedies to be had at the Dispensary, it is hoped will afford some protection to the invalid, and make him sensible of the benefits to be derived from an educaced and experienced Physician, rather than the precatious and dangerous doings of Quacks and inexperienced Physicians.

It is not necessary here to enumerate all the diseases to which particular attention is directed, suffice it to say that all the ills flesh is heir to.

Persons in town or country can consult the attending physician either personally or by letter, enclosing the usual fee. Medicines can be sent to any part of the world, securely packed and carefully protected from observation.

All letters and communications are returned by mail or destroyed, at the option of the writer.

Physicians in the country can have the advantages of this Institution for their patients, for the usual fee.—Persons desirous of consultation, see no person but the Physician. Fee for a full course of medicine, $5. Medicines from 50 cents to $2 per box or bottle.

N. B.—All letters must be directed thus:

"HUNTERIAN DISPENSARY, Boston, Mass.,"

where they will be faithfully and carefully attended to.

This Dispensary has no connection with any other office in this country, and all medicines purporting to come from this Dispensary and sold elsewhere, is a base fraud and deception.

☞ Letters containing money, the postage need not be paid. The strictest confidence observed in all cases.

Small cases of medicine, with full directions, sent to any address that may be ordered.

The following are some of the celebrated remedies to be had at the Dispensary, prepared from the recipes of the most celebrated French Physicians, and are warranted to be the most efficacious medicine in use.

RICOURD'S ANTI MERCURIAL SYRUP,

for all impurities of the blood, ulcerations of the throat and nose, pains in the bones, diseases arising from an injudicious use of mercury, blotches, biles, pimples, &c. There is no preparation of Sarsaparilla in the world equal to this—price $1, or 6 bottles for $5, sent to all parts of the Union.

VALPEAU'S SPECIFIC MIXTURE,

for the immediate and permanent cure of all muco purulent contagious discharges from urinary passages—warranted; price $1 per vial, sent to all parts of the Union.

DESLAND'S STRENGTHENING MIXTURE,

for the cure of constitutional debility, seminal weakness produced by imprudence, &c. This most excellent medicine stands at the head of all other remedies; price $2 a bottle, or 6 for $10; sent to all parts of the Union. Office and consultation rooms,

4 1-2 SUDBURY STREET,
(Opposite Alden Lane.)

DR. FERNANDS'

Vegetable Indian Arcanum,

FOR THE CURE OF

Consumption and Liver Complaint, Inflammation of the Lungs and Spitting of Blood, Scrofula, Erysipelas, Salt Rheum, Rheumatism, Gout, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Female Weakness, Jaundice, Piles, Imprudence in Life, Enlargement and Pain in the Bones, and Diseases arising from an injudicious use of Mercury. The complexion is greatly improved by this medicine.

THIS is a preparation which Dr. Fernands, who is an Indian of the Cherokee nation, has used with great success in the above complaints, practising as he has for many years as an Indian doctor among several tribes. Dr. Fernands, who prepares this medicine, does not contend that it will cure all the diseases which the human system is liable to experience, but feels safe in assuring the public that when it has been taken according to his directions, it has never failed, in any of the complaints abovementioned, of effecting a speedy and effectual cure. This medicine is entirely of a vegetable nature, being a compound of roots and herbs collected by Dr. Fernands himself; consequently it is a preparation which may be taken by those of the most delicate constitutions, or even a small child, without the least fear as to its results upon the system. One bottle will convince the incredulous invalid that no more has been said in its favor than its virtues safely warrant. Many respectable physicians have used, and even prescribed, this valuable medicine.

To prevent imposition, each bill of directions accompanying the medicine will be signed by J. K. Fernands, in his own hand writing, and also by his only authorized Agent for the New England States.

J. K. FERNANDS, *Indian Physician*
JOS. J. CLARK, *Agent for New England States.*

CERTIFICATES.

From W. Abercrombie of Quincy, Merchant Trader.

To Mr. Joseph J. Clark, Agent of Dr. Fernands' Medicine:

SIR—I have been afflicted at different times, for more than four years, with Spitting of Blood, Inflammation of the Lungs, and Disease of the Liver, causing general debility in my system, and evidently fast entailing upon me the worst of all human diseases to which mortals are heir to—Consumption. I have in vain tried many medicines which were recommended, but from all of them I obtained not the least relief. About eighteen months ago, I was induced to try Dr. Fernands' Vegetable Indian Arcanum, by the use of which medicine I have been restored to good health, and have not raised any blood since the use of the first bottle of this excellent preparation.

WYMAN ABERCROMBIE.

Quincy, April 3d, 1843.

From Ibrahim Bartlett, Cashier of the Quincy Stone Bank.

To Mr. Joseph J. Clark:

DEAR SIR—I am gratified to learn that you are about to establish a place for the sale of Dr. Fernands' *Vegetable Indian Arcanum.*

I do most cheerfully certify that I am well acquainted with Mr. Wyman Abercrombie, and believe that his general health as he has stated, has been on the decline—that he has had frequent turns of raising blood, to such a degree as to cause his friends to be greatly alarmed. For the year past I have noticed convincing evidence that his health has been restored, and I have it from his own lips that he attributes his recovery, entirely to the use of Dr. Fernands' Medicine.

I feel it my duty to say a word or two in favor of this valuable medicine. I have for more than twenty years been afflicted with a complaint which at times is very distressing, great flatuleney, with a cold heaviness and tightness of the chest, extreme headache, dimness of sight, palpitation of the heart, etc.

I am free to say, that since I have used this preparation which has cured my friend, I feel greatly relieved, and have strong hopes, after following the directions, of being restored to health. I think very highly of the medicine, and am confident that it will prove efficacious in the cure of many diseases, if once resorted to. Yours, truly,

IBRAHIM BARTLETT.

Quincy, May 2d, 1843.

Price, $1,00 per bottle, or six bottles for $5,00.

The Great Remedy

FOR

Consumption, Asthma, Dyspeptic Consumption, Spitting of Blood, Bronchitis, Difficulty of Breathing, Hoarseness, Influenza, Croup, Colds, Pain in the Breast and Side. Dyspepsia, and various affections of the Stomach and Liver.

Folger's Olosaonian, or All-Healing Balsam.

IT is acknowledged that more persons die of Consumption than of any other disease. It is estimated that in the United States over THIRTY THOUSAND PERSONS annually fall victims to this dreadful scourge. The cause of the evil is generally overlooked. *A short dry Cough* is the precurser—or a neglected cold These symptoms are deemed unimportant. Pain in the Side, Hectic and night Sweats follow, and death ends the scene.

Would you find a REMEDY FOR THE EVIL? Here it is. The experience of more than twenty years has proved its efficacy, and thousands are rejoicing in its effects.

Case of INCIPIENT CONSUMPTION—George W. Burnett, Esq. of Newark, N. J., had suffered under the effects of a severe cold for more than a year, and in the month of August, when his Cough had reduced him so much that he feared he would die, he commenced using the Olosaonian. He raised blood at this time, complained of pain in his side and chest, and was very much debilitated by *night sweats.* His appetite was gone, and altogether he appeared to be rapidly sinking. He was so much relieved by the use of this remedy that by the month of November he left for Pittsburg, Pa. with every prospect of being permanently cured.

Read the following case of CONSUMPTION.—The cure was truly a wonderful one and places the '*Olosaonian or All-Healing Balsam,*' at the head of the list of remedies for eradicating that dreadful disease:

George W. Hays, residing in this city, (New York) was seized with a severe cold in the early part of the summer. His cough became very troublesome and he began to *raise blood.* He complained of a severe pain in the chest and his breathing became so short that he could not walk any distance without stopping for breath. His night sweats reduced him very low. He was under the care of several physicians in Brooklyn, who told him they could do no good, as his disease was a settled and fixed Consumption. He removed to this city to die among his friends. He was by this time so weak that he could not walk without assistance. Although his friends had now given up all hope of his ever being any better, he commenced using the '*Olosaonian, or All-Healing Balsam,*' and in a few weeks was so far restored as to able to resume his business.

Mr. T. Laban, residng at 52 Pine street, was severly afflicted with Asthma, in consequence of having taken a severe cold in the early part of last winter. In the early part of the night he could sleep tolerably well, but towards one o'clock in the morning his Asthma became so severe that he was obliged to get up and sit for the remainder of the night leaning forward on a chair. His cough was most distressing through the day. He had, during his sickness, tried almost every thing without relief. He never had a good night's rest in ten months, until he commenced taking the Olosaonian or All-Healing Balsam, when he found immediate relief, and before using half a bottle of it was perfectly well, and now sleeps as quietly as he ever did in his life.

Hundreds of cases could be given to prove the efficacy of the great remedy. And it possesses a property superior to all others, viz: it does not constipate the bowels. Reader, are you suffering under any of the above symptoms of disease? Try this remedy—It will allay the *Pain in your side and chest*—put to flight the COUGH which deprives you of sweet slumber and repose; if you have Asthma, be assured there is no medicine in the world that will cure you so speedily, and it will arrest all those disagreeable symptoms which strike such terror to the mind and give such dreadful forebodings of an untimely and speedy dissolution.

Sold at one dollar, per bottle, by REDDING & Co. State street, Boston; and by the following appointed agents:

Mrs. Hayden, Quincy; J. Babcock, Milton; M. D. Plumer, Milton; Eli Thayer, Weymouth; Wm. A. Torry, do.; King & Nash, Abington; N. N. Dyer, do.; A. E. Dubois, Randolph; R. Gleason, Dorchester. tf August 16.

SUGAR COATED VEGETABLE PILLS

A MEDICINAL preparation is herein announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised, that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect, suspect that he had been taking medicine, for these pills are so skilfully prepared, that they do not gripe the bowels; and thus the patient who takes them avoids two evils which attend all other purgative medicines, namely: nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being mixed with the sugar, and hence produces a mingled flavor, which, to most persons, is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood. Pure blood is therefore essential to health. We must not, however, wait until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of; for their removal leaves the chyle (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they pre er the disease to the cure, until an impaired constitution, or a fit of sickness, rebukes them for the folly of their conduct. Still they had some excuse; for heretofore, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE PURGATIVE PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are as described, the public will freely and gladly patronise them; and the proprietor merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Purgative Pills are prepared and sold, wholesale and retail, and for exportation, by C. V. CLICKENER & Co., chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 5 cents per box, with full directions, and sold by the following list of Agents.

J. Babcock, M. D. Plummer, Milton; Eli Thayer, William A. Torrey, W. Nash, A. Raymond, Weymouth; King & Nash, N. N. Dyer, Abington; R. Gleason, R. F. Tolman, Dorchester; R. Ford, Randolph; Mrs. E. HAYDEN (rear of Stone Temple) and GEORGE H. LOCKE, Quincy. tf June 28.
